OVERLOOKED.

There Are Patent Medicines And Remedies Without Number For Every Disease And Affliction But One.

A prominent physician was recently asked why it was that there are so many "blood purifiers," "nerve tonics" and remedies for every ill, except one of the most common and annoying, viz., piles. He replied, there are two principal reasons. First, physicians and people in general, have thought that the only permanent cure for piles was a surgical operation, that medicinal preparations were simply palliative. Another reason is, that piles is in no sense of the word an imaginary disease; the sufferer from piles is very much aware of the fact, and for this reason, the few so-called pile salves, ointments, etc., have been short lived. The patient very soon discovered their inefficiency.

He says further, fortunately, however, there is a new remedy for piles, which judging from its rapidly growing popularity, will soon take the place of all other treatment; it has certainly made astonishing cures in this obstinate disease and its merit has made it famous among physicians and wherever it has been introduced. This remedy is sold by all druggists under the name of Pyramid Pile Cure.

From the immediate relief which the Pyramid Pile Cure gives in all forms of piles, many physicians supposed it contained opium, cocaine or some similar substance, but upon analysis it was found to be perfectly free from anything of the kind, and that the instant relief and cure which follows its use is rather the result of its remarkable healing, soothing action on the parts affected.

The Pyramid Pile Cure is the only remedy, except a surgical operation, which immediately relieves and permanently cures every form of piles.

It is sold by druggists at 50c. and $1, or by mail from Pyramid Drug Co., Marshall, Mich.

CHIFFONIER OR GENT'S DRESSER—We have a fine range, $8, $10, $12, $16, $18, $22, $25, $30, $45. A good choice. They are very convenient—giving to the gentlemen a place for everything—and everything in its place.

DRESSERS WITH MIRROR, $5 up; large variety up to $50 each.

CARPETS—Our selection of English Brussels is unequalled this season—Blues, Fawns, Greens, Crimsons—none wear better or give same returns for investment as good Brussels. 85c., $1, $1.25. All new patterns; selected in the English mills.

We are direct importers from Scotland, England, France, Germany, Switzerland, etc.

Curtains and Shades, full stock.

Undertakers, etc.

Telephone Nos. 90-91.

COTTON DOWN COMFORTERS

Filled with the best quality snow white carded Cotton, 2 yds. wide and 2¼ yds. long,

$3 EACH.

These Comforters are in all respects equal to the best Eiderdown at a very much lower price.

R. McFaul

Kingston Carpet Warehouse.

Wood's Phosphodine

The Great English Remedy.

Before.

Is an old, well established and reliable preparation. Has been prescribed and used over 40 years. All druggists in the Dominion of Canada sell and recommend as being the only medicine of its kind that cures and gives universal satisfaction.

It promptly and permanently cures all forms of Nervous Weakness, Emissions, Spermatorrhea, Impotency, and all effects of Abuse or Excesses, the Excessive use of Tobacco, Opium or Stimulants; Mental and Brain Worry, all of which lead to Infirmity, Insanity, Consumption and an early grave. Price $1 per package, or six for $5. One will please; six will cure. Mailed postpaid on receipt of price. Send for pamphlet—free to any address.

After.

The Wood Company, Windsor, Ont., Canada.

Wood's Phosphodine is sold in Kingston at all drug stores.

When Fuel Is Dear

You should light your house or office as economically as possible. The most economical light is the YOTO. It costs little, and gives three times the light of other lamps at one-half the worst.

GAS MANTELS—A few fine ones left at only 10c. each.

HALLIDAY, Princess

NO ACTION YET

HANDLING THE FUEL QUESTION VERY GINGERLY.

Not Likely to Purchase Coal.—May Secure Supply of Wood—Charitable Societies Want Supply of Fuel From the Civic Committee.

