WHAT IS THIS DISEASE THAT IS COMING ON?

Like a thief at night it steals in upon us unawares. Many days have passed since the chest and sides, and sometimes the back, have they feel sleepy; the mouth has a bad taste, especially in the morning; a coat of sticky phlegm collects about the teeth. The appetite is poor. There is a feeling like a heavy load upon the stomach; sometimes a faint all-gone sensation in the pit of the stomach which food does not satisfy. The nerves are sunken; the hands have become cold and feel clammy. After a while a cough sets in at first dry, but after a few months it is attended with a trouble of which expectoration. The afflicted one feels tired all the while; and sleepless not seem to afford any rest. After a time he becomes nervous, irritable, and gloomy, and has evil forebodings. There is a feeling of giddiness; a sort of whirling sensation in the head when rising up suddenly. The bowels become costive; the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow, the tongue is usually coated with a thick yellow coat, and expectorating sediment after standing. There is frequently a spitting up of food, sometimes with a sour taste, and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought nearly one-third of our population has this disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. Some have treated it for liver complaint, others for kidney diseases, etc., etc., but none of the various kinds of treatment have been attended with success because the remedy should be such as to act harmoniously upon each of these organs, and upon the stomach as well; for in Dyspepsia for this is really what the disease is all of these organs partake of this disease and require a remedy that will act upon all at the same time. Seigel's Curative Syrup acts like a charm in this class of complaints, giving almost immediate relief. The following letters from chemists of standing in the community where they live show it's estimation the article is held:

John Archer, Harthill, near Sheffield:—I can confidently recommend it to all who may be suffering from stomach and liver complaints having the the testimony of my customers who have derived great benefit from the *Syrup and Pills*. The sale is increasing wonderfully.

Geo. A. Webb, 141, York St., Belfast:—I have sold a large quantity and the parties have testified to it being what you represent it.

J. S. Metcalfe, 55, Highgate, Kendal:—I have always great pleasure in recommending the Curative Syrup, for I have never known a case in which it has not relieved or cured, and I have sold many grosses.

Robt. G. Gould, 27, High Street, Andover:—I have always taken great interest in your medicines and I have recommended them, as I have found numerous cases of cure from their use.

Thomas Chapman, West Auckland:—I find that the trade steadily increases. I believe of your medicine than any other kind.

N. Darroll, Glan, Dalop:—All who buy it are pleased and recommend it.

Jos. Bakwell, s. P.-S.-Kingsbridge:—The public seem to appreciate their great value.

A. Armstead, Market Street, Dalton-in-Furness:—It is needless or me to say that your valuable medicines have great sales in this district—greater than any other I know of, giving great satisfaction.

Robt. Laing, Alnham:—I can well recommend the Curative Syrup from having proved its efficacy for indigestion myself.

Flockheim, Arbroth, Forfarshire, Sept 23, 1882.

Dear Sir,—Last year I sent you a letter recommending Seigel's Syrup. I have very much pleasure in still bearing testimony to the very satisfactory results from the famed Syrup and Pills. Most patent medicines die out with me, but other Seigel has had a steady sale ever since I commenced and is still in as great demand as when I first began to sell the medicine. The cures which have come under my notice are chiefly those of liver complaint and general debility.

A certain minister in my neighborhood says it is the only thing which has benefited him and restored him to his normal condition of health, after being unable to preach for a considerable length of time. I could mention also a great many other cases, but space would fail me. A relative of mine, who is very much addicted to costiveness to constipation, finds that other Seigel's Pills are the only pills which suit his complaint. All other pills cause a reaction which is very annoying. Mother Seigel's Pills do not leave a bad after-effect. I have much pleasure in commending again to suffering humanity other Seigel's medicines, which are no sham. If this letter is of any service you can publish it.

Yours very truly,
(Signed) William S. Glass, Chemist.
A. J. White, Esq.

15th August, 1883.

Dear Sir,—I write to tell you that Mr. Henry Hillier, of Yatesbury, Wilts, informs me that he suffered from a severe form of indigestion for upwards of four years, and took no end of doctor's medicine without the slightest benefit, and declares Mother Seigel's Syrup which he got from me has saved his life.

Yours truly,
(Signed) S. Webb,
Chemist, Calne.
Mr. White.

### Her Majesty's Will.

*From the London Truth:*

The recent changes in the royal family must at least have proved highly profitable to the lawyers concerned. Last year the queen made a fresh statement of her private property after the Duke of Albany's death, and now I hear that entirely new testamentary arrangements have been made by her majesty. The amount of the queen's private property is unknown, but I am told that including the prince consort's fortune and Mr. Nied's, it exceeds $20,000,000, and besides these, there are the estates in Aberdeenshire, which extend to 33,000 acres; the Claremont property, which her majesty purchased from the country three years ago at a very inadequate price; and the Osborne estate; which has enormously increased in value: to say nothing of property at Baden, Baden and at Coburg. It is probable that the bulk of the Isle of Wight property will be left by the queen to the Duke of Connaught; and Balmoral and most of the Scotch property to Princess Beatrice, who will also probably get Osborne. The Windsor property will go to her majesty's principal heirs, and a very handsome provision has been made for the children of the Duchess of Albany, and for the families of Princess Christian and the Grand Duke of Hesse.

