Butcher, the man who stole most of the funds of the Union Bank in Providence, is under his wastebler, and fled to Canada, and whence apparently been little abashed at the public knowledge of his rascality. He is said to have pointed by boasting that he had been accused of smoking and drinking. The bad man is now in strenuously denouncing Mr. Butcher doubtless as regards the robbery of the bank, in comparison with that of which he is accused, contrasts with that of Mr. Yet, we do not understand vergence of opinion that it is thinking which leads to crime.

The Central Bank depositors expect to have accepted certain terms for the payment of their claims, on or about the 1st of October. It appears certain that the depositors will receive a large proportion of their money, and possibly more than the financial statement to date shows, inasmuch as the credit of the bank stands at the end of the year at $242,000, and additional assets are shown to the amount of $242,000. The liquidators expect to complete their labors by June next.

The accident which happened to Mr. William Worthington at Hamilton a few years ago was a very painful one, and since results were for some time feared. It seems the lady's dress caught fire from a lighted match that had been used and carelessly thrown down. In a few moments the material was all ablaze, and the unfortunate lady was painfully burned about the upper part of the body. Her mother, Mrs. Goodman, Hamilton, was with her at the time, and in her efforts to put out the flames had her own hands badly burned.

Lewis and Wm. McDowell were up in Toronto on Friday on the charge of stealing a quantity of the property of the Toronto Electric Light Company. The prisoners were found guilty to suppress the evidence of the theft. They concluded it would be better to have the wire carried away in the dark within half a mile. The cows were cut and the wire taken to Woodstock. The prisoners were arrested shortly afterwards and brought back to Toronto. They were committed for trial.

The arrest of Mr. O'Kelley, Lord Mayor of Dublin, and other prominent Irish Nationalists, who are to be tried to-morrow for violating the Crimes Act, has suddenly staggered the Irish Nationalists, who had recently been inclined to relax his vigorous policy in Ireland. The arrest is taken as evidence of the Irish Executive's intention to follow up the coercive measures with a view to thoroughly suppressing the League and putting an end to the tyranny of the executive.

A rich farmer of Leacherville has made a valuable discovery in his farm, in the shape of a greater number of silver pieces amounting to $400. The treasure for the most part bears the date of 1814, and it appears, hidden away in an old iron pot, which the Mr. Louis Hyppolite Lafontaine, the weight of the money found being twenty five pounds, and although the greater part are dollar pieces. It was proved to be the owner of the money, but the place where it might be pilfered by some is in the treasure, a handsome thing, but hidden the treasure in the barn, which was shortly after destroyed by lightning, and the place of safe keeping subsequently lost sight of. Be this as it may, the finder is quite elated over his fortunate discovery.

Dundas, Ont., July 30.—Fred. Hill, night station master and operator at Wallace Grace, were arrested here this morning, and have been lodged in Wentworth jail on a charge of pilfering merchandise from the freight house. Goods have been missed for some time past, and the detective, was sent up from Hamilton to look after the matter. He has been about the town for a week past in the disguise of a tramp, and last night secured a place in the freight shed, and his watching was rewarded by discovering the two men engaged in the shed breaking open and helping themselves. Both were arrested, and this morning were taken to Woodstock. They will appear before the police magistrate on Friday.

Hamilton, July 31.—While Mr. Margaret Crooks, a widow who maintains herself and five small children by selling milk, was standing in front of her house on Saturday night about 10 o'clock talking with some neighbors, she was struck a terrible blow between the eyes with a large piece of hard clay and stone. So heavy was the stroke that she fell to the ground, to the great surprise of the other women, who had been suspecting nothing of the sort. Her face and head were covered with blood, and as she regained consciousness and saw herself blood streaked from a wound between the eyes. Since then she has been in bed and her face and head are very terribly bruised and disfigured. Her nose was broken by the blow but fortunately her eyes were not injured. It is thought that the missile was thrown by someone who had a spite against one of the women with whom she was talking, on account of her giving evidence in a liquor case.

