A Cyclone.—A veritable cyclone struck Kingston and vicinity last week, and did a lot of damage. The Southern shore of Lake Ontario also suffered, and several accidents have occured.

Roll Carding.—Bring in your wool before the cold weather commences. The carding machine has been thoroughly overhauled and we guarantee good work or no pay. Call at the store. J. A. Hunter, Upper Town, Durham.

Shelburne lost a prominent citizen last week in the person of Mr. Jno. Jelly. He became widely known a few years ago owing to his discovery of remains of the Mastodon and Mammoth. He was public spirited in all respects.

The Hunting Camp.—A load of valises, tenting equipages stoves, pipes, guns, &c. means a tempting week's sport to Messrs. Harris, Mockler, J. A. Hunter, Crawford, Vair, and others, who left on Monday morning for the vicinity of Tobermory lake.

A Rare Sight.—Mr. G. McKechnie one day last week showed us two well developed apple blossoms, which he had plucked from a snow apple tree. This has been a season of extremes, and surely blossoms in September is not the least of this year's eccentricities.

Before going on a sea-voyage or into the country, be sure you put a box of Ayer's Pills in your valise. You may have occasion to thank us for this hint. To relieve constipation, biliousness and nausea, Ayer's Pills are the best in the world. They are also easy to take.

Blaze In Harriston.—Last Thursday night a fire started in the Oddfellows block, but was soon under control. About midnight however, it broke out in two places, and considerable damage was done before being got under control. Fire-bugs are thought to be the cause.

London Electric Street Railway was opened last week, the Mayor acting as motorman on the 1st trip. Londoners are happy. The opening day of the fair furnished a spectacle not on the programme: the burning of the carriage and poultry sheds. Loss covered by insurance.

More Faith and Patience Needed.—Really we were surprised to hear that some farmers in the vicinity thought it necessary to violate our quiet Sunday by binding and hauling in oats. The season may be catchy, but not extremely so. Little is ever gained by Sunday work.

Mr. Jno. Sheppard, of Burlington, Halton, Co., died last Thursday at the advanced age of 85 years. Some 10 or 12 years ago the deceased moved from the 4th Con. of Bentinck, where he was well and widely known and respected. His aged partner still survives him. Mrs. R. Torry is a grand daughter

One advantage of taking Ayer's Sarsaparilla to purify the blood is that you need not infringe upon your hour of labor nor deny yourself any food that agrees with you. In a word, you are not compelled to starve or loaf, while taking it. These are recommendations worth considering.

South Grey Agricultural Society will be held on Tuesday and Wednesday of next week. Sept. 24th and 25th. With the exception of fruit the show is expected to be in advance of former years. The Secretary, Mr. A. McKenzie is now receiving entries, and everyone should strive to have this done before the days of the show to save the Secy. from most severe labor when all are rushed in at once.

Rat Portage.—We have received a copy of the Winnipeg *Saturday Night* from Mr. J. Barnes, one of our subscribers there, to whom our thanks are due. It is a special Rat Portage and Fort Frances number. The advantages of the former place as a summer resort are amply set forth and beautifully illustrated. "A trip to Fort Frances" is graphically described. We have laid the paper aside, thinking some of those who have some thought of moving there might be interested enough to call and see it. First come, &c.

Good Crops.—In a letter recently received from Mr. Neil McDougall, Duluth, Minn. enclosing his subscription, he reechoes the cry of good crops, which comes from every part of the west this year. Mr. McDougall has a good position on the Northern Pacific Railway, which he has had for four years A little colony of seven or eight young men from this country are near him and all doing well, as Grey boys should. It may interest many friends round Priceville and Durham to know that Mr. and Mrs. McDougall intend paying a visit soon, when we hope they will not miss the Review office.

Of Age.—South Grey Agricultural Society is now of age. The show next Tuesday and Wednesday being the 21st Annual Exhibition. It has had a vigorous youth and there is no reason why it should not grow with increasing vigor in the future. For all of these twenty one years, Mr. Jas. Edge has been honored with the Presidentship, while for sixteen years, the arduous position of Secy. has been successfully filled by Postmaster McKenzie, or better "Secy." McKenzie. To the unremitting diligence of these officers much of the past success has been due, and we hope for the future that South Grey Society may never lack such men.

