Environmental Assessment Study

Notice of Public Information Centre #1

Mayfield Road from Chinguacousy Road to Winston Churchill Boulevard

The Study

The Region of Peel has initiated a Schedule 'C' Municipal Class Environmental Assessment (EA) in accordance with the Municipal Engineers Association's Municipal Class EA process for the widening of Mayfield Road to six lanes from Chinguacousy Road to Winston Churchill Boulevard. The approximate limits of the project area are illustrated on the map.

Mayfield Road is an east-west arterial road and forms the boundary between the City of Brampton and the Town of Caledon. Winston Churchill Boulevard forms the boundary between the Region of Peel and Region of Halton.

The study will examine the need and feasibility for improvements to Mayfield Road to address the short and long term issues related to planned future growth, road design and function up to 2031. The study will review opportunities to facilitate the movement of vehicles, transit, goods movement, walking and cycling.

The Process

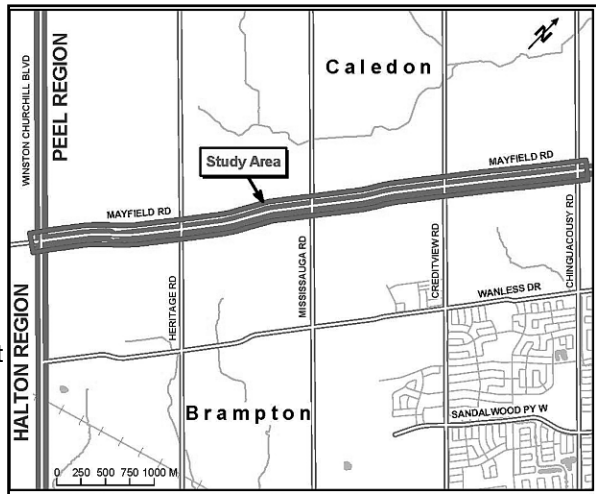

The Class EA process includes:

- public and agency consultation;
- an evaluation of road improvement alternatives;
- an assessment of the possible environmental effects of the improvements; and,
- the identification of reasonable means to mitigate any adverse impacts.

Public Information Centre

Two Public Information Centres (PICs) are planned for this study. The first PIC will use an informal drop-in centre format with display boards to present the study background information including:

- a problem statement;
- an evaluation of planning alternatives; and,
- a recommended planning alternative.

The Project Team members will be present to answer questions and discuss the next steps in the study. The first PIC is scheduled for:

Date: Wednesday, November 27, 2013
Time: 6:30 p.m. - 8:30 p.m.
Location: Police Association Building, 10675 Mississauga Road, Brampton
