THE TRIBUNE.

STOUFFVILLE, JULY 25, 1890.

LOANS AND MORTGAGES.

The annual report of the loan companies and building societies for 1889, compiled by Mr N. S. Garland, of the Finance Department, from returns published by the companies, has just been issued. The figures given in the report indicate that the farmers of Ontario and Quebec are borrowing more money than usual from these companies. The aggregate amount of current loans secured on real estate increased during the year by $5,257,098, and the dividends divided among the stockholders of the companies were $191,778 greater than in 1888. While the amount of new loans made during the year increased by $4,869,196, there was only an increase of $1,736,782 in the amounts received by the companies from borrowers. The estimated value of real estate under mortgage to loan and building companies shows an increase of $21,814,707. Of the loans secured on real estate by the companies making returns, $90,777,533 are in Ontario, $7,386,201 in Quebec and $712,905 in Nova Scotia, an increase in the aggregate during the year from $88,468,943 to $98,726,841 The loans upon security other than real estate added to the real estate loans make the the total loans $102,091,907. The assets of the companies are valued at $116,376,878. The claims upon real estate held for sale by the companies increased from $2,373,807 in 1888 to $4,357,865 in 1889. The total amount loaned to borrowers during the year was $24,399,825, and the amount received in payment of loans and interest [illegible] The amount loaned out and in default of mortgages at the end of 1889 was $2,288,222 in Ontario; $68,633 in Quebec; and $1,418 in Nova Scotia The value of property owned by the companies was $14,284,911 in 1889, compared with $12,551,396 in the preceding year. The value of the real estate under mortgage to loan and building companies is estimated at $205,779,434 in 1889, and $183,974,726 in 1888. Thus there is $22,000,000 more of loan l mortgages in 1889 than in the preceding year.

OUR GREAT SHIP RAILWAY.

Some fourteen years ago a charter was obtained for the Huron tario Ship Railway, some 60 miles in length, connecting the two great lakes. The idea is to carry ships and barges from the one lake to the other on a double railway track. The incorporators of the company now alive are Hr. Samuel Fleming, G. M. C. A. M. Smith, H. J. Cook, M.P.; John C. Fitch; S. Nordheimer; David Blain; and these gentlemen are now pushing the project ahead especially as its feasibility is no longer questioned.

Mr. Cortheil, of Chicago, one of the ablest, original and practical of the eminent engineers of the times, on Friday visited Toronto in connection with this projected railway, and in company with Mr. Kivas Tully, engineer of the railway, and Mr. David Blain, the original projector, waited upon Mr. J. I. Davidson, the president of the Board of Trade. They held a long conference, in which the business aspect of the enterprise was discussed. Mr. Cortheil and Mr. Tully afterwards discussed the plan from a scientific standpoint. Mr. Cortheil set out Saturday for Kingston, where he will inspect the locomotives now in course of construction there for the ship railway at Chignecto. He will afterwards visit the canals of the St. Lawrence and finally the Chignecto Canal. On his return he will make a detailed report of his observations.

The promoters, feeling confidence in the facilities for the construction of such a work, and the certainly of an adequate return on the amount to be invested, have been in correspondence with capitalists abroad, and have received the assurance that with such approval and support from the Dominion Government as will render safe the investment in such an international project the funds necessary to complete the work will be advanced whenever required. Following is a copy of a letter in reference to this matter received from Mr. Cortheil by a gentleman in Montreal:—