We observed a fine new outfit, Threshers and Engine, passed towards Priceville on Monday last. Mr. Colin McLean is the enterprizing purchaser. The engine is a model of convenience and if as good as it looks is a treasure.

The Union Temperance Society of Durham will hold a Public Meeting in the Methodist Church on Monday evening next at 8 o'clock. Addresses will be delivered by several members of the Mt. Forest District which meets in Durham the day following.

The Secy. of South Grey Agricultural Society will be happy to allot space in the hall for exhibits by merchants or others on Show days. A little effort in this direction on the lines followed by Mr. Laidlaw and others last year will produce good results to the show and to the exhibitors.

Drowned.—Rev. A. D. Dewdney, at one time rector of Trinity Church here, and now of St. Johns, New Brunswick, was out boating with his family when a squall upset the boat and their infant daughter was drowned. The body has not yet been recovered. Much sympathy is expressed for them here.

A gentleman of this neighborhood of an observant turn of mind travelled through South, North and East Grey 10 days ago, and reports that crops are as good as he ever saw them. Of course hay is light, or none at all; but root crops are abundant, and where corn is grown it is doing well.

Threshing.—Reports generally are to the effect that the season will be a short one. Few or none have a whole day's threshing and the threshers dip in and out of the barns like humming birds sucking the sweets of the flower. However for the bulk of straw grain is turning out well, and if only the price were forthcoming matters would be fair.

Fair Day saw the usual crowd of buyers and sellers and an unusual crowd of small cattle chiefly one and two years old, evidently betokening there for the purpose of enducing stock as the barns have an empty look about them in general. The large number offered made buyers particular and low prices ruled. Quite a number were bought in the country and shipped here.

A Reminder.—Don't forget East Grey Show Fair to be held on their commodious grounds at Flesherton, the 26th and 27th inst. One of the amusements will be a 5 mile bicycle race to come off at 2. 30. p. m. sharp the second day of the Fair. The board is sparing no pains to make this the best and most entertaining Show Fair ever held at Flesherton. The Society will have a grand concert in the Town Hall in the evening 27th for which special high class talent has been engaged.

Fine Barn.—Mr. W. L. Dixon is well known as one of the most progessive and successful teachers in the riding, but it is not as well known that his fine farm in North Egremont is also a model in its way. A fine new barn erected this summer by our townsman, Councillor Geo. Moore is worthy of inspection. For convenience of watering stock from the cistern we have not seen its equal. A system of pipes with automatic taps leads into the stables and out of them at pleasure, while weighted doors rise to the touch to allow of the entrance or exit of a team. The arrangements for feeding from a mow of any depth are also exellent, and everywhere is observable convenient devices to lighten labor.

VICKERS.

Mr. Robert Lindsay and Wm. Grierson are both rejoicing over the arrival of another young ploughman into each of their families.

Among those who attended the Industrial Fair at Toronto last week were Mrs. C. Smith and Mr. and Mrs. Wm. Derby. All speak highly of the Exhibition.

On Tuesday the 10th inst, another of those happy events occured at the home of Mr. Jas. Park, when his daughter Jennie was united in marriage to Mr. Thos Nichol of Colorado. The ceremony was performed by the Rev. Mr. Craigie on the lawn in front of the house and was witnessed by about 200 guests. The bride was supported by her sister Rebecka, while Mr. Jas, Mather acted as groomsman. After all had been treated to a sumptuous repast they then proceeded to enjoy themselves at various games, such as football, etc. In the evening Prof. Collet and Yirst made sweet music on the Violin and the usual dance was indulged in. Mr. and Mrs. Nichol left for their home in Colorado the following morning followed by the good wishes of the entire comunity.

Sudden Death.—In town on Friday last it was learned with deep regret that Mr. Geo. Wright, son of Mr. Samuel Wright, Brickmaker, was lying in a very precarious condition at Proton Station, having been stricken down with inflammation of the bowels. Relief was felt when a message came announcing he was better, soon to be followed alas, by the intimation that he was dead. He was the oldest son, 25 years of age, active and vigorous, and a favorite with all. For some years he has had charge of the brickyard at Proton Station, and, being a forester, came over to take part in the Demonstration of the previous week. He entered with vim into the sports, taking part in the bicycle race, and none who then saw him, but would have predicted a long and useful career for him. It was not so to be. He is the first of the Independent Forester band to be removed by death, and is another reminder that youth is no barrier to the grim monster. We join with the whole community in extending sympathy to the bereaved parents and friends.