Scarlet fever is a specific poison which emanates from the person of the patient, and can be caused by no other means. Diphtheria is contagious, but may arise from fermenting filth, etc. Typhoid fever and Asiatic cholera are not directly communicable from person to person, but are spread by the dejecta of their victims, which contaminate the the water supply.

The adjourned charge against Spiers came up for hearing yesterday before the mayor and Austin Willmott, J. P. A number of witnesses proved the purchase and sale of liquor from the defendant at the C. P. R. hotel on Saturday night last. The case was adjourned to obtain the evidence of witnesses who were subpœnaed and failed to appear. Further charges are laid against the defendant and will be heard to-morrow.

COW BY-LAW.—Mr. Arthur Pitcher, pound-keeper, had a financial boom last week. A farmer in Esquesing missed a number of young cattle that were being fed at the expense of the county, they having walked deliberately into the town in contravention of the by-law and to the gratification of Mr. Pitcher. The farmer called around on Saturday evening and tendered $16 to pay the expenses incurred by the visitation of his cattle, which amount found a safe depositary in Arthur's pocket. Some town cows were also impounded, making in all $19 for the week.

A FAIR FOR FREELTON.—Some live men residing in and near Freelton are agitating for the establishment of a grand union Fair, to be held there early in October. The village is located in the centre of an important agricultural community, and by the proposed show no less than six townships would be served, namely, Nelson, Nassagaweya, Puslinch, Beverly, East Flamboro' and West Flamboro'. The two Flamboro's and Nelson have for several years had fairs of their own, at places which were not convenient for residents in the upon portion of these municipalities.

COMMITTED FOR TRIAL.—Constable Search, of Georgetown, arrested William Anderson and Amanda Newton on an alleged charge of stealing and disposing of a diamond ring valued at $100 and belonging to Mrs. Mark Barber of Georgetown. It is alleged that Amanda stole the ring and William disposed of it to Mr. Charles Clark of Georgetown for $5, and to have the privilege of redemption on payment of $6. Both prisoners were committed for trial on Monday by Messrs. McLeod and Ruston, J. P.'s, and brought to jail on Tuesday by Constable Search. Amanda was also committed for stealing a waist from Mrs. Barber. Both prisoners were arraigned on Tuesday before the judge and pleaded not guilty. Trial fixed for Wednesday.

MAYOR'S COURT.—On Monday afternoon Mayor Robertson and Austin Willmott, J. P., held a levee for the hearing of an information, dated 28th July, made by Inspector Brothers against William Spiers for unlawfully selling liquor without a license. Information read and defendant pleaded "not guilty." Mr. Matheson, Co. Attorney, appeared for the prosecution, and asked for an adjournment, on the ground that the prosecution did not have time to subpœna witnesses. Adjourned to Wednesday. The hearing of a charge against Mrs. Robt. Armstrong for selling liquor without a license was then proceeded with. She pleaded guilty and was fined $50 and costs, or 30 days in gaol. Mrs. Robert preferred the 30 days, and was escorted to Castle Van by Constable Peacock.

ARMSTRONG'S SHEBEEN, OR THE C.P.R. HOTEL, RAIDED AT LAST.—On Saturday evening last, about 11 o'clock, Inspector Brothers, assisted by Constables Crow, Peacock and Fields, made a raid on Armstrong's shebeen, or better known as the C. P. R. hotel, and captured a large quantity of whiskey, bottled ale, kegs of lager, a bottle of wine, glasses and measures. The quantity of stuff seized shows what an illicit trade was being done. This place was built up and fostered while the Scott Act was in force in this county and has borne the reputation of doing the largest shebeen business of any in the county. It was raided under the Scott Act, Mrs. Armstrong fined, but the fine was never collected nor the penalty enforced, and the place was allowed to have full swing. William Spiers, who ran a shebeen in the old Farmer's Hotel under the Scott Act, transferred his business to the C. P. R. hotel, until Robert Armstrong laid a charge against him for an assault, when he left for a few weeks. He returned last week and was again making things lively. At the time the raid was made, none of the visitors were arrested, but rumour says that about 50 persons were in the house. A former Scott Act constable was in the house at the time, who made off with a keg of lager, which was drank on Sunday. A large number of bottles were purloined by the crowd.

