Large Sales **G. & J. McKECHNIE** Small Profits

For the last 18 months we have practiced the **Large Sales—Small Profit System** of doing business and it has proved a great success. Our aim in buying is to buy in such large quantities, (the latest styles) as will ensure us good reductions in the prices, and our aim in selling is to give our customers the benefits of our buying so that we

Cannot be Undersold

In this way we keep everything on the move and the newest styles of goods only are always kept in stock.

Our aim in doing business is to avoid publicly and privately referring to other business people in a disrepectful way and to sell our goods on their merits. We have an excellent stock of **Dry Goods, Gents' Furnishings, Boots & Shoes, Clothing and Groceries,** and will be pleased to have to have you look through. Our clerks are efficient and courteous and it will be a pleasure to show you through the house furnishing department composed of Wall Paper, House Paints, Carpets and Linoleums and Window Curtains is on the second flat. Just received a fine new stock of furs.

Trade and Commerce.

The following circular is being sent out in large numbers with a view of securing information that will lead to the developing of Canada's trade. It is a new idea and the Department would like the name of every exporter from Atlantic to Pacific with a detailed list of the goods they are in a position to sell abroad.

Export Bureau, Ottawa, Oct. 1, '09

"The Department of Trade and Commerce desires to announce its intention of compiling an Index of Canadian Manufacturers, Exporters, and Producers generally, who desire to extend their trade abroad.

For this purpose the attached form should be executed and forwarded to the Department without delay.

It would assist the Department materially if the details under "Articles Manufactured or Produced" be entered in alphabetical order.

The list compiled by the Department will be given the preference at all times when the names of such Canadian firms are required by intending purchasers abroad.

As the information is received at the Department it will be forwarded to all the Canadian Trade Commissioners in the various parts of the world, and be systematically indexed and be readily available in their respectiae offices.

F. C. T. O'HARA,
Deputy Minister.

The attached form is in this style:

.....1909

Export Bureau,
Dept. of Trade & Commerce,
Ottawa.

Name of firm.....
Street and No.....
City or Town of.....
Province of.....
Detailed list of articles manufactured or produced.....

—Sir Frederick Borden was vindicated at the trial in Kentville, N. S. The case went against one Carnthers who circulated copies of the "Eye-opener" with slanderous statements against the private character of the minister. The jury has declared Caruthers guilty of libel and Sir Frederick goes free, an instance of the danger public men are in of attempts to vilify the character for blackmailing purposes. Fortunate that no one thinks of doing this with Leaders Laurier and Borden. Carnthers was fined $100.00.

The British Budget.

The battle of the British Budget grows in fury. The feature of the past week was the intervention of the King as peacemaker. Having already consulted Lord Rosebery and Lord Lansdowne, His Majesty summoned Mr Asquith and has had more than one consultation with the Liberal Premier. It does not appear that even the Peacemaker of Europe was able to accomplish anything in this stern struggle. Speaking on Thursday last, Mr Winston Churchill declared that the Government would make no overtures to the House of Lords and would accept no compromise. On Saturday, Mr Lloyd-George spoke at Newcastle and attacked the House of Lords fiercely. He insisted that the Government was going to have all the taxes in the Budget or none. It seems now to be pretty certain that the Lords will refuse to pass the Budget on the ground that it is of so revolutionary a character that the will of the country in regard to it should first be ascertained. Nothing would suit the Liberals better than to make the battleground of the next election the veto power of the House of Lords, and there is no doubt they will try to make that the issue.

Wheat Prospects.

United States and Canada, with an aggregate population of nearly one hundred millions, have this year grown over 850,000,000 bushels of wheat. Placing the consumptive demand per capita at six bushels per annum (the American basis of calculation), 600,000,000 bushels would be a very liberal estimate of the needs of the American people until the crop of 1910 should arrive. At such a rate of consumption a surplus of 250,000,000 bushels would be left, and it would be necessary to ship nearly 5,000,000 bushels a week until this time next year to dispose of the amount on hand. In last year's record of world's shipments America was credited with exporting 3,917,000 bushels of wheat, as against 5,179,000 bushels during the same period a year ago, when there were smaller reserves. It is quite obvious, then, that unless a foreign demand arises, which will be more urgent than any other in past years, a contingency altogether improbable in view of the record yields in the largest wheat-producing countries of Europe, a surfeit in the supply of grain to the markets on this side of the Atlantic is almost inevitable.

Single Tax Association of Ontario, 75 Yonge St., Toronto.

The Globe, of Toronto, editorially has the following wise observation relating to taxation:

"Taxation may be so levied as to encourage and almost force industry and enterprise. It may, on the other hand be so levied as to obstruct, retard and even destroy the source from which the revenue must be drawn. The French window tax led to the closing of many windows and a proportionate lessening of the value and usefulness of buildings. The Egyptian tax on date trees led to the cutting down of many trees. Larger amounts might have been raised by methods which would encourage the best and fullest use of the property from which the revenues were drawn. Similar influence can be discerned in the incidence of business taxation according to the value of buildings."

To obviate the tendency to discourage energy and improvement is exactly the intent of the proposed change in the Assessment Act, granting powers to municipalities to fix a lower rate upon the business and improvement values than upon the land values. Over 200 municipalities have already returned it favorably. Returns are coming by every mail.

Go to the blood, if you are to drive out Rheumatism. A Wisconsin physician, Dr Shoop, does this with his Rheumatic Remedy—and with seeming success. Rub-ons, says the doctor, never did cure Rheumatism. It is more than skin deep—it is constitutional, always. Because of this principle, Dr Shoop's Rheumatic Remedy is perhaps the most popular in existence. It goes by word of mouth from one to another, everywhere. Grateful patients gladly spread results. It is an act of humanity, to tell the sick of a way to health. Tell some sick one. Sold by MacFarlane & Co.

Take the Sun.

At this time when reading for another year is being considered all farmers should take the Sun. It is an independent paper, ably edited, with news items attractively condensed, and in every way adapted for every member of the farmer's home. Its market pages is the in best the Dominion. On all occasions it speaks up for the farmer with no uncertain sound and there are farmers in thousands who will never know just how much the Sun has helped them in its advocacy of sound agricultural and other legislation.

Turn in now and help yourself by subscribing for the Sun. This is not a paid local, we read it regularly, and believe our advice is good. It is one dollar a year, and worth it. Address "The Sun, Toronto" or join our Review Club and get both papers from now to end of next year for $1 65.

We are pleased this season to be able to announce a specially low clubbing rate with The Weekly Sun. For some years the club rate has been $1.75. This season we are able to make the two $1,65 and for new subscribers this offer is good from now until the end of next year—making both papers free until Jan. 1st. Farmers especially should take advantage of this opportunity as there is no other paper in the Dominion so devoted to the interests of the farming population as is The Weekly Farmer's Sun. It gives special attention to the farm produce market and on this subject is second to none, Ask for a sample

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves—re-establish them as needed, with