CHICAGO, June 19th, 1890.—DEAR SIR: I think the time has arrived for studying and discussing the subject of the Georgian Bay and Toronto Ship Railway. I wish you and others in Canada and elsewhere to understand that as far as I am concerned my patriotism, which is great, extends over the entire American continent, and I am not one whose line of patriotism are drawn so close that everything must work on transportation lines leading to New York city. If we can send our freight cheaper from Chicago to Liverpool via the St. Lawrence River they ought to go by that route. If we can save 600 miles of troublesome and expensive navigation and transportation by building less than 100 miles of ship railway between Lake Huron and Lake Ontario we ought to do it and let the trade go to Montreal, and by a natural water course out to the Atlantic Ocean and the Old World rather than forcing it through a narrow ditch between Buffalo and the Hudson River, or, by more expensive rail transportation, to New York city. We need to know the tonnage and value of the freights that now go between all the lake ports of Superior and Michigan by way of the St. Clair River and Welland Canal by rail and the Erie Canal to the eastern seaboards at New York, Philadelphia or Boston. We need to know to what depth and width you are making the channels from the St. Lawrence River for the accommodation of ocean navigation from the head of Lake Ontario to the Gulf of St. Lawrence. I have sent a copy of this letter to Mr. Kivas Tully of Ontario, also to Mr. William Penn Nixon of The Intercean of this city. Mr. Nixon has always been an advocate of ship railways and was very friendly to our Tehuantepec project at the time our bill was before Congress. He and his paper take broad views of international commercial enterprises and will, I believe, assist us in obtaining the data required for an exhaustive study of this subject.

I leave for Mexico to be gone about a month and hope on my return, if my business engagements will permit, to go over a part of this route, at any rate from Toronto down the St. Lawrence River probably to Quebec, intending if I can accomplish this much of the journey to go by rail to the Chignecto Ship Railway to examine that important work. On my return from Mexico I will communicate with you and would like to meet you and Mr. Tully and Mr. Ketchum at the Chignecto Ship Railway. E. L. CORTHELL.

Minard's Liniment cures Garget in Cows.

A BURN OR CUT will heal quickly and leave less scar if Victoria Carbolic Salve is used immediately.

MRS. A. Nelson, Bradford, writes: "I was a sufferer from Chronic Dyspepsia for eleven years. Always after eating, an intense burning sensation in the stomach, at times very distressing, caused a drooping and languid feeling, which would last for several hours after eating. I was recommended by Mr. Popplewell, Chemist, of our city, to try Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, and I am thankful to say that I have not been better for years; that burning sensation and languid feeling has all gone, and food does not lie heavy on my stomach. Others of my family have used it with the best results."

TWO-ROWED BARLEY.

SPLENDID SAMPLES BROUGHT IN FROM MARKHAM AND SCARBORO'.

Toronto, July 18th.—Prof. Wm. Saunders, Director of Dominion Experimental Farms, is jubilant over the success of the introduction of two-rowed barley into Canada. He came up from Ottawa on Tuesday and has spent the last two days in the townships of Markham and Scarboro', inspecting the two-rowed barley sown in those localities. Mr. Saunders returned to Toronto last evening and brought with him specimens of the plant, which anybody could see were of the most gratifying character. The straw is of a good size, the heads are very long and the berry gives every evidence of heavy filling out plump and clean. The chief variety sold under the auspices of the Government was the Prize Prolific, though Mr. Saunders had with him some very good specimens of Danish Cevalier, which had been distributed from the farm for test purposes. Altogether Mr. Saunders is most highly pleased with the outlook. With fairly reasonable weather from this out no doubt is left of the success of the two-rowed barley, in this portion of Canada at least.

Mr. Saunders told a reporter last night that he was delighted with the crops generally in this section. The hay crop is very heavy, and all crops of spring grain are looking exceedingly well, while roots give good promise. The exception is the apple crop. This will be, not only in this section but generally throughout Ontario, largely a failure. Mr. Saunders ascribes this to the long spell of cold, wet weather which followed the blossoming, and there is no doubt that he correctly estimates the cause. Peaches suffered also very badly, but the later varieties of pears and plums are looking well, and all small fruits gave a prolific yield.

