INQUEST ON DR. MACDONALD'S BODY.—The inquest on the body of the late Dr. Macdonald was continued in Toronto on Monday night by Coroner Johnson. Dr. Ellis, having examined the stomach, had found nothing in it indicating poison of any kind, or anything that could cause death, in his estimation. The coroner, in his address to the jury, declared himself strongly in favor of an open verdict. The jury, after a short absence, returned a verdict in accordance with this advice, simply stating that the deceased had come to his death through some cause unknown to them.

Conway can supply customers with all kinds of Coal and Wood Stoves at lowest prices. A large stock of Tinware constantly on hand, and all orders executed promptly. If you want your stoves set up give them a call, as they will do it promptly and cleanly.

SHOCKING INDELICACY.—It appears that some of the virtuous Scott Act people of this neighborhood were greatly scandalized at the appearance of Finlay McGregor, the Scottish Vocalist, in "the garb of old Gaul," at the concert given by the managers of the prohibition camp meeting held here last week. Finlay's kilt was of the regulation length, or rather shortness, and the consequent exposure of his bare knees (!) was too much for some of his goody-goody audience. It is considered probable that after the whiskey traffic has been completely extinguished the prohibition party will tackle the kilt and insist on its prohibition, or rather the substitution for it of trousers or knicker-bockers reaching below the knee.

THE RIFLE.—Sergeant W. J. Proud, of Boyne, distinguished himself at the Dominion Rifle Association at Ottawa last week. In the Manufacturers' match 500 yds., seven shots, he won the fifth prize, $10, with a score of 33; in the Macdougall match 400 and 600 yds., 5 shots at each, he won the sixth prize, $10 with 45 points; in the Ouimet match 600 yds., seven shots, he won the tenth prize, $10, with 29 points; in the Minister of Militia's match 500 and 600 yds., seven shots at each, he won the nineteenth prize, $5, with 58 points; he was fifth in the grand aggregate, winning $10 and a badge, with 258 points, and at the conclusion of the Governor General's match he stood fourth on the Wimbledon team for 1880, his score with the Martini, 88, when added to his aggregate with the Snider making his grand total 341 points. He also won the second prize, $10, in the revolver match with 81 points. Capt. Panton was also at the matches, but was not particularly fortunate and succeeded carrying off only two prizes, the nineteenth, $5, in the Macdougall match with 43 points, and the sixty-first in the Manufacturers' match with 28 points. His total score in all the Snider matches 227, was nine points too low to win him a place among the sixty who competed in the Governor General's match for places on the Wimbledon team. Over 300 of the crack shots of the Dominion took part in the matches.

PHAETON FOR SALE, lately repainted in thorough repair. May be seen at Brownridge's Livery Stable. A bargain. J. H. MCCOLLOM. 12-4t.

NOT DEAD.—The many friends in Milton of Mr. Charles Scott were greatly shocked a few days ago by a report that he had died at Montreal of smallpox. We are happy to say that the report was unfounded, though it is true that Mr. Scott, who is a candidate for the ministry of the Methodist Church, and who went to Montreal some time ago to pursue his studies there, had an attack of smallpox, but he is now convalescent.

FRIGHTENED BY THE CARS.—On Friday last Dr. Freeman and his man, of Georgetown, were driving into town and had started to cross the G. T. R. track here immediately after the 11 a. m. express had passed to the depot, not noticing that a freight train near by was about to move out. The noise of the freight engine frightened the horse, which began to rear and plunge, and cramping the carriage too short, one of the axles and a wheel were broken off. The man jumped out to quiet the animal, and when in front of it the horse raised its head suddenly and a tooth caught the man in the forehead, cutting an artery and tearing the flesh and skin pretty badly. The flow of blood was quenched and the wound stitched up, and the party went on their way.—Acton Free Press.

NEW CARS FOR THE G.P.R.—The Canadian Pacific Railway Company have recently added so magnificent new coaches and sleeping cars to their equipment, which are to be run between Toronto and Montreal. The new coaches are fifty-six feet in length. They are finished with solid mahogany, highly decorated, and have double-sash windows. They will each seat sixty-four persons. The sleeps are carpeted, and the seats are upholstered in olive-green colored plush. The coaches are heated by a patent heater, and each contains a saloon, washroom, and lunch buffet. The first-class sleepers are sixty-seven feet in length. There is an electric bell in each berth, by which the occupant can call the porter. Both inside and outside are finished offin solid mahogany, elaborately decorated. The trucks are six wheeled. The immigrant sleepers are each provided with wash-room and toilet accomodation.

News Items.

The total number of deaths from smallpox in Montreal during the years 1876-80 inclusive was 2,549—and average of over 500 a year. Of these 2,151 were French-Canadians.

Nineteen deaths from smallpox in Montreal were reported on Friday, making a total mortality of seventy five since Monday. On Saturday eighteen new cases were authenticated.

