A year ago last spring I began to have heart failure. At first I would have to stop working and lie down for a while. Then I got so bad I had to give up altogether and go to bed. I had several doctors attend me but they did me no good. I could get no relief until urged by a friend to try Milburn's Heart and Nerve Pills. Before I had used three quarters of a box I began to feel the benefit and by the time I had taken three boxes I was completely cured."

AT LEGISLATURE

DOMINION LAW APPLICABLE TO COMMISSIONS

A Surprise for the Opposition — An Amendment Presented by Mr. Foy—The Liberals Are United.

Special to the Whig.

Toronto, March 25.—The linked sweetness of debate long drawn out was resumed to-day with creditable fluency by Mr. Duff, of Simcoe, who reviewed the case in unusually temperate spirit for an old member and uncompromising party man. He wound up a speech of forty minutes by quotations from the alleged independent press, notably the News, of Toronto, owned by a leading conservative, and upon their biased and personally-prejudiced and personally-vengeful conclusions, in advance of sworn evidence and cross-examination, called on the government to resign or appeal to the country for a verdict.

Mr. Foy, of affectionate Blake memory, followed, since the government is giving the opposition all the glory of repetition it desires. In quiet but impressive manner, disavowing personalities, he reviewed the difference between the parties in this matter of reference. He first appealed for a change of mind in members if not in the government; then assailed the weakness of the commission in matters of evidence. On this point he interrogated Attorney-General Gibson, who cut short discussion on that point by declaring that, under a law passed in 1901, the Dominion law of evidence was made applicable to parliamentary commissions in this province, and that the judges would have fullest of powers for compelling witnesses in the enquiry. This was news to the house generally, and especially to the opposition. Mr. Foy argued for full rights and privileges of members, solemnly committed to them by the lieutenant-governor. One of these rights was to guard their own integrity and try the case in hand. He declared that his leader's use of the words "packed tribunal" had been disavowed, and the expression "loaded dice" was only a reasonable comment upon a government which selected its own judges, and framed its own trial terms without consultation with the house. The opinion of liberals favoring a trial by a committee on privileges were marshalled up, showing how records can make up handsome cases for directly opposing sides. The house would finally be the determining body under a judge's enquiry, anyway; why not more immediately? Mr. Foy moved an amendment, specifically indicting Hon. Messrs. Ross, Gibson, Harcourt, Davis and Latchford, as well as the provincial secretary, and declaring for enquiry by a committee on privileges, with an extension of scope for investigation, and, of course, for speculative enquiry.

Mr. McKay, North Grey, began an energetic arraignment of the opposition course, but six o'clock and adjournment postponed his effort.

The galleries were filled again long before the hour for formal proceedings. Toronto is a hot-bed of lady politicians, judging by their persistent attendance. Mr. Hendrie, of Hamilton, reached his seat to-day and the preparedness of the opposition to meet the division was visibly increased. Messrs. Bridgeland and Richardson, liberal members, are still ill, but the former pluckily appears daily, and the latter will on call answer the division bill. The report in the Evening News of disagreement in the liberal caucus, appeared in type before the meeting was actually held. It was not only unprovoked by outside suspicions, but was far the opposite of truth. The followers of Mr. Ross were heartily united; the only expressions were too strenuous on his behalf for tactful politics.

The liberals scored to-day by the reproduction in the Globe of Goldwin Smith's opinion in 1873, in the greatest of bribery precedents, sustaining the attitude of the government in this case. As the distinguished constitutionalist has given an opinion the other way now, it is plain that great men should keep ready reference scrap books of their own speeches and writings and strike an approximate average of consistency.

Frequent comment is heard upon the newspaper declaration that member Gamey has been a local Methodist preacher. This report is generally disbelieved.

There is uncommon surprise over Dr. Beattie Nesbitt's speech on Friday. He has been for his energies and aggressiveness spoken of for Ontario leadership, and is credited with several efforts to reach either the House of Commons or the assembly by short cuts. And yet when his happiness arrived, and a crowning occasion is reached, he suffers from lack of confidence. Then, aroused by liberal shafts, he launches into such violent denunciation that his discretion, as well as his powers, will need repairs in the way of credit.

Current reports reflect an almost settled understanding that in Ontario the redistribution will take the form of returning to county boundaries. In view of changes in population Frontenac county is sure to be one riding from front to back, and thus Messrs. Avery and Calvin will be legislated into the one constituency, with fateful results to one or the other.

SPRING AILMENTS.

The Blood Needs Attention at This Season—Purgatives Should be Avoided.

Spring is the season when your system needs toning up. In the spring you must have new blood, just as the trees must have new sap. With new blood you will feel sprightly, happy and healthy. Many people take purgatives in spring, but this is a serious mistake, as the tendency of all purgatives is to further weaken system. The one and only sure way to get new blood and new strength is to take Dr. Williams' Pink Pills. They actually make new, rich, red blood — they are the greatest spring tonic in the world. Dr. Williams' Pink Pills speedily banish all spring ailments. Miss Belle Cohoon, White Rock Mills, N.S., says: "I have found Dr. Williams' Pink Pills a splendid spring medicine. I was very much run down, the least exertion exhausted me, and I had a constant feeling of languor and sluggishness. My appetite failed me and my sleep at night was disturbed and restless. After I began the use of Dr. Williams' Pink Pills, there was a speedy change for the better, and after taking a few boxes, I felt stronger than I had done for years."