YELLOW AS A GUINEA.—The complexion, in a case of unchecked liver complaint, commonly, in jaundice, is literally "as yellow as a guinea." It has this appearance because the bile, which enables the bowels to act, is directed from its proper course into the blood. In connection with the symptom there is nausea, coating of the tongue, sick headache, impurity of the breath, pains through the right side and shoulder blade, dyspepsia and constipation. These and other concomitants of liver complaint are completely removed by the use of NORTHROP & LYMAN'S VEGETABLE DISCOVERY AND DYSPEPTIC CURE, which is also an eradicant of scrofula, erycipelas, salt rheum, ulcers, cancers, humours, female weakness, jaundice, and lumbago. It tones the stomach, rouses the liver, and after relieving them, causes the bowels thereafter to become regular. High professional sanction has been accorded to it; and its claims to public confidence are justified by ample evidence. Price, $1.00. Sample Bottle, 10 cents. Ask for NORTHROP & LYMAN'S Vegetable Discovery and Dyspeptic Cure. The wrapper bears a *fac-simile* of their signature. Sold by all medicine dealers.

WHAT Toronto's well-known Good Samaritan says: "I have been troubled with Dyspepsia and Liver Complaint for over 20 years, and have tried many remedies; but never found an article that has done me as much good as Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure."

It is quite inexplicable, on any rational principle, why certain fresh fruits oppose no fetters every short to tax imports or the liquor traffic. Liquors, if not sold under taxation, will be still free of taxation, but somehow the professional and political prohibitists is more pleased when you propose a tax than the liquor seller is.—Cleveland Gregarian.

A Canadian medical authority has given the following as being safe periods of quarantine, which teachers should exact of pupils, who have suffered attacks of the diseases mentioned, before their return to school: Scarlet fever, 14 days; measles, 16; epidemic rosacea, 16; chicken pox, 18; smallpox, 18; mumps, 21; whooping cough, 21; diphtheria, 10.

The outlook for the potato crop is not encouraging. In Wellington county the damage by rot is reported to be very extensive. In Peel whole fields are completely destroyed. Lincoln farmers report one half the crop unfit for sale. The report from Welland is equally discouraging. In Wentworth the crop is likely to be much below the average. It is to be sincerely hoped that the reports from other sections of the Province may be less unfavorable.—Globe.

Dun, Wiman & Co.'s report show that the failures in the Dominion for the three months just ended number 254, with liabilities amounting to $1,911,000, compared with 237 failures, having liabilities of $4,112,000, for the corresponding quarter of last year. For the nine months of 1885 the failures aggregate 944, with a trifle over seven million dollars of liabilities, against 970 with liabilities of $14,555,000 in the same period last year.

HOME BREWED ALE.—The Elora Express says that a number of farmers in the surrounding townships are arranging for brewing their ale at home, same as they do in the old country, after the first of May next. Under the Scott Act, brewers in the county cannot sell to residents thereof; therefore, sooner than be deprived of beer in the barest, old farmers will make their own. When the malt is purchased duty free, it is quite a different question. Yorkshire man in Peel has his first brewing over, and the neighbors say that the beer proved a success equal to any in the old world.

The Boston Times says:—"Men with a shaking hand and bloated face shall no longer be permitted to disturb the peace and blockade the streets of that city with their presence, but Dutch courage. Our contemporary says that Christ offered no such luxury to his disciples. Upon the contrary he rebuked those who proposed to do their own drinking in public places. The Times is perfectly agreeable that the Salvationists should believe what they think Christ taught, namely, peace in the world, temperance; but it holds that the drunkards have their rights upon the streets and should assert them.

The Library Magazine, published by John B. Alden, 393 Pearl Street, New York, at $1.50 a year, is the best American reprint of its price. It is an eclectic, and reproduces the cream of the literary productions of Europe and America. The October number contains "Where His Story Lies," by A. Trollopy; "The Greek Anthology," Alden's Cyclopedia of Universal Literature; "Cholera, Its Cause and Prevention," Prof. J. Burdon Sanderson; "Midsummer in the Bondage," Gen. Sir Henry Brackenbury; "The Metaphysical Society," R. H. Hutton; "The Paris Newspaper Press," Theodore Child; "The Birth of Mountains," Cornhill Magazine; "Death and After," Edwin Arnold; "The New-found World," Good Words; "A Summer Palace of the King of Kings," by an Englishman in Persia; "The Poet Collector," P. S. Hamerton; "China Making at Stoke-on-Trent," Bernard H. Beat; "Tuxedo," Antonia Chess Player; "Cornhill Magazine;" "The Art of Acting," Henry Irving; and Current Thought.

A new salt combination has been formed in Ontario, comprising the six manufacturers in Goderich, the two wells in Kincardine, one well at Port Frank, and the Courtwright Salt Co. The head office is in Goderich, with C. V. Eadie, formerly cashier of the old Canada Salt Association, as secretary, Mr. Howry as president, and Mr. John Scotts, jr., as president.

The American Dairyman says: "Let a drop of fresh milk fall into a glass of pure water. If the milk is good it will remain intact through the water. That sort of milk yielded that milk is not with calf, but if it falls to the bottom of the glass as it falls it is not good. Let those who have cows try the test." The specific gravity and viscidity of an albuminous milk is much greater than that of water, and it falls as a solid mass to the bottom.

Beware of Imitations.

Since Dr. Thomas' Eclectric Oil has become celebrated, a number of unprincipled persons have been endeavoring to palm off Electric and Electric Oil for the genuine article. Now as Dr. Thomas' Eclectric Oil stands alone as a household remedy, Beware of these similar named articles. If their originators had any faith in the healing properties of their own medicines they would like honest men give them a name of their own, and not try to sell them on the reputation of another, but as they know their preparations have no merit, they resort to the same unprincipled practice of selling them by getting the name as near as possible to Thomas'. We therefore ask the public, when purchasing to see that the name Dr. Thomas' Eclectric Oil is on the front of the wrapper, and the signature of Northrop & Lyman, the proprietors for Canada on the back.
