MILTON, OCT. 18 1888

THE COUNTY FAIR.

On Thursday and Friday of last week the agricultural society held their annual fair on the exhibition grounds here. On Thursday the weather was fine, and from the number of entries made the fair promise to be a grand success. The main hall up-stairs was filled with ladies' and domestic work; down-stairs were the flowers, fine arts, bread and butter in any quantity, with honey and wines, pianos, organs and sewing machines; also a Manitoba exhibit in charge of Mr. J. J. Haslett, who was very courteous in replying to the many questions asked by the inquiring public. Among these exhibits were 200 samples of grain in glass bottles, taken from farms between Winnipeg and Calgary, and in the ear were displayed samples of wheat and oats from the C.P.R. experimental farms at Maple Creek, Rush Lake and Swift Current, and from Calgary district which have been pronounced by experts to be the finest that they have ever seen. There were also exhibited samples of coal, bricks, freestone, potatoes, mangolds, turnips, cucumbers, &c. In the hall annexed wheat, oats, barley, peas and all kinds of grain, with vegetables and apples of all varieties were exhibited. Early on Friday morning it commenced to rain and continued raining all day, which put a damper on the whole show. The horses, cattle, sheep, &c., arrived during the day and were shown, but very little interest was taken in these exhibits outside of the parties interested.