The special committee of the city council appointed to consider the question of providing a supply of fuel for the poor of the city, at reasonable prices, had its third meeting Monday afternoon in the office of the mayor. All the members were in attendance, but nothing definite was decided. It was expected that a report would be submitted on the question of freight rates, but this was not forthcoming, and the matter was allowed to stand, practically where it was when the committee took it up.

Mayor Shaw opened proceedings by reading a telegram from Mayor Howland, Toronto, to the effect that the council of that place would have 10,000 tons of Welsh coal available by the middle of November, of which Kingston could purchase a portion at $12.75 a ton. Ald. Walkem, acting mayor, had replied that Kingston did not desire to purchase. T. L. Mills, Montreal, wrote the mayor to the effect that by the middle of November he would have 2,000 tons of English hard coal available, a portion of which he could sell the city at $8.75 a ton, long (2,240 pounds) at Montreal, which would be about $7.88 net ton of 2,000 pounds. Miss Strange, in behalf of the King's Daughters, enquired of the mayor if that organization would be able to obtain a supply of fuel from the civic committee, and, if so, at what prices. Last year the association supplied sixty tons of coal and about ten cords of wood to poor families. Miss Muckleston, in behalf of the Poor Relief Association asked the mayor and committee to not forget that association in the event of purchasing fuel for distribution among the poor.

Ald. Kent was of opinion that from the present outlook there would be an ample supply of coal, which could be purchased cheaper here than at the price quoted from Montreal.

Mayor Shaw stated that in Ottawa dealers were selling coal half a dollar a ton cheaper than the municipality, and would continue to undersell the civic body, though they did so at a loss.

Ald. McLeod considered that the Ottawa council's action in supplying coal had resulted in a good effect; it cheapened fuel to consumers.

Ald. Kent was inclined to accept Mr. Swift's view of the situation, and felt assured there would be an ample supply of coal here by the time it was needed. He favored allowing the question to stand for a few days. Ald. White was of the same opinion. The mayor was of opinion that the situation would adjust itself satisfactorily.

Ald. Bell called attention to Capt. Crawford's view of the situation, to the effect that it would be impossible to obtain coal here before spring. The speaker thought that the council ought to provide coal for the poor.

Ald. Kent replied that when coal was available dealers would be able to obtain it quicker and cheaper than the council.

Ald. White—"Other dealers who know as much about the situation of affairs as Capt. Crawford, say that we will be able to get coal here by the middle of November."

Ald. Bell was satisfied that the committee should allow the question of securing coal, to stand, but a supply of hard wood should be obtained.

Ald. White reported that he had written to the Central Ontario railroad company for freight rates on wood, and was told that wood would cost seven cents a pound, or about $2.60 a cord for haulage. The wood he had in view was dry and could be purchased at $2.75 a cord, making it $5.35 a cord laid down here. The city must have about forty-five cords for the city buildings. He had tried to buy that amount from Robert Wood, Snow Road, but that dealer would not sell so small a quantity.

Ald. Bell stated that the C. P. R. and K. & P. would haul wood at reduced freight rates providing those representing the city in the matter would give bonds that the wood was not to be sold at a profit.

Ald. McLeod knew that the people were anxious that the council should secure a supply of wood. He suggested purchasing a few hundred cords at a time. It would be wise not to touch coal at present prices.

Ald. Bell pointed out that added to the original price of wood and cost of haulage, would be sixty cents a cord for unloading and delivering. Ald. White replied that wood could be delivered at $6.25 a cord. Ald. Bell thought it could be delivered at about $5.50 or thereabouts by purchasing from along the line of the K. & P.

Ald. Kent maintained that the committee ought to allow the dealers to handle the supply of wood for the city, but Ald. Bell replied that if left in the hands of the dealers, the price would jump up. In any event the dealers had advised the city to buy the supply of wood.

Mayor Shaw—"It queers me why dealers would give the committee that advice, that they should advise competition with their own business."

Ald. Kent held that it would not be advisable to buy if the committee could not save the consumers more than fifty cents a cord. Ald. McLeod felt assured that the committee could do better than that. He figured on supplying green wood at $5.50 a cord.

