$1.00. To be paid on the Season, Absolute, Oct. 1st, 1895.

The Grey Review.

Durham, Thur. May, 7 '96.

—The Conservatives of N. Bruce are too funny for anything. They have justified McNeill in voting against the Remedial Bill, they land Sir Chas. Tupper to the skies, who read McNeill out of the party for doing that same. They censure Mr Laurier for doing just what McNeill did, yet McNeill has their commendation!! and all this at one meeting with McNeill there!!! Next?

—The Hon. G. W. Ross, addressing a large meeting last week at Orangeville on the Manitoba School Question said that he had no doubt but Manitoba herself would have settled the question satisfactorily had she been left alone. But, that now the only way to dispose of the matter was that indicated by Mr. Laurier, the investigation of the facts by a competent commission. Had this course been taken when advised by Mr. Laurier years ago, all the recent troubles about remedial legislation would, in Mr. Ross' opinion have been avoided.

—Dr. Landerkin was in town Tuesday and met with some of his friends. He is taking a survey of the riding, and so far has met with encouragement from some unexpected quarters, and enthusiasm among his own friends. His clear and consistent course at Ottawa enables him to meet all classes with a confidence which is being largely returned, and we doubt not that before the campaign is half over it will be abundantly apparent that Dr. Landerkin deserves and will get the support of all lovers of honest administration of public affairs, in whatever camp they may at present be found.

—The South African trouble has developed in a way quite unexpected by everybody. The Jameson raid on the Boers was supposed to be a dash got up by the hero himself and his friends for the purpose of restoring order to the Transvaal. Mr. Cecil Rhodes and the South African Coy. denied having anything to do with it. But truth will out. Telegrams have come into the possession of President Kruger which are said to show that the whole thing had been carefully planned by the Company and its President, Mr. Rhodes The rumors are very damaging to many persons who up till now had been well thought of. And so damaging are they, that Mr. Rhodes has been recalled to London to stand his trial along with Jameson.

—Our neighbors of North Grey are at work vigorously. Last week a large meeting assembled at Owen Sound to welcome Dalton McCarthy. The afternoon and evening meeting was largely attended. A special meeting is to be held at Owen Sound on the 23rd inst. for the purpose of choosing a candidate in the McCarthy interest.

—Sir Oliver Mowat has announced his intention of entering the field of Federal politics. This step has not been taken in haste, for, as he writes to Mr. Laurier, after much correspondence and deliberation it has been made plain to him, that at the present juncture of affairs in the Dominion "the crisis is so grave that every personal sacrifice has to be made and every incidental risk run if the country is to be rescued from the misgovernment the Dominion has so long been suffering from." The sacrifice made by Sir Olive is truly great for any man, but especially so for a man of his years But all honor to the man, who, at the call of duty, retires from the position, he has honored for 23 years and makes the great personal sacrifice he is making in embarking upon the troubled sea of Federal politics. However his loss will undoubtedly be the country's gain. From a mere party view his name will be a tower of strength to the Liberal party among all classes of the people not only in Ontario but in all the other Provinces. In Sir Oliver's letter to Mr. Laurier he recognizes as Mr. Laurier has often declared, the necessity of legislation on the tariff being gradual and cautious, or tariff for revenue which will bring relief to the working classes but which at the same time will be just to the manufacturers. As to the Manitoba School question, he says that questions as difficult have been settled satisfactorily to all parties, by the Ontario Legislature, and he does not anticipate any difficulty in settling it.

THE TUPPER SLATE.

Sir Chas. Tupper became premier on Monday, on Friday he announced his cabinet as below. The "Mail and Empire" says it was slow work because there was such an abundance of good material to select from!! The good men it will be noticed are mostly outside. Sir Donald Smith could not be held. Mr. Chapleau was coaxed but his health would not permit! Chief Justice Meredith was begged to step in but wisely keeps the seat which he honors. Mr. Ouimet was offered for a few days but could not be caught. Of those who stood by Sir MacKenzie Bowell during the bolt only Costigan remains. Caron and Ouimet are out, but Sir Hibbert Tupper is in with a $5000 office. The Quebec contingent, headed by Angers are of the Ultramontane school, and strong pro-remedialists. The Orangemen for once are not represented in the cabinet, and it is quite apparent that Sir Charles is playing for the support of the clerical party in Quebec to whom no doubt ample promises are given.

