Rheumatic Twinges . .

With Old Age come Twinges of "Rheumatism" and aches in the back which

"Basanos Red Oil"

Always cures. We carry this as well as all other standard remedies constantly in stock. The

"Red Oil" . . . .

Is one of the best preparations of its kind, it is a sure cure, (if directions are followed) for not only "Rheumatism" but also for "Chilblains" being successful in every case of the latter where it has been tried, also in "Sprains," "Gout," &c. Everybody should have a bottle of this reliable remedy. For Sale at

"THE DURHAM PHARMACY."

CALDER'S Block, Durham.

Have You Tried the "German Poultry Condition Powder"?

The Grey Review.

Durham, Thursday, Feb. 27, '96.

Mr. McKeen the M. P. who gave away for Sir Charles Tupper has been appointed to the Senate. Such shameful bargain and sale could not go farther.

—A Bill for the permanent exclusion of live cattle from British Ports has been laid before the British House of commons. Such a step at first sight appears to deal a severe blow at the Canadian Cattle trade. But Prof. Robertson of Ottawa says that it is not so and advises that the cattle be slaughtered at Montreal and the dressed beef exported in cold storage to the British Ports.

—And now we are informed by an official return made to the house that Sir. Chas. Tupper invited himself out as follows: "Shall I come out to consult you about fast service and Pacific cable. Think I could render you material assistance. Do not make contents of this message public until advised." (Signed) "Tupper." What could the generous Bowell do but reply "Re fast line. Come out to consult. Get all information possible," and yet Tupper makes his boast in such a way as leaves an impression that Bowell initiated the request.

—Johannesburg was brought again before the world last week as the victim of the worst dynamite explosion on record. Eight cars of the stuff were standing in a suburb of the city and exploded with appalling force and destructiveness. For half a mile radius, houses were demolished, several hundreds of people wounded and over 100 killed outright. A relief fund has been started for the thousands of homeless, and $500,000 already subscribed. Boers and Uitlanders are working in harmony in the face of a common calamity and there can be no doubt that sore feelings will be cemented by the deplorable accident.

—The C. P. R. Company are in need of funds and propose, it is said to sell 12,000,000 acre of land to the Government at a rate of $2.00 per acre. This land was given to them in the first place, and some years ago the government guaranteed the payment of 3½ percent. interest on an issue of the company's bonds to the amount of $15,000,000. The unsold land of the company was then to be held by the Government as a security and now for the C. P. R. to propose to sell to the government, land, originally a gift, then a security seems to us decidedly cool. Our present rulers may do it however and in charging it up as a payment for land may find it possible to use some of it in elections by the grace of its friend the C. P. R.

—The new photography continues to engage the attention of science. Diseased bone has been clearly made out the positions of bullets indicated and even the characters of a stone in the bladder have been traced by the new method. The discoverer of the new departure is Wilhelm Roentgen a native of Holland now Professor of Physic at Warsburg. An improvement, upon Roentgen's discovery has been made by Salvioni of Rome, who has invented an instrument by which, the aid of Roentgen's electrical apparatus, the interior part of the body, can be satisfactorily examined. This instrument has received the name, Cryptoscope, and promises to be as serviceable to the medical profession in the future as Laennec's Stethescope has been in the past.

—The Anglo American trouble over the Venezeula boundary is rapidly passing into the domain of common sense. Secretary Olney is satisfied that the whole matter will be settled amicably. Lord Salisbury is ready to agree to any reasonable arrangement, and a very important meeting of representative men has been held in New York when strong resolutions were agreed to in favor of all questions in dispute between Great Britain and the United States being submitted to a court of arbitration. So far good, for this is in keeping with the highest enlightenment of our age. But, when a court of arbitration is constituted and when its award is given, how is the award to be enforced. A way of escaping the difficulty will be found, no doubt, but this is a real difficulty in way of settling international disputes by arbitration.

—Some old maps have been discovered by Mr. Mills, of Bothwell in the Library of the House of Commons. These maps are of great importance in the Venezeula matter. One of them was drawn up by a French Geographer in 1722, another in 1774, both giving the the boundaries of Venezuela and other South American provinces, also maps of 1740 of the same provinces, 1771 and 1778, and an atlas of the whole continent from 1680 to 1838, all of these extend the boundary of Guiana as far west as the month of the Orinoco. Mr. Mills has brought the matter before the attention of the Government which will at once communicate with the British Government on the matter.