Ald. Bell stated that the committee could not get wood from Clyde Forks before January. Ald. White stated that the committee could obtain Robert Wood's dry wood at Snow Road at once.

The discussion was ended by a motion by Ald. Bell, that himself and Ald. McLeod be a committee to interview the K. & P. officials re freight rates and to learn from Robert Wood what he will sell for. This sub-committee to report to the general committee on Friday.

Immediately after the adjournment of the committee, Alds. Bell and McLeod wrote to C. W. Spencer, general manager of the C.P.R. and K. & P. railways, asking for freight rates, and explaining the object the committee has in view.

Asthma

"One of my daughters had the asthma terribly. We tried almost everything, without relief. We then tried Ayer's Cherry Pectoral and three bottles cured her."—*Emma Jane Entsminger, Langsville, O.*

INCIDENTS OF THE DAY.

Newsy Paragraphs Picked up by Reporters On Their Rounds.

Pay water rate and save discount.

There was another blank docket at the police court this morning.

Doctors will tell you that some men die hard, while others are dead easy.

The night classes at the Collegiate Institute are not largely attended so far.

Cheer up, all the nice October weather is yet to come, at least it hasn't happened yet.

Not a single woman got off a street car backwards, yesterday! Reason why: The cars didn't run.

Only a few rigs dotted the Market square this morning. Tuesday's markets are now seldom well attended.

Some men spend half their lives in making a reputation and the other half in trying to live it down.

The Salvation Army barracks is being elaborately decorated in honor of the visit, to-morrow, of Gen. Booth.

The street cars didn't run in Kingston yesterday. That's the kind of service Belleville has all the year around.

Beware of the promise of the mayoralty candidate. It springeth up in the morning and in the evening it is gone.

Crosby & Thornton's weekly assembly in the Whig hall Monday night was largely attended. The dance was greatly enjoyed.

At McLeod's drug store you can purchase for 50c. an atomizer to spray oil or water, hard rubber fittings. Your money back if not satisfactory.

The news of the settlement of the coal strike hasn't reached Belleville yet. Santa Claus will probably leave them a message when he calls—that is, if he ever stops there.

There are at present fifty children in the Orphans' Home. Several leave every week, but their places are almost immediately filled by new ones, so that the general average remains the same.

Monday D. A. Cays, real estate agent, sold two stone dwellings on lower Queen street, one owned by Mrs. Johnston Brown, and the other by the Johnston Brown estate, to Capt. Gaskin.

There is a commercial traveller staying at a Princess street hotel who is encumbered with fourteen trunks, filled with samples. He carries almost enough goods to stock an ordinary retail store.

The citizen who said, "I haven't got an ounce of coal in my cellar and I'm not worrying any about it," feels better to-day than the man who rushed to the coal office and bought five or ten tons at $9 or $10 a ton.

The management committee of the Board of Education met last evening, and listened to the reports of Inspector Kidd and Secretary Macdonald in reference to their recent visit to Toronto schools. The reports were afterwards discussed.

MARINE INTELLIGENCE.

Notes Regarding the Movements of Vessels.

Craig's wharf: Steamer Alexandria down.

Swift's wharf: Steamer Rideau King from Ottawa.

Richardsons' elevator: Schooners Rutherford from Toronto, and Katie Eccles from bay ports.

The steamer Valeria has concluded her season's running between Gananoque and Clayton. She has gone into her usual winter quarters here.

A marine survey was held to-day on the barge Danforth, which contained a quantity of damaged wheat from Fort William to Richardsons' elevator.

On Monday the steambarge Hinckley took a cargo of hard coal from Oswego to Cornwall. It must have been coal that had been stored in the shutes.

The barge Tecumseh, of Collins Bay, received repairs in the government dry dock from which she has just cleared. A new piece was put on her bow. The steamer Petrel entered the dock today to receive an overhauling prior to leaving for Newfoundland.