THE FUNERAL.

The funeral took place on Tuesday, and for the first time the brethren of Court Durham, were called upon to use their imposing and impressive funeral ceremony. Seventy of the brethren lined up at the Court Room about one o'clock, with crape-draped badges behind which was placed a spray of ever green. Messrs Limm and Torry were Marshalls and the route taken was by the Post Office and North past Crawford's Sawmill to the home of the deceased. A large number of mourners were here gathered and after the reading of the beautiful service for the dead of the Church of England by Student Thos. H. Farr the procession reversed and preceded the remains to the burying ground. The several invertings of the procession were done without a hitch, and we heard it remarked that the procession on Tuesday was better than on the day of the demonstration. Mr. Farr again officiated at the grave after which the brethren formed around the open tomb and the officers went through the Foresters' burial service. Each, in turn then dropped their spray of evergreen on the coffin, and after prayer and singing formed an unbroken circle with clasped hands, and with three silent motions all that was mort I of their deceased brother was committed and left to the silent tomb.

Court Dromore was represented by Bros. Taylor, Wm. Hastie, and McBeth Priceville court by Bro. Jno. McInnis. Rev. Mr. Connor will preach the funeral sermon next Sunday morning.

The Labor Congress held in London, Ont. on Sept. 3rd to 6th last was a notable gathering. The delegates were welcomed by the Mayor, and accepted some pleasant invitations and enjoyable trips. They dealt with the evils of the Sweating System, the influx of the Chinese, whom some of the speakers would like to exclude entirely, while others want the present $50 tax to be raised to $500. A boycotting resolution was carried. A resolution was adopted urging the abolition of the office of Lieu. Governor, and they even showed their teeth but did not bite at the office of the Governor General. The Dominion Government was also asked to reduce the license for the manufacture of cigars from $75 to $10. The Presbyterian Church is to be asked to withdraw its appeals to the Dom. Government for the repeal of the poll tax on John Chinaman. Mr. St. Pierre, a French Roman Catholic delegate wanted the Patrons excluded from membership as they were simply dissatisfied politicians but he withdrew his motion subsequently. The Socialist Labor Party succeeded in gaining recognition by the Congress and their admittance is a source of irritation to the others, which may lead to disruption. A motion was carried urging the petitioning of the Dom. Government to pass an alien Labor Law similar to that of the United States. This was not passed on principle, but simply in selfdefence.

The following clauses show the object of the federation:

"Its object shall be to unite all the organizations of the Dominion so as to secure the repeal of existing laws, the enactment of new laws, or amendments to the existing laws in the increase of wage earners, to formulate and discuss all subjects pertinent to the cause of labor, and to further by all honorably means the welfare of the working classes.

It shall form organizations in localities where none at present exist, either into local unions or assemblies of the Knights of Labor, but in no case shall any body of workmen belonging to any trade or calling at present having an international or national union be granted a charter. In the event of the formation of an international or national union of the trade or calling of the union so chartered being formed, it will be the duty of the proper officer of the Congress to see that the said union becomes a member of the said international or national union.

Unions so organized by this Congress shall be known as "Federal Labor Unions," and shall hold regular meetings at least once a month, for the purpose of strengthening and advancing the labor movement. The fees for charter shall be 8 5.

This clause raised a warm discussion.

WHO MAY BELONG.

The Congress shall be composed of delegates duly elected and accredited from the trades councils, central labor unions, trade unions, federal unions and district and local assemblies of the Knights of Labor, and the executive of the Patrons of Industry, in the Dominion of Canada."

Mr. Wm. Frost (better known as Billy) who has spent a pleasant month with us returned to his home in Toronto last Tuesday week. During his short stay he made for himself many friends and admirers, all of whom will always welcome his return any time that he may again find it convenient to visit us. Mr. Frost is not only an athlete but is also well nigh a professional with the gloves, just right here we can appropriately say that those who made themselves busy enough to call the exhibitions, in which he acted as sub, or, a fake, also that they could easily do him with the gloves, not only displayed their ignorance and made laughing-stocks of themselves in so doing but got sadly and sorely left and after apologizing getting a proper calling down, but as it is unnecessary to say as all know would not be in it if they could be coaxed to stand before him even three minutes with the gloves. Such people are more to be pitied than laughed at but hope they will learn an important lesson from this and be less talkative in the future, especially about their superiors and a subject of which they are totally ignorant of.

