The arbitrators appointed to decide upon the Hamilton and Milton road met on Monday. Mr. W. Waddell appeared for the road company, and F. Fitzgerald, barrister, for the complainants. Mr. Waddell asked that power be given the company to collect tolls during the arbitrators' investigation. Judgment was withheld until after the hearing of witnesses whom Mr. Waddell proposed to bring forward. Three of these witnesses were examined, their evidence being to the effect that the road was in a good state of repair. At the close of their examination the arbitrators decided that no toll shall be collected during the investigation. The arbitrators alone can revoke the decision, and as they will give no further consideration to that point until the investigation closes, the farmers will thus be freed from paying toll for several weeks.

Sentence suspended. Mr. T. G. Matheson, C. C. A., appeared for the prosecutions. Mr. D. McGibbon for the defendants.

Hamilton, Aug. 29.—The Wentworth Farmers' Institute picnic at Oaklands Jersey farm this afternoon was a success. About five or six hundred were in attendance during the day, including a large contingent from the city. After lunch had been disposed of, under the trees, the assemblage gathered at a point where a platform and seating accommodation had been provided. Practical addresses were delivered by Mr. Thomas Shaw, president of the Institute, who was elected chairman; Hon. Charles Drury, Minister of Agriculture for Ontario; Prof. Robertson, of the Dairy Department of the Ontario Agricultural College, Guelph; Prof. Mills, of the same institute; Prof. Fletcher, entomologist and botanist of the Experimental Farm at Ottawa; and V. E. Fuller, proprietor of the Oaklands Jersey farm. The speakers dealt with the practical aspects of farming and dairying, and gave those present many useful points derived from their knowledge and experience. A petition was presented to Hon. Mr. Drury from the students of Guelph Agricultural College praying him to recommend Mr. Thos. Shaw to the position of Professor of Agriculture and Farm Superintendent, now vacant through the resignation of Prof. Brown. The petition contained about 90 signatures.

Lovell's Daring Deed.

Harry Lovell, a railway fireman living in Hamilton, did a brave thing on Friday. The express train that leaves Toronto for Hamilton at 5 p. m. had got as far as the exhibition grounds last evening, when a wee girl not more than three years old toddled onto the track and stood there staring in wonder at the approaching train. Engineer Wm. Durdon (also of Hamilton) jammed on the air brakes, and whistled vigorously. But when he glanced out again he saw with horror that the child had not moved, but, with her little hands clasped behind her head, stood gazing with wide eyes at the strange looking monster that was rapidly coming nearer and nearer. Fireman Lovell took in the situation at a glance. It didn't take him long to make up his mind how to act. In less time than it takes to tell it, he climbed out of the cab and swung himself down on to the cowcatcher, where he crouched, like a cat waiting to spring. The train got to within a few yards of the little innocent. She looked into Lovell's face and laughed. Then the gallant fellow with all his strength, leaped forward, and throwing his arm about the baby he flung himself sideways from the track. The big driving wheel grazed him as the engine swept by. He and the child rolled together down the embankment, but reached the bottom with hardly a bruise or scratch. The train was soon stopped, and engineer Durdon got down from his engine and hastened up the track. When he saw Lovell coming towards him with the child in his arms, tears came into the engineer's eyes and he rushed forward and grasped the fireman's hand. "God bless you, mate," he said brokenly, "you've saved it!" The passengers also, aware that something unusual had occurred, crowded about the plucky pair to congratulate and hear the story of Lovell's noble deed.—Spectator.

What People Think of Grimsby Park.

Galt Reporter.

Something over one hundred from Galt took advantage of the cheap excursion to Grimsby park on Monday last. The trip was an enjoyable one so far as the youngsters were concerned; but there was any amount of grumbling at the fact that Talmage did not put in an appearance at the park as advertised, although the gate money was collected all the same. The idea is getting very prevalent that Grimsby park is run as a purely money grabbing concern; and if such be the case the sooner the connection between it and religion is broken, the better it will be. They can be made to work together, it is true; but when the love of money supplants the other partner things are generally taking the down grade.