You can get Dr. Williams' Pink Pills from any dealer in medicine, or by mail post paid, at 50 cents a box, or six boxes for $2.50, by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont. Do not let any dealer persuade you to take a substitute. Substitutes never cured anyone — the genuine pills have cured hundreds of thousands in all parts of the world.

Dizzy Spells AND Aching Head

Tell of Shrivelled Arteries and Exhausted Nerves — They Warn You of Approaching Paralysis or Collapse.

DR. CHASE'S NERVE FOOD.

The sufferer from nervous headache and dizzy spells never knows what minute he may fall helplessly a victim of vertigo or paralysis, for these symptoms tell of depleted nerve cells and a wasting of vigor and vitality.

Other indications of nervous exhaustion are troubles of sight, noises in the ears, sparks before the eyes, stomach troubles, sleeplessness, cold hands and feet, restlessness, irritability, weakened memory, lack of energy and enthusiasm, muscular weakness, fainting spells, bodily pains and aches, and tired, languid and despondent feelings.

Nervous diseases are most dreadful to contemplate, because of the frequency with which they end in paralysis, locomotor ataxia, epilepsy insanity. All movement of the body or its members is controlled by the nerves, and hence it follows that paralysis of some form is the natural consequence of exhausted and depleted nerves.

Dr. Chase's Nerve Food cures dizzy spells, headache and all symptoms of nervous exhaustion by actually increasing the quantity and quality of the blood and creating new nerve force.

MRS. CORKEY, 272 Wellington Street, Kingston, Ont., States:

Mrs. Corkey.

"I suffered a great deal with nervous headache. In fact, I was so bad that at times I took weak, dizzy spells, and my nervous system seemed quite undermined and exhausted. Some time ago I heard of the good results accomplished by Dr. Chase's Nerve Food and began to use it. Since I have been taking this medicine a great change has come over me, the headaches have disappeared, my nerves have been strengthened and I do not have any more of the dizzy spells. I have nothing to thank but Dr. Chase's Nerve Food for this change."

Dr. Chase's Nerve Food, 50 cents a box, 6 boxes for $2.50, at all dealers, or Edmanson, Bates & Co., Toronto.

Salesladys' Backache.

There is many a young woman serving behind a counter who can hardly stand on her feet on account of the excruciating pain that catches her in the small of the back.

Must be cheerful and obliging, though the back be ready to break, the head almost bursting and the whole body racked and worn.

Constant standing affects the kidneys, disturbs their blood filtering functions, then the back aches, the head throbs and you feel unfit for work or pleasure.

It is wonderful in these cases how a few boxes of Dr. Pitcher's Backache Kidney Tablets start the kidneys acting properly—they carry off the poisons from the blood, then the back ceases to pain, the head stops aching, and you feel yourself an altogether different woman.

SURPRISING BENEFIT.

Miss Lizzie Nix, whose address is 332 Adelaide Street West, Toronto, Ont., says: "When I commenced to use Dr. Pitcher's Backache Kidney Tablets I was tired of doctoring, for my troubles were severe and of several months' duration, and every previous treatment I took proved unavailing. I had a weak back and kidney trouble, and was nervous and run-down. At first I was skeptical about obtaining any benefit from Dr. Pitcher's Tablets. To say that I was surprised at the results that followed their use is putting it mildly. I was astonished, for from the first few doses I commenced to improve, and to-day finds me a well woman. Every trouble has disappeared, and with my general improvement in strength and weight I consider myself in sound health."

Outlook In United States.

Mr. Kellogg, financial critic of the New York Sun, writes:

"Consumption in our country is still greater than production, at least in the greater majority of lines of business there is hardly a shadow upon the business horizon. The outlook in the agricultural section is most promising, the winter crop having passed the traditionally trying month in safety thus far, while, although the Mississippi Valley has been flooded, the flood has not yet interfered with the planting of cotton, and will, if all previous experience holds, result in a large cotton crop in the coming season. Proposed buildings in New York and Chicago are a little less than they were last year, but are greater elsewhere. So far as the demands for products and manufactures goes it is still unimpaired and magnificent. High prices for staples are utilizing much money. Out of the city another difficulty is congestion of railway traffic. Farmers anxious to sell their products have not been able to ship them. Railway facilities have broken down under the vast amount of business they have had to conduct, and cars, engines and trackage space are lacking. Corn in particular has had to be stored in tremendous volumes, while there is absolutely nothing on which to predicate a belief of a fall in the prices of securities, and while there may be vigorous rallies in the prices and decided upward movements in particular stocks, owing to special causes, it must be a matter of doubt if any great boom can be considered probable until the money difficulty has disappeared. It is a very gratifying fact that our exports of manufactures have commenced to increase, and for the last month of which record has been made our exports of raw material, corn and cotton particularly have added largely to our foreign trade balance."

What Grand Vizier Says.

Vienna, March 25.—The Algemeine Zeitung reports that in an interview with Herr Klofac, a Czech deputy, Ferid Pasha, the Turkish grand vizier said: "All the world assails us. Reproof and criticism hurt and irritate our people, but we contain our emotion. We also keep the Albanians calm. They are equally irritated. We sincerely wish for peace, but we will decidedly defend the frontier. Only in case of invasion would we war with Roumania."

Mrs. Sheehan, of Douro, 107 years old, passed away on Monday at 1 p.m. She landed in Douro from Mitchellstown, Cork, seventy-eight years ago. She was never ill during her long life, and to the end her mind was perfectly clear.
