THE CANADIAN CHAMPION.

MILTON, DEC. 9 1886

WE must apologise to our readers for the small amount of reading matter on our second and third pages this week owing to the inroads made on our space by our advertising patrons. We have endeavored to make up for this by issuing a supplement which will be found to contain our reports of the county council proceedings, Scott Act trials and the bulk of our local and other news.

TIRED OF THE SCOTT ACT.

The resolution of the Norfolk county county council respecting the Scott Act which was read at the meeting of the Halton council on Tuesday was: Whereas the Act known as the Scott Act has been in force in this county for over a year, and has been a loss of revenue to the different municipalities of over $2,500, without restricting the use or sale of ardent spirits, which are at present sold in as large quantities or larger quantities than was the case under the Crooks Act, and the license commissioners have made a demand for $728.66 as the estimated cost of enforcing the Act for the present year, with no guarantee that the sum required will not be two or three times as large; be it therefore resolved by this council that a repeal of Act and a return to a well considered license act, discriminating in favor of wine and beer, would be in the interest of morality and temperance, and would put an end to the discord and strife that are at present, and have been since the passing of the Scott Act, disturbing the community, and which appear likely to increase in the future.

Be it further resolved that the clerk of this municipality be and is hereby authorized and instructed to forward a copy of this resolution to the Dominion Government and the legislative assembly of Ontario, and also to the clerks of the different counties in which the said Act was in force, to be laid before their respective councils, asking their aid and co-operation in this matter by passing a similar resolution, to be forwarded to the Dominion and local governments.

Accompanying this resolution was a blank form of memorial and a statement to the effect that the Norfolk municipal elections had been avowedly carried on as a test of the feelings of the county on the temperance question, the result being that the resolution was carried by fifteen votes to five.

There was also the following memo., to which attention was particularly directed:

"County of Norfolk.

Required to carry out the Act for one year, two-thirds of the gross amount	$728.66
Add one-third Government expense or half of County	364.33
Total expense from Government and County	$1092.99
Annual loss of revenue to Co.	2500.00
	$3592.99

If all the Counties in Ontario pass the Act, being 47 in number, the cost of the experiment will be per annum $168,870.50."
