Miss Josephine Lane, A Society Leader of Boston,

After Five Years' Suffering from Backache and Kidney Trouble Was Restored to Health by

WARNER'S SAFE CURE.

MISS JOSEPHINE LANE.

"I suffered for over five years with malaria and kidney trouble—my whole system was impregnated with the poison. It affected my general health, robbing me of energy and vitality, and causing severe headache and backache. The digestive organs were also impaired, so my food seemed tasteless and like lead in my stomach. I passed a dreary existence and my naturally happy disposition was changed into one of constant irritation and nervous inconsistencies.

"Warner's Safe Cure was the only remedy ever found which helped me. I began taking it in March, and before the warm weather came I was completely cured, felt like a new woman, full of life and hope.

"Words cannot tell how pleased I am to have my health back. I have a keen appetite and enjoy my meals; digestion is perfect. All my aches and pains have left me. I have gained nine pounds in weight and I feel in harmony with all the world because I am now perfectly well." Very sincerely, MISS JOSEPHINE LANE, 153 Shawmut Ave., Boston, Mass.

Thousands, both men and women, like Miss Lane, have been cured of serious complications caused by kidney disease neglected, by Warner's Safe Cure, after all so-called kidney cures had failed.

"SAFE CURE" CURES BACKACHE.

If you have pains in the back, rheumatism, uric acid poison, rheumatic gout, diabetes, Bright's disease, inflammation of the bladder and urinary organs; scalding pains when you urinate, eczema, jaundice, swellings or torpid liver; if a woman, bearing-down sensation, fainting spells, so-called female weakness, painful periods; these symptoms tell you that your kidneys have been diseased for a long time, for kidney diseases seldom put out such symptoms as the victim recognizes until they have been working several months. You should lose no time—get a bottle of Safe Cure at your druggist's. It will relieve you at once and effect a permanent cure. It kills all disease germs.

IF IN DOUBT MAKE THIS TEST: Let some morning urine stand for twenty-four hours in a glass or bottle. If then it is milky or cloudy or contains a reddish, brick dust sediment, or if particles or germs float about in it, your kidneys are diseased.

ANALYSIS FREE.

If, after you have made this test, you have any doubt in your mind as to the development of the disease in your system, send a sample of your urine to the Medical Department, Warner's Safe Cure Co., Rochester, N.Y., and 44 Lombard St., Toronto, Can., and our doctors will analyze it and send you a report with advice free of charge to you, together with a valuable book describing all diseases of the kidneys, liver, bladder and blood, and treatment for each disease.

All letters from women, read and answered by a woman doctor. All correspondence in strictest confidence.

Warner's Safe Cure is purely vegetable and contains no narcotic or harmful drugs. It is free from sediment and pleasant to take. It does not constipate, it is a most valuable and effective tonic; it is a stimulant to digestion and awakens the torpid liver. It repairs the tissues, soothes inflammation and irritation, stimulates the enfeebled organs and heals at the same time. It builds up the body, gives strength and restores energy. You can buy Safe Cure at any drug store or direct. $1 A BOTTLE.

Beware of so-called kidney cures which are full of sediment and of bad odor—they are positively harmful and do not cure.

WARNER'S SAFE PILLS move the bowels gently and aid a speedy cure.

Told in the Twilight.

The taking away of Dr. Smythe, which came so unexpectedly on Saturday night, has laid a restraining hand on much of the social life of our small world, the interests of whose inhabitants, by very reason of its smallness, are bound much together. The grief, of his own family, is, in a measure, the grief of the whole town, for the strong, good, kindly man at rest. Here and there, on the street, in the office, in the home, men and women are recalling the little kindly actions, the small, outward tokens of inward goodwill, the unflinching honesty of purpose, which none thought of very much at the time—they were all part of the man, Dr. Smythe, the consistent churchman, who as touching the older law of Justice was blameless, because of his willing obedience to the fuller and higher law of Love.

In an article on the evolution of words in Harper's Magazine, Lewis Carroll's delightful invention, 'chortles' is brought up, and the writer remarks that probably the last thing that the gifted author expected was that the word should appear in the last edition of a big American dictionary, as a distinct addition to the language. Now why didn't the compilers include "frabjous," and "burbled,"—could anything be more delightfully expressive than 'burbled?'

A very interesting debate took place on Friday night in the Convocation Hall at Trinity College, which was still decorated with the Trinity Coat-of-Arms, and the colors. The debate was between the students of Wycliffe and Trinity. The question was: If government ownership would be in the best interests of the people of Canada." After clever and witty arguments, carried on most successfully between the two sides, Trinity won the affirmative amid a great deal of applause.

Among the many entertainments given on Friday afternoon in Toronto, the most charming was that given by the Misses Mackellar, in honor of a dear old lady, who had just reached her eighty third birthday. This was Mrs. James B. Strathy, formerly of London, with sons in Montreal, and many relations here. Mrs. Strathy in her sweet and graceful way, acknowledged all the good wishes for her future. She was in hand some black, with some beautiful rose point lace at the throat, her white hair and luminous black eyes making a wonderful contrast. Miss Louie Strathy assisted, in bisque crepe de chine, handsomely appliqued, and Miss MacKellar, in black. Tulips and jonquils were about the room, and many had a cosy chat round the glowing fire in the reception room. A few present were Dr. and Mrs. H. Baines, Mrs. Ernest Heaton, Miss Bella Dickson, Mrs. Charles Denison, the Misses MacKellar, the Misses Labatt (London), Mrs. Ireland, Mr. G. O'Neil, Ireland, Miss Amy Strathy, Mrs. Milligan, Mrs. P. Strathy, Mrs. Lee.—"Vogue."