THE ONTARIO LEGISLATURE.

In the House of Assembly the Hon. Mr. Harcourt has brought down the estimates and delivered the budget speech. It is very satisfactory to know that the Province of Ontario has a comfortable balance to its credit, this being on Mr. Harcourt's showing over five million dollars at the close of last year. The receipts of the Province have been from Lands, timber dues, succession duties licenses etc. Of all these, next to the Crown lands receipts, the largest item is from the succession duties which have always formed a considerable part of the British revenue and now promises to do the same for Ontario. These duties have steadily increased year by year. They are no burden but arise from the best of all taxable conditions, the "ability to pay" and then when it is observed that small properties do not come under the the succession duties Act, only large estates, the wisdom of imposing these duties becomes all the more obvious. Curiously although the courts adjudicated during the year upon 4574 estates, only 87 of these were dutiable under the Act and of the 87, twenty-two were reported from the county of York, the remainder being from Middlesex, Wentworth, Oxford and Northumberland. The amount derived from this source is spent in the maintenance of hospitals and asylums.

The expenditures of the Province seem to have been economically managed. As the population of the Province increases and the responsibilities are enlarged, so the cost of civil government will increase, but in no part of the expenditure does there appear any trace of corruption or extravagance. So much cannot be said for our legislators at Ottawa.

—All of the Patron members of the Legislature have individually returned their railway passes.

—The Manitoba Legislature has before it resolutions strongly condemnatory of the passage of the Remedial Act. They will carry too.

HONOR TO WHOM HONOR ETC.

The charge has been frequently made against the Orange Societies, that willing or unwilling, they have allowed themselves to be dragged at the chariot wheels of the conservative leaders. However this sort of thing is not to be in the future. Mr. Clark Wallace Sovereign Grand Master of the Orange body withdrew from the Cabinet when the Remedial Bill had been finally agreed upon. But Birmingham who is Grand Secretary of the Orange order, at the same time is the chief organizer of the Conservative Party and Secretary of the Conservative Association, still holds the two offices. He evidently has not the backbone of Grand Master Wallace. The Orange Society however will not tolerate this truculence any longer, and at a meeting of the County Lodge of Algoma a resolution was passed expressing regret that Mr. Birmingham should so far forget his obligations and calling upon all Lodges to elect to office only men of integrity who will maintain the principles of the order, equal rights to all and special privileges to none. No doubt other Lodges will follow the example of the Algoma brethren.

THE REMEDIAL BILL

Is the question of the hour. A mass meeting of the citizens of Toronto was held in the Massey Hall on Saturday, of a non-political character, and addressed by such men as E. F. Clarke, Mr. Mulock, Dalton McArthy, Mr. MacLean, of Toronto World, Mr. Jos. Martin of, Winnipeg and others, when resolutions of a very unmistakable character were enthusiastically carried strongly condemnatory of the policy of the Ottawa Government in the question and upholding the stand taken by Manitoba. Then the debate on the second reading of the Bill will begin in the House of Commons on Tuesday next, and to add fuel to the flame, the Quebec hierarchy, through Father Lacombe, who is spoken of as a devoted Indian Missionary, has addressed a letter to Mr. Laurier, in which he is urged to support the Bill, or, if not, that the good Fathers of the church will do their utmost to defeat himself and his party at the general election. Not only so, but worse still they refuse to have anything to do with a commission to investigate the facts of the case. This taken with the character of this and other documents come to light, and the circumstances of the Remedial Bill itself, afford internal evidence of there having been a collusion between the Government and the Hierarchy, in all the steps taken by the Government in its dealing with Manitoba. But the Hierarchy has over-reached itself. It has roused a spirit of opposition to class legislation, which will not down in a hurry and which must ultimately triumph. This is the teaching of History. Moreover everywhere there is evidence that the Roman Catholic laity do not want want Separate Schools. They prefer sending their children to the Public Schools, where they can receive a good education and learn to live in peace with their neighbors and build up a common nationality. Morever the Schoolmaster has been abroad and if we are to judge of the signs of the times, then at the general election, they will support the Liberal Party which has fought their battles for freedom all down the ages, as has been shown of late in Vercheres, Antigonish and other Roman Catholic constituencies where the Hierarchy exerted all its strength, but where the Liberal candidates were elected in spite of its opposition.

