TO WORKING GIRLS

FREE MEDICAL ADVICE

Every working girl who is not well is cordially invited to write to Mrs. Pinkham, Lynn, Mass., for advice; it is freely given, and has restored thousands to health.

Miss Paine's Experience.

"I want to thank you for what you have done for me, and recommend **Lydia E. Pinkham's Vegetable Compound** to all girls whose work keeps them standing on their feet in the store. The doctor said I must stop work; he did not seem to realize that a girl cannot afford to stop working. My back ached, my appetite was poor, I could not sleep, and menstruation was scanty and very painful. One day when suffering I commenced to take **Lydia E. Pinkham's Vegetable Compound,** and found that it helped me. I continued its use, and soon found that my menstrual periods were free from pain and natural; everyone is surprised at the change in me, and I am well, and cannot be too grateful for what you have done for me."—MISS JANET PAINE, 536 West 135th St., New York City.—*$5000 forfeit if original of above letter proving genuineness cannot be produced.*

Take no substitute, for it is Lydia E. Pinkham's Vegetable Compound that cures.

MIDSUMMER WEDDING.

A Pretty Ceremony On Wednesday Last.

A quiet, but pretty wedding ceremony, took place on Wednesday morning at ten o'clock, at the residence of Mr. and Mrs. Henderson, Bagot street, when their daughter, Edna, was united in marriage to Hicks Hawkins, druggist, of San Jose, Costa Rica, C.A. Rev. J. Mackie officiated. The bride wore white silk, with veil, and orange blossoms, and carried a shower bouquet of white roses. The bridesmaid, Miss Vena Henderson, sister of the bride, was gowned in a pale blue taffeta frock, with white hat, and carried pink roses.

The groomsman was John Bunt, of this city. The couple left on the noon train for a western trip, after which they will sail from New York for their future home in Central America.

Married At Buffalo.

Miss Naomi Wagar, of Tamworth, left on Tuesday last for Buffalo, where she was united in marriage the following day to Harvey Wheeler, formerly of Tamworth. Miss Wagar's departure is regretted, as she was a great favorite, as was testified in many pretty and useful gifts friends gave her. Among other things the Epworth League gave her a handsome bordered tablecloth and one dozen napkins. She was an earnest and faithful church worker.

Peaches And Plums.

Peaches in large and small baskets. Plums by the bushel. Crawford.

Rev. Edmond Corecht, head of the Trappist Monastry, Gethsemane, has left for Europe. It is thought he may bring some of the exiled orders from France to the United States.

FERROL IN SUMMER

Those who are prevented by want of time, or lack of means, or both, from going to the mountains or the seaside during the heated term, often feel the need of a concentrated and easily assimilated food to afford proper nourishment when ordinary food cloys the appetite and clogs the digestion.

To combat the depressing and enervating effects of hard work in hot weather there is nothing like FERROL. Do not imagine that, because FERROL contains Cod Liver Oil, it is therefore unsuited for summer use. Nothing could be more erroneous. FERROL is a food quite as much as medicine; it is moreover, a highly concentrated food, and so scientifically prepared that it is almost ready for instant absorption. It therefore furnishes the most valuable nourishment without impairing the digestion in the slightest.

When the hot weather comes, and you become to feel languid, depressed and unfit for business, just try FERROL. You will find it pleasant to take, easy to digest, and absolutely infallible in its results.

Sample free; 75c. at all druggists, or from THE FERROL COMPANY, Limited, 126 King Street, West, Toronto.

AFTER ALLEN

THINK HE IS NOW ON CANADIAN SOIL.

Talking Of Amalgamating All The Commercial Travellers Of The Empire—Trap Shooting Results.

Toronto, Aug. 15.—Detective Morrisey, of the headquarters' staff of the Boston detective force, has arrived in Toronto in search of Williard S. Allen, the self-confessed embezzler of $10,000. It is stated by those close in touch with the search that Allen was here not ten days ago. At that time over half a dozen detectives, from different detective agencies in the States and Canada, were in the city. Morrissey has every confidence of landing his quarry.

A proposal for the federation of all the commercial travellers' associations of the British empire was laid before the executive of the Commercial Travellers' Association of Canada, yesterday, by J. Flockart, of Sydney, N.S.W. The proposal met with pretty general approval from the meeting, and, although no definite line of action was decided upon, it is understood that it will not be allowed to rest.