Chop any left over meat fine, add salt and pepper and a well beaten egg. Form into balls, pour a little melted butter over each, and bake in the oven until brown. Serve with a tomato sauce.

Delicious dinner bonbons are made by chopping peanuts or almonds very fine, mixing them with the white of an egg, a little sugar and just enough sherry to flavor and pressing the paste into the cavity made by removing the stones from fresh prunes or dates. The fruit is then rolled in powdered sugar.

LETTERS TO THE EDITOR.

Some Interesting Notes From Boston Town.

Boston, Mass., Feb. 11.—(To the Editor): Boston is proverbially aesthetic and educated. It is said that a stone thrown along Beacon street would strike three poets, two philosophers and an artist. Fully 10,000 students attend the various colleges. Harvard University enrolls 3,500, and in its year book, President Eliot brings forward some interesting reading. Twenty eight per cent. of its graduates are unmarried, and those who are married have only reproduced themselves, that is, averaged two children. It is something to be a class baby. For the first baby born to any member of the class receives a solid silver or gold cradle, and is thereafter pointed out as the winner of the class cradle. This low birthrate is true of all educated families here, and were it not for the children of the foreign born (who have large families) our population would decrease. We have heard it predicted that in two generations more the Puritan stock will be extinct in New England.

The Massachusetts Institute of Technology, which has 1,700 students, has decided to move to a new location in Brookline, where it can have more room. Its present quarters are too confined, and the land alone is worth over three millions. The money thus derived from the sale would give a fine equipment.

Brimestone corner, the site of the Park Street Congregational church, has been sold for a million and a quarter dollars, and one and three-quarter millions have been refused for St. John's Episcopal church. Both of these offers were made with a view of erecting business blocks thereon.

A few of our schools have flower gardens for the instruction of the children. The Public Garden, forty-three acres, in the heart of the city, with its succession of various kinds of flowers throughout the season, is one of our show places. Superintendent Doogue already has several thousand pine apple plants growing in the city greenhouses. These will be transplanted the latter part of next July in the garden, so that the fruit will mature in August; thus the children will learn all about the pineapple. Some day some of these children may take to raising pineapples in Cuba or the Philippines.

Trinity church has now a fine surpliced choir in the chancel, being quite a change from the old quartette in the loft, as in the days of Phillips Brooks.

The Salvation Army is about to build a people's palace, where deserving people will be cared for at a minimum cost. Two bequests of $21,000 have formed a nucleus. The plan has been endorsed by some of our foremost citizens, and it is thought that the necessary amount, some $200,000, will be raised in a short time. The army is doing good work here, and last Thanksgiving and Christmas it provided twenty thousand poor with meals and other necessaries.

When the Dominion line steamer, Commonwealth, arrived in port on her last trip from Alexandria, Naples and Gibraltar, thirty-seven Italians were found stowed away in a watertight compartment. This is believed to be one of the largest stowaways ever carried by a single vessel. The crew are suspected of knowledge of their being aboard, and investigation is going to be made.

G. O. Perry, the colored man, accused of being "Jack the Slugger," in the Middlesex House of Correction Hospital at the point of death, whilst the government's witnesses are being examined in the case against him by the grand jury.

Secretary Wilson, having been notified of the outbreak of the foot and mouth disease in the region below the city, has issued orders directing strict examination of all herds in the section complained of; also that examiners, after such examination, shall make a change of clothing, and take other precautionary measures before examining another herd.—EDWIN PARKER.

O ARGUMENT NEEDED.

Sufferer From Catarrh nows That Salves, Lotions, ashes, Sprays and Douches Not Cure.

ers, lotions, salves, sprays and s cannot really cure catarrh. this disease is a blood disease cal applications, if they accomp anything at all, simply give nt relief.

catarrhal poison is in the blood he mucous membrane of the throat and trachea tries to re the system by secreting large ies of mucous, the discharge nes closing up the nostrils, ng into the throat, causing ss by closing the Eustachian and after a time causing h of stomach or serious throat ng troubles.

emedy to really cure catarrh be an internal remedy which will the blood from catarrhal poison d remove the fever and congestom the mucous membrane.

best and most modern remedies s purpose are antiseptics scienly known as red gum, blood nd hydrastin, and while each of have been successfully used sely, yet it has been difficult to them all combined in one palaconvenient and efficient form.

manufacturers of the new cure, Stuart's Catarrh Tablets, succeeded admirably in accomp this result. They are large, nt tasting lozenges, to be dissolved in the mouth, thus reaching part of the mucous membrane throat and finally the stomach.

ke many catarrh remedies, Stu Catarrh Tablets contain no co opiate or any injurious drug ver and are equally beneficial for children and adults.