The ministry is as follows:

Premier and Secretary of State, Sir Charles Tupper.

President of the Council, the Hon. A R Angers.

Minister of Justice, the Hon. A. R. Dickey.

Minister of Public Works, the Hon. A. Desjardins.

Minister of Trade and Commerce, the Hon. W. B. Ives.

Postmaster-General, the Hon. L. O. Taillon.

Minister of Agriculture, the Hon. Dr. Montague.

Minister of Railway and Canals, the Hon. John G. Haggart.

Minister of Militia, the Hon. Col. Tisdale.

Minister of Finance, the Hon. George E. Foster.

Minister of Marine and Fisheries, the Hon. John Costigan.

Minister of Interior, the Hon. H. J. Macdonald.

Comptroller of Customs, the Hon. J. F. Wood.

Comptroller of Inland Revenue, the Hon. Col. Prior.

Solicitor-General, Sir Hibbert Tupper.

THE NEW CABINET.

Sir Charles Tupper has succeeded in forming a Cabinet, and certainly he is to be congratulated upon his work. In the management of public affairs it is usually considered to be of the greatest importance to carry on the affairs of the country with as little friction as possible. Sir Charles Tupper in his very first step has precipitated a war of creeds. Could anything be so unfortunate for any country, especially for one whose population is of so heterogeneous a character as that of Canada? People will differ on religious dogmas as they do upon political theories, but there is no reason therefore that they should fly at one another's throats. Sir Charles has done his best to arouse sectarian strife and to array the contending sects in opposite camps, the one against the other, the East against the West. But in this insane piece of folly Sir Charles Tupper has counted without his host. There are many Roman Catholics in Ontario as well as in Manitoba and the other Provinces who are no lovers of Separate Schools, but prefer having their children educated in the Public School, and a still larger number who, in the exercise of the franchise, will claim the privilege of free men and the right to record their votes as it may seem to them best. There has been in the past much talk of clerical domination but in common with many other delusions it has had its day, so that even in the Province of Quebec it has been reduced to the merest shadow of its former self, and does not count for much on election day; However there can be no longer any doubt that Sir Charles has staked his success on the 23rd of June on the united support of the Roman Catholic Church. Those who stood by Sir MacKenzie Bowell in the bolt of January last Caron, Ouimet and Dickey have been sent adrift, Col. Tisdale being the sole representative left in the cabinet of the Orangemen and the followers of Sir MacKenzie Bowell. On the other hand the Ultramontane party of Quebec is well represented in the new Cabinet by Angers, Taillon, Desjardins and Ross, while the Protestant minority of Quebec is left without any representative what ever. This is a most extraordinary attempt at Cabinet forming on the part of a man who has professed himself to be so very solicitous about the privileges of minorities generally, and of that of Manitoba in particular. Another curious feature of the Cabinet is the strength of the personal equation in it. Sir Charles on one occasion made the boast of the sacrifice he and his family had made in the interest of the Dominion Now when he has got the matter into his own hands the true character of the man appears. Sir Charles the premier installed his son as Solicitor General and his son in law a minister of Justice, while the partner of his nephew is appointed Minister of the Interior. The Tupper family interest has been surely well safe-guarded, in the construction of the new Cabinet.

DIVIDING THE COUNTIES.

In accordance with an order in council approved by His Honor the Lieutenant Governor, means will be shortly taken to carry out the provisions of an act passed at the recent session of the Legislative Assembly, entitled "An Act to reduce the number of County Councillors."

The following county court judges have been selected to carry out this work:—S. J Jones, Brant; W. H. Wilkinsoh, Lennox; A. Bell, Kent; W. W. Dean, Victoria; W. S. Senkler, Lanark; Jno. Creasor, Grey; T. M. Benson, Northumberland and Durham; C. R. Horne, Essex; Peter O'Brian, Prescott and Russell, and L. B. Doyle, Huron.