Mr. Saunders gave a very interesting report of the work at the experimental farms in the North-west, at Indian Head and Brandon. The farmers in those sections take a keen personal interest in the work of the farms and visit them frequently, seeking to obtain all the benefit possible. A great deal of attention is being paid to the question of cattle fodder, and experiments are being carried on both at Ottawa and on the North-west farms in this direction. Corn for ensilage purposes is being tested. One variety sent by Mr. Dyke, obtained from Greece, is said to be a 50 day corn, and great hopes are being entertained of it as well as a variety known as "Mitchell's Extra Early White Fruit." Experiments are also being made with other grains and with natural grasses, in short, the subject is an important one to the North west farmer, from the vast increase of stock in that region. Mr. Saunders will go to the Woodbridge section to-day, and will visit Brampton, Guelph, London, Dundas and Hamilton sections before returning to Ottawa. He hopes to have as good a report to make from all these localities as from East York sections already visited. The result of the two-rowed barley experiment is the most important matter in Canadian agriculture this season.

BEER AND BARLEY.

(From the Philadelphia Record, July 9.)

We raise in this country nearly 64,000,000 bushels of barley. Last year's product was valued at $7,672,032. The barley mainly raised in the west makes very good feed for horses and cattle, but it makes inferior malt and poor beer. For malting purposes the Canadian barley is, perhaps, as good as any in the world, and the crop is mainly purchased in this country. The imports for the fiscal year 1889 were 11,368,414 bushels, valued at $7,723,838 and [illegible] The duty of 10 cents per bushel was equal to 10.59 per cent. on the value. It has been proposed to raise the duty to 30 cents per bushel, which would be equivalent to an ad valorem rate of 42.36 per cent., according to the calculation of Mr. McKinley.

About one-tenth of the Canadian barley brought into the country is used by Philadelphia maltsters. The proposed trebling of the tax would be certain to affect their business disastrously. There is something almost plaintive in the interview with Mr. T Morris Perot, published in The Record yesterday. The Perots have been making malt in Philadelphia for 203 years. They were at it before the revolution and have stuck to it, through thick and thin, under all kinds of tariffs. The war tariff of 15 cents per bushel was paid without a murmur. But the McKinley Bill would break the back of a long established business.

Our maltsters if they should be shut off from proper raw material would be obliged to make poor malt of such poor material as they could buy in the home market. And out of poor malt poor beer must be made. Either this would be the case, or the added tax of over $2,000,000 would have to be paid on the Canadian barley, and the price of beer would go up accordingly.

Long established business in Philadelphia, New York, Buffalo, Rochester, Albany and other cities is to be suddenly exposed to a tariff raid in the hope that the tariff-tinkers may pacify indignant farmers. The farmers cannot be fooled by the barley tax, which would raise the price of beer without adding a penny to the price of barley grown in this country.

MISCELLANEOUS NOTES.

The Dominion Government has granted aid to the first thirty miles of the railway projected from Belleville to Lake Nipissing, being the portion from Belleville to Bridgewater, at the rate of $3,000 per mile, or $96,000 in all.

Thousands have been relieved of indigestion and loss of appetite by a single bottle of Ayer's Sarsaparilla. The use of this medicine, by giving tone and strength to the assimilative organs, has made innumerable cures of chronic dyspepsia. Price $1. Worth $5 a bottle.

The Council of Public Instruction of the Province of Quebec has authorized for the use of the Quebec schools the following text books sanctioned by the Educational Department of Ontario:—The High School Physics, the High School Botany, the High School German Grammar and the High School Geography.

One 25c. bottle of your Liver Regulator has done me a great deal of good, and you will please send me a dollar bottle.—Mrs. Rosa Wilson, Seaforth.

Stuart Henderson, Bremner's solicitor has written the Dominion Government demanding that the sum of $5,365, with interest from the time of the Northwest rebellion in 1885, be paid to Bremner for furs taken from him by Gen. Middleton. It will depend on what answer Mr. Henderson gets whether he will sue the Government or take action against Sir Fred Middleton, Hayter Reed and Sam Bedson for the portion they took. In addition to this claim of $5,365, Bremner has also another claim of $14,000 against the Government for goods taken during the rebellion from his general store near Battleford, for furniture, carts, cattle, horses, farming implements and general products, so that the total amount of his losses is nearly $20,000. This claim came before the Royal Commission and was thrown out on the grounds that Bremner was alleged to have been a party to his own losses. Mr. Henderson also asks the Government for this claim, and shows that from these losses his client and his family are destitute.

