## **RIDE** begins

The 2013 Festive RIDE program is now under way until the new year.

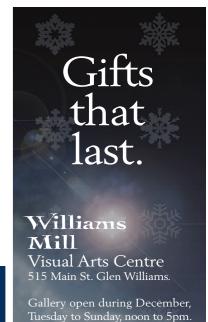

In 1 District (Halton Hills/Milton) police have launched Project Safe Roads to augment RIDE.

In that project, Community Support Officers along with COPPS volunteers will be visiting licenced establishments to educate owners and staff on the Safe Roads project. They will distribute posters and action cards for the reporting of impaired drivers. Twitter will be utilized to kick off the project as well.

Community Support Officers will tweet the statistics daily (follow @HRPSMiltHH). There will also be a signboard in front of the Georgetown and Milton police stations. Additionally, High School Liasion Officers have two nights of education for impaired driving (RIDE 101). The Georgetown night will be held tonight (Thursday).

Police have also launched a pilot initiative on "alcohol countermeasures" where officers in low profile police vehicles will be dedicated to tracking down and apprehending suspected impaired drivers. Those officers have received some supplemental training in proven techniques geared toward identifying and apprehending impaired drivers. The pilot program supplements the RIDE officers conducting spot checks on Halton roadways.

After the first day of operation those officers made two arrests for impaired driving and issued numerous suspensions on drivers who indicated a "warn" reading on roadside alcohol screening devices. A drug arrest was also made by the officers.