Judge Jones will act as chairman when the commissioners will be issued authorizing Judges Jones and Creasor to divide the counties of Essex, Kent, Lambton, Huron, Bruce Elgin and Norfolk; Bell and Horne to divide Oxford, Waterloo, Brant, Wentworth, Haldimand, Peel, Halton and Grey; Jones and Doyle to divide Wellington, Simcoe and Dufferin; Bell and Doyle to divide Middlesex, Perth, Lambton and Welland; Dean and Benson to divide York, Ontario, Peterboro, Hastings, Lennox and Lanark; Wilkinson and Senkler to divide Norththumberland and Durham, Prince Edward, Victoria, Leeds, Grenville, Frontenac, Prescott and Russell; Dean and O'Brian to divide Carleton, Stormont, Dundas, Glengarry and Renfrew.

FROM WOODEN TO ELECTRIC RAILWAYS.

Apropos of the present interest in the proposed Electric Railway across the county, it may be of some interest to recall some of the earlier movements in Railway extension in this county. It is pretty well known that the first proposed railway to Durham was to come from Angus on the Northern Railway, and it is now generally conceded had that road gone through, it would have helped Durham and district more than any subsequent railway has done. The opposition that scheme met with is not likely to be repeated now, when a railway through nearly the same district is under consideration. Let some company but show that it means business, and no obstacles will be laid in the way.

History repeats itself, and to show there was "wind" then as well as work we reproduce an article from the Priceville *Courier* of March 27th 1868. No name is attached to this sarcastic article which, as we well remember, was written by the late Rev. Donald Fraser, then a minister in Priceville. The place "Cornabuss" now is known as Markdale. Here is the article:—

"We have often heard of a knot of sailors sitting down and trying who can tell the biggest yarn. This seems to be the way in which our young Companies are seeking to interest the public. If they meant merely to spin yarns, it must be allowed that they have succeeded admirably—they have told some very imposing stories. But if they were every in earnest about building a railway or railways, they must, we think, feel rather disappointed.

The Durham and Angus Company promised to do "wonders," but it has quietly dropped out of notice. The promoters of the Guelph line, after all their high pretension and "energetic movements" are apparently on their last legs. What the Narrow Gauge will come to remains to be seen.

The latest sensation is a Wooden Railway from Collingwood to Meaford, and branching off at some point up the valley of the Beaver River to Cornabuss. One great argument in favor of this scheme is its cheapness. Iron rails are very expensive, but in this case, Maple—the material of which the rails are to be composed—is abundant along the track and can be got into shape at trifling cost. We expect soon to hear of the promotors of this scheme going "vigorously to work." We should advise them to commence *splitting the rails* at an early stage, so that they may have time to become seasoned before the road is graded, and if that should never happen they may be found useful for *some other purpose*.

This Wooden Railway up the Cocksu Valley, as it is called, is not a bad idea. Whether it will ever take a tangible shape is another question. We might, however, take the liberty of suggesting an idea equally good, if not better. Why not build a Wooden Railway from Collingwood to Meaford, and from Meaford to Owen Sound? Wooden Rails would be just as good for Owen Sound as for Cornabuss, and the Company might make a good thing out of it by selling the iron rails to the Company that will build the road from Owen Sound to Meaford. We hope the promoters will take the matter into consideration, and we feel sure they will be delighted with the idea of building a Wooden Railway to Cornabuss."

PRICEVILLE.

We are having beautiful spring weather and the farmers are much further ahead with their seeding than at this time last year. Much improvement is noticable in the way of new fences, but still there is room for more, as we hear of poor line fences being bad for the eyes.

Mr. H. McLean is bricking his house and building an addition to it. Heck means business.

Miss Lillie McAuley, of Chicago, is at present visiting her parents.

Rev. Mr. Mehan, Flesherton, preached in the Methodist Church here Sunmorning and Rev. Mr. Wells exchanged pulpits with Rev. McLeod.

Mr. John McLean and family, North Line, intend moving to Duluth next week. They will be much missed as Mr. McLean is one of the pioneers of this place.

Miss Ella Husband, of Holland Centre, visited her many friends here last week.

Mr. and Mrs. R. Watson, of Walter's Falls spent Sunday with their many relatives here.

We see Mr. Butters again stationed in the Commercial Hotel, Mr. Cochrane having retired from the business and moved to Durham.

