On Wednesday a meeting of the York County Mutual Fire Insurance Co. was held in Toronto and it is understood that incorporation will be sought at an early date.

Mrs. Elizabeth Feaster, of Ballantrae, Monday, by her lawyers, McCullough & Burns, issued a writ for $5,000 against James Cooney, of Whitchurch township. Slander is alleged.

RHEUMATISM CURED IN A DAY.—South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Warranted by R. P. Coulson.

As the warm weather is now at hand and considerable water may soon be seeking to find its level; therefore our board of public works should see to it that proper channels are provided for the escape of the surface water. During the last thaw pedestrians in going along some of our principal streets in the west end were obliged to leave the sidewalks as they were in some places submerged.

Never was there so much interest taken in the Stouffville Mechanics' library as this year, and the board of management are doing what they can to select the most suitable books for this season's purchase. The new books have arrived and will be ready for distribution next Friday. There is no institution in our midst which pays its supporters better dividends, and all who are of the literary turn of mind and who are within access of our library, are welcome to come and inspect the large, varied and excellent stock of books, magazines and papers. A dollar each year cannot be invested to better advantage as, at the present day, no matter what calling you intend to follow the ideas of your predecessors in the same occupation means dollars and cents to you.

The Canadian Order of Foresters is a Fraternal Benevolent Society, Incorporated in 1879 and registered under the Insurance Corporations Act, 1892 of Ontario. The objects of the Society are to furnish its members with Sick and Funeral benefits and an Insurance of one or two thousand dollars. The payments for these benefits range from about one dollar to one dollar and fifty cents per month, according to the age of the member, and the amount of the insurance carried. The member ship is composed of men only, and when admitted they must be between the ages of eighteen and forty-five. The present number of members is over 16,000, and the society has a cash surplus on hand for the payment of the insurance of over $215,000, $50,000 of which is in Dominion of Canada Bonds, and the balance is invested in the best monetary institutions of the Dominion. In addition to this, the local Courts have about half a million of dollars in their treasuries for the payment of the Sick and Funeral Benefits. The High Secretary of the Order is Mr. Thomas White, of Brantford, and it is expected that a Court of this popular and purely Canadian Society will shortly be organized here.

The Newmarket High school building was destroyed by fire on Thursday morning of last week. The fire is supposed to have originated from the furnace and had such a start before discovery that nothing could be done to save it. The building and contents cost $5,500, and there are still three of the 20 debenture payments to be made. Insurance $3000.

Gilbert Showers had several of his ribs broken and was otherwise considerably injured on Tuesday last while cleaning out a well on his farm on the 8th con. Whitchurch, near Musselman's lake. Some boards were being drawn out of the well by a person at the top and when near the surface they slipped from the rope and fell upon Mr. Showers, who was at the bottom of the well.

The home of Mr. Boothby, of Altona, was suddenly plunged into sadness when it was learned on Monday that their eldest son, J. T. Boothby, V. S., of Ironwood, Mich., lay at the point of death from an attack of Inflammation of the bowels. His mother and H. Kester started for Ironwood but when they had gone part of the journey they telegraphed to ascertain how the patient was getting along, and the answer was that he had only a few hours to live, whereupon his mother returned home and Mr. Kester went to bring home his remains. The deceased was a promising young man and was making for himself a reputation in the exercise of his profession.

PROMOTION.—From "The Templar" the official organ of the Royal Templars of Temperance, we clip the following extract:—Since Grand Council, which met a few weeks ago, the executive board has appointed R. J. Daley Superintendent of the Beneficiary or insurance work of the Order for Ontario. This is a step in the right direction. The importance and value of our beneficiary work to the Order requires special attention. Mr. Daley is a practical, methodical business man, having large experience in life insurance work, and with considerable push in his make-up, and we may expect to see a decided improvement in the insurance department of our Order. As Superintendent, Mr. Daley has been authorized to place a number of good active workers in the field, to institute new Select Degrees, and to assist councils in building up their membership. Councils having a desire to have the Select (or Insurance) Degree instituted, or any already instituted wishing any assistance in their work, should write to R. J. Daley, Superintendent of insurance department of R. T. of T., Stouffville, Ont. During the past six months Mr. Daley has been acting as Superintendent of this work for Eastern Ontario only, but has now the whole management of the insurance department of this strong society for the entire Province of Ontario. It is a responsible position and reflects great credit upon Mr. Daley to have earned the confidence of the executive officers and Grand Council. The R. T. of T. have already upwards of six million dollars of insurance and it increasing rapidly. The surplus for the security of their policy holders is now over $60.000, which is held by the bank of Montreal, which acts as Treasurer of their funds. Mr. Daley will reside at Stouffville as heretofore but in order to give attention to the duties of his office will be required to travel a large portion of the time.

