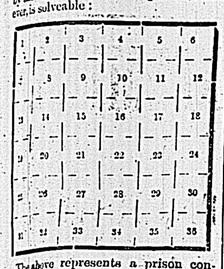
The Great Egyptian Puzzle.

The following is a new puzzle that bids fair to take the place so long held by the "15" craze. This puzzle, however, is solveable:



The above represents a prison containing 36 cells. In cell No. 1 is confined a prisoner, the terms of whose release are that he shall pass through each cell, entering no cell more than once, starting from cell No. 1 and ending at cell 36.

The upper story of Mr. G. A. Hemstreet's new store is now occupied by the Arts, and makes a very comfortable and convenient newspaper office.

BREAD.—Hamilton bakers have reduced the price of bread to 9 cents for a large pound loaf. Will our Milton bakers follow suit now that there is first-class fast Scott Act competition?

REMARKABLE.—Out of the thirty-four signatures affixed to the Scott Act manifesto sent to St. Catharines from Milton, all but four belonged to members of one religious denomination.

MR. AND MRS. OLIVER LARDIE, who left Milton twenty-five years ago for Grand Travers, Minnesota, where they now reside, arrive here on Saturday evening, per N. & N.W.R., having come as a visit to Mr. Michael Conway, Mrs. Lardie's brother. Mr Lardie expressed surprise at the number of drunken men he met on the street and the town was better and orderly up the time he emigrated from it, and inquired what had come over it. He was told that the town was still all right that nothing had gone over it except the "temperance" craze, and that the parties he met had probably been indulging in the "temperance" drinks which are vended by shebeen keepers who the Scott Act is in force.

County Council.—The last regular meeting of the Council will be held on Tuesday next.

Fined $100.—D. Oliphant, hotel-keeper, of Oakville, was fined $100 and costs last week by Police Magistrate Young for selling liquor in contravention of the provisions of the Scott Act.

Rev. T. W. Jeffrey, M. A., of Queen St. Methodist Church, Toronto, has been invited by the Brampton Methodist Main St. Quarterly Board to accept their pastorship for the next three years.

Fat Stock Show.—The annual fat stock show under the auspices of the Ontarion Agricultural and Arts Association, will be held at Woodstock on the 9, 10 and 11 of December. The prize list is an attractive one.

Passed.—Mr. M. E. Mitchell, formerly of Milton, went up for his final examination for solicitor before the Benchers of the Law Society at Toronto on the 17th inst. He passed a very creditable examination, [illegible] through without an oral.

Grip's Comic Almanac.—This publication, for 1886, is to hand. It is brimfull of amusement, containing—besides its other attractions—a double-page cartoon, "Ancient Nursery Rhymes for Modern Politicians." For sale by all booksellers; only 10 cents.

Plenty of Teachers.—Harrison's Neighborhood School Section, Peel Co., advertised for a teacher for 1886, and the trustees received 115 applications, the salaries asked ranging from $250 to $500. They have accepted the offer of a lady holding a second-class Normal, who asked $350.

Prize Competition.—Messrs. Pratt & Watkins advertise that they are offering a prize of $5 in dry goods or clothing to the person who will send into them the greatest number of English words compiled from the name of the firm Pratt & Watkins. As soon as you see this start at once and try for the $5.

Next to the Montreal Riel demonstration the leading topic in Hamilton is the great bargains which are being offered now in first-class boots and shoes at Colin McRae's, 30 & 32 King Street West, Hamilton. He has the largest and best selected stock in the city, including ladies' fine buttoned boots in the latest styles, and from the best manufactories, gentlemen's shell cordovan walking boots, the best in Canada, boy's and girl's school boots, strong, comfortable and durable, and rubbers, overshoes, mocassins, &c., in great variety.

Meeting of License Commissioners.—Dominion License Commissioners had a meeting here on Monday. The resignation of Capt. Johnson, of Stewarttown, of the position of Deputy License Inspector was accepted, and E. G. Paige, of Lowville, heretofore employed as whiskey detective by the Scott Act party was offered the vacant office until Jan. 1st, '86, on condition that any charges laid by him against Miltonians for illegal liquor selling should be tried in Milton, and any against parties in the northern part of the county should be tried either there or at Burlington. Paige has not so far informed the Commissioners whether he will accept their offer or not.

