Milton Waterworks Arbitration.

TOWN OF MILTON AND THOMAS LUSH.

W. H. Storey, J. Wheelihan and S. Hannant were sworn in as arbitrators. Mr. McGibbon, for Thomas Lush, admitted that a copy of W. W. By-law No. 158 had been served, also other papers.

Copy of a notice was filed by Mr. Elliott showing that a tender of $250 in Dominion notes had been made to Mr. Lush as compensation for the appropriation of the land and water to be taken. Tender admitted.

SHERIFF CLEMENTS was the first witness called. He stated that he had been over Mr. Lush's farm, and that the farm would be impared by the taking away of the spring to the extent of $200.

W. D. MCFERREN.—Was formerly owner of the farm but sold to Mr. Lush about a year ago. Knew the spring in question. He did not consider it as any great importance while the spring exists that supplies the house and barn, and considered the damage to Mr. Lush would be $250.

W. N. SCOTT considered $200 a fair value for spring and $10 for 1/5 of an acre. He (as) said the spring known as the "Gallagher spring" and an acre of land and the right of way for $250.

JOHN DYMENT did not think Mr. Lush could be compelled to more than $150 for the taking of the spring and the two wells. He considered the value would be the cost of a good well and windmill.

MR. ELLIOTT, on behalf of the corporation, closed his case.

THOMAS LUSH, the owner of the farm, thought taking one year with another the spring was worth $100 per year to him, but could not estimate the damage to him of the loss of the road. He said that if he was deprived of the Gallagher spring it would be worth $25 to him, and the effect of taking the water from those two springs would be to deprive him of a supply of water except the spring which supplies the barn. He considered the damage to his orchard by taking away the spring to be $25 a year, and put the loss of the 1/5 of an acre at $300. He said that he offered to take $1000 from the waterworks committee, or a deputation from Milton, as full compensation, but never agreed to take the case as McFerran.

ISAC CARTMER.—I should estimate Mr. Lush's damage at 6 per cent. on $100 capitalized for the one spring and his loss of the Gallagher spring at $25 per year.

Cross-examined.—Intended my estimate when capitalized at 6 per cent. as being $1000 to cover the loss incurred by taking the Gallagher spring also; could not say whether there will be sufficient water to water Lush's cattle after taking spring in question; if there was, of course there would not be damage I just stated; my estimate of the damage is from the supposition that the corporation is going to take the whole of the water he now owns in the running streams.

J. P. WALKER considered the stream passing through to water cattle as worth $1000; but if there was enough water left to water cattle the damage would not be so much.

HENRY MCMASTER estimated the value and damage of taking the water at $600.

WILLIAM SHIELDS.—If both streams were taken from Lush, including 1/5 of an acre, the damage would be $800 or $1000; supposing there is enough left from soakage and overflow to water cattle, the damage to Lush would be very little.

W. H. WALKER.—I formerly owned the farm, and if the farm was still mine I would not take less than $1000 for the spring.

JAMES MCMASTER thought $600 for the spring a reasonable damage.

JOHNSON HARRISON valued the spring proposed to be taken at $1200 to $1400.

P. WALKER valued the damage at $800 or $1000, and based his estimate on the presumption that all the water is taken.

JOSEPH HARRISON.—Live next the Lush farm, and have heard the evidence of my father, Johnson Harrison; consider the loss to Lush would be $800. He based his estimate that all the water is taken.

GEO. COTTRELL considered $1200 to $1400 about right. He estimated the damage owing to any improbability of getting water every place by digging.

Arbitration adjourned until to-morrow.

Pleuro-Pneumonia.

TARA, ONT., June 24.—On the farm of Mr. Jesse McInnis, Sullivan township, Grey county, yesterday afternoon, Dr. F. A. Thomas, veterinary surgeon of this village, discovered undoubtless contagious pleuro-pneumonia. The disease made its appearance two weeks ago, and two valuable cows died without Dr. Thomas being able to satisfactorily diagnose the case. Before these died a third one was taken sick and died yesterday, and a post mortem examination clearly revealed pleuro-pneumonia of the contagious type. A fourth animal is now under treatment, but a carefully isolated, and Dr. Thomas hopes to be able to prevent the disease from spreading in the neighborhood. During the year several farmers in Artau and other townships surrounding here have lost cattle, Dr. Thomas is convinced, from this disease, but their death was attributed to poison or other cause at the time.

