THE CANADIAN CHAMPION.

MILTON, OCT. 22th., 1885

Editorial Notes.

The list of revising barristers appointed under the Dominion Franchise Act came out on Tuesday, and contained the name of His Honur Judge Miller, who has been appointed for Halton. Whatever difference of opinion there may be about the Franchise Act few will object to the selection made by the Government of the revising officer for Halton, Grit and Tory may alike feel sure of being impartially treated by Judge Miller.

The assizes for the County of Bruce opened on Tuesday, at Walkerton, with eight criminal cases on the docket. About an equal number of cases, including one for murder, are on the docket of the Norfolk assizes, being held this week at Simcoe. The Scott Act has been in force in Bruce and Norfolk for about six months and does not appear to have done anything very extraordinary in the way of preventing crime.

Acton is taxed now at the rate of twenty-two mills on the dollar, and there was a row at the Acton council board the other evening over a report from the Finance Committee showing that eighteen mills on the dollar would be required to pay the town's expenses for the year. Didn't someone promise that the Scott Act would reduce taxation?

A DAMAGING ADMISSION.

The Oakville Independent, Police Magistrate Young's organ, and the organ of the Scott Act party of Halton, says that "the vagabonds of the baser sort" have been so stirred up here that "they have rendered Milton almost uninhabitable by law-abiding people." In the same editorial it says also: "Where the Scott Act has been enforced, even partially, the diminution in lawlessness and crime has been something unparalelled."

And yet the Scott Act has been in force in Halton ever since May, 1882, and its administration has been in the hands of that learned and incorruptible Police Magistrate, W. H. Young, who has been aided by vigilance committees in every ward in the county and whiskey detectives galore! Are we to understand that Mr. Young and all his army of spies and informers have made a mess of it and have failed to even partially enforce the Act? Have all the prominent Halton prohibitionists, whose veracity should have been above suspicion, been drawing upon their imaginations when telling the electors of other counties from the platform and through the press of the wonderful regeneration affected among the inhabitants of this favored county by the Scott Act?

AN EXPLANATION WANTED.

The following appeared last week in an editorial on the administration of the Scott Act in Halton in the organ of Police Magistrate Young:

"The only regret is that mercy has been too largely mingled with judgment."

In the elegance of its diction, its choice English, and its general tone, the editorial appears very like the production of the learned Police Magistrate himself, and we ask that distinguished personage as a special favor to see to it that his organ explains what it means. When was "mercy mingled with justice" during Police Magistrate Young's administration? Was it in the late perjury case which was so mysteriously discontinued? Will the organ inform us why that case was dropped? What influence was brought to bear on our incorruptible Police Magistrate? Are the rumors true that he dropped it for political reasons, and lest it should affect his interests prejudically in case he should ever run for Parliamentary honors?

It is to be hoped that this explanation will not be shirked, as was the promise of particulars of the alleged free whiskey distribution.

Advice From Acton.

(Free Press.)

From the Sun we learn that another newspaper is about to be published in Milton, by Messrs. W. D. Brothers, and R. White, late of the Sun-office. The Sun understands that the new journal will have a Scott Act and Reform platform. In our opinion the establishment of a third paper in Milton is rather an unnecessary undertaking. We don't believe the other two papers are reaping such princely incomes but what one or the other would sell out at a reasonable figure. Three papers in Milton simply means starvation for all and financial ruin for one or more. The matter will bear more consideration than perhaps the new aspirants have given it, and if a paper of different tone to those at present published must be secured we advise that no effort be spared to get control of one of the existing offices. It is in the interests of all concerned that this should be done. Milton has sufficient business territory for one successful and profitable newspaper and job office; a bare living for two, and only starvation for three. Imagine Acton—with a population hardly one hundred less than Milton—with two printing offices, let alone three. There is room for a very satisfactory printing business here, but no more. Neither is there in Milton.

County Fair Notes,

There were 820 member's tickets sold. Prizes were awarded to 199 members.

Quite a number of parties entered articles for exhibition and omitted to pay their membership fees. The Secretary has their names and will publish the list unless the $1 membership fee for each is paid.

One of the directors forgot to pay his fee, borrowed an article from a neighbor (who was not a member of the Society) for exhibition, and exhibited it, but did not receive a prize.

Some of the directors did not take any interest in the fair, but were engaged in looking after their own private interests..

It is high time now to have new rules adopted for the Society and to abandon the present mode of electing the officers. Let the Society elect no person for office who does not take an active interest in the success of the annual fair. If this is done the fair, successful as it has been heretofore, will be a still greater success in the future..