Capt. William Lesslie, of the Collins Bay Rafting company, intends spending the winter in Newfoundland. He has fitted up the tug Petrel as an ideal wrecking craft, and after a few plates have been added to her hull, to prevent her rolling in a sea, she will leave for Newfoundland.

PERSONAL MENTION.

Movements Of The People—What They Are Saying And Doing.

Mrs. Harry Singer, Montreal, is the guest of her mother, Mrs. Dobson, Johnston street.

Archbishop Gauthier and Rev. Father A. J. Hanley returned on Monday from a three weeks' confirmation tour.

William Buff, Inverary, called at the Whig office to-day to say that he has not been laid up ill, and that reports to that effect are unfounded.

Mrs. C. D. Kerr, soloist in Sydenham street Methodist church, has returned to the city from a visit with friends at points down the Rideau.

Mrs. A. J. Burrows and child, Napanee, the guests of Mrs. T. H. Ferguson, Alfred street, for the past ten days, returned home this morning.

Miss Sara Gill, principal of Rideau school, has given about twenty-five years of service to the Kingston Board of Education. Miss Davidson, principal of Cataraqui school is second in length of service, twenty-two years.

Charles E. Hamilton, M.A., of the Globe staff, Toronto, in conjunction with William Grant, M.A., will prepare the book, to be issued shortly, on the life and works of the late

SPORT REVIEW.

KICKING IN RUGBY HAS BECOME A LOST ART.

Queen's Do Not Take a Chance to Dribble—The Modern, Scientific Game of Croquet—General Notes.

Westmount, Montreal, wants to enter a senior team in the Quebec rugby union next year.

The stabling accommodation at Fort Erie will be increased by 250 stalls for next season's racing.

A meeting of the yachters of the Maritime Provinces has been called to consider the uniform measurement question.

Miss Macdonell and T. A. Carson to-day shipped their prize winning dogs to New York, where a bench show is in progress.

Orillia curling club shows a surplus of $300 after paying all their debts. They are considering the advisability of taking over the rink.

Hal. Walters, the Ottawa Rough Rider "cannibal," was badly kicked about by the Argonauts on Saturday. He was knocked out at one time.

The Whig is informed that a bet of anywhere from $25 to $100 will be wagered that Dr. Hanley's horse can defeat J. M. Theobald's in a matched race.

The annual cross-country run of Upper Canada College for the Macdonald cup took place on Monday afternoon over the cup course at the college and was won by Len. Morrison, the winner of the cup in 1900.

Quarter-back Britton, formerly of the Toronto Argonauts, played with Gananoque juniors in Brockville on Saturday, under an assumed name, so says a Brockville despatch. The Gananoque bunch were beaten 4 to 0.

A football coach, speaking of defence work, says: "Keep practicing the fundamentals of running low, charging, tackling and falling on the ball, as they are all essential to a fair defence and absolutely necessary to a good one."

From present indications it looks as though Toronto 'Varsity would again take the intercollegiate senior rugby championship, which they have held twice, to Queen's once. Had Queen's won last Saturday, their chances would have been better.

Word comes from Winnipeg that the Victorias will have opposition in hockey this winter. Scanlan, Wood and Johnston, the former once of the montreal Shamrocks, are to form a team to win both the Manitoba championship and the Stanley cup.

A matched race has been arranged between Dr. Hanley and J. M. Theobald, to be run off in Cataraqui driving park a week from to-day, or, in the event of the track not being in condition, on the first day thereafter on which the track is suitable.

Maher, the American jockey, has completed his century of winning mounts for the present season in England. Although only second on the list of winning jockeys, Maher has won far more stake money than any of the others. His hundred winners have netted the remarkable total of upwards of $295,000.

Queen's rugby teams never seem to take advantage of a chance to dribble the ball. Other teams do, McGill for instance taking two chances in Saturday's match. Once all a Queen's player had to do was to dribble the ball past full-back Patch, and a touch would have resulted. Instead, he fell on the ball.

