Pickering Council.

Met Monday last at Brougham.

An order was read from His Honor Judge Dartnell re appeal of J. H. Greenwood from the court of revision on his assessment. The property is situate near Spink's mill, Pickering, and the judge reduced the assessment from $1800 to $1500.

A letter from Mrs. Liscombe, Toronto, asking that a quantity of household articles stored with the township for ten or twelve years past on behalf of the Allbright children, be given to her for the eldest Miss Allbright. On Motion this was agreed to.

ON LOCAL OPTION.

During the afternoon session of council two deputations came into the hall to discuss the question of taking an early vote on the repeal of that law. That on behalf of the hotel-keepers consisted of J H Haverson, barrister, Toronto, James Gordon, Pickering, Edward and M Gleeson, Greenwood, J M Gerow, Brougham, and Alex Wilson and E Derusha, Claremont. On the temperance side were Revd's Leggott, Claremont, McAuley and Thom, Pickering, and Perry, Green River, and P R Hoover, Mr and Mrs Ed Wilson, Mr and Mrs R P Hopper, Foster Hutchison, Mr and Mrs James Hogle, C Rogers, A Boyer, Thos Carter, Mrs J Cowan, Mrs Dunham, Miss Phillips, Mrs Wagner, O Pugh, R Phillips, John Tool, John Seldon and others.

M. Gleeson was the first speaker. He said 688 had signed the petition for repeal, whereas only 455 had signed the original petition to have a vote for or against introducing the local option law, and only 626 had voted for it. The available vote of the township is probably 1200. He claimed that local option does not work well, and never will be satisfactory. No such law is successful. It is not fair to the township and not fair to the hotel keepers. He admits that the liquor traffic leads to great evil, but a hotel cannot be profitably run without it. To lay off taking the vote till the municipal election is not fair to the hotel keepers, who have to lay in a stock of coal and wood.

Ed. Wilson spoke next. He said Mr Gleeson was certainly far out of the way in setting the available vote of the township down at 1200. It is about 1600. 1185 voted on the occasion when the by-law was carried. The argument that there must be a barroom to bolster up a hotel keeper's business is not allowed in any other line of business. If a merchant can't find customers enough he has to go to the wall. So does anybody else but a hotel keeper. He promises to give us cheaper dinners and other accommodation if we will allow him to ruin people in his barroom. No person has any right to be entertained on a cheap scale, and have the balance of his expenses made by an evil business, which makes one family miserable in order that another may live well for low rates. The petition for this repeal vote was circulated in an unfair time. People were led to sign it before they were assured of the validity of the act. The dissatisfaction existing at that time was not the fault of the law, but because the liquor men had seen fit to stir up litigation with a view of killing it, and had kept it in court three years. They were then selling liquor, and under such circumstances anybody would be disgusted. When this law was voted into force by the people they understood that it was to have a full and honest test for three years. The friends of the traffic have consumed three years in trying to burk it, and now the people ask that another three years be granted with it in force before people be asked to condemn it. We cannot now give an intelligent vote on local option for the reason that it has only now come into force. Those who hindered its working now ask that it be condemned because of their own efforts to disgrace it. The council is vested with power to see that the interests of the township are looked after in this matter. He would be willing to concede a vote after a three years trial.

Mrs. Hopper said there are a vast number of sufferers from the liquor traffic. The repeal of this temperance law, which is now working splendidly, means a renewal of all this misery. Liquor has put our friends in their graves, brought trouble to their homes, robbed hungry children of their bread, and has debased their once virtuous mothers. The council is not obliged to re-submit this matter to vote, and at any rate there is not a good word that can be said in favor of the liquor traffic. If a man cannot keep hotel without an evil to make it pay let him go into some other business. Each tavern has to support many men from the vices of its customers. Can anyone say this local option has had a fair trial? Those who demand this vote are the men who have rendered the law inoperative. Is there any sense in having a law voted into force and then voted out again before it has had a fair test? The people of Pickering have always voted against licensing drink, and why should they change now when at last this law has been put into full force? People who signed for this repeal vote were not sufficiently enlightened at that time.

Rev. Mr. Thom said the temperance people are not here to ask favors. They come here because a terrible responsibility rests upon them. Was struck with surprise when he heard Mr. Gleeson admit that the liquor traffic led to great evils. We must understand from what Mr. Gleeson said that he and his friends are willing to work these evils for the sake of gain, and they offer to bribe us into agreeing to it by offering us cheap accommodation. These men who have come here to-day to urge the repeal of this law have continually violated it for three years, and have fought it in the courts until they could hinder it no longer. The fear that an honest trial of its merits is imminent, and they seek a catch vote of the people to kill it before its virtues are established. This law which has stood the test of litigation for three years must be a sound one and a useful law. We demand that the people shall understand these matters when they are again called upon to vote this by-law. Let no scheming on the part of the enemy rob British law of its fair trial. To-day no liquor is being sold. As a result the father and sons of the township are all going home sober, and at last a blessing rests upon us.