One too Many.

Milton is to have another paper—the *Reformer*. This will be three papers in the town—at least one too many for its size. But perhaps there is a "long felt want" that can only be met by the new comer. *Hamilton Times.*

Mr. Michael Davitt, speaking at Glasgow, made a bitter attack upon the Tories, but, he said, he feared the Irishmen would vote against the Liberals in order to secure power.

Lord Salisbury has informed the Porte that England will send an energetic remonstrance to Servia and Greece against their formidable armaments, advise them to keep quiet.

On Motion of Mr. Scott the Council adjourned, to meet on Monday, Dec. 7, at 10 o'clock a. m.

22 Mills On the Dollar.

To the Editor of the Champion:

DEAR SIR,—Permit me through the columns of your valuable paper to ask the editor of the Acton Free Press a few questions for the benefit of the ratepayers, which I trust will be answered with candour.

Sir,—How do you account for the following facts: In the year 1882, when the Scott Act came in force, we were taxed 10 mills on the dollar, and no person complained; 1883, 15 mills on the dollar—a few complained; 1884, 17½ mills on the dollar—a great number complained; 1885, the present rate, is 22 mills—all complaining; that our taxes should more than double in three years, and, to add to this mystery, the assessed valued of our real estate as decreased twelve thousand dollars. Please inform us why our taxes should increase and our property decrease in value in a Scott Act county.

Yours, &c.,
Acton, Oct. 20, 1885. R. R. A.

ITEMS.

Lord Randolph Churchill, in his speech in Norfolk on Monday evening, is said to have dropped his old tactics and posed as a Tory of the old school.

There were fifty-two deaths from smallpox in Montreal and suburbs on Sunday. The total number of deaths for the week ending on Saturday was 276.

A farmer of Warwick township, West Lambton, was roasted alive on Sunday morning in escaping from his burning house, dying in the evening after intense suffering.

Mrs. Adams and her twelve year-old son were tried yesterday at the Hastings Assizes for the murder of Martin Archibald, a farmer of Huntingdon township, and acquitted.

On Sunday Mr. Ross Winans, the Baltimore millionaire, was assaulted on his deer park in the North of Scotland, for closing a roadway through his estate. He offers £100 for the arrest of the culprits.

The British steamer Gzeyhound, while trading in Chinese waters, was attacked by pirates. The captain was killed the officers severely wounded, and the vessel had a narrow escape from being captured.

A married man named John Armstrong, living near Guysborough, North Norfolk, while fooling with another man with a loaded gun on Sunday afternoon, was shot the wound proving fatal a few hours afterwards.

The traffic receipts of the Canadian Pacific railway for the week ending the 14th inst. amounted $199,000, an increase compared with the corresponding week last year of $53,000. The company have now 3,064 miles of railway in operation.

Sir Charles Tupper will probably leave for London, England, on Saturday, and will endeaver to secure a larger allotment of space for the Canadian exhibits at the Colonial and Indian Exposition, as it is expected the 54,000 feet already assigned will be insufficient.

Thirty-six deaths from smallpox occurred in Montreal on Tuesday, while eighty-nine new cases are reported. The local Board of Health have recommended that all places of public amusement and all churches and Sunday Schools be promptorily closed for a period of one month.

As showing the portion of the population most affected by smallpox in Montreal, a table giving the number of deaths for last week is published—of the 280 deaths from the scourge, 253 were of French Canadians and 17of other nationalities. The mortality among the French-speaking people was principally of infants, no fewer than 223 being under ten years of age. It is asserted further—and this is something for parents to ponder over—that an overwhelming proportion of the children who died were unvaccinated.

Colonel Otter, with "C" School of Infantry, has arrived at Swift Current on his way east. They expect to reach Toronto on Sunday next, and the members of "C" Company who returned from the North-West along with the Grenadiers are making preparations to welcome their comrades. A splendid arch is being erected at the gateway of the barracks. The rooms are also being decorated with evergreens and flowers. A sumptuous dinner will be served in the company drill-shed. If any corps distinguished itself in the North-West it was "C" Company.—Mail.

A grape grower said yesterday "Grapes have seldom been so cheap as they are this year. The crop has been very plentiful, and the greatest part of it has been put right on the market, the passage the Scott Act in so many counties having spoiled the native wine trade to a great extent. Large growers have met with considerable loss on this account. The low prices keep up. Baskets retail for 3 cents a pound, but the finer varieties command higher figures, though in no instance are they as high as they have been for years past.

JAIL STATISTICS.