Mothers and Nurses.

ALL who have the care of children should know that Dr. Fowler's Extract of Wild Strawberry may be confidently depended on to cure all summer complaints, diarrhœa, dysentery, cramps, colic, cholera infantum, cholera morbus, canker, etc., in children or adults.

PICKERING COUNCIL

Council met pursuant to adjournment on Monday July 7th. Members all present. Reeve Miller in the chair. Minutes of last regular and special meeting read and approved.

Petition from Fred Gee and fifty-five others for lease and repair of mill road to Pickering station.

On motion of Mr. Mowbray, Mr. Israel Burton was heard re water-course in Whitevale.

Communications from James Rutledge on behalf of J. H. Long re watercourse. Mr. Annan was heard re same.

Committee on Contingencies beg leave to report and recommend payment to the returning officers for use of hall at the Provincial election $2 each. Your committee have considered the communication from James Rutledge solicitor for J. H. Long threatening action against the Township for alleged diversion of certain water on the premises of the said J. H. Long and recommend the engineer of township to be called on and that all parties interested therein be notified as per statute, Mr. Westgate to appear in the interests of the township. Your committee have also considered the petition of James Birrel and others in which are complaints of offensive ditches of stagnant water, injurious to public health and those referred to are situated in the 9th concession, opp lots 17 and 18, adjoining the village of Claremont and asking a remedy. Your committee recommend that wherein the public health is in danger, the Sanitary Inspector for that district be notified, and wherein public property is in danger that the pathmaster be notified, and should there be any difference of opinion as to the course of certain waters, that an application be made to the engineer to settle said differences. Recommend payment to D. R. Beaton $15 on account of salary, and Clark Bros., printing for Board of Health. All of which is respectively submitted Geo. Parker, chairman. Adopted.

Your committee on Indigents beg leave to report as follows:—That John Oddie be commissioner to supply aid to Barnard Welsh and wife at one dollar per week from date as per petition presented this day. Payment to Dr. Bateman for examination as to lunacy and granting certificate in case of Mrs. Geo. Wilkinson of Cherrywood $5. All of which is respectfully submitted Geo. Gerow, chairman. Adopted.