The delightful hum of the thrasher was first heard at the barn of Mr. James McDonald last Friday. We understand the grain turned out fairly well. Mr. McMeekin did the work.

Mr. Dan Stewart has been assisting his brother, Mr. A. Stewart, of the Station, at the harvest for the past week.

A goodly number attended the prayer meeting held at the residence of Mr. Jno. McLean's Thursday night last. Rev. Mr. McLeod was in attendance.

Mr. Morrow and his employee, Mr. Peter McArthur, are the first to start fall ploughing. They believe in an early start.

Of those who we think that have least cause for complaint as far as a poor crop is concerned is Mr. Dan Campbell, as it is thought that he has the best crop in the Grove as well as other places around us. He was ably assisted in harvesting it by Mr. Welsey Henderson.

We heard it remarked recently that it was too bad that such a fine specimen of manhood as Mr. Angus Black should remain in single blessedness. But if report be true he as well as his neighbor Mr. Merchison will soon be joining the great army of benedicts.

A look at the improvements made by Messrs Angus and Ronald McPherson will convince any one that they have not been idle since coming to the Grove.

Mr. Nick Baxter returned from the lower settlement last week, no doubt with a loaded purse.

To the Priceville scribe to the Advance, who seems to doubt the reliability of the M. G. scribe we might say that he may place implicit reliance to his humble servant. However his kind words to our noted trio fit her very nicely, it also goes to show that he knows who they are as well as their where abouts, taking into consideration that no one told him.

Mr. Mike Henry and Mr. Alex. Carson intend leaving Tuesday morning for a prospecting tour by way of Owen Sound to Michigan. We hope our loss may be their gain.

Mr. A. C. McLean is assisting his brother Mr D. McLean, of Priceville, at stone work.

Messrs. Halfpenny and Jno. McQuarrie are also among those who are reported to have good crops considering the year.

Mr. James Henderson takes the lead in the dairy line, he milks no less than nine cows twice daily.

Pharmacist Conkey intends taking in the North ern Exhibition at Owen Sound before leaving for Chicago.

Messrs. Duncan Sinclair and Johnston Renderson are busily engaged in the cedar line at present, and are getting a heap of rails piled up as a result of their labor.

The harvest in east end of the Grove is also reported fair, our authority is Messrs. Hugh McFadden, Alex. and Angus McLeod, who have about finished.

Mr. Duncan Baxter has has been adding to the appearance of his premises of late, perhaps chiefly mind it alone has had something to do with it. he has built one of the latest fences around the whole farm and is also engaged in building brick chimneys on the house at present.

The Scotch Town man should remember that there's nothing brilliant in making guess et who another correspondent's "news boy" is, it also shows bad taste, as people in glass houses lever throw stones, we would have inform our young friend that in future for him to light on the scribe only as it is only he is sure of. We would also inform him might here, that his trips in succession was for 'news' not for 'jealousy' as the like of that is strictly out of our lines.

In looking over our budget we find that we have, with possibly a few exceptions every family or a representative of every family in the Grove included in this week's news. It is seldom we get over our territory in this manner.

LIFE IS TOO SHORT

To become proficient in a profession and half a dozen trades, If watchmakers could see themselves as others see them they would stick close to their watch business. There are few business that pay a better profit. They remind me of a bad child always wanting to do something they know very little about. They often miss the sale of a $50 watch by pretending to fit a friend with glasses. The wise watchmaker of the present day has discontinued to sell spectacles.

RAMSAY & MORLOCK.

At this time of the year their seems to be such a temptation among some people to deceive purchasers in the fruit line that we deem it advisable to quote a clause from the statute of 1895: "Each person who shall knowingly and with intent to defraud so place or arrange apples, pears, peaches, nectarines, cherries, apricots, grapes, or berries, of any description what ever, in any box, crate, barrel, bag, basket or other article, as to conceal defects in size or quality in any portion of such fruit, by covering the same with fruit of a larger size, or better quality or otherwise, shall be liable, on summary conviction thereof, to the penalty of not less than $1 nor more than $5 and costs."