Just as we go to press, we learn that notice has been given by Attorney General Sifton of a resolution to be submitted to the Manitoba Legislature to the effect, that the Manitoba Government urged an enquiry into the facts, that this invitation has been ignored by the Ottawa Government that no case for interference with the Manitoba School Law has been made out, and, that the Manitoba Legislature solemnly protest against the Remedial Act laid before the House of Commons at Ottawa.

THE RESOURCES OF ONTARIO AND THEIR RECENT INCREASE.

DAIRYING.

Turning now to the Dairy Products of Ontario, we notice that while the grain prices have decreased 50 per cent. during the last ten years; the Dairy prices have decreased less than 6 per cent.

Although in Cheese-making, Ontario has made a good start, it has not by any means reached the limits of its capabilities. The number of cheese factories has steadily increased during the last ten years:—

GROWTH OF THE CHEESE INDUSTRY.

In 1883 there were 635 factories which made cheese to the value of $5,559,339. In 1893 there were 392 factories which made cheese to the value of $8,338,709.

Statistics show thas our exports of cheese have been steadily increasing since 1872, and that our butter exports dropped to $331,918 in 1889, since then, however, there has been a gradual increase as will be seen by the following:—

EXPORTS OF CHEESE AND BUTTER.

Year	Cheese Value.	Butter Value.
1872	$ 1,840,284	$ 3,612,679
1882	5,400,869	2,969,158
1892	11,652,412	1,066,058
1893	13,407,479	1,296,814

The Co-operative Creamery system, begun in 1881—2 has done much to improve the quality of the butter produced and to increase the demand for our good uniformly made butter.

DAIRY EXPORTS.

The British Statement of Dairy imports for 1892 shows that while Canada, (from which the principal supply comes from Ontario), contributed 46 percent of total imports of Cheese to that country, she contributed only 3 percent of the butter, and none of the condensed milk. The low price obtained for Canadian butter abroad, is explained by the fact that the great bulk of it was inferior dairy and not factory made.

DAIRY AWARDS AT WORLD'S FAIR.

A very great deal is expected of the dairying industry in Ontario. The English markets are open to us, but as we have said, only for the best grades, and when it is remembered that at the World's Fair, 129 exhibits from Canada received Awards, and 31 exhibits of Canadian Cheese scored a higher number of points each than the highest award given to any exhibit from any other country in the same classes, it will be seen that Canada's Dairy products do not lack in quality.

APIARIES.

In connection with Horticulture, Bee-keeping may be mentioned. This industry is in a flourishing condition, and the area of apiculture seems to be extending. Bee-keeping is a great improvement, and other helping them for about a month the nervous headache and kidney trouble left her. The degree of thankfulness felt by one who received such benefits as the above can better be imagined than described. Here are Mrs. Cotnam's words: "If you could only know or if I could but tell of the intense suffering which I have endured and the many sleepless nights I have spent in mental and physical agony, you would not wonder at the degree of thankfulness I feel for my restoration to health." Her trouble was a continual dread to her, and for a long time prevented her from doing any work. Since using the pills she is as well as ever—or to use her own words—"fully restored." In this household Pink Pills are now looked upon as one of the necessaries.

As is the case with every good cause Pink Pills have much to contend with; superior articles have been placed on the market, and, though in appearance and color they may resemble the genuine, they have an altogether different effect on the system. The writer was once in a store when Pink Pills were asked for by a customer. The dealer hadn't them but said he had something "just as good." The public are warned against this just as good scheme which is too often resorted to by some store keepers. It should be borne in mind that Dr. Williams' Pink Pills are a specific for all diseases arising from an impoverished condition of the blood or a shattered condition of the nervous forces, such as St. Vitus dance, locomotor ataxia, rheumatism, paralysis, sciatica, the after effect of la grippe, loss of appetite, headache, dizziness, chronic erysipelas, scrofula, etc. They are also a certain cure for the troubles peculiar to the female system, correcting irregularities, suppressions and all forms of female weakness, building anew the blood and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork or excess of any nature. Sold only in boxes bearing the firm's trade mark and wrapper (printed in red ink), and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N. Y., at 50 cents a box, or six boxes for $2.50.

SUFFERED FROM SEVERE HEADACHES.

