White and Cream Lawns, Embroideries, Laces, Ribbons, etc., etc.

A pretty lot of new things just opened out at the Bon-Marche. In Lindsay's Grocery Department a load of the celebrated brand of

LIVERPOOL DAIRY SALT 50 lb. Sacks for 65 Cents.

This Salt is undoubtedly of great value in improving the flavor and keeping quality of Creamery and other butter.

THE CANADIAN CHAMPION

The license court of Philadelphia is striking terror to the souls of the saloon men. In five wards passed upon last week there and now 1,024 licensed saloons, but of these only 128 will be running after June 1. Over three thousand applications have been made from twenty-eight wards and 1,107 have been granted. Four saloons out of five in the entire city will have to shut up shop. As the law has proved so far to be a great success in the way of reducing intemperance, is popular for this reason with good citizens generally, and is likely to stay, the professional agitators who make their living out of the prohibition howl are as much disgusted as the saloon men.

Police Magistrate Young was voted $185.50 at the county council meeting on Tuesday to cover his salary and travelling expenses for administration of the Scott Act for the quarter ending on 18th April last. This amount was not included in the $1,100 demanded by the license commissioners for Scott Act expenses for the year 1888-9, nor was his next quarter's allowance which will fall due on 18th July. As all attempts to enforce the act appear to have been dropped, the Dowar case reported elsewhere having been an old one, the county is being taxed pretty heavily to make presents to the learned "Beak" and the gallant "Bouncer" for that is what voting them money means. The Dominion Government should lose no further time in giving effect to the verdict of the people of Halton by publishing the proclamation of the repeal of the Act.

Last Thursday The Montreal Witness thus gave expression to its disgust at the result of the repeal vote in Stanstead on the 30th ult.

"Once more the Scott Act has been defeated. Another county has sold itself to the liquor interest and will have to grind in the prison house of shame and sorrow for three years to come. That three years will be enough, we prophecy, in all the counties where the repeal has prevailed. The emptied jails will fill up, and weeping will prevail in many homes until the time of deliverance."

According to the prophecy of the Witness there is a blue lookout for Halton. In 1886, under the Scott Act, there were no less than 373 committals to her empty goal, the largest number on record up to that time. Last week the number of committals for the present jail year, which will end on the 30th September, had reached 471, and the Scott Act was still in force. What are we to expect when the Act goes out of operation and that empty goal fills up?

The Crank Third-Party Movement.

In the election for President of the United States in 1884 St. John, the buncombe prohibition candidate, secured just 150,633 out of a total of over 10,000,000 votes polled. In Ohio, where over 820,000 votes had been cast a couple of years before for a prohibitory amendment, St. John received 11,269, or about 3 per cent. In Kansas, where the prohibitory amendment had 92,000 votes and a heavy majority, only 4,495, or about 4 per cent. went to St. John, though when elected for governor of that State, his majority was over 115,000. In Iowa, where prohibition had been carried by a majority of 155,000, St. John got only 1,472, less than 1 per cent. All that the prohibitionists, the great majority of whom were Republicans, effected by bolting their party ticket was the election of a Democrat for President, Cleveland's plurality being 66,242, or a good deal less than half of St. John's vote.

The result of the defeat of the Republican candidate by the prohibitionist schism was an extremely bitter feeling against the St. John party among Republicans generally. St. John was accused of being a tool of the Democrat party, of having accepted money for his campaign expenses from Democrat liquor men, and of having tried to sell himself to the Republicans by offering to retire from the race on receiving $10,000. He was burnt in effigy in Kansas, Iowa and elsewhere, and it was said that in many instances the torch was applied by "temperance" men. Ministers of the Gospel who were foolish enough to meddle with the contest in his interest were boycotted by Republican flocks, and, according to a leading St. John organ, the boycott resulted in a number of churches becoming vacant. The report for 1886 of the General Assembly of the United Presbyterian Church, for instance, showed that out of 786 ministers of that body 221 were without charge, and that 265 congregations and 189 mission stations were vacant, it being alleged that the anti-St. John feeling had a good deal to do with this.

The results of the prohibition third party movement in the United States ought to be a warning to the enthusiasts who are trying to work up a similar movement in Canada. The lesson, however, seems to have been lost on the prohibition cranks on the other side of the lakes, as they appear determined to repeat their third-party experiment in the coming Presidential contest, and have selected Gen. Clinton B. Fisk as their candidate. It may be expected that the cranks of Canada will prove to be equally pig-headed, the professional agitators, who are "temperance" men for the money there is in it, will not drop their agitation as long as they can make it pay, and Canada's experience of the third-party movement will no doubt come in due time.

The Scott Act in Ontario.

WHITBY, June 4.—Reeve S. R. Murton, of Oshawa, moved in the County Council here this afternoon for a return of information on the working of the Scott Act since its adoption in this county, the county treasurer and magistrates to report the amounts granted for its enforcing and the fines imposed, when, on whom, to whom and what unpaid. J. H. McCOLLOM,
JOHN HUNTER,
JOHN JOHNSON,
GEORGE SMITH.

On motion the council adjourned.