A Cure for Croup.

Croup kills thousands where cholera kills tens. For this dreaded disease no remedy can compare in curative power with Hagyard's Yellow Oil. It loosens the phlegm, gives prompt relief, and soon completely cures the most violent attack.

At a special meeting of York township council on Wednesday the declaratory document relating to the construction of an electric railway from Toronto to Richmond Hill was approved by the council.

F. D. Miller has made quite an improvement in the sitting-room accommodations of the Mansion House, by running a partition through the bar thus making a sitting-room in front. The outside entrance to the bar is now from the rear.

A first-class concert will be given in Daley's hall on the evening of Good Friday, March, 31st, under the auspices of the Y. P. S. C. E., of the Presbyterian church. The program will consist of music by the choir of Westminster church, Toronto, selections by Mr. J. H. Ebbels, elocutionist, Toronto. Admission 25c. reserve seats 35c. Plan of hall may be seen at the store of J. Monkhouse.

In the Arnprior Watchman of the 17th inst. occurs the following:—Mr. Hiram Yake (brother of Mr. Ide Yake) of this town, who has been employed in the baking establishment of Mr. S. Badham for some time past, left last evening for port Arthur, where he has accepted a good position. Mr Yake will be missed by the many acquaintances whom he has made while here. We wish him every success We understand that Mr. Toase, who has had the management of Mr. Badham's establishment since that gentleman embarked in business here, will also leave for the same place. Mr. Toase has proved himself a mechanic of finished ability, while socially we believe he has made many friends. Mr. Toase's new position will net him a salary equal to $800 per annum.

Many of our most dreaded diseases become more prevalent and virulent as the weather becomes warmer and especially is this the case with those that are fostered by the presence of the decaying accumulations of winter. It is now regarded as a certainty that cholera will make its appearance in America during the coming summer and as thorough sanitary precautions tend greatly to prevent the spread, as well as to mitigate the severity, of this scourge it behoves every citizen of our town to thoroughly remove by fire or otherwise every vestige of the decaying debris off his premises and especially should all cesspools be cleansed and disinfected, for which purpose a strong solution of copperas or some other preparation may be used. We would also draw special attention to the water supply. Some wells in town have not been emptied of their contents and cleaned for years. Now, if there is anyone great source of sickness to a community it is in the use of such drinking water. Decaying animal or vegetable substances in our wells are the prolific source of many troublesome diseases. Our city fathers have also in this connection an important work to perform. It is well known that in many instances in former years every citizen does not do his duty in regard to sanitation. Thorough inspection of all premises should be performed and a rigid enforcement of the cleaning-up process should be insisted on by the council. If we desire to prosper as a town it is necessary to let the outside world understand that our atmosphere and water supply is the purest that can be obtained from the storehouse of nature.

Several of our prominent horsemen attended the horseshow in Toronto and were well pleased with the display of horses shown.

We think it would be wise for our county council to do something in the way of providing a place for the safe keeping of those old tramps tramping the roads and sleeping in schoolhouses at night, they having on several occasions almost burned the schoolhouse in this section by coals dropping on the floor. We think a poor-house is what is needed in this county.

Having got through stock-taking we are now making big preparations for spring trade.

We have just got a large quantity of paint oil, white lead, dry colors and mixed paint. We have succeeded this year in getting made specially for us a beautiful bright yellow floor paint of our old reliable brand, warranted to dry hard.

As paint is very little use without something to put it on with, we have provided a fine stock of brushes for that purpose, at any price desired between 8c. and $1.75.

As a general spruce up comes with the advent of spring we have provided the materials in the shape of a complete assortment of Paris white, diamond wall finish, kalsomine, asbestine and white wash. Kalsomine brushes from 15c. to $4.35.

We are handling for the first time this year the now famous Alabastine, which every one should see and which is sure to please.

SILVESTER & DOUGHERTY,
Stouffville.