Rev. Mr. McAulay said the delegates in favor of local option comprises people of every shade of religion and from every corner of the township, whereas those opposed do not comprise a person not interested in the traffic. Why do they demand the repeal of this act the very minute it becomes operative? These men took advantage of the legal difficulties they had raised to sell liquor in defiance to law, and now want people to believe it is no good.

Mr. Haverson said it is claimed that many names have been secured to the petition for a repeal vote in a surreptitious way. The question is, did the people know what they were signing? If they did what odds does it make what argument was used to induce them to sign? They say some signers are not voters, but they do not give names. The people are the ones to settle this question, and such a large number of signatures could not have been all obtained surreptitiously. Clergymen argue here to-day that there should be delay in submitting the matter to vote, but the frock-coated men usually preach that "Now is the accepted time!" It had been claimed that all denominations are to fight for local option, but he is told that none represented the church of England or the Catholics, two bodies that do not join in these agitations against liquor. The people by petition have asked to have this law re-submitted to vote, and there is never a better time than the present. If not at once submitted to a vote the council will be taking upon itself the responsibility of enforcing a law in opposition to the wishes of over 600 ratepayers. The signers comprise a respectable number of ratepayers of the township, and the matter should be handed over to the people for their decision.

Rev. Mr. McAuley—Will Mr Haverson say this law has had a fair test here?

Mr. Haverson—The people must be the judges of that. If they want to try it further they will vote to do so If not they will vote its repeal.

Alex. Wilson said there was need of settling the question at once as the hotel keepers should buy their coal soon.

P. R. Hoover said the cars ran all the year round carrying coal for anybody who wants it.

Mr. Wilson said it had been erroneously stated by Mrs. Hopper that names had been secured for the petitions at Claremont by unfair means

Mrs. Hopper said the arguments used were that the act had proved itself a failure, which was very unfair. Instead of this the hotel keepers should have said that they had been skilful enough to make it a failure up till now, but that they would be unable to do so any longer and must have it repealed if possible.

This closed the discussion and Reeve Gerow thanked the deputations, and promised that all the arguments offered would have due weight in deciding the question.

THE LOCAL OPTION VOTE.

On motion of Messrs. Mowbray and Hilts it was resolved that it would not be in the interests of the ratepayers of the municipality to take a vote on local option repeal before the next municipal election.

The council adjourned to meet on Sept. 28th.

Sometimes it seems to weary woman that she must certainly give up. The simplest and easiest work becomes an almost insurmountable task. Lassitude almost overcomes her. Nervousness and sleeplessness and pain harass her and life seems hardly worth the living.

That her sufferings are due solely to her own fault seldom occurs to her, but often it is so. Health, strength and vigorous vitality are hers if she will but ask and reach for them.

Dr. Pierce's Favorite Prescription was made for her. Dr. Pierce's Golden Medical Discovery was made for her. The former is for the ills distinctly feminine, the other for her general system. Together they supply a scientific and successful *course* of treatment. The "Favorite Prescription" restores healthy, regular action to the organs distinctly feminine. It forces out all impurities, strengthens the tissues, allays irritating inflammation. The "Golden Medical Discovery" makes appetite, helps digestion, promotes assimilation, fills out the hollows in cheeks and neck with good solid flesh and brings back the gladsome glow of girlhood. Best of all, with these remedies there is no need of detested "examinations" and "local treatment" so abhorrent to every modest woman.

Thousands of grateful women have written letters like this:

MRS. SAMANTHA M. CRANMER, of *Box 34, Le Roy, Bradford Co., Pa.*, writes: "It is with pleasure that I write these few lines in favor of Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription'—the medicines which have done me so much good. I was completely run down so that I could scarcely drag myself around the house, had been getting weaker and worse for several years until I lost all hope of ever getting any better. I took four bottles of each of your medicines and am now perfectly well."

Respectfully yours,

Samantha M Cranmer

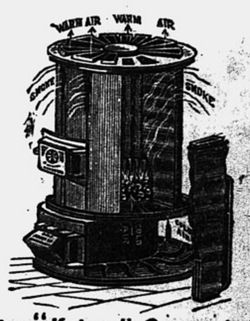
The Most Economical ...House Warmer



The "Kelsey" Corrugated Warm Air Generator.

Any ordinary Hot Air Furnace will produce heat if you will only supply enough fuel. The "Kelsey" has several special and valuable features but most important is that it will give more heat with less fuel and is the most durable heater made.

The "Kelsey" fire pot being constructed of several upright, tubular, corrugated, cast iron sections (see cut) around which the fire passes and up through which the cold air passes while being heated, and this entire section being wrapped with a heavy steel casing which becomes heated by the fire striking it when passing down outside of upright sections towards smoke pipe, it in turn warms the air that passes up between this steel casing and the galvanized iron casing, this explains why the "Kelsey" has three times more radiating surface and warm air capacity than an ordinary Furnace. The "Kelsey" heats every room evenly, wheresoever located, with a nice, mild, healthful warm air that will not injure your furniture.

The "Kelsey" will heat rooms 60 feet distant.

The "Kelsey" does not heat your cellar.

The "Kelsey" is absolutely gas and dust proof.
