THE CANADIAN CHAMPION

MILTON, OCTOBER 13, 1887

LAST week the Georgetown Herald, in common with the other Scott Act organs of the county, published the slanderous press despatch from Burlington, which charged the Anti-Scotts of that village with having fired the shop of a prohibition painter. This week it tells us that a brick was thrown by a Georgetown hoodlum through the door of the house of Mr. Gibbs, a well known Anti-Scott, smashing a valuable piece of plate glass. The Scott Act people of Georgetown might just as reasonably have been charged with the outrage as the Anti-s of Burlington with the incendiary fire, but the partizan Herald did not see it that way.

One Result of Prohibition.

An argument frequently urged against the prohibition of spirituous liquors is that many people when deprived of their accustomed alcoholic stimulants turn for consolation to the use of narcotics, the result being the contraction of a far more dangerous habit than even the excessive use of intoxicants. That this argument is well founded is proved by the following item, clipped from the columns of the *Presbyterian Review*, a prohibitionist journal:

"In Iowa the department of Public Health recommends that the sale of opium be prohibited, on the ground that there are 10,000 confirmed opium eaters in the State and the habit produces more suffering and fatality than alcoholic liquors."

It is hardly necessary to say that Iowa is a prohibition State, and we have told that it is claimed that in Iowa prohibition is more successfully carried out than in any other part of the Union.

Hog Cholera in Illinois.

GENESEO, Ill., Oct. 8.—Within the past three weeks over 500 head of hogs have died of cholera in Western Township. The disease is slowly spreading, and is taking both old and young hogs. The loss from this cause to the farmers of Henry County this fall already amounts to $12,000. The disease exists in Phenix, Edward, Wethersfield and over Western Kewanee and Loram and other townships in the county. The loss, coming on the heels of the drought, is very severe on the farmers.

Refusal to Pay a Scott Act Magistrate's Salary.

The Warden of Bruce County has, upon taking legal advice, refused to pay the salary of the recently appointed Scott Act police magistrate for that county. The ground taken is that no salaried magistrate can be appointed by the Government unless the County Council affirms the expediency thereof, and this the Council of Bruce County has refused to do.

Bad Railway Accident.

SYRACUSE, N. Y., Oct. 11.—A dispatch to the Journal dated North Judson, Ind., Oct. 11, says: Just west of here last night a fast freight train ran into the rear of an express train. Four or five cars were burned, including a Pullman. Fifteen to twenty persons are dead and many were injured.

TOWN COUNCIL.

A regular meeting of the Town Council was held on Monday evening last. His Worship Mayor Hannant in the chair. Members present—McCollom, Stewart, McKay, Hemstreet and Roper.

The Finance Committee presented report and recommended payment of the following accounts: Campbell & Panton, printing by-law, denentures, &c., $165.25; Insurance, $64.00; total, $229.25.

Report adopted.

The Finance Committee also presented the estimates for 1888, as follows:

LOWVILLE.

An attempt is being made here to organize a foot ball team. We hope that it may not meet with the same fate as our baseball club, which has apparently died a natural death.

The social at the residence of Mr T. Colling, on Monday evening last, in aid of the C. M. Church, was a very fair success in spite of the threatening weather, the proceeds amounting to about $19.

There seems to be a great attraction in the direction of Newton's corners for for at least one of our wise young men as he can be seen wending his way in that direction. There is an old proverb that birds of a feather flock together.

Mr. W. D. Morse, our enterprising paint manufacturer, intends putting a new engine into his factory this fall. The mill is situated on the Limestone creek about one mile from this village, and hitherto has been run by water power. During the past summer, owing to the drought, the water has been so very low that he has been unable to run it more than a third of the time.

This mission has been without a clergyman since the Rev. Mr. Motherwell left in April last—the bishop sending students out to conduct the services.

At a meeting of the members of St. George's Church on Saturday evening last, the matter was fully discussed, when it was decided to close up the church (except for Sunday school) after Sunday last, until the bishop should be able to send a minister here. It seems to be the general opinion that this was a most imprudent action, as the members thus left to their own resources will go to other churches, and when this church is re-opened it will take considerable time to build up a congregation. A few of the members made a slight raise in their subscriptions towards a minister's salary. We are sorry that the church is closed, but hope that it will not be so long.

Senator Senecal died on Tuesday.

Sir Charles Tupper arrived at Halifax on Sunday.

Typhoid fever continues very prevalent in Hamilton.

Mr. Villeneuve, M. P. P. for Hochelaga, has acknowledged bribery by agents.

The Manitoba Government has issued bonds to raise money for the Red River railway.

A farmer named McClure died very suddenly at Birtle, Man., by the bursting of a blood vessel.

John F. Morrison was found guilty of bigamy at the Ottawa Assize Court on Saturday. Sentence was deferred.