Messrs. Hall and McArthur, of Hopeville, were the guests of Mr. Peter McArthur last Sunday.

Miss Cushnie, of Flesherton Station, was the guest of Miss James one day lately.

Mrs. Angus McLeod, of Michigan, visited friends in this vicinity this week.

BOOTHVILLE.

Mr. Editor,

I now take my quill in hand to let you know of some of the happenings of this place. We have a fine spring. It was considered a late one.

Mr. A. McDougall was the first to set up the stake this Spring, Mr. D. McCannel comes next.

It is a general thing to finish spring work about the 24th of May but Mr. Hanan finished on the 27th of April.

Mr. Dan Ferguson, of Durham, gave the Corners a visit last week. The farmers around here likes to see Dan. His common remark now is: "Can I sell you anything in the implement line today? I sell the cheapest and best in the known world."

Miss Annie McKechnie and Miss McDonald gave our School Teacher and new post office a call last week.

Mr. James Wilson finished seeding last week. He is now working with the shiptimbering men.

House cleaning is the order of the day. You hear the boys say that the girls have a good time, but I beg to differ. We girls have more to do than they suppose; housecleaning, rooting the garden, milking the cows, etc. An old maxim is as true to-day as of old:

"A man's work is from sun to sun,
But a woman's work is never done."

There has been a number of horses clipped near here, and some of the farmers need it as bad.

Miss Sarah Hill paid her friends at Boothville a visit a few Sundays ago.

Mrs. D. McFarlane was down on Monday to see her father, Mr. C. McQueen, who was very poorly, but under good nursing and Dr. Smith's care he is well again.

Miss Flora McKenzie is engaged with Mr. J. Marshall for the summer. Mr. Marshall is erecting a wire fence around the factory. It will be a credit to the building.

Mr. G. Parslow, of Dundalk, is engaged to fit up the Post Office. When finished it will bear inspection.

ZION.

Mr. Editor.—Zionites are more than proud to think that you found space for them in your valuable paper.

We are pleased to see that our Priceville brother has begun his journey to Zion and we wish him all speed. This second sentence however brings to our mind a little incident which occured a few days ago. Two ladies paid us a visit, walking several miles, for the purpose of begging a few handfuls of scions off bushes and trees that grow in our midst. We understand that the cool breezes and genial atmosphere gives great vitality and staying powers to vegetation, hence their visit. Well what is true of of vegetation holds good with man. Zionites never say die.

Our district will soon be rich. Fancy the equivalent of fifteen hundred dollars in less than two weeks.

Overheard:—"I say bill, why did the choir look so blue and sing so poor these last two Sundays? Why Tom did you not know that Mr. Asa Wright, their Champion and bass, had gone home and that the girls were all breaking their hearts over him.

It was Neil Falkingham that did the big wood cutting and not William, as reported.

Seeding is practically a thing of the past for this year around Zion.

Will Greenwood is hustling through seeding in great style. No rest for Jack, but never mind mind Johnny you shall have a day's fishing when you are through.

A fifty well tilled is better than an idle hundred, so says John, on the corner, and by all appearances he will have more off it. Jack is better at logic and economy than our present Government.

A DOUBLE RESCUE.

TWO YOUNG LADIES BROUGHT BACK TO HEALTH AND STRENGTH.

One Was Threatened With Consumption Following an Attack of Pneumonia—The other Was in an Advanced Stage of Anaemi—Dr. Williams' Pink Pills Restore Health After Other Medicines Fail.

From the Truro, N. S. News.

