Superintendent Public Works
Of Lexington, Ky., Says:
"Peruna is an Excellent Medicine."

J. H. HIPPLEGATE.

J. H. Hipplegate, Supt. of Public Works, 61 West 6th St., Lexington, Ky., writes:

"I find that Peruna is an excellent medicine especially for catarrhal affections and all diseases leading to consumption, bronchial troubles or stomach troubles. It also acts as a preventative and keeps the system in a healthy condition so that it easily throws off disease. It is an excellent tonic and a great appetizer and as a large number of those who have been using it speak very highly of its curative powers, I am satisfied that my opinion of it is correct, and that it is deserving of high praise."
—J. H. Hipplegate.

Peruna is the remedy for catarrh. Almost everybody knows that by hearsay and thousands know it by experience. Catarrh in its various forms is rapidly becoming a national curse. An undoubted remedy has been discovered by Dr. Hartman. This remedy has been thoroughly tested during the past forty years. Peruna cures catarrh in all phases and stages. There is no remedy that can be substituted.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

PLACING THE BLAME.

For The Escape Of The Steamer Tuttle.

Special to the Whig.

Amherstburg, Aug. 17.—The Canadian customs officers are disposed to place the blame of the escape of the steamer H. B. Tuttle on the tug Home Rule, which released the vessel from Boise Blanc Island where she ran aground after being seized by the customs officers. Dr. Smith, collector of customs, at Windsor, has reported the circumstances to the department at Ottawa and is now awaiting instructions as to the manner of procedure. Capt. Trotter, of the Hackett Wrecking company, disclaims all responsibility for the escaped steamer. His company had no official notice, he says, that the vessel had been seized.

To Cut Our Ward Foreman.

Special to the Whig.

Toronto, Aug. 17.—The city has decided to abandon the system of ward foremen for street cleaning owing to the extension of cement sidewalk. The work will be more economically done from the eastern and western wards under the direction of the foremen of these districts.

The czar, as a token of thanksgiving for the birth of a son, will abolish the use of the knout in the prisons.

Todd, Lyon Falls. A party of guests of the Lake House at Brantingham, went to Dolgeville, on a fishing trip, taking with them a twenty-two calibre rifle. When the party reached Dolgeville, they left the conveyance at the home of Mr. Hubbard and walked up a nearby stream to fish. The Crop-Killer.

Toronto Star.

There are liars who are skilful, and liars who are gay,
There are liars who are wilful and those who lie for pay.
There is the war news liar, whose home is in Shanghai,
His work is of the very best, he tells a handsome lie.
Of course he has a rival, a gifted liar, too,
We mean the cable liar in the city of Chefoo;
Sure, there are lots of others, too, you meet them every day,
Who lie for business or for fun to pass the time away:
But you'll agree with us, we think, the one who has 'em beat
Is the fine and lovely liar who is just now bulling wheat.

The report of the special committee of the Canadian Amateur Athletic Union, dealing with the Capital Lacrosse Club, is ready. President Ayling and Harry Trihey, two of the members of the committee, went over it yesterday. It is very lengthy and simply condemns the capital club, which is handled in no manner with gloves. The entire history of the trouble is gone over in the report, which was compiled after suggestions had also been heard from Herbert Molson, the third member of the committee, who is absent from town. The report will be submitted to the C.A.A.U. council.

DRAG VICTIMS TWO MILES.

Murderers Of The Family Confess Crime.

Statesboro, Ga., Aug. 17.—With clothing saturated with kerosene, writhing and twisting in their agony, screaming to heaven for the mercy that the mob would not show, Paul Reed and Will Cato, negroes, two of the principals in the murder and burning of Henry Hodget and wife and three children, six miles from Statesboro, three weeks ago, were burned at the stake yesterday.

At 1.21 o'clock a determined mob charged on the court house, overpowered the military guard, secured Cato and Reed, who had been found guilty after a legal trial and sentenced to be hanged, took them two miles from Statesboro and there burned them alive.

The two negroes were forced to seat themselves on a log. They were told they had but a short time to live and that they should confess. Reed complied, implicating other negroes, as he had in the court room. He denied, however, that he had taken an active part in the murder.

Cato begged to be shot or hanged, saying he was innocent; that he had had no part in the crime. When the match was applied to the fire, Reed was asked to tell the truth before he died.

"Yes, I killed Mr. and Mrs. Hodges," he replied.

"Who killed the children?" he was asked.

"Handy Bell," came the response as the flames leaped upwards.

The spectacle was frightful.

Another Negro Burned.

Savannah, Ga., Aug. 17.—Handy Bell, another negro implicated in the Hodges murder, is reported to have been burned, near Statesboro, by a mob last night.

A WHARF BLOCKADE.

Something Should Be Done To Protect Passengers.

Yesterday afternoon when the two large steamers Toronto and Caspian arrived at Swift's wharf, from their river trips and began discharging their Kingston passengers, the whole space on Johnson street from Ontario street to these boats was found to be completely blocked, so that pedestrians could not get across the railway track to the street or wharf, so numerous and thick were the cabmen and carters congregated in that section. A freight train at the same time filled the entire space on the track stretching between the G.T.R. freight storehouse and Swift's big coal shed. All this caused great excitement, annoyance, anxiety, uneasiness and alarm, owing to the existing danger of injury which the crowd of men, women and children on foot were subjected to, so dense was the jam of cabs, carts and horses, all of these struggling and pushing to get through, and at the same time jostling every one who was near them, regardless of who might get hurt. One half of the drivers there, wanting to get on to the wharf, did not have sense or patience enough to wait for those who were already there, and striving to get out of the way, but could not owing to their egress being blocked by the stubborn fellows who were determined to go the other way. All this time, which lasted for several minutes, the freight train continuing on the track, causing a complete stoppage of traffic of all kinds. Vigilant steps should be taken to prevent a recurrence of this dangerous state of things. Whose duty is it to prevent it? No one was present who could be appealed to to intervene, to check or put a stop to the cause of the danger and consequent excitement which existed during that uncomfortable ten minutes.