Here is a Warning.

Gananoque, Aug. 25.—This afternoon between twelve and one o'clock a few of the workshop hands were amusing themselves practising catching the ball as in baseball play. A swift throw made by one of the players was missed by the catcher and struck a young man named Chas. Quinn, a resident of this village, on the side of the head, who was one of a number of onlookers slightly off the line of the throw. The blow was so severe that Quinn was unable to resume his work. He walked to his home, medical men were called to administer to him, but without effect. He died about 5 p. m. from the effects of the injury. No coroner's inquest was considered necessary.

Ontario Cabinet Changes.

From The Hamilton Spectator.

It is reasonably certain that changes in the Ontario cabinet will be made almost immediately. Mr. Pardee's health, unfortunately, has not been restored, and that gentlemen finds it necessary to retire to private life.

Mr. Hardy, it is pretty safe to say, will take the Crown lands, and Mr. Gibson, of Hamilton, will take Mr. Hardy's present position. The other Ministers will remain as they are.

The Spectator does not profess to be in Mr. Mowat's confidence; but it looks for the early vacating of the Hamilton seat by reason of Mr. Gibson's acceptance of a portfolio.

The Price of Wheat.

The European wheat crop is deficient, and the supply from the Northwestern States is smaller than usual. Some parts of Canada have been hurt by dry weather, but in other parts the yield is large. There seems to be good reason to expect higher prices than have prevailed during the last few years. As a rule it is a good plan for the farmers to sell promptly, for they take extra risks when they try to be grain spectators as well as grain producers. But the market is now rising, and our farmers may as well get the top figure. One dollar a bushel would have been considered "big money" last fall. It ought to be obtained this year.

Poor Mr. Henderson.

(Hamilton Times.)

Poor Mr. Henderson, of Halton! Like the old man and the ass, he tried to please everybody, with the result that he came to great grief. Now that he is down, his former friends are kicking him. The very Tory journals which commended his course in signing the Prohibition platform are now berating him for being so short-sighted as not to know that the majority of electors would see through his attempt to humbug them.

BASE BALL.

On Saturday last a league game was to have been played at Oakville be the Stars of that town and the Scotch Block clubs. Owing to the non appearance of the Block club the game was awarded to Oakville—9 to 0.

A game was played at St. Ann's on Saturday between the St. Ann's and Omagh clubs, resulting in a victory for the former club. Both teams made wretched fielding, but the St. Ann's out-batted their opponents and won easily.

Mr. W. Wynne, proprietor of the Queen's Hotel, Oakville, has presented a silver-plated base ball bat on which is a gold star with a diamond in its centre, as a trophy to be played for by the baseball clubs of Halton.

An exciting game was played at Oakville on Tuesday between the Polsons of Toronto and the Stars of Oakville. Both teams played a splendid fielding game, some remarkable catches being made. At the ninth inning the score was a tie, 6 to 6. The tenth was a shut out for both sides, but in the eleventh the Stars went in with their batting clothes on, knocked out two runs and won the game.

Prohibition Still Alive.

To the Editor of the Champion:

Sir,—Wherever sane people, dispassionately, have carefully digested—during recent years—the more solid views of reasoners on both sides of this much agitated question many are of opinion it was proper enough, to meet the wishes of majorities, for Government to pass a "Scott Act," although very doubtful of success in carrying the measure out, so as not to create civil disorders thereby. But we see this forlorn Act has utterly failed and has been repealed in some places. This mishap may prove a forerunner, and come about all along the line. If so, that will prove that we should not further attempt to treat with continued contempt or annoy governments by forcing them into foolishly enacting measures of utopian character that totally unworkable, even to please majorities of unsound public opinion propelled, or fostered, by any moral society or alliance. These well intentioned bodies, of course, would really be of sterling moral service in the world if they would just decide to let governments severely alone in certain private affairs, and turn their true philanthropy (if any) into channels where sober merchants create gain to creditors; sober ministers of the pulpit whose crimes against society make the very "angels weep"; sober bankers who coolly walk off with thousands and bring ruin on poor widows and orphans too often; sober book keepers, never taking a glass too much for fear they could not successfully do forgery and steal their employer's cash,—and other nice, too sober gentry, such as highway robbers and burglars, who in cold blood murder or fleece their fellow men remorselessly. Temperance advocates have for fifty years had a deal to say against "drunkards," as if they were the *main* or only criminals of society. Perhaps their attention might now be given to the sober criminals who overrun the world. So postpone "prohibition"—which has little spark of life still on hand, but is dying by spasmodic inches.