Your committee on Roads and Bridges beg leave to report and recommend payment as follows:—David Annis, 382 yards of gravel, $38 20; H. King, drain at John Rled's $9 10; I. Littlejohn culvert on Brock Road 7th con. $10; W. Clark on account of drawing timber and building bridge at Pickering station $15; E. Bell grading opp lots 6 and 7 in 3 con. $40; and taking bridge apart and drawing same $5; S. Carlton drawing gravel opp lot 21 Kingston road and material $61 67½; J. L. Wilson replacing bridge on townline opp lot 1 con. 7, Whitby paying like amount, $24 75 and 24 feet of timber at 4 cents 96; R. Annan grading and gravelling on Greenwood road $357-75; R. C. Carruthers re W. J. Davis's contract drawing gravel $70; grading and gravelling $10, repairing bridge and drawing stone $6 50 Casper Stott, taking bridge apart at J. L. Palmer's and removing same $10; W. Stotts grading and building breakwater opp lot 13 baseline $24, and cutting hill, strengthening road and grading opp lot 12 baseline $93; Mr. Douglas repairing washout baseline $7; D. Gormley timber $1 50; Charles Stephenson drawing gravel on Gordon's sideline to Pickering station $5 40; Wm. Dixon cutting down hill and removing stone opp lots 24 and 25, $24 75; S. Stanley approaches to bridge and furnishing stone on baseline $11 15; Jas. Cribb grading north of Secker's hotel $24; Wm. Thom placing stone on Kingston road west of Dunbarton $12; Jas. Todd, grading in sideline between 32 and 33, $30, and opening channel from Whitevale bridge, $4; W. White new abutment, timber and breaking jam at Forest mill bridge $48; Wm. White grading and cribbing south Dixie $12 75; Jas. Linton taking bridge apart and drawing same $50 and building bridge on baseline opp lot 5, $10. H. Ellicott drawing gravel on Greenwood road $11; B. Hartnek, 4 sticks cedar $2; F. Soden gravelling north of Claremont $50; Wm. Stotts grading on Brock Road $33; Jones and Disney turnpiking bet 6 and 7 in 7th con $40; James Madill, cedar timber, $25 52; G. Salton building bridge and drawing timber, Kinsale road $14 50; Jos. Collins repairing bridge on townline, furnishing cedar and bolts $7, Scarboro township paying like amount; M. Gleason rope to protect Greenwood bridge $3; Coultice and Piles, building bridge and furnishing covering for same bet 1 and 2 in 7th con. $39; Mr. Ward grant on sideline bet 6 and 7 in 8th con. $25; Wm. Sadler turnpiking on sideline bet 4 and 5 in 6th [illegible] $50; R. W. McAvoy repairing washout [illegible] gravel $55; F. Mcrden drawing 180 yards of gravel bet 4 and 5 in 5th con. $90; Jas. Tiltts 25 per cent on Harbor sidewalk $10; W. W. Hubbard 25 per cent. on Brougham sidewalk $8; John L. Jones building bridge and furnishing timber for same between 2 and 3 in 8th con. $67-72; W. Peak drawing 4000 feet timber on account of Clark's contract $4; Thomas Feasby Uxbridge township treasurer one half cost represented by bridges, culverts, etc., $65-64½; John Hamilton for cedar timber, 109 feet $4-59; Coultice & Piles fixing culvert on eastern townline and plank supplied $2.62, Whitby paying like amount. We beg to acknowledge receipt of a petition from the Village of Pickering asking this council to lease P. Gee's road to Pickering station for 99 years, and would recommend that a committee be appointed composed of Messrs. Gerow, Parker, Westgate, empowered to obtain all information in this matter and report at a future meeting.

To the Municipal council of the Township of Pickering: Your special committee appointed on the 16th day of June last for the purpose of examining the various localities where bridges have been washed away, to decide on the different kinds of bridges required and the probable cost of construction, beg leave to report and recommend as follows, that we have carefully visited seventy-two bridges and culverts which have been swept away, and as far as possible traced up the old timber, made estimates for material to rebuild and let jobs of taking to pieces and returning, we also place before you separate bills of material for the construction of new bridges with estimated cost of each one separately, purchased all the available cedar in the township and let contract by private and public bargains for the building of 18 small bridges and culverts, we also state to you that we have examined all the bridges now standing in the township with a view of ascertaining their safety for public traffic. (2) Having completed our bills on Friday evening, our answers from the timber companies being very unsatisfactory I took all the bills and visited the Peterboro lumber company on Saturday, the results of which I place before you. (3) That I also procured from the Iron Bridge Co., of Peterboro, plans and quotations for the construction of iron bridges at Pickering and Claremont, which as far as we know at present your committee would recommend to be built at the above places. (4) Your committee appointed to meet a deputation of Uxbridge council for the purpose of deciding upon the advisability of building a culvert on town line at Altona between the townships of Pickering and Uxbridge, beg leave to report that after fully investigating the application would recommend that no action be taken at present. All of which is respectfully submitted George Gerow and John M. Gerow special committee.

Mr. Parker, seconded by Mr. Westgate moved that the report on washouts and bridges be adopted and that this committee be empowered to advertise for tenders for the construction of iron bridges at Pickering Village Brock Road, near Claremont, and Height's bridge between lots 14 and 15 in 3rd con., said tenders to be opened at next meeting of this council.

Mr. Parker was granted leave to have his notice of motion re debenture by-law left over to next meeting.

Mr. Westgate seconded by Mr. Mowbray moved that the Reeve grant his order on the Treasurer for the several amounts recommended for payment in the reports of the Standing Committees presented this day.

