EXCHANGE ECHOES.

New York, Oct. 3.—The trotting queen Alix, 2:03¾, and the stallion king Directum, 2:05¼, have been matched to race within 30 days for $2,500 a side, the winner to get 75 and the loser 25 per cent of the gate receipts.

A move is being made by the business men of Lion's Head and Wiarton to construct an electric railway extend- from Lion's Head via. Wiarton to Chatsworth, and to this end estimates are being secured from the various electric railways. The distance is considered about 40 miles.—Canadian.

HOME AND ABROAD.—It is the duty of everyone, whether at home or travelling for pleasure or business, to equip himself with the remedy which will keep up strength and prevent illness, and cure such ills as are liable to come upon all in every day life. Hood's Sarsaparilla keeps the blood pure and less liable to absorb the germs of disease.

HOOD'S PILLS are hand made, and perfect in proportion and appearance. 25c. per box.

White-shelled eggs always sell better than others in the New York markets, and hence the special value of the white Leghorn fowls. Their eggs are of almost marble whiteness, and, though small, their fresh look makes them marketable. Guinea eggs, however, which are brown and speckled, also have a special sale, because some persons esteem them peculiarly delicate.

The North Wellington Patrons of Industry held a convention in Arthur on Saturday for the purpose of nominating a candidate to oppose Messrs. Clarke and McMullen for the Commons, but were unable to make a selection owing, we are informed, to all the candidates nominated declining to stand. A committee, composed of one from each township in the riding, was appointed to find a candidate and report at a future convention.—Rep.

USING THE BROOM.—The following resolution was adopted at the recent political meeting in the interest of Mr. James McMullen, M.P. for North Wellington. "Resolved that this meeting desires to record its conviction that the basis of taxation should be for the purposes of revenue only and we urge upon the Liberal party not to slacken their hitherto well directed efforts until the last vestige of the National Policy, which has crippled the agricultural industries of this Dominion as an incubus for the past fifteen years, be swept out of existence.

A Dornoch woman while trying to drive a pig into a pen the other day had a novel experience. The animal after making several efforts to escape rushed straight at her in a very unexpected manner. She instinctively turned to escape but in a moment found herself on its back in such an attitude that a side saddle would have been of no practical use. With tenacity of purpose worthy of Mr. John Gilpin she stuck to her seat until the first burst of speed was over and then dismounted unhurt from her porcine steed.—Post.

For Over Fifty Years.

"Mrs. Winslow's Soothing Syrup" for children teething it pleasant to the taste and is the prescription of one of the best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "MRS WINSLOW'S SOOTHING SYRUP."

ENGLAND AND FRANCE.

Paris, Oct. 3.—The French Cabinet has been summoned to meet concurrently with the British Ministerial Council to-morrow.

The Pall Mall Gazette, commenting upon the fact that meetings of the British and French Cabinets have been called for the same date, says that possibly mutual proposals have been made for the settlement of the numerous differences existing between the two nations that require immediate consideration. The Globe assigns as the causes for the calling of the concurrent councils the condition of affairs in Madagascar and the standing grievance of Great Britain in regard to the Egyptian question. The Westminister Gazette says:—According to the Salisbury treaty of 1890, the French have a right to a protectorate over Madagascar but a protectorate is different from a complete effective occupation.

There are some queer people in Paisley. By some means a number of these get on the School Board and outsiders have lots of fun watching these people legislate for the School Every few months some new idea is introduced, talked up and finally looked on as the one thing necessary to bring the institution to the pinnacle of perfection. The latest is to engage a specialist to do High School work and give the youths of Paisley the opportunity of obtaining a High School education within the confines of their own village. Now this idea in itself is praiseworthy, but it is in the carrying of it out that the originality comes in. You would think that in calling in a Master to do this work the people would be willing to pay him. But not so. These trustees ask the present teachers to feed and clothe the new comer and also allow him a moderate sum of spending money. This is the way it is worked. The present master's salary is to be reduced from $600 to $400, $50 is taken of the first assistant, $40 off the second and $25 of each of the others. If the new principal is at all inclined to be thoughtful he will no doubt often wonder as he helps himself to the ham and eggs in the morning, which of his assistants furnished him with the enjoyable meal.—Bruce Herald.

SUED A WOMAN.—At the Assizes in Stratford on Oct. 2, John Brandar sued Mrs. R. Turnbull for breach of promise. She admitted having been engaged to him some years ago, but said he had agreed to call it settled when she became engaged to her present husband. After some spicy evidence and lively arguments, it was given to the jury to struggle with, who returned a verdict for the Plaintiff giving him $1.00 damages, he to pay his own costs. More fortunate was Miss Agnes Lyons on the same day, who sued Mr. McFee, of Stratford. About 100 of their letters were produced in court, and the jury patched the wounded heart of the fair one by a $1000 plaster.

As they appeared during the day: Dr. Landerkin, the most popular man; Andrew O'Farrell, the man with most friends; Louis Himmler, the bravest man; Willie, the happiest man; Maurice Doyle, the noisest man; Charlie, the most disappointed man; Louis Seigman, the most self-important man; Mick Foley, the most independent man; Mr. Pushinsky, the nerviest man; John Morris, the strongest man; R. W. Walden the busiest man; Mr. Teft, the sportiest man; Aug. Lang, prettiest man; M. L. Foster, the most gallant man; and I think Nicholas Hopf had as much to say as any of the boys.—X in Hanover Post.

