S. F. Morlock

In the Millinery Department

Our Millinery has long had a reputation for correct exclusiveness unapproached by any other store making pretences to non-extravagance. You may pay up to $15 for a hat here, but you're paying for art and not for fancifulness when you buy an expensive hat at the Store. We can give you beautiful Paris-modelled hats, the work of our own clever Milliners, at $5 to $10. We can give you pretty, tastefully trimmed hats for $2.50. And at every price you find good taste, beauty and harmony.

Making the Fairs Educational.

Three years ago when Mr F W Hodson, Live Stock Commissioner, pointed out to the annual meeting of the Association of Fairs and Exhibitions the utter inefficiency of many of the agricultural societies of Ontario, and unfolded a systematic plan of improvement, he was looked upon by many of the delegates as a dangerous iconoclast. The fact that fairs which received government grants were intended to be educational seemed to be almost forgotten, and the proposal to arrange the fair in convenient circuits and send them expert judges who would give educational addresses in the ring was considered impracticable by many. Still the project was taken up in an experimental way and the results have been so satisfactory that this year it is expected that about 170 agricultural societies in Ontario will arrange with the provincial Department of Agriculture for the services of expert judges. Last year 152 societies in that province were supplied with judges, while in the other provinces and the Territories many of the fairs had expert judges furnished by the local and Dominion Departments of Agriculture.

SUMMER SCHOOL FOR NATURE STUDY

The Macdonald Institute at the Ontario Agricultural College, Guelph, will provide a Summer School for teachers during the coming vacation. The term will extend from July 5th to July 29th inclusive, and the work will consist of practical Nature Study, suitable for our public schools.

The classes will be under the direction of Dr. W. H. Muldrew of the Macdonald Institute, and Professor William Lochhead of the Biological Department in the Ontario Agricultural College, assisted by teachers of special fitness in the various subjects of the course.

The Macdonald Institute is situated on the grounds of the Ontario Agricultural College about one mile from the city of Guelph and is reached by the electric street railway.

The course will be thoroughly practical, involving daily excursions, lectures and laboratory work, the preparation of Nature Study collections and courses of reading in illustration of the subjects discussed. A leaflet giving fuller information may be had by application to Dr. W. H. Muldrew, Dean of the Institute.

TOPICS OF THE WEEK

—Mr Borden, Leader of the opposition, came out last week for government ownership of the great transcontinental railway. From past experience there is reason to believe that had Laurier made this a cry, the opposition would have opposed it. It will be a popular cry, in some places, probably in the West, but the complete turn over of Mr Borden from his patchwork seheme of a few months ago, will ultimately lead the thoughtful to trust to the bargain just ratified by parliament in which the principle of public ownership is recognized to a measure fully abreast of public sentiment. Mr Borden is a plunger.

—Mr Robb, editor of the Walkerton Telescope, who received the South Bruce Liberal Nomination for the Commons has resigned the honor, the expense of a long campaign being his reason.

—Mr. R. R. Gamey spoke to a crowded meeting in Toronto on Monday evening reiterating his old charges and condemning the judges.

"BANZAI."

That must have been a thrilling moment when, through blood and fire and smoke last Thursday thousands of living Japanese swarmed over hundreds of dead ones, and chased the Russians from the hill of Naushan, fortified though it was, barbed wire, hidden mines and entrenched defenders! and on its top under the folds of their flag of the rising sun, made the welkin ring with their "Banzai's", the Japanese equivalent for our "Hurrah." This battle of Kin-Chow at the narrowest part of the peninsula about 20 miles north of Port Arthur, will be reckoned by historians one of the great battles of the world, for it has shown that a second time the yellow race has borne down a white one, against terrible odds. The Japanese lost, killed and wounded, 3500, the Russian loss will not be so great, but they left over 500 dead on the field. The occupation of Dalny will now soon take place, and the stern siege of Port Arthur begin. That this will be accompanied by fearful slaughter is certain, but it seems certain Japan will make the sacrifice to capture the great fortress, and secure or put out of use a fleet worth $40,000,000.

78 guns were captured, some of them naval ones, a serious matter for the defenders for they cannot like Gen. Oku, order up new guns and new men.

Japan is now freely acknowledged to be one of the "Great powers" and has, it is certain some more brilliant actions pending.

Gen. Kuroki, at Feng Wang Cheng, is keeping Gen Kuropatkin puzzled and muzzled while Oku deals with the Port Arthur defenders.

Russia is humiliated worse than Britain by the Boers, with only slight chance of winning out as Britain did.

Later—Dalny has been occupied and great stores captured. The world will now wait for the fall of Port Arthur.

DOMINION DAY DEMONSTRATION.

DURHAM, JULY 1, 1904.