Jailer Vanallen has been kind enough to allow us an inspection of his annual report for the jail year of 1884-5, which ended on the 30th ult. From it we have gathered the following statistics:

The total number of prisoners committed during the year was 252. Of these 90 were entered as "temperate" and 162 as "intemperate." The greatest number in custody at any time was 22, and the lowest 1. The nationalities of the prisoners were as follows: Canadian, 60; English, 72; Irish, 75; Scotch, 29; Americans, 11; other nationalities, 5. The total expenses connected with the jail amounted to $1,407.80, the daily cost per head for rations being 6 1/10c.

An examination of the official reports of the Inspector of Prisons, published yearly by the Ontario Government, will show that the number of committals for the year just ended, is the largest since 1879, the figures for the subsequent years being as follows:

1880 total committals	245
1881 " "	181
1882 " "	147
1883 " "	97
1884 " "	140
1885 " "	252

From the same source we learn that the committals for drunkenness in Halton from 1878 to 1884 inclusive, were as follows: '78, 7; '79, 1; '80, 6; '81, 5; '82, 4; '83, 7; '84, 6. For 1885, according to the jailer's report, the number of committals of this class was 9, the largest since 1877.

Our readers will remember that the Scott Act went into operation here on 1st May, 1882.

Years of experience and successful trial have proved McGregor & Parke's Carbolic Cerate the most complete and satisfactory compound for healing Old Sores, Festerings, Ulcers, Cuts, Wounds, Burns, Frost Bites or Felons, and for keeping out the cold and to cleanse or prevent proud flesh, sloughing or decay. Insist on having McGregor & Parke's Carbolic Cerate, sold at 25c. by J. H. McCollom, Milton.

A Joke on George.

(Toronto News.)

An awfully funny joke on Geo. Tate Blackstock comes from Lindsay. George appeared at the Lindsay assizes recently as counsel for the plaintiff in a case where the paternity of a child was in question. When about to appeal to the jury, he asked permission of the Court to place the babe, which was in it's mother's arms, opposite the reputed father, and having obtained permission, addressed the jury. He pointed out in telling language the similarity in the color of the hair and eyes, the form of nose, and general contour that existed between the man and child. His eloquence had convincing effect, and when he concluded the case was all but won. But Dalton McCarthy loomed up for the other side, and before commencing his address, asked and obtained permission of the court to place the infant alongside Mr. Blackstock. Immediately when this was done a titter ran through the court, and when the M. P. from Simcoe went on to point out that the child had the same wave of antimaccassar hair as George, that it was parted in the middle with the mathematical accuracy peculiar to George; that the eyes were the same color, and that the shape of the nose and the general expression of the face bore a striking resemblance to George —when all this was told in the jocose style McCarthy can at times so well assume, the whole audience went into convulsions, judge, jury and audience joined in a general roar, while George sat paralyzed, with the poor little baby gazing up into his face in mute astonishment at the general uproar. The jury could scarcely be restrained from bringing a verdict of guilty against Blackstock.

Fluid Lightning is simply a marvellous Rheumatic Remedy. I was for two months a cripple, unable to get out of the house for Sciatica. One bottle gave me instant relief, and placed me on my feet again. I have driven fourteen miles to-day (something I could not possibly have done were it not for Fluid Lightning) for the express purpose of procuring another bottle. So says Wm. Dixon, Gananoque. Only 25 cents per bottle at McCollom's Drug Store, Milton.

The Indians Must Hang.

OTTAWA, Oct. 19.—The Government has decided to carry out the execution of the Indian prisoners recently sentenced to death for taking part in the late rebellion on their respective reserves, believing that it will have the effect of intimidating their companions who may witness the execution from taking up arms in future against the crown. As yet no attempt has been made to secure commutation of the sentences, and if the law is allowed to take its course they will all hang on November 27. A strong detachment of mounted police will be present on each reservation at the time of execution.

While an act of last session provides severe punishment for those who may sell fixed ammunition and rifles to Indians in the Northwest, it is represented by the settlers that the Indians are bringing in ammunition for breech-loading rifles from the United States, which is smuggled across the border. The government is being urged to disarm the Indians entirely of the rifles they have in their possession, as with shotguns they can kill all the small game they re uire.—World.

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of consumption, bronchitis Catarrh, Asthma and all throat and lung affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers, in thousands of cases has felt it his duty to make it known to his fellow sufferers. Actuated by this motive and desiring to relieve human suffering, I will send free of charge, to all who desire it, this recipt, in German, French or English, with full directions for preparing and using this paper.