The trap shooters had another ideal day for the third day of their tournament at Woodbine. Additional competitors participated, bringing the total number, so far, up to one hundred and forty-four. The record is the Kansas City tournament with one hundred and seventy-two. Westbrook, with 162 targets, was the highest scorer of the day, and is winner of the magnificent trophy presented by the Toronto Silver Plate company, limited. Messrs. Elliott, Bray and Fletcher were next, each with 155 points; H. D. Bates followed with 154 points.

A FINE RECEPTION.

Accorded To The Delegates At Sarnia.

The delegates from Hugh De Payens Preceptory, No. 1, of this city, have returned from Sarnia and state that the reception given the order by the citizens exceeded anything of the kind in the history of the order in Canada. Delegates from every province of the dominion were present, many being accompanied by their ladies. The trip on the River St. Clair and Lake Huron was thoroughly enjoyed, two steamers being chartered for the occasion, the whistles along both sides of the river, belonging to the many factories, keeping up a chorus of incessant screams or cheers in honor of the guests.

Procession of uniformed Knights Templar extended about half a mile and was accompanied by four bands, the renowned 13th, of Hamilton, Brockville and Sarnia brass bands and the pipers of London, while the citizens, of Port Huron and Sarnia, who had their houses beautifully decorated, crowded the streets. A singular feature of the procession was the employees of the Cleveland Lumber company, numbering over three hundred, lined in front of the works each man with a lathe for a sword.

The Kingston contingent, Dr. A. W. Richardson, W. S. R. Murtch and A. Shaw are loud in praises of their fellow citizen, Harry F. Mooers, in charge of the building of the elevator, who entertained them in his quarters, looking after their comfort at a time when the town was crowded to its utmost capacity. Kingston boys are loyal to each other all the world over.

Wise Old Farmer.

Scottish American.

The story of the old farmer who was once invited to take tea with a former duke and duchess of Buccleuch is still remembered at Drumlanrig castle, on the Dumfriesshire estate of the duke. His first cup of tea was gone almost before the duchess had finished pouring it out, and John passed his cup again. Again and again and still again the cup was passed to the head of the table, when the duchess, alarmed at the sixteenth cup, asked: "How many cups do you take, John?" The old farmer was wise in his day. "How mony do ye gie?" he asked.

What To Go Short On.

James Stillman, president of the National City bank, is a man of few words, but he makes those few count. A famous tip that he is said to have given a friend two months ago has leaked out in Wall street.

The friend in question wrote to him asking for advice concerning the market. He has $500,000, and wanted to make it a million. Here is the reply of Mr. Stillman, written in lead pencil on a sheet of paper three by four: "Polo ponies, steam yachts, and Newport villas are the best short sales in the world."

Before The Cadi.

At the police court this morning four citizens, T. James, J. Joyce, W. Granlund, and R. Moore were charged with an infraction of the by-law regulating the carriage of swill barrels through the city, in having neglected to have them covered. The four were fined $1 and costs each.

William Waitt was refused admittance to the House of Providence, so at his request, he was sent to Perth where he has relatives residing. He is an imperial army pensioner, an ex-sergeant of the British army.

Captured Runaway Kite.

Some campers at Rocky Point, on Sibbitt's farm, yesterday captured a runaway kite. It came sailing across the blue waters of the St. Lawrence during the afternoon, having evidently broken away from some Wolfe Island boy. The stick used for rolling the twine on trailed through the water, and in crossing the Specs, just east of Milton Island, this stick caught in some bushes, where the Rocky Point campers released it and took possession of the kite.

A visitor who had been here since August 1st and had not seen the harbor still was gratified this morning by a beautiful calm, a picture lovely to everyone but local yachtsmen, in view of the regatta on hand. Nature, in their opinion, is perverse.

D. M. McIntyre, city solicitor, attending the convention of representatives of Ontario municipalities at Guelph, returned home this morning. He was elected a member of the executive committee.

WATER SPORTS.

An Auspicious Time At Sharbot Lake.

The water sports and picnic at Sharbot Lake, on Wednesday last, under the management of a committee of the English church, were well patronized. The weather in the morning was not altogether auspicious but the day turned out fine, if a little chilly. A large number of people assembled, and village was crowded. About five hundred people partook of the excellent repast provided by members of the congregation and their friends. The arrangements were successfully carried out, and the workers can fairly be congratulated on the excellent results which their efforts produced.

In the afternoon a game of baseball was played between the home team and Clyde Forks, which resulted in a victory for the former by sixteen to six.

At the water sports, the following events were competed for, and suitable prizes awarded:

Canoe race—Louis Sharbot; F. Avery.

