MEN'S ASSOCIATION AT WORK AT KIRKLAND LAKE

Non-Denominational, Non-Political Organization Formed for Amusements, Athletics and Educational.

The Kirkland Lake Men's Association is an organization recently formed that bids fair to be of great service and helpfulness to Kirkland Lake and district. A recent letter from the Secretary gives the information that the Association is non-denominational and non-political in character and therefore every man is entitled to membership. Briefly, says the letter, the aims and objects are:—To promote the morale of all men by stimulating healthy amusements; to maintain and operate an athletic branch for the purpose of promoting aquatic and field sports; to educate by means of lectures and debates the minds of all men, thus broadening the character and ideals; to maintain and operate a club house, together with reading, writing and recreation rooms.

The officers at present are:—Honorary Presidents, Rev. Father Leduc and Rev. J. Lytle; President, Mr. C. L. Larivee; Vice President, Mr. F. G. Walker; Secretary-Treasurer, Mr. J. Michell; also an advisory committee.

Premises have been rented for use as a club, which is open at all times. The regular business meeting is held on the first Monday of each month.

Entertainments, dances and social gatherings have been held, says the letter, and the attendance at these meetings has proved the urgent need for an association of this character.

In order to facilitate the expansion of the Association in keeping with its aims and objects, larger premises are desirable for club purposes and an appeal is now being made for further financial assistance. Those outside the promising Gold Camp of Kirkland will watch the response to this appeal with the greatest interest. The Kirkland Lake Gold Camp seems to be entering on a period of expansion and prosperity and the attitude of the Camp to such a worthy and desirable object as the Kirkland Lake Men's Association will throw an interesting light on the general standing of the community. For the Camp to have already organized and established a Club of this description is assuredly to its credit, and if the Association continues to receive the same generous support and co-operation the people of the Kirkland Lake Camp will be marked out as particularly public-spirited and far-seeing. Such an organization will not only have its part in attracting the beter class of men to the Camp, but it will also do much to make life in the Camp pleasant, helpful and wholesome. Every well-wisher of the North Land will join The Advance in wishing the Kirkland Lake Men's Association all success and progress.

ASSOCIATED GOLDFIELDS MAKING GOOD PROGRESS.

There are newspapers in this North Land that make a regular and steady business of "knocking" anything and everything that does not specifically concern Cobalt, and then in their weak "Good Lord, Good Devil" style of greasy insinuation curse anyone who calls attention to their misrepresentation. This type of alleged newspaper has been very busy with the Associated Goldfields at Larder Lake. Without any facts, or definite information, (street talk and common scandal-mongering being recognized openly by these sheets as sufficient grounds for attacking the business and character of anyone), these newspapers have subjected the Associated Goldfields to a campaign of abuse by suggestion. Their tactics have made friends for the Associated Goldfields because the methods used have been so unfair. Few people here have had opportunity to investigate the claims made for the Associated Goldfields. The result is that people in general would have an open mind about the property, were it not for the mischievous newspaper knocking in which diseased fancy seems to feature for more than hard facts. Because of the flagrant unfairness and meanness of much of the campaign against the Associated Goldfields the average man is more than anxious that the property make good. According, the following from the Canadian Mining Journal of recent date will be read with special interest:—"We are informed by Dr. Mackay, President of the Associated Goldfields, that development is proceeding very satisfactorily under the management of Mr. Geo. A. Gray, formerly Chief Engineer at the Dome Mines. The new shaft is now down about 175 feet and the first station is being prepared. The sinking of the shaft will be carried on simultaneously with the cross-cutting of the large ore body. Word from the mine shows that high-grade ore is being encountered at present. The work on the new Wendigo power is progressing well. Over 500 feet of rock cut has been completed."

It will be seen that despite the crabs, the Associated Goldfields continues its policy of keeping at work, getting good results, enjoying promising prospects, and leaving to the narrow-minded the task of "beefing" and "squealing."

If your grocer were greedy for profits he would not be content to sell and recommend Red Rose Tea at a less profit than he makes on other teas.

But it is a fact that he does make less on Red Rose than on other teas, and he recommends it because he knows its quality is the best.

SWASTIKA TO WEST TREE RAILWAY NOT TO BE SOON.

Last week a deputation waited upon Premier Drury urging an extension of the T. & N.O. Railway from Swastika, through the mining fields of the Kirkland Lake district, to West Tree. Premier Drury gave the deputation an attentive hearing, but intimated to them that the extension could not in any event be undertaken at any very early date. At the same time he did not say it would never be undertaken, nor did he suggest it ever would. He thanked and complimented the delegation. He used fair words but no direct promises. It is just in such ways as this that the present Government differs from all other Governments in not using any of the politician's wiles. Eh, what? Hon. Sir. Oliver Mowat, Hon. Geo. W. Ross, Sir Wilfrid Laurier and some others designated by many farmers as "smooth politicians" must surely turn over in their graves with envy at the way the Farmers' Government always handles a delegation without any resort to smooth methods. Eh, what!

Mr. J. T. Easton returned on Thursday morning last from a visit to his mother at Renfrew, Ontario. His mother has been seriously ill for some time past and the hopes for her recovery are not very great.

P. DUBORD COMMITTED FOR TRIAL ON MURDER CHARGE

Last week at Cochrane Patrick Dubord, brought back from Montreal to face a charge of murdering Victor Galette at Frederickhouse last December, was committed for trial when he appeared before Magistrate S. J. Dempsay for preliminary hearing. Galette's body was found in a waterhole in the Frederickhouse river with the head crushed in, and Dubord who was living with him and who had disappeared, was suspected. In a statement to the police, Dubord is said to have admitted killing Gallette, but claimed that it was an accidental blow dealt while chopping wood that caused the death. The Crown, on the other hand, last week had evidence ready to show that an effort had been made to conceal all traces of blood, that the body had been hidden beneath the ice in the river and other things done apparently not in keeping with any theory of accident. Dubord will have to wait for trial until November next, the Spring Assizes being already over. In the meantime he will likely have to remain in jail, it not being customary to give bail on murder charges. About the only chance Dubord could have of getting bail on so serious a charge is to be able to show that the dead man was killed in connection with an infraction of the O.T.A. The Ontario Temperance Act is the only measure in this country that supersedes such British principles as the sanctity of human life.

Cobalt has received the two machine guns promised the town by the War Trophies Board. They were captured from the Germans, like the gun now on exhibition before the Council Chamber at Timmins.

Imported "Booze"

Shall the importation and the bringing of intoxicating liquor into the province be prohibited?

WHILE importation of intoxicating liquors into "dry" provinces was forbidden by war-time Order-in-Council, Ontario's jails were half empty.

Since that order was rescinded, imported "Booze" has been filling them up again.

Jail Commitments

—Before and after the Federal war-time Order-in-Council prohibiting importation of liquor into Ontario was rescinded:

Commitments for Drunkenness.	Commitments for All Crimes.
1919 3,415	1919 13,096
1920 4,511	1920 14,756
Net increase, 1,096.	Net increase, 1,660.

Imported "Booze" is demoralizing social conditions, breeding a disregard of law, endangering the home and menacing the youth of this province. Imported "Booze" is defeating the expressed will of the people.

Vote — and Vote, "Yes"
Let us shut the door to Imported "Booze"
Ontario Referendum Committee