Mr. Gerow seconded by Mr. Mowbray moved that this council do now adjourn to meet on Mondayf July 21st, at 1 p. m., for the transcation o general business.

Mrs. Alva Young,

of Waterford, Ont., writes, "My baby was very sick with summer complaint, and nothing would help him till I tried Dr. Fowlers' Extract of Wild Strawberry, which cured him at once. It is one of the best remedies I ever used.

Mr. Jesse Johnson,

of Rockford, Ont., writes—"Last fall I had boils very bad and a friend advised Burdock Blood Bitters. I got a bottle and the effect was wonderful. half the bottle totally cured me. A more rapid and effectual cure does not exist.

NATIONAL PILLS are sugar coated, mild but thorough, and are the best Stomach and Liver Pills in use.

Why will you allow a cough to lacerate your throat or lungs and run the risk of filling a consumptive's grave, when, by the timely use of Bickle's Anti Consumptive Syrup the pain can be alayed and the danger avoided. This Syrup is pleasant to the taste, and unsurpassed for relieving healing and curing all affections of the throat and lungs, coughs, colds, bronchitis, etc. etc.

THORNHILL.

A MYSTERIOUS FIRE.—Early on Thursday morning of last week a fire was discovered in the store of Mr. E. Gallanough, Thornhill; damage was done to the extent of about $200. It commenced in a drawer in the counter, in which it was the habit to throw bits of twine and odds and ends. The commencement of the fire can only be accounted for on the supposition that a mouse had carried matches into the drawer and set fire to the contents. It being the habit of some person to sleep in the store, the discovery of the fire was brought about by the sleeper being aroused by the smell of smoke and the suffocating feeling induced thereby. Having been discovered in time a serious fire was avoided.

LOCUST HILL.

The following incident said to have occurred at Locust Hill is too good to be overlooked. The young man at that rural spot, who frequently writes the locals for a certain contemporary, and accompanied by his best girl went to a residence to report a party where the home had recently been blessed by a new baby. The hostess was met at the door and after the usual greetings, enquiries were made as to the baby's health. The lady who was quite deaf thought he was asking about her cold and told him that although she usually had one every season this was the worst one she ever had, it kept her awake at night and sometimes she was real sick. Noticing that the scribe was getting pale and nervous she said she could tell by his looks that he was going to have one just like hers and asked him to come in and sit down Locust Hill's literary young man has sworn a terrible oath never to enquire about the health of babies again.

CLAREMONT.

Councillor Spears and family, of West Toronto Junction, who have been visiting friends here, returned home last week.

The bridges on the 9th concession are all completed with two exceptions, and these will be completed on the arrival of the timber.

We notice by the York Tribune that Mr. James Percy has resigned his seat at the council board. Mr. Percy's resignation is owing to ill health. His colleagues at the board regret very much that he has taken leave of them. He was on several committees and was otherwise useful to the electors of West Toronto Junction.

What might have been a serious accident occurred on Tuesday, 15th. Joshua Bundy hitched a team to a double rig and started with a load of villagers for Markham. When the party got as far as the bake shop, one of the horses shied and ran foul of a tree on the road side. Mr. Bundy was compelled to leave his load of passengers at home and proceed with a single rig. No damage was done.

AURORA.

Yesterday (Thursday) was Aurora's civic holiday.

The annual excursion under the auspices of the Aurora Methodist Sabbath School took place yesterday (Thursday), to Toronto and Victoria Park. The excursion was well patronized, and the sail from Toronto to the park was delightful, and the park itself is one of the finest in the vicinity of Toronto.

Mr. Wm. Ough now occupies the civic chair rendered vacant by the resignation of Mr. C. C. Robinson. At the official nomination held on the 9th inst., six candidates were nominated, four of whom, Messrs. Love, Harrison, Johnson and Fleury, withdrew, leaving in the field Messrs. Danbrook and Ough, and on the Friday following Mr. Danbrook withdrew, giving the seat to Mr. Ough by acclamation. Mr. Ough served as Deputy-Reeve for some time with credit to himself and the town, and we have no doubt he will fill the position of Reeve quite as creditably.

