# Sarsaparilla Sense.

Any sarsaparilla is sarsaparilla. True. So any tea is tea. So any flour is flour. But grades differ. *You want the best.* It's so with sarsaparilla. There are grades. You want the best. If you understood sarsaparilla as well as you do tea and flour it would be easy to determine. But you don't. How should you? When you are going to buy a commodity whose value you don't know, you pick out an old established house to trade with, and trust their experience and reputation. Do so when buying sarsaparilla.

Ayer's Sarsaparilla has been on the market 50 years. Your grandfather used Ayer's. It is a reputable medicine. ***There are many Sarsaparillas—but only one Ayer's.*** It cures.

### PICKERING

The Catholic brethren are having the tower of the church repaired. Some of the old bricks were soft, and as a consequence rotted out.

Fred and Chas Bunker have rented the Richardson farm, vacated this fall by Wm Morcombe, and took possession of the same Wednesday. May their enterprise meet with the success it deserves.

Robert Boyes, who had his second finger of the right hand taken off while coupling cars at Holland Centre, arrived home last week and will remain here with his people until his injured hand has recovered.

As we go to press we learn that Jno Allaway has got permission from J L Spink and W H Banks to use a piece of ground just behind the mills upon which he purposes constructing an open rink. The excavating is now going on. There will be a waiting room erected which will be properly lighted and heated.

Miss Maggie McGinty, of Dunbarton, and Peter Cavanaugh, of West Hill, were married in the Roman Catholic church here on Wednesday morning. The ceremony was performed by Rev Father Gallagher, and many friends of the contracting parties witnessed the tieing of the nuptial knot. We join the friends in wishing them a long and happy sojourn.

Tax Collector Hutchinson visited our town on Wednesday and presented a number of our residents with valentines. These little slips of paper look very unasuming, yet they cost money, and unless they are receipted before Dec 15th, two per cent. is added, and on the 1st of January two per cent. more. This is pretty good interest, yet the council must have the taxes paid promptly, and take this way of encouraging the early payment. The township officials would be more than pleased if everyone settled with the collector before the 15th of Dec. each year.

John Beattie, of Stouffville, and Malcom Rumohr, of Markham, were arrested the other day charged with having killed and sold on the Toronto market fifteen sheep belonging to Worthy Miles. The prisoners pleaded not guilty, claiming that they had purchased the sheep from one McLean, The sheep were pasturing upon the farm of McLeans brother. Beattie at one time resided at Atha, while Rumohr, until a few years ago, conducted a butchering business at Claremont. Both men have hosts of friends who hesitate to think that they have done anything dishonest in the matter. They appeared before Squire Wilson, of Markham, on Thursday, and were remanded for a week. Worthy Miles, who has been a drover in this locality for a number of years, seems to have been born under an unlucky star, as he rarely merges from one difficulty when he finds himself laboring witha nother. News.

### Dunbarton

Stewart Paisley is being used rather roughly up north. Wonder if he ever longs to return to Dunbarton where he so sumptuously and well.

John Anderson contemplates having a sale within a few weeks, when he will vacate the farm he now works. We do not expect John to go very far away from us, however.

We understand that Gregory Conway has purchased from George White the residence just vacated by Charles Isaac King, and that he and his family will take possession within a very short time. This is a neat little home, and Gregory is to be congratulated upon his choice.

Unequalled.—Mr. Thomas Brunt, Tyendinaga, Ont., writes:—"I have to thank you for recommending Dr Thomas Eclectric Oil for bleeding piles. I was troubled with them f oneearly fifteen years, and tried and tried almost everything I could hear of think of. Some of them would give me temporary relief, but none would effect a cure. I have now been free from the distressing complaint for nearly eighteen months. I hope you will continue to recommend it.

### SANFORD

Miss Lottie Miles is visiting friends in our village.

Joshua Moore is confined to the house with an attack of lumbago.

We are glad to see the improvements that are being made at the methodist burying ground, as it was badly needed.

