THINGS WORTH KNOWING

Sprinkling the sticky playing cards with talcum powder and thoroughly shuffling them will make them like new.

Corn is found in eighteen out of forty-three articles of food in the everyday ration of the average family.

Horse meat is recommended by some physicians in France for tuberculosis.

Roots and pumpkins and squashes often grow at the rate of 2.5 inches per day.

The Apaches, most hardy of the Indian tribes, have built roads in Arizona which are superior to many of our best highways.

The Catskill aqueduct delivers water to New York at the rate of 5 million gallons daily, from a distance of 41 miles.

Danish scientists claim to have discovered a process of making cellular concrete which floats and has great strength.

Diminishing use of riding horses in France has reduced the saddle trade there to the minimum.

Much road construction work is being done in Mexico.

Many natives in the north of Korea have never seen a white man.

Pearls are formed by foreign substances in the oyster which covers them with a layer of nacre.

Tobacco is found in many of the Southern States, and in some cigars.

The hospitals of the United States are occupied daily by 800,000 patients.

The sale in France of tobacco in its various forms during the first eight months of the present year amounted in round figures to 1,750,000,000 francs, showing an increase of 368,000,000 francs over the same period in the preceding year. The sale of matches, which also belongs to the French tobacco monopoly, totalled 14,000,000 francs.

Birds that bray like a jackass inhabit the Andes.

THE ROUGH LITTLE RASCAL

A smudge on his nose and a smear on his cheek,
And knees that might not have been washed in a week;
A bump on his forehead, a scar on his lip,
The relics of many a tumble and trip;
A rough little, tough little rascal, but sweet,
Is he that each evening I'm eager to meet.

A brow that is beady with jewels of sweat;
A face that's as black as a visage can get;
A suit that at noon was a garment of white,
Now one that his mother declares is a fright;
A fun-loving, snu-loving rascal, and fine,
Is he that comes placing his black hand in mine.

A crop of brown hair that is tousled and tossed;
A waist from which two of the buttons are lost;
A smile that shines out through the dirt and the grime,
And eyes that are flashing delight all the time;
All these are the joys that I'm eager to meet,
And look for the moment I get to my street.

—Edgar A. Guest.

STUDY THEM

From Kiwanis Magazine

If a man is worth knowing he is worth knowing well. A man, who is getting more out of Kiwanis than most of us, suggested that we ask ourselves a few questions about the men who belong to our Kiwanis Club.

Is he married? Has he any children? What is his business and where is he located? Do I ever pass his place without stopping to pass the time of day with him? How long has it been since I sat at luncheon with him?

To be able to answer these questions the right way is to know his man; that knowing makes you friends. The biggest by-product of Kiwanis is the friendship formed therein.

You cannot be friends with a man unless you know his family, his political and religious affiliations and some of the smaller details of his life.

Second to the thought behind "Know Thyself" is, to be happy in this world, we must know our friends.

The Main Question

A man asks: "Is it durable?"
A woman asks: "Is it stylish?"
A child asks: "Is it good to eat?"

FIRST WINTRY BLAST STRUCK TOWN SUNDAY

Considerable Snow Fell, But Did Not Last Long.—Real Thing Arrived on Tuesday Morning.

While we had more or less snow a couple of weeks ago, it was not until Sunday that it had the true wintry feel, as much as four inches falling and, being accompanied by quite cold weather, reminded us of the near approach of winter.

Sunday's snowfall soon disappeared and on Monday it rained nearly all day. Monday night and Tuesday morning the weather took another relapse and snow-shovels were once more in style. Tuesday's snowfall is remaining with us a little better and for a time it looked real wintry. Yesterday the sun came out, and even though it was quie warm it failed to melt the snow off the rooves.

From now on we may expect almost anything in the weather line, though goodness knows we haven't been bothered much the past summer with any surplus heat.

R. H. FORTUNE RESIGNED AS LIBERAL CANDIDATE

Announces Retirement From the Field in South Grey, and Thanks Friends for Loyal Support

The retirement of Mr. R. H. Fortune of Ayton from the political field in South Grey is announced in this issue. Dr. Fortune, in the letter published below, gives his reasons and explains to his supporters the ground on which his resignation was tendered:

To the Electors of South Grey:

Ladies and Gentlemen.—In June last I was nominated at a convention of the Liberals of South Grey and after consideration I accepted the nomination as an Independent Liberal candidate with the understanding that I would be a supporter of the O. T. A.

Some time later Mr. F. Oliver was nominated as the U. F. O. candidate and, as I understand, also a supporter of the O. T. A.

Mr. Ferguson has now announced a general election and a policy which means the destruction of the O. T. A., and in so doing has set at naught the will of the people and betrayed the confidence of a large majority of the Ontario Electorate as expressed at the polls in a Plebiscite.

As I am informed Mr. Oliver has refused to consider the question of a fusion candidate in the interests of the O. T. A., and though I was first in the field, I have decided to put principle before party and retire from the contest, as I deem it inadvisable to split the votes of those opposed to the return of the Ferguson Government.

In thus announcing that I will not be a candidate in South Grey in the general election on December 1 next, I wish to sincerely thank all my friends in the riding who have given me warm assurance of support.

Very truly yours,

R. H. FORTUNE.

C. P. R. OFFICIALS WERE HERE YESTERDAY

Tour of Inspection of Ontario Division Being Completed by Officers in Charge.

H. C. Grant, general superintendent of the Ontario Division; B. Ripley, Chief engineer; R. McKillop, divisional superintendent; M. Kelly resident engineer; and J. McCarthy, road master, were in town yesterday morning on a tour of inspection of this system.

The plant of the Durham stone and Sand Company was among the places visited, the big hill coming in for considerable discussion. This hill has been a bone of contention ever since the days of the cement works, but we have not been informed of anything being done at present to relieve the grade.

LOST YOUNG DAUGHTER

Mr. and Mrs. Norman Kerr are mourning the loss of one of their twin daughters, who passed away at the age of nine days at the Red Cross Hospital on Friday.

UNDERWENT OPERATION

Earl McLeod, son of Mr. William McLeod of Glenelg, was admitted to the Red Cross Hospital on Thursday and underwent a minor operation.

The Wrong Patient

A fair young thing walked into a drug store and told the clerk to fix up a dose of castor oil and to mix something with it that would take the taste away, says the Boston Globe. The clerk went to the rear of the store, and coming out again, asked the young lady if she would like a glass of soda. She accepted the invitation and drank the beverage. Then she asked "Where is the castor oil?" The clerk smiled triumphantly and said: "You've taken it. I mixed a fearful dose with the soda." The girl turned pale, sank into a chair and gasped: "Heavens, I wanted it for

HIGH SCHOOL "LIT" WAS HELD LAST FRIDAY

The Durham High school held a good literary meeting last Friday afternoon when a play was put on by the Form 1. pupils, entitled, "A Trip Around the City of Durham."

On the program were selections from the Glee Club, the High School Orchestra, an instrumental by Elsie Kearney, and a reading by Elsie Willis.

A debate, Resolved: That reading books is better than going to the theatre, was a feature of the program and the arguments were quite interesting. The affirmative was taken by Mary Beaton and Reggie Arnett, and the negative by Mary Brown and Grace Baird. The affirmative won by a small margin.

The judges were Misses Weir and Ramage. Mr. MacQueen was the critic.

The pianist for the afternoon was Norma Gagnon.
