A Common Affliction

Permanently Cured by Taking

AYER'S Sarsaparilla

A CAB-DRIVER'S STORY.

"I was afflicted for eight years with Salt Rheum. During that time, I tried a great many medicines which were highly recommended, but none gave me relief. I was at last advised to try Ayer's Sarsaparilla, by a friend who told me that I must purchase six bottles, and use them according to directions. I yielded to his persuasion, bought the six bottles, and took the contents of three of these bottles without noticing any direct benefit. Before I had finished the fourth bottle, my hands were as

Free from Eruptions

as ever they were. My business, which is that of a cab-driver, requires me to be out in cold and wet weather, often without gloves, and the trouble has never returned."—THOMAS A. JOHNS, Stratford, Ont.

in the professional ranks, at the C. W. A. Meet won their laurels on a **Red Bird**. Last year, with only one exception, every champion in the Class B ranks rode to victory on a **Red Bird**. There may be an excuse for a bicycle's occasional victory, but the only reason that can be assigned for repeated victories is superiority in its running qualities. A bicycle to be swift must be easy running, to win it must be better built than other wheels. We claim that the **Red Bird** is the most carefully constructed bicycle sold in Canada to-day.

DAVIDSON,

The Following are the Wins made at this year's C. W. A. Meet:

HARLEY DAVIDSON, who won the professional half-mile championship, the professional five-mile championship and the professional mile open.

ANGUS McLEOD, who won the professional mile championship, third place in the professional half-mile championship, and third place in the professional five-mile championship.

WILL McINTOSH, who won second place in the professional mile open, and third place in the professional mile championship.

E. COOPER, who won the professional one mile 2.40 class, and fourth place in the professional one mile handicap.

R. E. AXTON, who won the one mile open amateur, in which he made the fastest competition mile made at the meet, besides winning third place in the one-mile amateur.

Like a Miracle

Consumption—Low Condition

Wonderful Results From Taking Hood's Sarsaparilla.

Miss Hannah Wyatt
Toronto, Ont.

"Four years ago while in the old country (England), my daughter Hannah was sent away from the hospital, in a very low condition with consumption of the lungs and bowels, and weak action of the heart. The trip across the water to this country seemed to make her feel better for a while. Then she began to get worse, and for 14 weeks she was unable to get off the bed. She grew worse for five months and lost the use of her limbs and lower part of body, and if she sat up in bed had to be propped up with pillows. Physicians

Said She Was Past All Help

and wanted me to send her to the 'Home for Incurables.' But I said as long as I could hold my hand up she should not go. We then began

Hood's Sarsaparilla Cures

to give her Hood's Sarsaparilla. She is getting strong, walks around, is out doors every day; has no trouble with her throat and no cough, and her heart seems to be all right again. She has a first class appetite. We regard her cure as nothing short of a miracle." W. WYATT, 89 Marion Street, Parkdale, Toronto, Ontario.

PICKERING

Master Harold, the little son of Wm Howlett, fell off the fence at his parents' residence ond day last week and fractured his left arm, and has since been compelled to carry the same in a sling.

One of W. Morcombe's horses took a notion the other day that this life as spent by its kind was too monotonous and decided to introduce some variations. The result is that William has a number of repairs to his cart to pay for. The horse did not have very much fun either.

Mrs. Geo. Kerr is with city friends this week.

Miss Whitney has gone to Oshawa to spend the vacation.

Miss Allegra Cronk, of Quaker Hill, is home for the summer vacation.

A. G. Henderson, of Whitby, presided at the college examinations here this week.

Miss Brown, of Kinsale, was with Mrs. J. H. Rogers for a few days this week.

Isaac Wise is having a kitchen erected to the rear of his dwelling on King street.

We understand that a number of foreigners are going through the township fitting and selling spectacles. These men may have license to do such a business and they may not. The constables in the various villages should make it their business to demand a sight of such license, and if they have not been issued, a fine will be in order. But we desire to say that much more satisfaction will be found in dealing with an established business man. These fellows are not seeking to build up a reputation from square dealing. Their only desire and ambition is to dispose of their goods for cash and at the highest possible price. They may at times give bargains, but more frequently it is otherwise.

W. Leaper is erecting a large skating and curling rink at Claremont and will have the same completed for use just as soon as the frost visits us. If such an institution pays in Claremont, why would not one pay in this place. Claremont has had a rink for years, but it has been decided that it is too small for the requiremrnts of that place, hence the erection of the new one. How would it do to get Mr. Boyer to remove the old rink to this place. It could be brought here and erected again in plenty of time for next season. In the event of Mr. Boyer not wishing to locate here, perhaps he would dispose of the old rink to some one who would operate the business. There is good interest awaiting the person who desires to invest his capital in the skating rink business.

The township council purchased a road making machine a few weeks ago, paying some $200 therefor. This was money well spent and the machine has half paid for itself already. It was a mistake, however, when the machine was purchased that some person was not appointed at a stated wage per day to run it. As it is now managed the machine will not last more than two or thsee seasons. A ratepayer called the other day and told us that a number of repairs were already required, amongst them a new tongue. Such rapid decay is not to be wondered at as no person feels responsible. Each contractor feels satisfied so long as he can make the machine hold together until his job is done. In other townships a man is employed at $3.00 per day for himself and team while in active operation and he is held responsible for the safety of the machine. While such a man will become proficient in the making of roads, he also learns the easiest way to grade. His desire is to do good work in order to hold his position, and at the same time save the machine and his horses from unnecessary exertion.—News.

An Alarming Increase.

The Prevalence of Female Complaints found to Result Largely from the Kidneys.

SAGINAW, Mich., July 13th—Doctors are beginning to turn their attention more exclusively to the causes for the great increase of what are known as female complaints during the past ten years, and to the remedies for the same. Many cases have been investigated, and among others that of Mrs. Reany, of Ashland, Wis., who was cured of this form of trouble by the use of a kidney medicine known as Dodd's Kidney Pills, which originated in Canada but has now become widely known and used throughout the Western States. This and other similar cases go to show that these troubles are largely due to the kidneys and that the above mentioned remedy is likely to have a great effect in lessening the number of victims to this form of complaint.

To Remove Scorches.

If linen has been scorched, and the mark has not penetrated entirely through so as to damage the texture, it may be removed by the following process; Peel and slice two onions, and extract the juice by squeezing or pounding. Then cut up a half ounce of white soap, add two ounces of fuller's earth, and mix them with the onion juice and half pint of vinegar. Boil this composition well, then spread it, when cool, over the scorched part of the linen, and let it dry on. Afterwards wash out the linen, and the mark will be found to have been removed.