Activity, Education and Character Wanted.—The *Globe* of Tuesday contains an advertisement for "six active men of fair education and good character, to act as liquor detectives in Scott act counties of Halton, Simcoe and Dufferin." No doubt there will be hosts of applicants for the tempting engagements offered by the advertisers and the six educated and reputable men will soon be on the war path. We imagine that after they have had some experience in the business, and have had a few encounters with illicit whiskey sellers, they will be of the opinion that a little activity is worth a great deal of education and character in some emergencies.

The Salvationist nuisance shows no signs of abating as yet, though converts are scarce as ever, and last Sunday the three able-bodied young men who run the machine here were out with their drum, tambourine and triangle outfit, and succeeded in making a racket which must have disgusted all who believe in a decent observance of the Lord's Day. The night meetings of the army are attended principally by girls and young men who go there for fun and flirtation, and if it were not for these giddy young folks the abomination would flatten out in short order. Parents should keep their children away from these meetings, for the young folks learn nothing good there, and only lose whatever respect they would otherwise have for sacred things.

Scott Act.—A meeting in the interest of the Scott Act was held at St Johns village, in the township of London, on Friday last, when amongst others the following resolution was passed: "Resolved that the existing committee of the township who were appointed for the passage of the said act compose the executive in each polling subdivision for the purpose of selecting suitable candidates for educational, municipal and Parliamentary offices." The above resolution was was spoken to by Mr. Young, Police Magistrate of Halton, in a way that showed him to be versed in all the various loopholes and tactics employed by liquor men to oppose the enforcement of the act. He called the attention of the Scott Act ratepayers particularly to the selecting of candidates for educational, municipal and parliamentary offices.—London Advertiser.

The Guelph *Mercury* accuses the Champion of having made the statement that the Trafalgar case of smallpox was believed to have been caused by infection carried in a Montreal newspaper, with the object of creating a prejudice against all papers published in the latter city. The fact is that the statement was made, in the first place, because it was true, and in the second place, to let the public know with regard to an unfounded rumor that Mr. Geo. Denoon, drover, of Trafalgar, had brought the infection from Montreal in his clothes, had neglected to disinfect himself and had caused the case reported by us, by carelessly visiting the house of the father of the young lady, who contracted the disease. Our esteemed Guelph contemporary has been a little too previous in this instance, and should not be so ready to attribute discreditable motives to other journals. It is quite possible that there may be people who suspect that its attack on the Champion is as not without a motive, and a not very creditable one either.

Courts.—The County Court and General Sessions of the Peace will be held at the Court House on Tuesday, the 8th day of December.

Education.—The Acton Board of Education advertised for three teachers and had seventy-three applications. Miss Hattie G. Jelloy was re-engaged for the second department at a salary of $300; Miss Annie Mahaffy for third department at $250; and Miss Lena Dorland for fourth department at $225. Total $775. Milton's total for the second, third and fourth departments is $950.

County Bridges.—The County Council of Peel at its November session held last week introduced a by-law to declare that the bridge over the River Credit on lot 8, con. 4, in Streetsville, be a county bridge. The by-law was read a first and second time and referred to a committee of the whole. The committee rose without reporting. Bolton bridge, built by the County Council, and the land adjacent, cost $2,115.

Simcoe Lime Juice.—A prominent Halton Scott Act man returned a few days ago from a trip through Simcoe County. He reports that he and a friend drove up to the door of a hotel there, went into the bar-room and asked for lime juice, when they were supplied with a pretty fair sample of old rye. He says that both he and his friend were complete strangers to the hotel people, but in Simcoe almost anyone can get all the liquor he wants without any awkward questions being asked.