WALTER LAWRENCE'S BODY RECOVERED.—Every day since the drowning of Walter Lawrence on Sunday week last Mr. Lawrence and some friends have been searching for the body of the unfortunate boy. Grappling hooks, nets and dynamite have been used and expert Bronte fishermen employed, but without success until yesterday. The family had almost given up hope, and as the ninth day had passed and the body had not floated it was thought that it had perhaps been carried into the lake or was held fast to the bottom and would not be recovered. The relatives, however, would not give up the search as long as there was any hope left, and about noon yesterday they had the sorrowful satisfaction of recovering the remains. The body was found in deep water, near where the accident happened. It was raised by means of hooks and brought across to Browne's wharf, where it was found to be considerably decomposed. From there it was removed to Chapman's undertaking establishment. The accident was a severe blow to the parents and family, and the recovery of the body will be, in a measure, a comfort and a satisfaction to their many sympathizing friends.—Times.

The funeral takes place to-day, the remains being brought from Hamilton to Bronte station, will be interred in the Palermo cemetery.

AN EXCURSION to Grimsby Park will take place on Tuesday next, Milton civic holiday, by special train via. Grand Trunk Railway, which will leave Milton at 8 a.m.: Zimmerman at 8.10 a.m., St. Ann's at 8.15 a.m., Burlington Crossing at 8.25 a.m. Returning, train leaves Grimsby Park at 7 p.m. sharp. The excursion is under the auspices of Milton Forresters and Royal Templars. Fare for round trip, adults $1; children under 12 yrs. 50c.

JUDGE'S CRIMINAL COURT.—On Wednesday Amanda Newton was tried before His Honor Judge Miller for stealing a diamond ring and some clothing from Mrs. Mark Barber, of Georgetown, and William Anderson was charged with receiving same. They were both dismissed on the ground that the possession of the alleged stolen goods was not sufficiently recent to warrant conviction. The judge ordered the goods to be restored to Mrs. Barber.

THE WATERWORKS.—The Milton waterworks are completed as far as Messrs. McQuillan & Co., the contractors, are concerned. The main body of the work was finished some two weeks ago, but the water was turned into the pipes from the reservoir to fast, and before the air could escape, and the heavy pressure, a number of breakages became apparent, and the pipes burst in two places. These have all been repaired, the water again turned on and everything found satisfactory. The reservoir will be full of water next week, then we suppose a test will be made by the engineer and the works handed over to the town.

LACROSSE.—Yesterday afternoon a friendly game of lacrosse was played between the Excelsiors of Brampton and the Olympics, Brampton winning 1st, 4th and 5th games and the Olympics the 2nd and 3rd games. The 6th game was being hotly contested when time was called by the referee. The Olympics claimed the ball passed between the goal of the Excelsiors' during the 5th game, but the claim was disallowed by the Brampton umpire. A number of visitors directly behind the flag state positively that the ball passed through and that the game should have been given to the Olympics.

BASE BALL.

The first scheduled match of the newly formed county league to be played in Milton, between Omagh team and our boys, will take place on the agricultural grounds on Saturday afternoon next.

To the Editor of the Champion:

On Saturday, 21st inst., on the farm of Mr. A. McTavish, a most interesting game of baseball was played between the Knatchbull club and that of Sayer's Mill. The interest taken in the game was marked by an exceedingly large turn out of visitors, both ladies and gentlemen. The game was well contested, both clubs showing that they were well qualified to handle bat and ball. At the close of the game the score stood—Knatchbull 11 runs, the Mill boys 4 runs. Mr. Wm. Crawford performed the office of umpire in such a manner as to bring forth the hearty approval of both clubs. As the company dispersed the greater number of the players, accompanied by some of their friends, retired to the residence of Mr. Wm. McTavish, where the hostess showed her hospitality by a bountiful spread of very inviting viands of which all were invited to partake, and no doubt relished after their eight hour fast. The following is the score by innings—

Knatchbull...	0	2	3	0	3	1	2	—11
Mill.....	2	0	1	0	0	1	0	— 4

SPECTATOR.