On Sabbath evening last while a young man from Siloom was calling on friends in Sandford he left his rig out on the side of the road. On going out he was horrified to find his buggy laden down with the following articles:—1 binder wheel, 1 champion cutting bar, 1 bar of iron 200 pounds, several stumping machine links, an old iron pot, and about a wheelbarrow of hemlock bark, besides several pieces of broken iron, A very respectable load for a buggy. If the expression of his contenance was any indication of his mind, seen through the dark glimmer of the moon it might be summed up something in this style:—"If Johnnie and Alex can't find anything better to do than to prowl around peoples residences on the Sabbath evening doing such small tricks it does not show well for the training they have received."

### Blackstock

Mr Geo Suggitt is erecting a magnificent new dwelling.

Mr Bingham has been successful in securing the drill shed, which was let by by tenders, for a skating rink for the winter.

On Dec 6th., Miss G Hylands school intend having a concert. A good programme is expected.

We are glad to see that Robert has returned home again.

Mr Andrew Kinsman has secured the able service of Mr Wm Vincent, Cæsarea as an apprentice.

What we would like to know is the difference between a 25 cent novel and some of our S S Libraries, such as Influence, Madeleine, Jesiamina and several others.

Rev Mr Adams, Tyrone, occupied the pulpit here in the absence of Rev Mr McDonald, He took for his text, St John 12th chap., 31-32 verses. "Now is the judgement of the world: now shall the Prince of this world be cast out. And I, if I be lifted up from the earth, will draw all men unto me."

We are glad to see Messrs F Williamson and A Parrs smiling faces after a pleasant summer spent in Manitoba.

The spelling match in the S O.T. on Friday night last resulted in favor of Sister Hooeys side. Brother Swains side was very badly beaten.

THE WHEELS OF HEALTH.

There is no better exercise for a young woman in thoroughly good health than bicycling. On the contrary, if she suffers from weakness or disease of the distinctly feminine organs, if she rides, at all, such exercise should be very sparingly indulged in. Women are peculiarly constituted and their general health is peculiarly dependent upon the health of the specially feminine organism.

It is the health of these delicate and important parts that "makes the wheels of general health go round." Their strength and vigor are as important to a woman as a mainspring to a watch, or a sprocket and chain to a bicycle. Dr. Pierce's Favorite Prescription is the best of all medicines for delicate women. It makes them strong where they most need strength. Taken during the "interesting interval," it banishes the usual squeamishness and makes baby's admission to the world easy and almost painless. It fits a woman for in-door work and out-door sports. Honest druggists don't advise substitutes.

"I cannot say enough in praise of Dr. Pierce's Favorite Prescription, as it has undoubtedly saved my life," writes Mrs. Florence Hunter, of Corley Logan Co., Ark. "I miscarried four times; could get no medicine to do me any good. I tried the 'Favorite Prescription' and after taking several bottles, I made my husband a present of a fine girl. I think it is the best medicine in the world."

A man or woman who neglects constipation suffers from slow poisoning. Doctor Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. All medicine dealers.

### Scratches in Horses.

In rainy weather when there is plenty of mud, unless care is taken to clean it off and wipe the feet dry, the horses are liable to be attacked with scratches or grease heel. If the legs get muddy and the animal gets heated and then is put into a cold stable, without cleaning off, to get cold and shiver, conditions are supplied that are favorable for the development of this disease. Allowing the horses to get fat and to stand in the stables with no exercise and upon a pile of heating manure is also favorable to this disease. Prevention is much easier than cure. A proper regard for comfort and cleanliness will readily prevent this disease. When the horses come in at night, if the legs are wet or muddy, they should be carefully washed off in tepid water and then wiped dry with a cloth. If the scratches appear, as soon as the fact is ascertained wash the feet with tepid water and castile soap and then wipe dry. If there is inflamation make a hot poultice and sprinkle finely powdered charcoal over it, applying one in the morning and renewing it at night until the inflammation subsides. Then apply a lotion made of one ounce of sugar of lead dissolved in a pint of water. When it begins to heal use veterinary vaseline. Continue the treatment until thoroughly cured.

### Throat Trouble Cured.

"I used Dr Chase Syrup of Linseed and Turpentine for severe throat trouble," writes Mrs Hopkins, of 256 Bathurst street, Toronto. "It proved most effective. I regard it as one of the best household remedies there is. It is easy and pleasant to take and drives out the cold with surprising celerity."