WELL KNOWN LONDON PEOPLE SAY.—Mr. S. F. Glass, London Pottery Works, says:—"No testimonial can be too strong to express the beneficial effects I have experienced from the use of R. Stark's (Headache, Neuralgia and Liver) Powders personally and in my family, as they have afforded me perfect relief from the most distressing sick headaches which frequently incapacitated me from doing business. I know of others who have been equally benefitted. I consider them one of the most useful medical combinations of the day." Mr. H. C. Paterson, of Messrs. Masuret & Co., wholesale grocers, says:—"I have found Stark's Powders (for Sick Headache, Biliousness and Liver) to afford immediate and permanent relief in every case." Miss L. G. Johnston says:—"A most valuable remedy. The result has always been satisfactory." Price 25c. a box; sold by all medicine dealers.

A subscriber wants to khow what the editorial "we" signifies. It has a variety of meanings, varied to suit the circumstances. For an example. When you read that "we expect our wife home to-day," "we" refers to the editor in chief: when it is "we are a little late with our work." it includes the whole office force even to the devil and the towel; in "we are having a boom" the village is meant: "we received over 700,000 immigrants last year," it embraces the Dominion; but when "we have hog cholera in our midst" only means the man who takes the paper and does not pay for it.

A BOON TO HORSEMEN.—One bottle of English Spavin Liniment completely removed a curb from my horse. I take pleasure in recommending the remedy, as it acts with mysterious promptness in the removal from horses of hard, soft or callousel lumps, blood spavin, splints, curbs, sweeny, stifles and sprains GEORGE ROBB, Farmer, Markham, Ont. Sold by McFarlane & Co.

RELIEF IN SIX HOURS.—Distressing Kidney and Bladder diseases relief in six hours the "Great South American Kidney Cure" This new remedy is a great surprise and delight on account of its exceeding promptness in relieving pain in the bladder, kidneys, back, and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by McFarlane & Co., Druggists.

The idea of the Manitoba Patrons to put a million bushels of No. 1 hard wheat on the English market for the two purposes of placing Manitoba's best product there in its unadulterated state and at the same time to discover what transportation really costs, is one that is very attractive. It may require some vigorous exertions to carry it out, but if cautiously managed it does not seem as if there were chances for much loss to the individual if the venture were spread over a considerable number of persons. Without knowing the details it would be venturesome to express a definite opinion, but it can certainly be said that the objects aimed at are highly important and worth some little sacrifice.

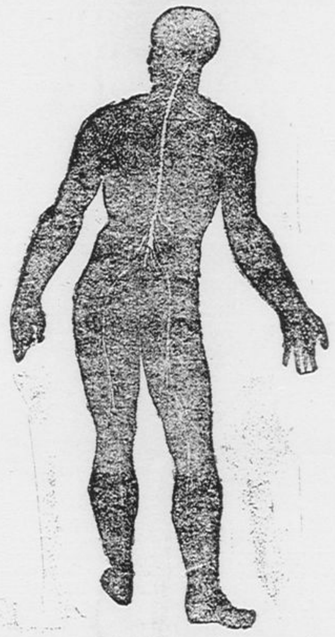
NATURE YIELDS ANOTHER SECRET!



It has often been contended by physiologists and men of science generally, that nervous energy or nervous impulses which pass along the nerve fibres, were only other names for electricity. This seemingly plausible statement was accepted for a time, but has been completely abandoned since it has been proved that the nerves are not good conductors of electricity, and that the velocity of a nervous impulse is but 100 feet per second—which is very much slower than that of electricity. It is now generally agreed that nervous energy, or what we are pleased to call nerve fluid, is a wondrous, a mysterious force, in which dwells life itself.

A very eminent specialist, who has studied profoundly the workings of the nervous system for the last twenty-five years, has lately demonstrated that two-thirds of all our ailments and chronic diseases are due to deranged nerve centres within or at the base of the brain.

All know that an injury to the spinal cord will cause paralysis to the body below the injured point. The reason for this is, that the nerve force is prevented by the injury from reaching the paralyzed portion.

Again, when food is taken into the stomach, it comes in contact with numberless nerve fibres in the walls of this organ, which at once send a nervous impulse to the nerve centres which control the stomach, notifying them of the presence of food; whereupon the nerve centres send down a supply of nerve force or nerve fluid, to at once begin the operation of digestion. But let the nerve centres which control the stomach be deranged and they will not be able to respond with a sufficient supply of nerve force, to properly digest the food, and, as a result, indigestion and dyspepsia make their appearance. So it is with the other organs of the body, if the nerve centres which control them and supply them with nerve force become deranged, they are also deranged.

The wonderful success of the remedy known as the Great South American Nervine Tonic is due to the fact that it is prepared by one of the most eminent physicians and specialists of the age, and is based on the foregoing scientific discovery. It possesses marvellous powers for the cure of Nervousness, Nervous Prostration, Headache, Sleeplessness, Restlessness, St. Vitus's Dance, Mental Despondency, Hysteria, Heart Disease, Nervousness of Females, Hot Flashes, Sick Headache. It is also an absolute specific for all stomach troubles.

Newspaper Laws.

We call the special attention of Post masters and subscribers to the following synopsis of the newspaper laws:

1. If any person orders his paper discontinued, he must pay all arrearges, or the publisher may continue to send it until payments made, and collect the whole amount whether it be taken from the office or not. There can be no legal discontinuance until payment is made.

2. Any person who takes a paper from the post office, whether directed to his name or another, or whether he has subscribed or not is responsible for the pay.

3. If a subscriber orders his paper to be stopped at a certain time, and the published continues to send, the subscriber is bound to pay for it if he takes it out of the post office. This proceeds upon he ground that a man must pay for what he uses.