The Canadian Pacific railway authorities claim that the company has sufficient cars to move the grain crop of Manitoba.

Her Majesty has conferred the honor of knighthood upon Chief Justice Wilson, of the Court of Queen's Bench of Ontario.

Sir Charles Tupper, at Montreal yesterday, said he intended to run in Cumberland again as Minister of Finance, and that Sir John would almost certainly be Fishery Commissioner.

A petition with 6,000 signatures attached, has been presented to the Government asking that an election for the repeal of the Scott Act shall be held in the united counties of Stormont, Dundas and Glengarry.

The latest statement of Dominion revenue and expenditure is as usually favorable. For the three months ending with September there is a surplus amounting to $1,239,636. This must be encouraging to the C. P. R. people, the French Canadians, and the subsidy-grabbers generally, for whose benefit our taxation is principally levied. It won't take them very long to get away with a little surplus like that, and add a few millions to our rapidly increasing debt into the bargain.

HALIFAX, Oct. 10.—The election court met at Amherst at three p. m. to-day, having, with the consent of counsel, adjourned from ten a. m. Judge McDonald presided. The adjournment was to enable the respondent, Sir Charles Tupper, to be present. The petitioner, Mr Pipes, and Sir Charles were both present in court. Mr. Congdon, for the petitioner, stated that he had on Sept. 26th received notice submitting bribery by agents of the respondent. Mr. Townsend, for respondent, then made the same admission in open court. Judge McDonald at once gave judgment that the election of Sir Charles Tupper was null and void and that the costs in the case be defrayed by the respondent. The prohibition party in Cumberland have called a convention at Amherst for the 18th to nominate a candidate in the coming election.

Anti Disallowance Society.

A number of leading men in Winnipeg have formed themselves into an Anti-Disallowance Society, for the purpose of opposing the present policy of the Dominion Government and giving all the aid possible to the Manitoba Government in asserting the rights of the Province. The chief plank in its platform is as follows:—"We resolve to use all justifiable means to resist the present invasion of rights intended to be secured to every province of the Dominion by the British North America Act. And we hereby affirm that the policy of disallowance of local charters for the construction of railways within the limits of the old Province of Manitoba affects the national progress, not only of Manitoba and the Northwest Territories, but of the Dominion at large. It discourages immigration, and it prevents the development of trade between the Northwest and other provinces of the Dominion. In the Northwest itself, to which development of competition in railway carriage between all the provinces is essentially necessary, it is a policy of retardation. Further, it is inconsistent with the spirit of our constitution, and being in no way required by the terms of the contract with the Canadian Pacific Railway Company we demand that this policy of disallowance be abandoned."

Keeping Apples

An English periodical says that coal ashes have proved a valuable substance in which to pack apples for long keeping. The ashes are thoroughly silted, so as to give a soft material, and the fruit is then placed in alternation layers with the ashes. There appears to be one great advantage in the use of this material when kept fresh from the fire—the absence of all dampness. It absorbs any moisture of the apples tending to decay. By using plenty, changes in temperature are avoided, and the outer cold may be excluded, and freezing prevented. Eggs placed on end may be safely packed in layers in the ashes.

Young got tired of Clinching Last Spring.

Burlington Cor. Spectator.

Much concern is felt here for the safety of Mr. Panton, of Milton. the CHAMPION has failed to appear this week, and it is feared that police magistrate Young has got his clutches on him again.

Tamarac

Is not an ordinary mixture. In fact its properties are entirely different from any preparation used for Coughs, Colds, Throat and Lung Troubles.

Newfoundland is to adopt a decimal currency on the first of the new year, when her cumbrous system of £ s d. will disappear. She has been to some extent preparing for this change by the issue of $2 gold coins, and the banks, it seems, have followed suit by $2 notes.

Neal Dow has two tones to his voice. When he is away from home making speeches, he declares that "prohibition is a success in Maine." When he is at home, vainly trying to get the law enforced, he writes to a local paper that "the number of grog-shops in the city of Portland has not been diminished by even one in the last ten years."

The new high license law of Minnesota, which went into effect last July, provides that in cities containing over ten thousand population the license shall be $1,000, and in all cities, towns and villages where the population is less than ten thousand the license shall be $500. Although the law has not yet been in force three months the result is that fully one-third of the liquor sellers have been compelled to retire from the business. The only opposers of the high license law in the state are the saloon-keepers and the prohibitionists. The prohibitionists are odd people. They get up petitions and send delegations to the Crooks Act authorities of this country, praying for a reduction in the number of licenses issued, and at the same time strenuously oppose high license, which would not only reduce the number of licenses, but would make every license holder an active agent for the suppression of the illegal sale of liquor.—Spectator.