A single point will often win a match. Queen's learned that to their sorrow on Saturday when they thought of the easy try at goal they had missed. Goal kicking has certainly become a lost art, and simply because no attention is given to it. The reason there is so little kicking in rugby of to-day is not on account of the present rules, but because it is seldom done in practice. The result is that when a half-back does kick, he can seldom place the ball in a safe place, as Gleason, Counsell and McRae used to do.

Croquet as a scientific game is expected to find a stronghold in Toronto as a result of the recent tournament. The old-fashioned summer bouncing croquet, with its antiquated hoops and worn-out mallets and chipped balls is not to be confounded with the game in question, which has to be played on scientific principles, and not with long mallets and thin wire hoops. A club formerly existed in Kingston, of which the late Rev. S. Houston and J. B. McKay were leading players. This club had short, heavy mallets, large balls, and thick steel hoops, and played the real "professional" croquet.

Police Magistrate Farrell will have a neat and clean chamber in which to dispense justice when he enters upon his new duties.

READY, START!

An Athletic Event.

You want, everybody wants, brain and muscle, wind and stamina, and can get them if fed properly. This is an athletic age. The man or woman who is weak or sickly, is not in the race; success socially or in business goes only to the strong and healthy. It is largely a matter of choice with anyone for proper living, and proper food will bring the prize.

An athlete in Chicago tells of the good results he obtained from proper food; he says: "Last Spring I began to train hard to become an athlete in track events and to grow stronger; I now know that what strength and victories I have secured is due to the use of Grape-Nuts. When in training for an athletic meet, I would just live on Grape-Nuts, alone for three days before the event was to come off. During this time I have won six championship races out of two athletic meets. In a 200 yard run my time was 35 seconds and in the 75 yard dash the time was 9 seconds, both being a good record.

Grape-Nuts has given me a stronger mind and also bodily strength, which no other food could have done in so short a time. I have gained strength in a most remarkable way since using Grape-Nuts.

Members of our football team have a training table on which may be found first of all the 'athlete's favorite food, Grape-Nuts.'" Name given by Postum Cereal Co., Ltd., Battle Creek, Mich.

THE CORNER STONE

Of Grant Convocation Hall to Be Laid on Nov. 6th.

Queen's University council met Monday afternoon to make arrangements for the laying of the corner stone of Grant Convocation hall. It was decided that this should take place on the afternoon of November 6th, and that the chancellor, Sir Sandford Fleming, should perform the ceremony. Hon. G. W. Ross, premier of Ontario, and Rev. Dr. Gordon, of Halifax, will be invited to deliver the memorial addresses that will follow. The corner stone will be in the hall tower, which will face Stuart street, at the University Avenue corner of the new arts building. The contract for building the foundation of the tower will be let at once, so that enough masonry will be in place for the corner stone.

The University council appointed a committee to wait upon the city council to find out what ceremony the city would like in connection with the formal presentation of the new arts building. It has been suggested that this ceremony take place on December 5th, the date upon which the late Principal Grant was inaugurated at Queen's, twenty-five years ago.

SHOT IN THE FOOT.

James A. Fegg Was the Victim of An Accident.

While out duck-shooting Monday afternoon, James A. Fegg, a street railway motorman, accidentally shot himself in the right foot. One of the toes had to be amputated, while another is in a bad condition. A large hole was bored through the foot.

Mr. Fegg was in company with his brother-in-law, Police Constable Graham, and they were in the vicinity of Lake Ontario Park for an afternoon's sport. The former unconsciously rested the barrel of his gun upon his right foot. Then he accidentally pulled the trigger, and the shot ploughed through the foot, making a large, ugly wound.

Constable Graham stanched the flow of blood as best he could, and then hurried off for a carriage in which he brought his brother-in-law to the city. A doctor was called, and ordered the wounded man to be removed to the general hospital, where the small toe was amputated. The patient is progressing as well as could be expected.

