Case-Wagg Wedding Party Pose Following Ceremony

Tall Standards and baskets of gladioli in pastel shades provided the background for the ceremony in Mount Albert United Church on Sept. 10, 1955 when June Isabel, daughter of Mr. Arthur Wagg, became the bride of Nelson A. Case, son of Mr. and Mrs. Walter Case of Mount Albert. Rev. Mr. Shapter officiated.

Given in marriage by her father, the bride wore a gown of white nylon tulle and chantilly lace over satin, long sleeved bolero with beaded collar. A matching headdress covered with pearls held her lace edged fingertip veil, and she carried a cascade of red and white roses.

Evelyn Green, maid of honour, Nelda Dunkeld, cousin of the bride, and Nancy Wagg, sister of the bride, were bridesmaids. They wore gowns of nylon tulle over taffeta in shades of yellow, cinnamon and green with matching floral bandeaux and nosegays of roses and 'mums. The two flower girls, Patsy Case, niece of the groom, and Thelma Wagg, sister of the bride, were dressed in similar gowns of yellow nylon and taffeta.

Mr. Lloyd Smith was groomsman and the ushers were Kenneth Case, brother of the groom and Clifford Dunkeld, cousin of the bride.

Mr. David Norton, the soloist, sang "The Wedding Prayer" and "I'll Walk Beside You," with Mrs. W. Cooper at the organ.

The reception was in the church basement where the bride's mother received wearing a charcoal grey suit with red accessories, and a corsage of white roses and 'mums. She was assisted by the groom's mother who wore a navy two-piece dress and navy accessories and a corsage of pink roses.

For travelling, the bride wore a light blue suit with pink and navy accessories and a corsage of pink roses.

The happy couple will make their home in Mount Albert.

The roar of an aircraft engine during ground test can rattle windows and nerves for blocks around. So we're glad to report that aluminum has turned up as a noise-absorbing "honeycomb" in an aircraft company's test-cell. Hundreds of aluminum tubes of differing diameters and lengths, filled with absorbent, sound-baffling material, make up the end walls. And we are told that by the time the giant roar has bounced around in these aluminum mazes it comes out the other end thoroughly "baffled" and weakened to a hum. We expect there are lots of aluminum boosters around *that* factory!

CHIEF MALLOY CALLS FOR CHECK OF FIRE HAZARDS

October 9-15, 1955

Clean-up Do's and Don't's

Clean-up around the house is largely a do-it-yourself job — but there are some things an average householder is better off not trying to do himself, warns Fire Chief Wm. Malloy.

Here is Chief Malloy's list of do's and don't's for Fire Prevention Week in Stouffville.

DO clean out closets, basements and attics — get rid of cast-off clothing and linens, broken furniture, papers, rags and the accumulated trash.

DO paint or replace old wood inside and out.

DO straighten up your yard—clear out the summer's dried grass and weeds and any other quick-burning trash.

DON'T attempt to do any electrical work yourself—leave new wiring, servicing of appliances and replacing of frayed cords to competent electricians.

DON'T tinker with your stove or furnace — have them cleaned, inspected and repaired by trained service men.

DON'T bring flammable cleaning fluids into your home — use only safe fluids or send your things out to the cleaners.

DON'T —by all means — give fire a place to start, which says Chief Malloy, is the whole point to Fire Prevention observance.

See Schell's Food Market's great display in this week's issue.

Lloyd Moyer, Church St., is recuperating at his home from a recent heart attack.

Mr. and Mrs. Henry from Port Huron, Michigan, were Sunday visitors of Mrs. S. Goudie.

Larry Bellman suffered a painful injury last week when a 1,000 pound lid from a septic tank fell on his foot, breaking it in three places. His foot has been placed in a cast where it will remain for at least eight weeks.

Please keep Monday, October 17th open, as pictures will be shown by Dr. Jessie Brodie in the Stouffville United Church auditorium. Collection will be taken for W.A. work and lunch will be served by the ladies, following the program.