All of which is respectfully submitted.

Moved by G. Smith, seconded by G. A. Homstreet, that it meets with the approval of the engineer the water from the Lush spring be taken in to the tank by an iron pipe under the roadway leading to Lush's quarry.—Carried.

Moved by D. McKay, seconded by John Johnson, that the fire and water committee be instructed to report on the best kind of a hose tower or other suitable building, also the probable cost of building at the next regular meeting.—Carried.

Moved by G. Smith, seconded by G. A. Hemstreet, that in accordance with the recommendation of the engineer relating to fire protection in the south ward, be be requested to order the contractor of the waterworks to lay pipe from Main Street to Mary Street West, and have a hydrant placed at or near Mr W. Dandie's corner, that the w. w. committee be authorized to get permission from the owner or owners to lay the pipe across the lot from Main to Bowes Street, and that rule 7 be suspended for this purpose.—Carried.

Moved by G. A. Homstreet, seconded by R. Jones, that the time be extended to next regular meeting of this council for receiving applications for water from any person residing on any street, the fee of $5 required by by-law to be paid to the clerk as soon as the mains are laid.—Carried.

Moved by G. Smith, seconded by J. H. McCollom, that the clerk be instructed to write to Mr. Bell, engineer, requesting him to come down on Thursday or Friday of this week and be prepared to submit to the committee an estimate of the probable cost of piping instead of an open ditch from springs to reservoir, and for the purpose of meeting the committee and council and to report on any other matters in connection with waterworks.—Carried.

On motion the council adjourned.

Mr. Morley's motion to censure the Government's administration of the Crimes Act was voted down by 366 to 275.

LOCAL NEWS.

THERE will be a splendid programme for the evening of July 2nd, at the concert to be held in the Town Hall, Milton.

THE news from Oakville is that the strawberry crop in that district is immense. It will commence to move this week, when large shipments will be made. Prices will take a tumble.

NOT SOLD.—The 100 acres known as the "Kentner Farm," Trafalgar, was advertised to be sold here on Saturday last, but no bids being given the property was withdrawn from sale.

ANOTHER large importation of Gents' Merino socks, suitable for spring wear, just received. Price and quality unsurpassed. Splendid value at 15 and 25 cents per pair.—Treble's, corner King and James Sts., Hamilton.

DR. MASON, of Oakville, was set upon by a gang of ruffians at a German picnic at High Park, near Toronto, on Monday, who beat him in a terrible manner. His nose was broken and his body and limbs bruised by the kicking he received. Warrants have been issued for the arrest of the parties implicated.—Hamilton Times.

A FALSE ALARM.—Our town bell gave us fast night between 8 and 9 o'clock something like the usual signal for fire. People of course were alarmed, and some rushed out of house to see the whereabouts of the conflagration, and help if they could to save life and property. It was found, however, only to be a call for the assembling of fire brigade for the transaction of business in the town hall. If the bell is to be employed for calling them together for such a purpose on further occasions it might be well for them to adopt some distinctubulary signal which has no resemblance to that for fire, and less likely therefore to frighten the nervous people of the town.—COM.

FIRE COMPANY.—A public meeting was held in the town hall last evening for the purpose of organising a fire company for the town, Dr. Robertson occupied the chair. There was a large number present, and the following officers were elected:

HOSE AND REEL CO'S.

Richard Jones, captain.
M. E. Mitchel, Lieut. (Reel No. 1).
Chas. Jones, " " " 2
A. G. Nedham, Sec.-Treas. of Hose & Reel and Hook & Ladder Co's.
Wm. McKenzie, Captain of Hook & Ladder Co.