The Prohibitionists in the United States have nominated General Clinton B. Fish as a candidate for the Presidency, and threaten to make it exceedingly warm for the two party candidates whoever they may be. It is doubtful, however, if the Prohibitionists will have such success as they had with Mr. St. John, because it is evident from the way in which many of the States have repudiated local option that a change in sentiment on the liquor question has taken place in the Republic just as a change has taken place in this country. Mr. Fish is not likely to prove a whale to the party managers.—Toronto News.

The Barber Claim.

OTTAWA, June 4.—Mr. Cassels, registrar of the Supreme Court, and Col. Chamberlain, Queen's Printer, the referees to whom the Barber claim of $75,000 for supplying the Government with paper has been referred, held a two hours' sitting to-day. The firm consisted of James and John Barber, paper-manufacturers, of Georgetown, Ont., but the former is now deceased, and the claim, which extends over a period of many years, is brought by the brother.

Surgeon Gen'l W. A. Hammond says we can each prolong our life if we learn the secret thereof. *WHAT IS THIS SECRET?* If you soak a sponge in oil, the sponge will have in it all the peculiarities of the oil. So every organ in the body contains all the peculiarities of the blood: If the kidneys, the only blood purifiers, do not clean the blood of the waste of the system, then the various organs will give out and you will have *RHEUMATISM, MALARIA, HEADACHES, AGUE, CHILLS and FEVER, IMPOTENCY, BLADDER DISEASES, LAME BACK, NEURALGIA, NERVOUSNESS, BAD EYES, STOMACH TROUBLES, BOILS, CARBUNCLES, ABSCESSES, APOPLEXY, PARALYSIS* and in women *FEMALE TROUBLES.* The secret of good health then lies in *keeping the kidneys well.* If you don't, you can't cure any of the above diseases. They may not suspect it, but eight persons out of every ten have some form of kidney defangement. The only scientific blood purifier is the famous *WARNER'S SAFE CURE*, which not only cures kidney diseases, but the *majority of ailments* which really come from unsuspected kidney disease.

A Sensation in Court.

MONCTON, N.B., June 4.—An exciting liquor trial took place in this town today. Mrs. Wallace, of the Royal hotel, was charged with violating the Scott Act. The prosecution was conducted by Scott Act Counsel Grant, before Magistrate Smith. Mr. Grant had obtained a warrant to bring Mrs. Williams to the court. She, however, came on her own account, driving up in her carriage, and carrying her heavy whip into the court house. Being asked whether she had sold liquor, she refused to answer and was committed for contempt, whereupon she turned to the prosecuting Attorney and plied the whip over his head and shoulders without mercy. Mr. Grant seized the whip, and the infuriated woman got him by the hair and pounded his head upon the table. Later she broke away from the policeman and returned to the attack. Finally, she replied to the question, saying that she did not remember having sold liquor during the time specified.

Berlin advices say that the Emperor and Bismarck are again seriously at variance, this time over the law fixing quinquennial terms for the Prussian Landtag.

There was an exciting scene in the Presbyterian general assembly at Philadelphia on Saturday when Rev. John Paxton, of New York, Jay Gould's pastor, said: "God curse the day when the negro left the sunny sands of Africa and landed on the shores of America." The reverend gentleman was met by such a storm of hisses and cries of "shame, shame," that his speech came to a sudden stop in the midst of the greatest excitement. The meeting came near breaking up in a row, and the brethren did not get cooled off all day.

A London despatch says: Lord Stanley, the newly-appointed Governor-General of Canada, was interviewed to-day at Moville, Ireland, where the steamer Sarmatian, on which he sailed, stopped for mails and passengers. Lord Stanley said that he had acquired in his experience in the Colonial Office an accurate knowledge of Canada's vast resources. He said that he was greatly impressed with the possibilities of Canada's future. He didn't go, he said, with any preconceived ideas regarding the Government or policy, and did not wish to force any policy upon the country, which possessed a responsible Government. Lord Stanley expressed his confidence in Canada's Ministry, and believed that they would cordially co-operate with the Governor-General. He was arriving, he knew, at a time when troublous questions were likely to arise, but he felt no anxiety on that account.

OLD DR. CHASE'S NEW RECEIPT BOOK.

His Last & Crowning Life Work.

Dr. Chase's Third, Last and Complete Receipt Book and Household Physician, or the Book for the Millions, contains nearly 900 pages and sells for $2.25 in cloth binding and $2.50 in imported oil cloth, marble edges, and is justly by him called

THE CROWNING WORK OF MY LIFE.

It is the result of over a half a century's observation study and experience. Yet this enormous compilation of his former books. It is wholly a new Book. If 20 years ago he could produce a book that has had the sale of over fifteen hundred thousand copies, and has made his name familiar in nearly every English-speaking home in the United States, Canada, and thousands of homes in Europe, Australia and South America, what kind of a book would or would he produce as his Crowning Life Work, with more than thirty years of additional practice and experience? The book itself answers the question, and is the most valuable production in the history of book publishing.

CAUTION! Unscrupulous and pirating publishers are attempting to copy this book by taking portions of it out and palming it off on the public as the complete work. We own the manuscript, purchased from Dr. Chase's heirs. See that you get the genuine book. See that it has our name on the title page and is copyrighted by us.