William Morton, well known here, met with a serious accident in the Wilkinson Plough Works, in West Toronto Junction, Saturday, 12th inst. He was grinding a piece of iron on an emery wheel, when the piece caught in the wheel breaking it in two, one end of which ran into his leg at the knee inflicting a terrible wound. He was conveyed home and the wound dressed by Dr. Gilmour, and on Monday, at the request of the doctor he was conveyed to the Toronto General Hospital, where he will receive constant medical attendance. It will be some months before he is able to work.

STOUFFVILLE-ON-THE-LAKE.

This is the name given to that portion of Jackson's Point occupied by the Stouffville people and their friends. The enumerators have been on the war path and the certified results show Stouffville-on-the-Lake to have, including cottage and camp, a population of about seventy-five souls. As the camping season has not fairly opened yet, there will no doubt be at least a population of one hundred before the close of July. I understand that this beautiful little hamlet is, in reality a part of the recently incorporated village of Sutton West. If this be so, a plan of Sutton West must look very much like a badly gerrymandered constituency The new cottages just being completed here are models of neatness. The artistic hand of Mr. Perry of Stouffville has done much to beautify the cottages of Messrs. Coulson and Wheler. The lively hues and artistic contrasting of colors give evidence of aesthetic taste. The older residents of this delightful beach have also done much to beautify their cottages and grounds during the present season. The romantic little Sumach Grove with which Stouffville people are so familiar, is just as enticing as in the past. This has been for some years the favorite camping ground for Stouffville people. Our first night in camp was signalized, as all our first nights have been, by high winds and a consequently boisterous sea. The wild waves dashing against the shore but a few yards from your tent, the constant quivering of the leaves of the paper birch and poplar, the screeching of the night birds, interspersed with an occasional scream from a neighboring farm yard all tend to induce any but old campers to lie awake to see how this will end. But just before the morning's dawn you drop off into dreamland for a little and awake to find broad day-light staring you in the face. Then you feel like hurrying out to see what terrible devastation has been committed by the elements, but peace and quietness reign supreme. The birch and poplar turn pale when you accuse them of assisting in getting up the racket of the previous night, while the placid waters of the lake bear such a calm and peaceful smile that your heart fails you, and you accuse not. But wouldn't you like to wring that peacock's neck though?

How To Live Well.

100 doses for 100 cents. Burdock Blood Bitters.
Does your Head ache? Take Burdock Blood Bitters.
Is your Blood impure? Take Burdock Blood Bitters.
Are you Costive? Take Burdock Blood Bitters.
Are you Bilious? Take Burdock Blood Bitters.
Are you Dyspeptic? Take Burdock Blood Bitters.
1 cent a dose. 1 cent a dose. Burdock Blood Bitters.

PICKERING.

James Maddigan, an employee of the G. T. R. was run over by an engine in the yard west of the union station, Toronto, on Tuesday evening of last week. His left leg was cut off and he received severe internal injuries. He was taken to the hospital in the ambulance but the efforts of the surgeons were in vain and he died at 7.45 p.m. He leaves a widow and two children. The deceased was brother-in-law of Messrs. J. H. and P. Gorman of this village, and the funeral took place at the R.C. burial ground here on Thursday morning.—News.

Mr. Lemieux, Department of Agriculture, was drowned Friday morning in the Ottawa at the foot of the Parliament buildings. Lemieux was about 50 years of age.

In the Surrogate Court Monday Mrs. Mary Ann Bryan, of King Township, applied to administer the estate of her late husband, Robert Bryan, who died without a will. It amounts to $5,862.

The results of the recent Provincial Government examinations of students of Toronto Art School were announced Friday evening. The total number of subjects entered for was 190; of certificates taken, 146.

DESTROY THE WORMS they may destroy the children. Freeman's Worm Powders destroy and expel all kinds of worms.