Single skiff race—J. Hawley, H. Thomson.

Junior canoe race—Willis Roberts, Bert Geraldi.

Double canoe race—Louis Sharbot, and Thomas Sharbot, Fred. Avery and W. Roberts.

Sailing race—F. Avery.

Crab race—Louis Sharbot Frank Beaver.

Log race—Frank Beaver, L. Sharbot.

Walking greasy pole.—J. Hawley, B. Buell.

Boys swimming race—F. Flynn, J. Offord.

For the ladies' boat race and tub race there were no entries, probably on account of the chilly wind.

Sharbot Lake with its bright waters and others attractions offers unequalled advantages as far as inland waters are concerned, for sports and outings of this kind, and it is intended that a day such as last Wednesday shall be arranged for every year.

The Tramp Danger.

Montreal Star.

The statement comes from the Kingston penitentiary that an unusual number of tramps are being sent there by the magistrates of Ontario who are especially severe on the wandering fraternity since the terrible Glory Whalen affair.

But the news of such severity will travel faster than convictions. The tramps will know what is going on and will not wait to be sent to Kingston. Some of them may come to Quebec

Quebec will not want Ontario's share of these dangerous gentry dumped into our country and suburban roads. We will not wait for the murder of a Glory Whelan to take alarm.

There is only one way to prevent it. Quebec must be just as undesirable a place for a tramps' hunting ground as is Ontario. We ought to combine to make the name of Canada feared among this class which has ceased to be a joke and has become a menace.

Death Of A Clergyman.

Rev. A. M. Delong, Methodist, Gananoque East, aged fifty-eight years, died on Friday in the general hospital, here, whither he was brought suffering from appendicitis. He was a quiet, devoted man and active in all good works. He entered the ministry in 1872 and spent all his years in the Montreal conference. He is survived by a wife and five children. One of his sons is a student at Queen's Medical College. Deceased was thought to be of a sturdy, rugged constitution. In his ministerial work in the eastern townships and along the Ottawa Valley he made warm friends who will deeply sympathize with the afflicted family. Two years ago his brother Frank, also a Methodist clergyman, was stricken and died in an Ottawa hospital. During the late conference Mr. Delong was cheerful and happy and a pleasant guest at the home of J. G. Elliott, University avenue.

Hard On The Babies.

One of the first effects of a hot wave, particularly in towns and cities, is a pronounced increase in the number of deaths of infants. Even in the open country the suffering of the helpless little ones would move the hardest heart. Stomach trouble and diarrhoea are the foes most to be dreaded at this time and every mother should appreciate the necessity of careful diet and attention at the first sign of these troubles. Medicine should never be given to check diarrhoea except upon the advice of a physician. A diet limited almost entirely to boiled milk and the use of Baby's Own Tablets will cure almost any case and keep baby in health. Mrs. W. H. Bassam, of Kingston, Ont., writes:

"When my little girl was about three months old she suffered with vomiting and had diarrhoea constantly. I did not find any medicine that helped her until we began giving her Baby's Own Tablets. After giving her the Tablets the vomiting and diarrhoea ceased and she began to improve almost at once. Since then whenever her stomach is out of order or she is constipated we give her the Tablets, and the result is always all that we desire. They are the very best medicine I have ever used for a child."

Baby's Own Tablets are sold by all dealers in medicine or will be sent postpaid at twenty-five cents a box by the Dr. Williams' Medicine company, Brockville, Ont.

Kidney-Wort Tablets

CONTAIN NO ALCOHOL OR IRRITANTS.

They Rapidly Cure All Forms of Kidney and Urinary Diseases

As the kidneys are intimately connected with the nervous system and brain, the first symptoms of the dreaded disease are often sufficient to cause irritableness, disturbed sleep and general unrest.

Painful urination, nausea, vomiting, vertigo, torpid liver and constipation, are some of the minor warnings of deadly kidney ailments.

When you note such symptoms, do not treat them with indifference; do as thousands of others are doing, use Dr. Pettingill's Kidney Wort Tablets, and commence to build up the diseased tissues, that are now passing away cell by cell in the urine.

Be warned about the use of liquid medicines; they are largely composed of deadly alcohol and other irritants, which hasten the destruction of the kidneys.

Do not wait another hour; loss of time means increased suffering and danger. Go to your druggist and procure a 50c. bottle of Kidney-Wort Tablets. One bottle warranted to relieve and improve, three to six bottles guaranteed to cure any case of kidney disease, or money returned in case of no cure.