The lady referred to was for twelve years a constant sufferer from nervous pains, headache and kidney trouble. Having read so much about Dr. Williams' Pink Pills she determined to give them a trial. Their use for a short time brought a great improvement, and after

---

That Tired Feeling

Means danger. It is a serious condition and will lead to disastrous results if it is not overcome at once. It is a sure sign that the blood is impoverished and impure. The best remedy is

HOOD'S Sarsaparilla

Which makes rich, red blood, and thus gives strength and elasticity to the muscles, vigor to the brain and health and vitality to every part of the body. Hood's Sarsaparilla positively

Makes the Weak Strong

"I have used six bottles of Hood's Sarsaparilla as a general tonic and have enjoyed the best of health. Although I had a strain of work I have had no sick spells for many months and no lost time, so I am doubly repaid." THOMAS S. HILL, 281 Brussels St., St. John, New Brunswick.

Hood's Sarsaparilla

Is the Only

True Blood Purifier

Prominently in the public eye.

Hood's Pills cure habitual constipation. Price 25c. per box.

BOOTHVILLE.

Mr. Editor,—The Brownsville correspondent thinks there is not room enough for us in a mile and a quarter; for my part I need not leave our villa for news as there is business enough done here without going to Brownsville for news. We have a high, dry and clean little place, that is more than Brownsville can boast of. In the first place we have a No 1 general blacksmith, two carpenter shops. I will recommend any one of them. A cheese factery and the cheese maker we have every reason to be proud of, his cheese bringing highest prices. We have a cheese box factory that will be in operation by spring and a grain chopper. Then we are getting a post office and ere long we hope to have the telephone through by here. Of course we have no shoemaker, but we have a veterinary whose skill is well known in the community. So now Mr. Correspondent who ever you are if I can not gather enough news without trespassing on your domains I will give it up.

Miss Weir, from New England, spent a couple of days at Mrs. Booth's, of Boothville.

Mr. Noble Wilson and his daughter, Lizzie, accompanied by Miss E. Booth drove to Sydenham Tp. to visit Mr. James Wilson. We are pleased to hear he is improving.

Mr. Alex. Taylor and Mr. Tom Atkenson, of Dromore, paid Boothville a flying visit last week.

Miss Jessie McDougall, of Bentinck, is at present at her sister's, Mrs. Don. Campbell, of Proton.

D. McCannel was to see his brother-in-law Galbraith at Proton.

Mr. T. Smart, of Collingwood, is visiting old acquaintance around here. He is the same as of yore—Smart by name and nature.

Mr. James Wilson is away again making ship timber. We miss him around the Corner.

A sleigh load of the people around here went over to Fairbairn to hear the Evangelist.

Mr. Neil McQueen sold his team of horses for $155.

We hear that Donnie Graham paid his annual visit to the Valley. Has Johnnie paid his annual visit to the Lake Shore town. I am afraid you will have to go south this time.

John Hannam is home from the south. He says the snow is too deep to sawlog.

John Aldcorn has let the job of his house (carpenter work) to Mr. Switzer, of Egremont.

Mr. Sam Todd's shop was near burned last week. A coal dropped some way from the stove and was burning when he opened the door.

We hear Mr. Hoffman is going to Sunnidale. We will miss him around the Corner.

Some of the boys around here helped to move Mr. John McLeod to Sunnidale.

Things we would like to know:—

Who keeps the light burning so late Saturday nights?

What took Sam to Galt so sudden?

Who upset the calves, pigs and hens when moving to Sunnidale?

The Fairwell correspondent must have lost a few nights sleep but next week I expect to dream or imagine that Watson's mill could get or saw California or British Columbia pines or redwood. We wonder if *she* is not the flaxen haired queen that she so nicely tells us about last week. We would advise D. to take up courage; for when one comes over to inspect what she would like to be her future home there isn't much up hill work in the matter. Doesn't she look upon a "dirty house as good luck."

Mr. H. Hoffman, who has lived among us for the last ten years has at last decided to make his future home in Sunnidale. The following persons moved him and his valuables on Saturday, viz: T. Smart, Neil A. McQueen and Archie McLeod. They report they were well used, expense was not considered but comfort and a jolly good time. Hope he has made a good move.

Mrs. Hazard and son were visiting at Mr. Donald McFarlane's last week.

NERVOUS HEADACHE.

TROUBLE THAT RENDERS THE LIFE OF MANY WOMEN MISERABLE.

A Sufferer for Twelve Years Whose Trouble was Aggravated by Kidney Disease Tells How to Regain Health and happiness.

From the Smith's Falls *Record*.