One Bolt Of Cloth Recovered.

John Tweddell, merchant tailor, Princess street, has recovered one of the bales of cloth stolen from his shop on Thanksgiving day. It was found in a laneway off Bagot street, near Princess. On the afternoon of the day above mentioned, Mr. Tweddell's son, who was in charge of the shop, left it for a few minutes without anyone in charge while he went up stairs to the workroom. When he returned he found that two bales of cloth had been stolen from the tables. There were only about seven or eight yards of cloth in each bolt. One has been found, but there is as yet no trace of the other. The police have the matter in hand.

Call Accepted.

Rev. J. F. Macfarland, B.A., who for the past ten years has laboured with marked success in the congregation of Newburgh and South Mountain, has accepted the unanimous call extended to him by the congregation of Waskwetch and will leave in the latter part of November for his new field of labor. The call was accompanied by a guarantee of stipend of $800 a year, together with manse, three weeks holidays and all expenses involved in moving. Mr. Macfarland is a graduate of Queen's University in arts and divinity and a Frontenac boy.

Reception To Young People.

The Christian Endeavor Society of Queen Street Methodist church extended a welcome to the young people of the church to enjoy a social evening with them on Monday night. The attendance was very good, and a pleasant time resulted. The programme included recitations by Miss Dutton and George Murray, club swinging by A. E. Shannon and gramophone selections by T. J. Beveridge. Refreshments were served by the energetic social committee in charge of Miss M. Merritt.

Funeral Occurred To-day.

The funeral took place on Tuesday morning of Miss Ellen Dacey, daughter of the late John Dacey, Montreal street, who died on Saturday at the age of sixteen years and three months, after a long illness of consumption. At 9:30 o'clock a solemn requiem mass for the repose of her soul was celebrated in St. Mary's cathedral. Interment took place at St. Mary's cemetery. The funeral was largely attended.

Like Tearing The Heart Strings.

"It is not within the conception of man to measure my great sufferings from heart disease. For years I endured almost constant cutting and tearing pains about my heart, and many a time would have welcomed death. Dr. Agnew's Cure for the Heart has worked a veritable miracle."—Thos. Hicks, Perth, Ont.—For sale by H. B. Taylor and Henry Wade.—30.

Look Out For Accidents.

Said a hardware dealer this morning: "Be prepared to hear of accidents occasioned by the use of gasoline. We are selling large quantities of that dangerous liquid, to be used in cleaning garments. Few persons realize how dangerous it is to use gasoline near fires, lamps and other flames, and the result will be that careless persons will suffer for their indiscretion."

Fall Importation Of 1902.

Prevost, of the New York clothing store, Brock street, has received all his fall importations for order work in his tailoring department. His ready-made department is well assorted and a large assortment to choose from. For low price and durability he defies competition.

If you once try Carter's Little Liver Pills for sick headache, biliousness or constipation, you will never be without them. They are purely vegetable, small and easy to take. Don't forget this.

About time someoiy sighted the first snow storm in the distance. Taylor sells purest drugs.

U. E. L. DESCENT

JOHN FITCHETT DIES, AGED 78 YEARS.

Was Born and Died Upon the Same Farm Near Sillsville.—Two Games of Ball at Napanee—Going to Winnipeg.

Napanee, Oct. 21.—John Fitchett, a well-known and highly respected resident of Sillsville, passed peacefully away on Monday last, at the home of his son, John N. Fitchett, at the ripe age of seventy-seven years and nine months. The deceased was a descendant of one of the U. E. Loyalist settlers, and was born upon the farm on which he died, near Sillsville. Of a very large family, only one brother, Moses Fitchett, of Stirling, still lives, and he is in his eighty-second year. Three sons remain: John N., on the homestead; Ephraim, of Farma, and Hezekiah, a blacksmith at Marlbank. A daughter living in the west also survives. The funeral occurs Wednesday at ten o'clock to the Sillsville cemetery.