There will also be piano and vocal music, with probably a suitable reading or two, all of which, with the strawberries, &c., &c., should make a melange creditable to the ladies of Grace Church, under whose auspices the entertainment has been arranged. FIRST CUTTING OF THE SEASON.—Test of the new light steel binder manufactured by Johnson, Son & Co., on the farm of Mr. Wm. Harrison, near Milton. Read the following testimonial:

MESSRS. JOHNSON, SON & CO.:

GENTLEMEN,—The test of your light binder (right had cut) on Mr. Wm. Harrison's farm, near Milton, was most satisfactory in every particular. It was tested in a field of green rye about five feet in height, and did its work well, drawing very light. It was drawn by two three-year-old horses, weighing 1725 lbs., the team. The machine passed through several gates, measuring less than 11 feet, without stopping or foldjng. The test was a severe one, and the firm are to be congratulated in turning out such a fine machine.

I certify the weight of the above team to be correct.

BURGLARS AT STREETSVILLE.—About 2.30 o'clock Saturday morning William Graydon, storekeeper and postmaster, and his son, William J. Graydon, were sitting in an upstair room of their house, when they heard a rustling in the garden. Looking out of the window they saw two men peering through the glass of a French door on the ground floor. The Graydons slipped downstairs and went out of the back door, intending to attack the trespassers in the rear. As soon as the two men saw them they started running, but were pursued by the father and son. Finding that they were being overtaken, the two would-be thieves fired three shots at their pursuers. All of the bullets hit Graydon, sr., one taking effect in the right hand, one in the left shoulder and the third in the right leg. Young Graydon continued the pursuit and overtook one of the men. Seizing him he wrested the revolver from him and in the scuffle knocked his hat off. The second robber then returned to the assistance of his comrade and between the both of them they beat Graydon off and escaped, leaving the revolver and a hat belonging to one of them in Graydon's possession. Meanwhile several of the villagers having heard the revolver shots, had hurriedly dressed and come to Graydon, sen.'s, assistance. They found that he had fainted from loss of blood. He was carried into his house and Dr. Wood and Dr. Clendenning sent for. It was found that the shot had taken effect in the left shoulder had glanced downwards, perhaps causing serious internal injuries. Mr. Graydon is doing as well as can be expected. The men were traced as far as Cooksville. The revolver is a "British bull-dog," and bears on the right side of the barrel the letters "H. R." evidently scratched with some sharp instrument. All of the chambers were empty when the weapon was found. The Peel constabulary have been informed of the occurrence. The men are thought to be a couple of hard characters who have been prowling around the village for a week past. The other day one of them was found in Mrs. J. G. Owen's kitchen during the cook's absence. He said he was "looking for work," but was "fired" by a stalwart stableman in quick order. Up to the present time there no new developments in the case. Since the encounter Mr. Wm. Graydon has been getting along very well, and at last accounts his condition was favorable.

OREGON AND WASHINGTON.

No section of the country is to-day attracting as much attention as Montana, Oregon and Washington; Montana, because it now ranks first in the production of precious metals; Oregon, because of its rich valleys, and Washington Territory by reason of its mild climate, timber, coal, minerals and wonderful production of fruits and cereals. The rapid growth of Spokane Falls, with a water power exceeding that of Minneapolis; Tacoma, on Puget Sound, the terminus of the Northern Pacific Railroad, with 12,000 inhabitants; Seattle, 30 miles distant, an energetic and thriving city, mark this section of the Pacific Northwest as one that offers peculiar inducements to those seeking new homes.

By writing Chas. S. Fee, General Passenger Agent, Northern Pacific Railroad, St. Paul, Minn., he will send you illustrated pamphlets, maps and books giving you valuable information in reference to the country traversed by this great line from St. Paul, Minneapolis, Duluth and Ashland to Portland, Oregon, and Tacoma and Seattle, Washington Territory. This road, in addition to being the only rail line to Spokane Falls, Tacoma and Seattle, reaches all the principal points in Northern Minnesota and Dakota, Montana, Idaho, Oregon, and Washington, possesses unequaled scenic attractions, as well as superior train equipment, such as dining cars, and colonist sleepers for the use of intending settlers, neither of which conveniences are to be found on any other line ticketing business to the States and Territories named. 47-10ms.