At the Catholic convention held at Munster, Prussia, on Friday, Dr. Windthorst said the Pope still ruled the world, and the holy chair must be made independent of the powers.

The remains of Private Hughes, of the Royal Grenadiers, who died at Battleford on the 1st of August were interred in Mount Pleasant cemetery on Saturday afternoon with milatry honors.

The Montreal Witness sarcastically thinks that the entire reasonableness of the proposition to increase the sessional indemnity to $1,000 will strike ninety-nine per cent of the members. This estimate is a little too low, judging from the fact that only one out of over two hundred has so far acted the part of an honest man and returned the five hundred dollars of the people's money wrongfully voted to each of them, to the rightful owners. Hon. Alex. Mackenzie, we feel sure, would oppose the proposal, but it would probably meet with the unanimous approval of the other occupants of that foul den, the Ottawa parliament.—Toronto News.

The Act passed at the last session of the Ontario Legislature respecting assignments for the benefit of creditors has just been put in force by proclamation of the Lieut.-Governor. The principal provision of the measure declare any gift or assignment calculated to benefit one creditor at the expense of the others null, and the assignee may proceed for its recovery in the name of the estate, or of the proceeds, if it has been sold or transferred to a third party. A debtor may, with the assent of his creditors having claims of $100 and upwards, make a general assignment for the benefit of all his creditors, to some person other than the sheriff, and a majority of the creditors may substitute for the sheriff (where he has been in possession) some person residing in the county in which the debtor lived or did business at the time of his assignment. An assignment under the Act is given preference over all other executions not fully discharged.

PUSLINCH SEED FAIR.—The annual fall wheat seed fair, held under the auspices of the Puslinch Farmers' Club, was held in the town hall, Aberfoyle, on Monday, August 31st. The day was fine and a large attendance was present, several of whom were from the city. Samples of wheat under the Red Class known as the Michigan Amber, stood over 60 lbs to the bushel, one sample going as high as 65 lbs. Those known as Clawson variety stood to the standard weight of 60 lbs, one sample going as high as 63 lbs. A large quantity of wheat cleaned hands at one dollar per bushel. Mr. Alexander Marshal showed a small sample of a new wheat of the white variety, named the Bonnell or Landreth, from which he threshed seventy-five bushels of first-class wheat, grown from two bushels and forty lbs. of seed. The judges pronounced this the best sample of wheat they had seen for a number of years.—*Mercury.*

KILBRIDE.

Mr. Allen Simpson, an old and esteemed resident of this place, was seriously and accidentally hurt whilst pursuing his daily work on the farm of Mr. Wm. Foster, Jr., near Cumminsville. It appears he was engaged is hauling in grain, when suddenly he fell from the load to the ground, lighting on a fork, which took effect, making a serious wound below the shoulder-blade. Mr. Simpson is very low, and but slight hopes are entertained for his recovery.

We are called upon this week to chronicle the death of Francis Buckley, a young man of great promise, who was much respected by all who knew him. He was the youngest son of Mrs. John Buckley, below Cumminsville.

Mrs. Dougherty has again become so far convalescent as to leave Old Dusty tenantless once more.

We are pleased to welcome Mr. and Mrs. Corlette back again to or midst, after a few weeks, holidays. They again return to Canada and their old County looking much refreshed, hail and hearty.

In Canada they are back once more,
Sweet land of every bounty,
Around them stands the friends of yore,
In their own their native County.

I wonder what has become of Marcus. His communications were both racy and interesting. I feel somewhat lost. Please Mr. Ed. let us know.

LITTLE DOTT.

Why allow a cough to lacerate your throat and lungs? Why incur the imminent danger of consumption, when in an incredibly short space of time, and for an insignificant sum, you may cure yourself? THOMAS' ECLECTRIC OIL does the business thoroughly. A single bottle often suffices to relieve the difficulty. This peerless remedy overcomes with equal certainty, swelling of the neck, inflammation of the muscles and stiffness of the joints, lameness and crick in the back, tumors, piles, dysentery and a variety of other painful and harrassing disorders. It may be taken inwardly with as much safety as it is applied outwardly. Colic, whether of man or beast, is cured by it in fifteen or twenty minutes. Sores, excoriations and abrasions of the skin, are healed by it with gratifying rapidity. All medicine dealers sell it.

The Provincial Exhibition at London was opened to the public on Tuesday morning. The attendance, however, was small on account of incessant rain all day. Yesterday afternoon the Governor-General formally opened the Exhibition. The total number of entries this year is fifteen thousand, more than nine hundred of which are in the horse classes.

Two prominent butter exporters in Montreal allege that they have been defrauded to the extent of nearly four thousand dollars each by a Toronto butter merchant, who passed off on them for creamery butter, for which he received nineteen and a half cents a pound, stuff not worth four cents.
