

# Trio performs at GAC

The vocal trio Common Thread is presenting a concert of Christmas-themed music, 7:30 p.m. at Georgetown Alliance Church, 290 Main St. S., on Friday November 29.

Supported by instrumentalists on keyboard, fiddle, and percussion, Common Thread adds a blend of bluegrass and country flavour to everything they present. Not only is the

sound unique, but because the music is presented with live and not pre-recorded accompaniment, each audience enjoys a unique and interactive musical experience.

There is no admission charge to attend the concert and no offering will be taken. For more information, please call Doug Kelley, 905-873-0249 or email [doug@togetheratgac.com](mailto:doug@togetheratgac.com)

## Georgetown Denture Clinic

Alexander Trenton, DD, F.C.A.D. (A) Denturist

**TOOTH CHATTER - [georgetowndentureclinic.ca](http://georgetowndentureclinic.ca)**

## WHO ARE DENTURISTS???

Denturists have been serving the public directly in Ontario since 1974, when legislation was enacted to govern and license our services!

A Denturist's practice is devoted solely to the fabrication, relining and repairing of dentures. You can go directly to a Denturist for treatment without a referral from another health care practitioner. They do not work for dentists. Dentists send their work out to commercial labs, not to Denturists. Denturists provide the most cost and time effective service. Unlike other health care practitioners who provide dentures, Denturist's laboratory work is done in-house on the premises and all done by the Denturists who sees the patient chair side. The result is a custom cosmetic denture that

is made to suit only you. Specially made to fit your exact face contour and colouring. A very natural looking denture. No middle-man, no sending work out. All work is done right here in our state-of-the-art dental lab. Because dentures are all we do, we do it right!

Denturists are uniquely qualified to provide quality, custom dentures. They are highly skilled in the clinical and laboratory aspects of making dentures. They perform both jobs and have first-hand experience working directly with the patient! Remember, you do not need a referral from your dentist. Simply call our office direct for an appointment. We do not charge for consultations. Let us make a lasting impression!!

**WE BUILD BEAUTIFUL SMILES!**  
**Consultations are always free!!**

## Public Notice

### Environmental Assessment Study

#### Notice of Public Information Centre #2 Mayfield Road from Chinguacousy Road to Heart Lake Road

##### The Study

The Region of Peel has initiated a Schedule 'C' Municipal Class Environmental Assessment (EA) in accordance with the Municipal Engineers Association's Municipal Class EA process for the widening of Mayfield Road to six lanes from Chinguacousy Road to Heart Lake Road.

Mayfield Road is an east-west arterial road and forms the boundary between the City of Brampton and the Town of Caledon.

##### The Process

The Class EA process includes public and agency consultation in creating the best solution for the study. The project team, with public and agency input will:

- define the problem statement;
- develop and evaluate planning alternatives; and,
- determine a preferred solution.

##### Public Information Centre #1

The first Public Information Centre (PIC) was held in November 2011 when staff reviewed input from the public and agencies and confirmed the preferred planning solution to:

- widen Mayfield Road with intersection improvements; and,
- review opportunities to facilitate the movement of vehicles, transit, goods movement, walking and cycling.

##### Public Information Centre #2

PIC #2 will present:

- technical report findings and recommendations;
- a review of alternative design concepts; and
- the recommended design concept.

PIC #2 is set up as an informal drop-in centre with display boards to present the study information. The Project Team will be present to answer questions and discuss the study. The PIC is scheduled for:

**Date: Wednesday, November 27, 2013**  
**Time: 6:30 p.m. - 8:30 p.m.**  
**Location: Police Association Building, 10675 Mississauga Road, Brampton**

Upon completion of the study, the Notice of Study completion and an Environmental Study Report (ESR) that presents the study findings will be published. The results of the study will be available for review for 30 calendar days.

##### Comments and Information

Your participation is important and your comments are valued. If you are unable to attend the PIC, you can review the boards on our website at:  
[peelregion.ca/pw/transportation/environ-assess/mayfield-road-ea-2.htm](http://peelregion.ca/pw/transportation/environ-assess/mayfield-road-ea-2.htm).

To provide comments or request additional information about this project, please contact:

**Neal Smith, C.E.T.**

*The Region of Peel is committed to ensure that all Regional services, programs and facilities are inclusive and accessible for persons with disabilities. Please contact the Project Manager if you need any disability accommodations to participate in the PIC.*

**This notice was first issued on November 14, 2013**

With the exception of personal information, all comments will become part of the public record of the study. The study is being conducted according to the requirements of the Municipal Class Environmental Assessment, which is a planning process approved under Ontario's *Environmental Assessment Act*.