An Afflicted Household.

PITTSBURGH, Pa., July 28.—A heavily afflicted family is that of Mr. Plant, a quarryman, of New Castle, Pa. His family consisted of eleven souls—nine children, his wife and self. His oldest daughter was stricken by diphtheria about two weeks ago, and in four days thereafter four more of his children were reported its victims, and each day added another to its list. Each night the unfortunate man returned from his toil only to witness the departure of another life that he had watched from birth. At last Mrs. Plant became weak and exhausted. Three children were lying upon one bed, and the middle one died. The poor mother had not sufficient strength left to remove her dead offspring, and continued to use what little strength she had left to keep the others alive until her husband arrived. Thus far five children of this family have died, while four and the mother are still suffering. The bereaved father last night made an error which gives promise of being the cause of his wife's death. Nature was crying loudly for needed rest, and Mr. Plant, being somewhat convalescent, the almost exhausted man dozed off, and partially awakened about the time to give his wife her medicine. He mistook a bottle of iodine for the latter, and gave her two teaspoonfuls of that drug, which threw her into convulsions, in which she has been since suffering, with her death momentarily expected. The father in consequence is distracted, and his family is almost a total wreck. The city has employed two nurses, and is rendering every aid calculated to help the bereaved family.

Saved from Drowning.

A Beaumaris, Muskoka, despatch says: There was very nearly a drowning accident here a day or so ago. Beeswax-den Island is situated about two miles out from Beaumaris and on this island are three cottages, one occupied by Rev. Mr. Maitland, Ingersoll; Jos Gibson, Postmaster at Ingersoll, and Messrs. McCaulay and Dundas and party; another by Mrs. Ross, Ingersoll; and the last by Rev. W. H. Laird, of the First Methodist Church, Hamilton, and party. It appears that Wynnie Ross and Queenie Maitland were playing on rocks at the edge of the water not far from the cottages, which are located a short distance apart, and Queenie, who is 8 years old, fell into the water, which was at that point 28 feet deep. Wynnie ran screaming to the house and Mrs. Maitland rushed wildly to the water's edge and without the slightest hesitation leaped in and seized her child. Mrs. Maitland was unable to swim and could not regain the rocks. Rev. Mr. Laird—who was the only man on the island at the time—heard the screams and hastened to the spot and reached out a long pole, which the drowning woman clutched and was drawn safely up, holding her child in her arms. When Mr. Laird arrived Mrs. Maitland had sunk twice, and but for timely assistance both she and the child would most assuredly have met a watery grave. Both have entirely recovery from the effects of the ducking.

OREGON AND WASHINGON.

No section of the country is to-day attracting as much attention as Montana, Oregon and Washington; Montana, because it now ranks first in the production of precious metals; Oregon, because of its rich valleys, and Washington Territory by reason of its mild climate, timber, coal, minerals and wonderful production of fruits and cereals. The rapid growth of Spokane Falls, with a water power exceeding that of Minneapolis; Tacoma, on Puget Sound, the terminus of the Northern Pacific Railroad, with 12,000 inhabitants; Seattle, 80 miles distant, an energetic and thriving city, mark this section of the Pacific Northwest as one that offers peculiar inducements to those seeking new homes.

By writing Chas. S. Fee, Genera Passenger Agent, Northern Pacific Railroad, St. Paul, Minn., he will send you illustrated pamphlets, maps and books giving you valuable information in reference to the country traversed by this great line from St. Paul, Minneapolis, Duluth and Ashland to Portland, Oregon, and Tacoma and Seattle, Washington Territory. This road, in addition to being the only rail line to Spokane Falls, Tacoma and Seattle, reaches all the principal points in Northern Minnesota and Dakota, Montana, Idaho, Oregon, and Washington, possesses unequaled scenic attractions, as well as superior train equipment, such as dining cars, and colonist sleepers for the use of intending settlers, neither of which conveniences are to be found on any other line ticketing business to the States and Territories named. 47-10ms.