Among the residents of Truro there are none better kown or more highly esteemed than Mr. and Mrs. Jas. Turner Mr. Turner is an elder in the Presbyterian church, and a man whose word is as good as his bond. In his family reside two young ladies. Miss Maud Christie, an adopted daughter, and Miss Jessie Hall, a sister of Mrs. Turner. Both young ladies are known to have had very long illness, and were said to have been restorded to health by a popular medicine, the name of which is a household word from the Atlantic to the Pacific. Judging that their story would be of popular interest, a reporter called upon them and asked for such information as they might choose to make public. Both young ladies were averse to publicity, but when it was pointed out that their experience might be helpful to some other sufferer, gave a statement for publication. Miss Christie, whose case is perhaps the most remarkable, is given precedence. She said: "I am now 19 years of age and have never been very strong. On the 26th of July last I was attacked with pneumonia, brought on by a severe cold. I was confined to bed for almost eight weeks, when I was able to get up once more. During these weeks I was under treatment by our physician, and still continued taking his medicine. I did not appear to recover my strength however, and on the 14th of Nov. was again forced to take to my bed, this time suffering from great weakness and nervous prostration. The doctor's medicine now seemed to do no good, and I grew gradually worse. I became so low that it seemed hardly possible that I could live long. The doctor said I was in consumption and that medicine was of no more use to me. At the time an article was published in the paper concerning the cure of a young lady in Toronto by the use of Dr. Williams' Pink Pills, and Mr. Turner at once procured for me a box. After I had taken my first box I felt as if I had begun to get gradually [illegible]

[illegible] Pills every time and do not be persuaded to take an imitation or some other remedy from a dealer, which for the time may yield a larger profit, but which can never take the place of Dr. Williams' Pink Pills.

In the case of Miss Hall the Pink Pills have also accomplished marvels. She was attacked with dizziness, severe headache and fainting spells, followed later by swelling of the feet and limbs, together with other symptoms of anaemia. After having been treated by a physician for some time without any noticable improvement she decided to give Dr. Williams' Pink Pills a trial. After using a few boxes of the pills there was a decided improvement in her condition, and with the continued use of the medicine full strength, health activity returned, and Miss Hall is now feeling as well as ever she did in her life Both Mr. and Mrs. Turner were present during the interview, and strongly endorsed what the young ladies said, and expressed their thanks for what Pink Pills had done for them.

The experience of years has proved that there is absolutely no disease due to a vitiated condition of the blood or shattered nerves, that Dr. Williams' Pink Pills will not promptly cure, and those who are suffering from such troubles will avoid much misery and money by promptly recording to the treatment. Get the genuine Pink Pills every time and do not be persuaded to take an imitation or some other remedy from a dealer, which for the time may yield a larger profit, but which can never take the place of Dr. Williams' Pink Pills. Sold by all druggists or sent post paid at 50c. per box or six boxes for $2.50 by addressing Dr. Williams' Medicine Co., Brockville, Ont.

Catarrh in the Head

Is a dangerous disease because it is liable to result in loss of hearing or smell, or develop into consumption. Read the following:

"My wife has been a sufferer from catarrh for the past four years and the disease had gone so far that her eyesight was affected so that for nearly a year she was unable to read for more than five minutes at a time. She suffered severe pains in the head and at times was almost distracted. About Christmas, she commenced taking Hood's Sarsaparilla, and since that time has steadily improved. She has taken six bottles of Hood's Sarsaparilla and is on the road to a complete cure. I cannot speak too highly of Hood's Sarsaparilla, and I cheerfully recommend it." W. H. FUNSHER, Newmarket, Ontario.

Hood's Sarsaparilla Is the Only True Blood Purifier

Prominently in the public eye today.

Hood's Pills cure habitual constipation. Price 25c. per box.

TO CONSUMPTIVES.

The undersigned having been restored to health by simple means, after suffering for several years with a severe lung affection, and that dread disease—Consumption, is anxious to make known to his fellow sufferers the means of cure. To those who desire it, he will cheerfully send (free of charge) a copy of the prescription used, which they will find a sure cure for Consumption, Asthma, Catarrh, Bronchitis, and all throat and lung troubles. He hopes all sufferers will try this remedy as its invaluable. Those desiring the prescription which will cost them nothing, and may prove a blessing, will please address.

REV. EDWARD A. WILSON, Brooklyn, New York.

Wanted

A MAN To sell Canadian and U. S. grown trees, berry plants, roses, shrubs, hedges, ornamental trees, and seed potatoes, for the only nursery having testing orchards in Canada. We give you the benefit of our experience, so your success is guaranteed. If you are not earning $50 per month and expenses, write us at once for particulars. Liberal commissions paid part time men. Farmers' sons should look into this! It pays better than working on the farm, and offers a chance of promotion. Apply now and get choice of territory.
