ARE DENTAL IMPLANTS RIGHT FOR YOU???

Dental implants have been called the "next best thing to natural teeth" because they act as a secure anchor for artificial replacement teeth and eliminate the instability associated with surface adhesives and removable partials and dentures. Dental implants may be the solution if you:

- Have lost some or all of your natural teeth
- Are unable to chew properly with conventional dentures
- Are unable to wear dentures for physical or personal reasons

Implants can provide distinct advantages:

- Improved appearance
- Better chewing, digestion and enjoyment of food
- Reduction or elimination of denture movement
- Increased comfort, confidence and self-esteem

Implants are a thoroughly tested, safe approved alternative to traditional removable dentures and partials. Perhaps they are right for you? Call us for a free consultation.

NOISES AND YOUR SLEEP

Noise does not have to be loud to be harmful, it could take as little 60 decibels (the level of a quiet air conditioner) – to prod us from deep to superficial sleep without our knowing it, interrupting R.E.M. Cycles and leaving us to face the day fatigued and unfocused. Sleep deprivation from various noisy sources has been blamed for the thousands of highway and industrial accidents each year. The Hearing Clinic specializes in noise alleviating ear plugs, for more information please call today. For more information feel free to call...