Since the *Record* began to publish accounts of the cures by the use of Dr. Williams' Pink Pills, its representatives have found that half the wonderful cures effected by this medicine have not yet been given to the public. Women as well as men who have found relief are eager to let the facts be known for the benefit of other sufferers. Among them is Mrs. James Cotnam, of the township of Wolford,

---

GLENELG COUNCIL.

The Council met Feb. 10th pursuant to adjournment. All the members present; the Reeve in the chair; minutes of last meeting read and confirmed. The Auditors presented their report of the Receipts and Expenditures for 1895. The committee on the Treasurer's sureties also reported. An account for Municipal Stationery from the Municipal World was read, as was also 3 tenders for printing.

Staples—McFadden—That the Auditors' Report as resudited by the Council be adopted, and that 200 copies of the same be printed for distribution and that the Auditors be paid $6 each for extra services.—Carried.

McFadden—Arrowsmith—That the report of the Committee on the Treasurer's sureties be adopted and engrossed on the minutes, and that they be paid $1 each for their services.—Carried.

Staples—Arrowsmith—That the account of the Municipal World for Municipal blankes be paid.—Carried.

Lamb—Staples—That C. W. Rutledge of the Markdale *Standard*, be awarded the Tp. printing for 1896 his being the lowest tender.—Carried.

McFadden—Staples—That Jas. Dillon be granted $5 as charity, he being in destitute circumstances.—Carried.

Staples—Lamb—That the Clerk be paid $3.00 for Registering births, marriages and deaths, also the sum of $1.57 for postage.—Carried.

McFadden—Lamb—That By-law No. 354 for the appointment of Tp. officers and as filled up be now read a third time, signed, sealed and engrossed on By-law book.—Carried.

The Council adjourned to April 20th at 10 a. m.

J. S. BLACK, Clerk.

The Time For Building

Up the system is at this season. The cold weather has made unusual drains upon the vital forces. The blood has become impoverished and impure, and all the functions of the body suffer in consequence. Hood's Sarsaparilla is the great builder, because it is One True Blood Purifier and nerve tonic.

Hood's Pills become the favorite cathartic with all who use them. All druggists. 25c.

Fraser, Mulock and Gibson make a strong trio. Saturday at 2 o'clock.

VARNEY.

We are sorry to relate that Mr. Jas. Abbot is not as well as usual.

We are glad to hear that Mrs. Quinten Pettigrew is improving. We hope she will soon be around again.

Miss Aggie Dunn is improving very slowly.

Mr. Dowling, of Holstein, and his sister were visiting at Mr. Henry Petty's for a few days last week. They returned home on Saturday.

Mr. Wm. Eden, of Arthur, is visiting friends around Varney.

Mr. Clark's chopping mill has been idle for a few days owing to some cogs being broken out of some of the wheels.

Mr. J. W. Blythe had a wood bee on Friday last. The boys turned out well and cut a nice lot of wood. Mrs. Blyth also had a rag bee, and I think the ladies put up about as many cords of rags as the boys did wood. They all stayed and spent a very enjoyable time playing games and so forth.

JAMIESON'S RUN.

[Recent events, and future probabilities have so moved a valued Glenelg contributor that he drops into rhyme as follows:]

'Twas on the third day of the month,
The wind did blow a squall,
The leaders of the Tory club
Had met at the Town Hall.

The object of their meeting was
To choose a runner fleet,
Who could knock out the other chaps
Whenever they would meet.

Without much parely, Jamieson,
A Tory, strong and sound,
Was chosen, as a person who
'Twas thought, could cover ground.

Some years ago, this Jamieson
Had tried his best to win it;
But, with the war horse of South Grey,
He found he wasn't in it.

But with a different leader now
To urge the party in,
(The war horse is the Cumberland)
He hopes th' time he may win.

Or, perhaps he thinks the Patron rank,
With Allan as their man,
Will snatch enough of Liberal votes,
To place him in the van.

Or perhaps, indeed, some thought occurred
Of how men held their breath,
While Jamieson, so Kruger's camp,
Rode on, e'en unto Death;

If that's his thought, perhaps hell find
He'd better not begin;
For like his name sake, Jameson
He'll lose his little pin.

KNOXIN.

BIRTHS.

SHERMAN—In Crawford, on the 12th inst, to Mr. and Mrs. John Sherman, a son.

MOENKE—In Sullivan on the 10th inst. to Mr. and Mrs. August Moenke, a son.
