On motion of Mr. Poucher the council adjourned until Tuesday, the 15th inst., then to meet for the purpose of preparing financial statement, etc.

TUESDAY, DEC. 15th.

Council met pursuant to adjournment.

Mr. Poucher, seconded by Mr. Richards, moved that the report of the receipts and disbursements, assets and liabilities, and uncollected taxes for that portion of the year ending Dec. 15th, 1896, as prepared by this couucil, be and are hereby adopted, and that 100 copies be forthwith printed in pamphlet form.—Carried.

Mr. Mowbray, seconded by Mr. Poucher, moved that a vote of thanks be and is hereby tendered Geo. Gerow, Esq., for the manner in which he has maintained the dignity of the chair during the present year as presiding officer of this council, and for the courteous treatment accorded to each member of

...s THE LAKE THAT ...EN FOUND AT WHITBY, ...OOKS AS IF SOME PARTIES ...ER THE LAKE WERE BOOMING THE FERRY SCHEME WITH A BOGUS OIL DISCOVERY HERE.—WHOEVER IT MAY BE HE UNDERSTANDS THE SITUATION HERE—ALL BUT THE OIL.

(From the Tonawanda, N. Y., News.)

Dispatches from that town say that oil has been struck at Whitby, Ont. That place is opposite Wilson, N. Y., and is in the midst of one of the garden spots of Canada. If it is true that a valuable oil field has been discovered there, the find will be some importance, probably, to at least one town in Niagara County, and incidentally, the whole of this part of the State.

Just how a discovery of oil in a Canadian town may affect the business interests of this end of the state may at first seem difficult of determination, but a little investigation in the light of facts will serve to show that the proposition is very simple and reasonable.

In the first place the discovery of oil at Whitby may bring Canadian kerosene into competition with the product of the Pennsylvania oil fields as far as Northern and Western New York are concerned—that is provided a prohibitive duty is not imposed upon the Canadian raw or refined product.

It is quite easy to explain why this may occur. Whitby has a good harbor which may be entered during any season of the year, unless the winter be a very severe one. It is situated almost directly opposite Wilson and it is not more than 35 miles distant across the waters of Lake Ontario. For years past there has been under consideration a project to connect these two ports by means of a regular winter line of ferry boats similar to those employed on Lake Erie for the carrying of loaded cars aud also passengers. The advantages urged in favor of this scheme are many, and there would have probably been a materialization of it two or three years ago, had it not been for the general business depression on both sides of the lake. The Grand Trunk Railway has secured possession of a large strip of the water front at Whitby, with the object, it is alleged, of carrying this project into a reality as soon as the business conditions are favorable to its consumation.

The first idea, when the proposition was broached to build this line of steamers and open up a winter route between the north and south shores of lake Ontario, was to make the line a coal carrier. It was argued by the people of the Canadian towns and cities in that territory that the existance of such a line would enable them to buy Pennsylvania coal at a greatly reduced figure. At present they have to pay in their coal purchases for the heavy freight charges for carrying the coal round either end of the lake by rail—that is, if they use American coal, and it is used to a large extent, being of course cheaper than the product of the distant coal fields of Nova Scotia. Then there came the idea of also making the line a passenger carrier and capturing some of the international travel that now goes exclusively to the railroads during the winter. There the project rested for a while. Now it has been revived. It is being talked of on both sides of the line with a good deal of interest. The oil discovery at Whitby has revived the enterprise and created in it an interest that will inevitably draw the attention of hustling capitalists to it, with the result that the matter will be taken ug and investigated by those who are able to act. If the plan is found feasible, and it is believed to be thoroughly so, say those interested, American capital will be ready to step in and develop it. Canadian capitalists are also reported to be interested deeply in the scheme, because, argue the Canadians, if they buy our coal they can sell us their oil. In this way they propose a measure of reciprocity, provided tariff tinkers do not raise an impassable barrier to trade. It is beyond dispute that we can furnish the Canadian towns along the north shore of Lake Ontario with coal at lower prices than they can buy the product of their own distant mines, and the difference would be especially marked if the cheap winter ferriage were once established. On the other hand, it is equally true that they could furnish us with raw oil at least at lower rates than those at which the product of the Pennsylvania oil fields can be laid down here. These are the facts which are reviving, and may be instrumental in carrying to completion, the proposed international winter ferry. And the ferry project means, it is believed, an addition to the international trade of the districts affected of no inconsiderable volume.

Such, in brief, is the present status of a near future possibility which will undoubtedly, if realized, mean something to the Tonawandas in common with other western New York cities and villages.

Mrs. White, of Mono Townsh p Beaverton P.O., was dangerously ill from nervous trouble. She was so nervous that she had not slept a night for three months. She was so low that her friends despaired of her recovery, in fact, had given her up to die She was persuaded to try South American Nervine. Her relief was so instantaneous that after taking one dose she slept soundly all night. She persisted in the use of this great cure and gained in health rapidly, so that now there is not a sign of the nervousness, and she feels she is entirely cured If you doubt it, write and ask her. **Paine's Celery Compound Does the Good Work After Other Medicines Fail**

The majority of people cured by Paine's Celery Compound feel compelled to make public statements with a view of benefitting other sufferers. Cured people gratefully contribute important testimony in order that the sick and afflicted may cease spending money for worthless preparations that can never effect a cure. Truthful letters coming from reliable people, who testify to the worth of Paine's Celery Compound, have a mighty influence for good, and are fully appreciated by thinking men and women.

Mr. Jas. Cossaboom, jr., of Tiverton, N. S., says:

"It gives me pleasure to add my testimony to the value of Paine's Celery Compound. For Some years past I have suffered from stomach troubles, also pain the head. I tried many medicines that were recommended to me, but never received any benefit from them. At last I was advised to use Paine's Celery Compound, and before I had finished the first bottle I experienced a happy change. I continued using Paine's Celery Compound till I had taken five bottles, which made a perfect cure.

"I can heartily recommend the use of Paine's Celery Compound to any one suffering from the same troubles. You have my best wishes for the future success of your excellent medicine."

Mr. Allen Outhouse, Justice of the Peace, says: "I can certify that the above statement is true in every particular."

Mr. Hoyle accepted in an able speech.

## IT IS PLAIN AS DAY.

All those terrible backaches, limb aches, headaches and a dozen other kinds of aches are simply the result of the failure of the kidneys to take the poison out of the blood.

No use trying to be healthy with uric acid and other poisons floating through the system. The sensible thing to do is to get the poisons out.

Doan's Kidney Pills regulate and strengthen the kidneys and good health follows as naturally as night follows day.

We cannot give one-hundredth part of the testimony we receive, but the following certificate from Mr. William Kirkland, who is employed with Mr. Westlake, the well know brickmason and contractor, furnishes very conclusive evidence as to the good effects of this excellent medicine.

Mr. Kirkland said, "I think there is nothing as good for kidney trouble as Doan's Kidney Pills. I have had a bad back for three years, and suffered from terrible pains in both sides as well.

"I was so sore that I could hardly bear to touch myself, and was listless, hopeless and tired nearly all the time. I also suffered a great deal with neuralgia and dizziness in the head, and felt as if I was in a stupor most of the time.

"My appetite also was very poor, and I had severe cramps in my legs. Since taking Doan's Kidney Pills which I got from Mr. Willis' drug store, Whitby, Ont., I am wonderfully better. The pain, cramps, dizziness and stupor are all gone.

"I enjoy restful sleep, and my appetite has returned in all it's old-time force. Doan's Pills have done me far more good than I could have expected for I hardly believed my case curable. I now feel like a new man and to took just two boxes produce this gratitifying result."
