LOCAL NEWS.

FOR CALGARY.—Geo. Sharp left on Tuesday with three cars of young cattle for Calgary, Alberta. He was accompanied by Mr. P. Connor, who intends to make his home in the west.—Dundalk Herald.

NOT TILL 1903.—No speckled trout can be sold before 1903, unless caught in private ponds, and some city dealers are likely to get into trouble. Private hatcheries will thus take on a new value.

NO BIRDS FOR THEM.—The Boston Transcript is authority for the announcement that the Princess of Wales has given orders that nothing need be submitted for her inspection or that of her daughters, in which birds are used as trimming.

A MINIATURE STRIKE.—A number of the boys employed in the Factory quit work on Monday morning wanting higher wages. Their action resulted in enforced idleness for some of the machinery for a time and consequent annoyance to Manager and directors. We know nothing of the merits of the case but hope the matter may be amicably adjusted.

QUARTER CENTURY.—The Shelburne Free Press week before last completed its first quarter century, and enters on its second with hopefulness and courage. Success to Bro. Mortimer.

Mt. Forest is losing one of their old established business firms by the removal of T. R. Glanville & Co to Leduc, Alberta. They have been 30 years in business in Mt. Forest.

As the open season for trout commenced May 2, anglers will do well to bear in mind that under the new Fisheries Act, passed by the Ontario Legislature, no speckled trout less than six inches long can be legally caught and kept out of the water. Under the old law the minimum was five inches. The change is a sensible one. A five-inch trout is about a mouthful for a hungry man. Another commendable enactment is one forbidding the sale of any speckled trout, bass or muscalonge before July 1st, 1903. It is to be hoped that sales will not be permitted after that date either. Anglers must not catch and keep from the water in one day more than fifty trout, nor any number weighing over fifteen pounds. The close season is between the first September and 1st May, both days inclusive. No more than twelve bass, twenty pickerel, or four muscalonge may be taken by one angler in one day, nor any bass less than ten inches long, or muscalonge less than twenty-four inches.—Ex.

Live Stock Market.

TORONTO.

A light run of barely 40 carloads of live stock had a decidedly beneficial effect on business at the western cattle market. We had more cattle of a better quality on offer than has been the case lately, and there was a fair clearance by midday.

Shipping cattle was in much more active demand, and choice stuff sold up to 5c per lb, most of the sales were at the prices of yesterday, but there was a more healthy and encouraging tone to this department of the cattle market than has been the case for some weeks.

A small supply and better enquiry made a good trade at strong prices for all the better class of butcher cattle, and also strengthened prices for other grades of cattle. Prime butcher cattle sold at from 4 to 4¼c per pound, and for a few selections from 10 to 15 cents per hundred was paid. Fair to good cattle sold at from 3½ to 4c per pound, and for poor to medium cattle from 3 to 3½c was the range. It was stated that more choice butcher cattle would have sold; this may have been the case, but there is no doubt that the all-round short supply put the market into better shape.

Stockers were in small supply; there was no particular enquiry, and prices are unchanged.

There was more enquiry for export bulls, and prices are firm at from 3½ to 4c per pound. Light Bulls are worth from 3 to 3½c per pound.

Feeders are not active, as prices are too high; quotations range from 3½ to 4½c per pound.

Milkers of only ordinary quality are slow at from $22 to $40 each, but a few choice choice cows will sell at $45 and $50 each.

A steady demand for choice veal calves continues.

Not quite one hundred yearlings and sheep came in: all sold quickly at firm unchanged prices.

Spring lambs sold to-day at from $2.50 to $5 each. There was not a quick demand.

Bucks are worth from 3 to 3½c per pound.

If farmers are wise they will not rush in stuff of any kind because of a slight improvement in the trade; because the market will not stand any overcrowding without a considerable weakening in prices.

For prime hogs (scaling from 160 to 200 lbs.) the top price is 6½c; light hogs are bringing 5½c per pound.

provided that the advertiser is able to do what he advertises to do and a man is a fool to pay good money for advertising what he is not able to carry out for the public soon find out that such a man is a deception and a fraud. I am not professing to do business for fun or entirely for the other fellow's benefit but I have found during the twenty years that I have been doing business in Hanover and Durham that I can make the most money for my self by doing the very best I can in every instance to save money for my customers. Every customer who once does business with me to his own profit continues to patronize me and gives me, not only his business, but his influence and this accounts for the very large business that I am doing to-day. Farmers are now busy and will not be paying much attention to business affairs while busily engaged on their farms. Some of them, howevr, will require to borrow money and I wish to say that I am at present lending at five per cent and in some cases at less. I am also paying closer attention than ever before to the collection of old debts and claims placed in my hands will be collected if it is possible by any means in the world to to get the money—no charge for my trouble if nothing collected. I also buy old notes. I have had great success in settling up and arranging business entanglement and difficulties and in making settlements with creditors and any such business placed in my hands will be faithfully attended to the profit, I think, of them who deal with me. I have always a number of farms in hand which I am able to sell at very low figures and on very easy terms. After so long a residence in this locality I have formed a connection with all the leading Loan Companies and when they have farms in hand for sale they are placed in my hands and I am thus always in a position to offer bargains. I have always on hand farms and other propertis belonging to myself which I am always ready either to sell or exchange for other property. Just now I happen to have a splendid 100 acre farm and a very fine 64 acre farm, both well situated in Bentinck and each having good buildings. I will sell them or trade them. I also offer at a sacrifice Lot 28, Con. 2, W. G. R., Bentinck, 100 acres, belonging to a man who has gone out west and is bound to sell at some price. I place insurances in good companies at lower rates and in fact attend to all kinds of financial business. My rule continues to be "Always prompt—never negligent.
