THE Civil Service baseball club of Toronto went to Oakville yesterday and defeated the White Oaks of that place by a score of 14 to 10. The White Oaks scored all their runs in the seventh and eighth innings by bunching their hits, and errors on the part of the visitors.

A RAILWAY SMASHUP.—A special train loaded with salt, hides, etc., left Hamilton at 3 a. m. on Friday last, in charge of conductor Thos. W. McCabe. Near Lawson's mills, about four miles north of Milton, some shunting had to be done, and the train was left standing on the main track while the engine was detached and was engaged in shifting cars on the siding. The brakes lost their grip and the heavy train of sixteen cars started down the heavy grade back to Milton. When it reached the C. P. R. crossing here it was going at a tremendous speed and it ran into, at right angles, a C. P. R. freight, which happened to be crossing at the time. There was a tremendous smash. The south end of the caboose in which conductor McCabe, the only man left on the N. & N. W. train, was sitting and which was the first to strike, was smashed into kindling wood, as was also a cattle car through which it bored its way. Conductor McCabe escaped with his life by a miracle. Four fine steers were thrown about ten yards from the diamond, three of them being killed instantly and the back of the fourth being broken. A number of other cars were more or less smashed, the runaway train suffering more than the other, and there was quite a mountain of wreckage, the damage amounting to about $50,000. Conductor McCabe was badly hurt. He has been in Milton ever since, but we are happy to say, is now able to be out again. Signalman David Downie was the only man beside the conductor who was injured. He was standing at the lever of the semaphore on the south side of the C. P. R. freight and knew nothing of the approach of the runaway cars until he found himself beneath a pile of wreckage, with his head badly cut and his body bruised. His escape with his life was as miraculous as that of the conductor, but his injuries did not keep him long away from his duties, which he resumed on Tuesday. The C. P. R. track was cleared so that trains could pass by noon on Friday, but the N. & N. W. was blocked until after night.

CRICKET.—The match on the court house square on Monday between the Burlington and Milton cricket clubs attracted a large number of spectators. The visitors played a strong game. McKenzie, Wright and Cole batted well for their respective scores, and Cole's bowling was very effective. For Milton Scott particularly distinguished himself by his two fine "not out" scores of 24 and 21, and Howson, Reeves and R. S. Heaven made difficult catches. In Burlington's first innings only one run was made off Panton, who bowled throughout it. The game was very exciting towards the close, Milton winning by 4 runs.

The distressing paleness so often observed in young girls and women, is due in a great measure to a lack of the red corpuscles in the blood. To remedy this requires a medicine which produces these necessary little blood constituents, and the best yet discovered is Johnson's Tonic Bitters. Price 50 cts. and $1 per bottle, at Watson's drug store, Milton.

A collision occured one mile from Chattanooga, Tenn., between a switch engine and a passenger train of the East Tennessee Railway yesterday. The speed of the train could not be lessened before the collision occured. John Burgess, the passenger engineer, and Wm. Bradon, his fireman, were fatally injured. Many passengers were hurt and some may die from their wounds.

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of consumption, bronchitis, Catarrah, Asthma and all throat and lung affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers, in thousands of cases has felt it his duty to make it known to his fellow sufferers. Actuated by this motive and desiring to relieve human suffering, I will send free of charge, to all who desire it, this receipt, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. Noyes, 149 Powers Block, Rochester N. Y.

They have a new drink in Kansas, where prohibition is supposed to be in force, named clarigue. It is called a temperance beverage and is not intoxicating, but it has a curious effect on the eyes, giving one moon the appearance of two, and it also affects the lower limbs in such a way as to make locomotion extremely difficult. It is believed to contain an oriental sleeping potion, as people who drink it seem willing to lie down anywhere and take a nap. If so, it must be considerably worse for the system than old-fashioned tanglefoot.