### CLAREMONT

Joseph Card, of Madonte, is here with friends for a short visit.

Frank Cooper is engaged with Andrew Kerr, the blacksmith at Ashburn, for a short time.

Would it not be better if the Brougham gallant were to come earlier and be in time for church?

Mrs Isaac Linton is spending a fortnight with her son-in-law, Edward Russnell, in Scott.

Mrs Alex Bowes continues in poor health. His friends are anxiously awaiting an improvement.

Miss F Agar, the young lady music teacher, of Toronto, was taken ill on her arrival here this week, and was therefore unable to take her class of pupils in music.

The Erskine friends have had some repairs made to the church during the past week. The corner pinnicle has been replaced, and the brick column beneath repaired.

Wm Whittleton has got the princess rink down, and is this week busy teaming it to Goodwood, where he intends to have a good ice palace running within a very short time.

Proprietor Leaper is busy these days making ice in his fine Caledonian rink. The curlers expect, if the present cold snap continues, to be rattling the stanes within a fortnight.

Are we to have a hockey club this winter? The boys should at once get together and re-organize. Last years record should serve to infuse vigor into such an association.

Traffic on the C.P.R. was for a few hours stopped Monday through the big smashup at Burkton. Traffic was not resumed through here until late in the evening. Much damage to rolling stock resulted. No person was hurt.

Miss Effie Thomson had a narrow escape from being creamated at school on Tuesday. While sitting too near the stove her clothing caught fire and it was with much difficulty that the flames were extinguished. She escaped without much injury.

The Armenian that lectured in the presbyterian church on Monday evening, was greeted with a splendid turnout. His description of his native country, as well as his exposition of the habits and customs of his people, were indeed interesting. His remarks were much assisted by the lime-light views.

While the Eastwood-Ward trout pond syndicate have not abandoned the project altogether, they have decided to stay operations until spring, when it is concluded the work done will be more substantial. The present intention is to commence the building of dams as soon as the spring opens up.

The Claremont curling club re-organized on Friday evening for the approaching season. The following officers were duly elected:—president, D Macnab; vice president, George Gerow; secretary-treasurer, D Hopper. The membership this year promises to be even greater than last season. We look forward to a splendid season of sport.—News.

### Durham District Division

The regular fall session of Durham district division was held in Newcastle on Friday Nov 19th. Owing to the inclemency of the weather the attendance was not so large as usual. The reports from societies show a decrease in membership of 19. Some time was spent in discussing ways and means for overcoming the difficulties met with in subordinate division work

The following resolutions were unanimously adopted: 1st. That we, the members of Durham district division, approve of the Sons of Temperance Record as published, and wish to express to the Grand Division our desire that this or some other paper shall be continued as the official organ of the order. 2nd. That we, the members of Durham district division urge upon all the friends of temperance the need of immediate attention to the work of arousing the public mind upon the question of prohibition. It is now time to circulate literature and employ all the means of informing the people of the benefits to be delivered to the country by the measure and their duty as good citizens at the crisis. In all elections temperance people must see that only those candidates are elected who may be relied upon to advance temperance measures whenever they are introduced. We cannot hope to get legislation from those who are not in sympathy with the cause, and true temperance electors cannot conscienciously cast their ballot for a condidate who is opposed to our principles.

Fred T. Allin, District Scribe.

### WHY SUFFER WITH PILES?

Dr. Chase's Ointment Will Cure Them at a Cost of But 60 Cents.

Piles, scrofula, eczematic eruptions, scald head, salt rheum and all other annoying and painful skin diseases can be easily cured by Dr. Chase's Ointment.

"I had protruding piles for ten years," writes H. H. Sutherland, commercial traveller, of Truro, N.S.; "tried many remedies, and had doctors operate. It was no use. Was completely laid up at times. Chase's Ointment was recommended to me by Mr. Brennan, of the Summerside, P.E.I., Journal. I tried it, and one box completely cured me."

Mr. Statia, the editor of the Streetsville, Ont., Review, gives this unsolicited testimonial under date of Nov. 6, 1895: "Half a box of Dr. Chase's Ointment cured my daughter of eczema. That was six months ago, and there has since been no reappearance of the disease."

