Free clinics for students

YORK REGION — During January, February and March (1984) the York Region Public Health Branch is conducting its annual free immunization clinics at all public and separate schools in the Region.

Children will be bringing home forms for parental consent for boosters to maintain immunity to diptheria, tetanus, polio, measles, mumps and rubella. The child MUST return these consent forms to the school, either signed so the boy or girl may receive the needed vaccine OR giving the date on which the immunization was administered by the family physician.

Failure to maintan immunity may result in the child being suspended from school under the authority of the "Immunization of School Pupils Act" of 1982.

Medical and religious grounds for exemption from immunization must be substantiated on the appropriate forms which are available from Public Health Branch offices, or through appropriate school nurses.

For further information, parents should call any Public Health Branch listed in the blue pages of the York Region telephone directory.

Break-in nets large haul

WHITCHURCH — York Regional Police are investigating a break-in at the residence of Herbert Wells, Conc. 5, R.R. 4, Stouffville, Feb. 9, that netted thieves close to $4,000 in stolen goods.

Removed from the premises was a fur coat along with a quantity of jewellery and electrical equipment.

Mervin Hie of Spring Street, Stouffville, reported the theft of three mirrors, two CB antennas and a hood ornament from his truck parked at the rear of Patrick Motors, Feb. 6. The loss is valued at $400.

Bell project costs $300,000

MUSSELMAN'S LAKE — If conditions this week are right, Bell Canada will complete the laying of two huge submarine cables along the bottom of Musselman's Lake. The project will cost an estimated $300,000.

The way it's done, explained Linda Hollas, a Bell section manager, the cables are pulled through conduits and placed on top of the ice. Then a thin strip is cut across the frozen surface, allowing the cables to drop to the bottom.

The cables, the manager said, are protected by a polyethylene jacket, covered with jute and wrapped in steel wire. The interior is filled with grease to prevent water damage.

The heavy duty lines are required to service an area north of Musselman's Lake including the Cedar Beach trailer park.

Initially, Bell planned to reinforce existing aerial cables around the Lake, but this was not considered economical. The shorter distance was also a factor, Linda Hollas said.

The new service should be sufficient to handle residential build-up in the area over the next twenty years, she stated.

Accident puts three in hospital

WHITCHURCH — A collision between a car and a van in dense fog at the intersection of Hwy. 48 and the Bloomington Road, Sunday, sent three people to hospital and caused damage estimated at $5,000.

Drivers of the vehicles were John Cox, 49, of Aurora and David Peel, 24, of London, Ont.

Injuries suffered by Peel and two passengers were described as minor. Ontario Provincial Police of the Oak Ridges Detachment investigated.

Equipment exchange