Ontario Rifle Association Matches.

The 20th Lorne Rifles Win the Ladies Challenge Cup.

The Ontario Rifle Association matches commenced at Toronto on Monday and will be concluded to-day. The attendance is larger than it has been for a number of years. The 20th Lorne Rifles have not been quite as well represented as they might have been, several of their best shots being unable to attend the meeting, but nevertheless their team succeeded on Tuesday in winning the first prize in the Walker Match, the Ladies' Challenge Cup, value $150, and $30, leading the field by eight points. The ranges were 500 and 600 yds., seven shots at each. The following are the names of the winning team with their scores:

Sergt. A. Robertson, No. 4 Co	58
Capt. W. Panton, No. 7 Co	58
Staff Sergt. J. Rolston, No. 7 Co	52
Capt. and Quartermaster L. Grant	51
Capt. Fox, No. 1 Co	45
Total	259

The individual prizes won by the men of the 20th in the matches that have been reported so far are as follows:

Canada Company Match—400 yards—7 shots.

$4 Private A. Alexander	25
Macdonald Match—200 yards—standing.	
$5 Staff-Sergt. Rolston	28
3 Sergt. A. Robertson	27
Gilmour Match—500 yards.	
$5 Capt. Fox	29
4 " Panton	28
3 Sergt. Robertson	27
3 Capt. Grant	26
Gordon Match—600 yards.	
$15 (1st prize) Capt. Grant	30
4 Staff-Sergt. Rolston	21
3 Sergt. Robertson	20
Walker Match—500 and 600 yards.	
$5 Sergt. A. Robertson	58
5 Capt. Panton	58
4 Staff-Sergt. Rolston	52
4 Corpl. A. Chisholm, 7 Co.	51
4 Capt. Grant	51
Tait-Blassey Match—200, 500 and 600 yards.	
$5 Sergt. Robertson	82
5 Staff-Sergt. Rolston	81
4 Capt. Panton	80

The above matches were all shot with the Snider, the Martini matches being held to-day. Sergt. Robertson has an aggregate score with the Snider of 214, Staff-Sergt. Rolston, 207 and Capt. Panton, 200, and all of them will probably win prizes in the aggregate series. The two first named certainly will. The prize lists of the extra series and revolver matches have not come out as yet, but several of the 20th have good scores in them and will probably win prizes.

Narrow Escape From Death.

Near Meadowvale, 23 miles from Toronto, on the Orangeville and Elora branch of the C. P. R., the railway crosses the River Credit. The company intended to remove the bridge and substitute for it a structure of iron. The work of demolition was done in a very sudden and unexpected way, but fortunately without loss of life. The express train going north was the last train to pass over it in safety. Soon afterwards a heavy freight train approached. When the engine was well on the bridge it gave way, and the engine and two or three freight cars broke through and fell into the river, a distance of twenty feet. The engineer and fireman were, of course, pitched out, but fortunately fell clear of the cars into the narrow stream, and made their way to shore very slightly hurt. Passengers by later trains going south were transferred to the Grand Trunk railway, and some of them arrived in Toronto about midnight Saturday.

Their Hash Settled.

(Hamilton Spectator.)

The Halton Election has settled the of the prohibitionists who occasionally meet in solemn conclave and arrange the programme for the "temperance" voters. Their occupation is gone.