The evils resulting from habitual costiveness are many and serious; but the use of harsh drastic purgatives is quite as dangerous. In Ayer's Pills, however, the patient has a mild but effective aperient, superior to all others, especially for family use.

Minard's Liniment Lumberman's Friend.

THE CRADLE.

SELLERS—At Stouffville, on July 15th, the wife of Mr. C. Sellers, of a son.

FEASBY—In Uxbridge, on 22nd inst., the wife of Thos. Feasby, Township Treasurer, of a son.

TURNER—On 10th Con. Markham, on Friday, July 18th, the wife of John Turner, of twin daughters.

WHITE—On 4th Con. Uxbridge, Tuesday, July 15th, the wife of Mr. Abraham White of a son, stillborn.

THE ALTAR.

DUFFY—BABCOCK—In Uxbridge, on 21st inst. Mrs. Babcock to Mr. Samuel Duffy, of Kinmount.

"HYGIEA OFFICE," New York.

Clerk's Notice

—OF FIRST POSTING OF—

VOTERS' LIST

Voters' List, 1890, Municipality of the Township of Whitchurch, County of York.

NOTICE IS HEREBY GIVEN that I have transmitted or delivered to the persons mentioned in sections 5 & 6 of the Voters' List Act, the copies required by said sections to be so transmitted or delivered of the list made pursuant to said Act of all persons appearing by the last revised assessment roll of the said municipality to be entitled to vote in the said municipality at elections for members of the Legislative Assembly and at Municipal elections, and that said list was first posted up at my office on the 22nd day of July, 1890, and remains there for inspection. Electors are called upon to examine the said list and if any omissions or other errors are found therein to take immediate proceedings to have the said errors corrected according to law.

J. C. LUNDY,
Clerk of Whitchurch.

Newmarket, July 22, 1890.

CHEAPER THAN EVER.

WE ARE

NOT DEAD

NOR SLEEPING!

Nor do we intend to fall asleep during the so-called "dog days" of summer.

Our large stock is constantly replenished with the most

DURABLE GOODS

Which the market can produce.

We have some very choice lines of **Dress Goods**, purchased at bottom figures, and as this is the season for this line of goods, we want to run them off as fast as possible.

Remember, these goods are not old and shop-worn, but new and fresh from the factory.

We have a large number of **Remnants** which will be sold off at cost prices. These are not simply little pieces, but are in lengths suitable for children's dresses.

We wish to call the attention of ladies to our stock of **Corsets**, for ladies, misses and children. You should call at once to see them, as they have just come in, and are a fast-selling line of goods; light in weight and thoroughly durable.

All other lines well assorted.

Fine Maple Syrup constantly on hand.

J. URQUHART,
GENERAL MERCHANT,
MAIN ST., STOUFFVILLE.

A Dinner Pill.—Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of at like a ball of lead upon the stomach, and instead of being a healthy nutriment it becomes a poison to the system. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and convert the food partaken of into healthy nutriment. They are just the medicine to take if troubled with Indigestion or Dyspepsia

Minard's Liniment cures Distemper.

Sixteen Ugly Sores.

THE LAMMATORY rheumatism through wrong treatment left me with stiff joints and ugly running sores on my limbs, and for seven years I could not walk. When I commenced taking Burdock Blood Bitters I had sixteen sores, but they are all healed save one and I can now walk with crutches. Mary Caldwell, Upper Hampstead, N.B.

For four years I was not able to sleep in bed, being troubled with Catarrh, and I tried almost everything without obtaining permanent relief until I tried Mustard's Catarrh Specific, four bottles effecting a cure.—Geo. Webster, Forest, P. O.

BOOMING! BOOMING!

QUESTION:

Why is **Warriner** the Wonderful Cheap Man, so busy selling goods when times are supposed to be dull during haying and harvest.

ANSWER:

Because he handles no trash, sells nothing but good reliable goods, keeps everything in season, has only one price, buys in the lowest market, sells on small profits, and gives to his customers the greatest bargains in this country.