Miss L. M. Hall is visiting friends in Toronto this week. On Friday night last two horses belonging to Hugh Mooney were run over by the G.T.R. just east of the town. During the night they wandered from the pasture to the track. One was a young animal and the other a work horse.

Miss Ross, Winnipeg, is the guest of Mr. and Mrs. A. Alexander. Mr. and Mrs. F. Anderson, Port Hope, spent Thanksgiving with friends in town. Mrs. Ferguson and Miss Dolly Hawley expect to leave for Winnipeg this week.

Saturday last the return game of football took place between the senior teams of Napanee and Picton. A large number of Picton citizens accompanied their team. The rain, which started about eleven o'clock, was a sad disappointment. Despite this, however, the juniors had their game, which resulted in a victory of three to nothing in favor of Napanee, leaving the cup to Napanee juniors. The seniors met on the field in the afternoon. The game was fast and fierce, and resulted in a victory of one to nothing in favor of Napanee. This left the teams a tie. The deciding game will be played off on the Deseronto grounds next Saturday.

IN OUR OWN CIRCUIT.

News Of The Districts On Both Sides Of The Line.

Rural Dean Wright, of Athens, is improving nicely.

Mrs. Thomas Alberry, Brockville, died Monday, aged sixty-six. Seven children survive.

J. McLean and Mrs. R. McGillivray, Smith's Falls, were married in Perth on Wednesday last.

Dr. Pratt, Smith's Falls, at the point of death from pneumonia, has so far recovered as to be able to walk about.

The remains of the late Percy Near, who died in Denver, Col., have arrived at Brockville for interment. The deceased was thirty years of age.

John C. Short, Belleville, died on Sunday, aged eighty-five, from senile decay. He was a Baptist and a photographer. A widow and two children survive.

At Carthage, N.Y., on Monday, Miss B. Meade, second daughter of William Meade, Gananoque, was married to J. Wesley Jefferson, formerly of St. Mary's, and now a machinist on the Kingston News staff.

Kept Out Of Sight.

The Separate School Board delegation, which went to New York to interview a former official of that body regarding $1,700 school funds, which he wrongfully carried away, failed to accomplish the purpose, the defaulter keeping out of sight. At its next meeting, the board will take further action.

Got $1.75 Freight.

Capt. Savage, of the schooner Rutherford, states that he received $1.75 a ton for carrying soft coal from Lake Erie ports to Toronto in September. This coal was purchased at $2.40 a ton, which would bring it to $4.15 at Toronto, without adding duty, etc. The freight to Kingston, of course, would be still more.

To Cure A Cold In One Day.

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

I WILL CURE YOU OF Rheumatism

ELSE NO MONEY IS WANTED.

After 2,000 experiments, I have learned how to cure Rheumatism. Not to turn bony joints into flesh again; that is impossible. But I can cure the disease always, at any stage, and forever.

I ask for no money. Simply write me a postal and I will send you an order on your nearest druggist for six bottles Dr. Shoop's Rheumatic Cure, for every druggist keeps it. Use it for a month and, if it succeeds, the cost is only $5.50. If it fails, I will pay your druggist myself.

I have no samples, because any medicine that can affect Rheumatism quickly must be drugged to the verge of danger. I use no such drugs, and it is folly to take them. You must get the disease out of the blood.

My remedy does that, even in the most difficult, obstinate cases. No matter how impossible this seems to you, I know it and I take the risk.

I have cured tens of thousands of cases in this way, and my records show that 39 out of 40 who get those six bottles pay gladly.

I have learned that people in general are honest with a physician who cures them. That is all I ask. If I fail I don't expect a penny from you.

Simply write me a postal card or letter. I will send you my book about Rheumatism, and an order for the medicine. Take it for a month, as it won't harm you anyway.

If it fails, it is free, and I leave the decision with you. Address Dr. Shoop, Box 40, Racine, Wis.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists.

What frayed your linen? Not Sunlight Soap—No, indeed!