Legal.—Frawley v. Parkdale and Toronto.—This was an action tried at the assizes held in September last, resulting in a verdict for the plaintiff for $1,500 damages, and on Thursday of last week Bain, Laidlaw & Co. obtained an order *nisi* in the Divisional Court, Common Pleas Division, before Cameron C.J., Galt, C.J., and Rose, J.J., to enter the judgment against Toronto as well as against Parkdale. Mr. McLaren for Parkdale, also obtained an order *nisi* to set aside the verdict against that corporation.

Waterdown School Board had a protracted meeting on Wednesday evening of last week. It was long after 10 o'clock before the reading of the numerous applications and testimonials of teachers were read. After careful consideration Mr. T. Otway Page, of Port Perry High School, was appointed Headmaster or Principal of the High School. Mr. G. V. McLean, of Toronto, was appointed assistant High School teacher. Miss Eliza King, of Dundas, teacher, was chosen teacher of third division, Public School, and Miss Bella Moore, of Caledonia, teacher of the fourth division. Mr. W. N. Stevenson and Miss Fraser retain their old positions. This infusion of new blood, it is hoped, will be beneficial.

A Successful Sale.—The auction sale last Friday of the farm stock and implements of Mr. Marshall Holmes, Nassagaweya, was a grand success. Prices were very high; one grade heifer, two years old, bringing $112, and a yearling steer, $93, the sale netting about $3,000. Mr. Holmes was much gratified by the liberal patronage given him by his friends and well satisfied with the management of his sale by Mr. E. Chapman, auctioneer, assisted by Mr. Wm. Burger. Considering that the sale was in the hands of two such able auctioneers, it is no wonder that it was successful. Mr. Holmes recommends such of his friends as may contemplate holding sales to secure the services of either of these gentlemen, as they both thoroughly understand their business.

A Chapter of Accidents.—Herbert Litchfield took the lead by accidentally getting the four fingers of his left hand caught in one of the plaing machines in Mr. R. B. Tait's planing factory on Monday last. Dr. Urquhart was called, and dressed the badly torn fingers, from the first of which a small piece of fractured bone had to be removed. The operation was very painful.....At the same planing mill on Wedesday following, Robt. B. Tait, jr., had the misfortune to lose his right thumb by accidentally getting it caught in a machine called the "frizer." This accident was an unusually painful one as the thumb was badly smashed, necessitating amputation. Dr Sutherland administered to this case.....The day Henry Brown, who is employed at Mr. McDonald's planning mill had a sliver run into his right eye.—Oakville Independent.

Lost in the Fog.—A fishing boat belonging to the Jacksons, of Bronte, left Bronte on Wednesday of last week to go out to the nets. The boat had three men aboard and the nets were reached and lifted safely. About 6,000 ciscoes were taken in the nets. Before the fishermen could reach port a heavy fog settled on the lake and they could only steer by the run of the waves. The wind shifted before long, and then they lost their way entirely. During the night the wind increased to a gale and the fishermen never expected to see land again. Their boat was a stout craft, and at 4 o'clock this morning they finally came within sight of the light at Burlington Beach. In the first attempt they missed the piers and nearly went ashore, but on another trial they got safely inside the piers and turned in at John McNeil's Lakeside House. To-day they sold their fish and are waiting for better weather to get home. There was much alarm in Bronte over the missing boat, but a telegram from Burlington this morning explained the absence of the men, one of whom was married but five days ago.—Times, 18th inst.

The Old Trick.—The hayfork swindlers are still in the county. Word reaches us this week that a couple of oily-tongued scoundrels on Mr. John Thomson, of Washington, on Monday of last week and induced him to become agent for their forks. Mr. Thomson gave them a note for $300 as payment for a number of the forks and signed another paper which also turns out to be a note for $800. On the Wednesday following one of the men, accompanied by another party, came to his place and offered to sell him the notes at a large discount, which aroused his suspicions. He then made enquiries and ascertained that he had been swindled. The hayforks are lying at Drumbo station to his address now. Mr. Thomson is a rather easy going gentleman well advanced in years and feels very sore about the loss of his $800. As the courts have over and over again been called upon to decide in similar cases, with only only one result, the only thing Mr. Thomson can do is to "grin and bear it." He will have to pay the notes when they become due.—Woodstock Sentinel-Review.