T. Wallace, blacksmith, of Iroquois, Ont., was troubled with blind itching piles for 20 years. "I tried every remedy that came out in vain," he writes, "until I tried Dr. Chase's Ointment. It was a godsend. One box cured me."

All dealers and Edmanson, Bates & Co., manufacturers, Toronto. Price 60c.

Linseed and turpentine are every mother's household remedy for coughs, colds, throat and lung affections. Dr. Chase has disguised the taste and made the remedy pleasant to take. Large bottle only 25c.

Hon Chas Langelier has been nominated as the Liberal candidate for Montmorency.

Some persons have periodical attacks of Canadian cholera, dysentery or Diarrhœa, and have to use great precautions to avoid the disease. Change of water, cooking and green fruit, is sure to bring on the attacks. To such persons we would recommend Dr J D Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. If a few drops are taken in water when the symptoms are noticed no further trouble will be experienced.

## A Combination Dairy Cow

The common cow is generally very hardy but even her robust constitution will be the better and stronger, and her dairy value enhanced manyfold if during the winter you add some of

# Dick's Blood Purifier

to her feed. It sharpens the appetite of an indifferent eater, tones up the system, strengthens the generative organs, and keeps her in good health for the Calving Season.

**50 cents a package.**

LEEMING, MILES & CO., Agents, Montreal. DICK & CO., Proprietors.

Kidduck

A new leather, light and porous as cloth, waterproof and lustrous as a duck's back.

Black and colors.

Can be had only in the $4.00 and $5.00 grades of the Goodyear Welted.

### Clay for Cow Stable Floor.

I am asked how clay will answer for a cow stable floor? I know of nothing that makes a better one, if this be properly made and arranged. If the clay be tough, the tougher the better, and be mixed half and half with clean coarse gravel, not sand or loam, and be thoroughly mixed and be put in quite wet, and when just dry enough to pack well, be rammed down very hard, it will stand as well as cement, and is much more pleasant for the cows to stand on. The main requisite is that it will be so constructed as to keep dry; it wont stand much wet, and if kept dry it will not get dusty. The tramping of the cows instead of breaking it up into dust will only make it the harder.

To build a floor, using clay for platforms, care should be taken to have the platform "fit" the cows, and to have the manure trench so deep and wide as to hold the entire excretions for 24 hours, though all cow stables should be cleaned at least twice a day. The cows should stand with hind feet on very edge of platform, and to this, in all cases it is well to have some sort of movable manger.

Montreal, Que., Jan 2 1895.

Edmanson, Bates & Co.
45 Lombard St., Toronto, Can.

Mendessa the Manufacturers.—I tried a bottle of Chases Linseed and Turpentine for ulcerated sore throat. It cured me in two days. It is an admirable preparation.

Believe me, votre ami,
D. V. Laplanche

Agitation in the world of homœopathic medicines has been its very soul of progress, as in politics and religion—the difficulties of opinion and the individuality of men have been parent to the disagreements by which the standard of these bodies have been elevated. So with most of our famous preparations—foremost in illustration of which truth stands the world-famous remedy to general debility and langour "Quinine Wine,"—and which, when obtainable in its genuine strength, is a miraculous creator of appetite, vitality and stimulant, to the general fertility of the system. Quinine Wine and, its improvement, has, from the first discovery of the great virtues of Quinine as a medical agent, been one of the most thoroughly discussed remedies ever offered to the public. It is one of the great tonics and life-giving stimulants which the medical profession have been compelled to recognize and prescribe. Messrs. Northrop & Lyman, of Toronto, have given to the preparation of their pure Quinine Wine the great care due to its importance, and the standard excellence of the article which they offer to the public course into the market purged of all the defects which skilful observation and scientific opinion has pointed out in the less perfect preparation of the past. All druggists sell it.

Frank M. Gray was arrested at Edmonton on Saturday, charged with having shot J. W. Shera in a disorderly house.

J. F. Willard, of Berlin, nephew of Miss Willard, president of the W C T U, has started on an expedition to Asiatic Russia.

### How to Cure All Skin Diseases.

Simply apply "Swayne's Ointment." No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, scalp, &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment. Lyman, Sons & Co Montr wholesale agent.
