Seven Sutherland Sisters' Hair Grower
GREW THIS HAIR

Nelles Corners, Ont., April 16th, 1904.
Seven Sutherland Sisters, Toronto:—
Dear Ladies,—I had dandruff and falling hair and through a friend I was persuaded to try your Hair Grower and Hair and Scalp Cleaner. I have used it since last November and immediately found relief, as the Scalp Cleaner removed all the dandruff and together with your Hair Grower, my hair has grown rapidly and it now measures about four feet in length. I have had my photograph taken for you showing my hair and give you the right to use it, also my letter.
Yours respectfully,
MRS. E. BOND.

VACCINATION AND DANDRUFF.

There is as Sure Prevention of Baldness as There is of Smallpox,

It is now accepted that vaccination renders the vaccinated person exempt from smallpox; or at worst, he never has anything but the lightest kind of a case. Now as sure a preventive and cure for dandruff, which causes falling hair and baldness, has been discovered—Newbro's Herpicide. It kills the dandruff germ. C. H. Reed, Victor, Idaho, says: "Myself and wife have been troubled with dandruff and falling hair for several years. We tried remedies without effect until we used Newbro's Herpicide, two bottles of which cured us." Hundreds of similar testimonials. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. G. W. Mahood, special agent.

Value Of Trained Chinese.

Two Chinese graduates of St. Luke's missionary medical training school, Shanghai, have been employed by the syndicate which is sending Chinese laborers into the Transvaal. They are to receive $1,500 a year, double the amount given an unmarried American missionary physician in China in the first years of service. Another evidence of the value placed upon the mission-trained Christian Chinaman is the offer of a large American corporation of a position at $1,800 a year to a young Chinese, a teacher in St. John's mission college, Shanghai, receiving about one-third of that amount. He declined the offer and continues his work at the college on behalf of his own people.

ARE MAKING READY.

TOGO'S MAIN SQUADRON TO GATHER AT FORMOSA.

British Men o' Warsmen at Hong Kong Are Held in Readiness to Sail on Short Notice—Britain's Note to France.

Manila, April 22.—Narata Goro, the Japanese consul here, has received a telegram announcing that Admiral Togo's main squadron will assemble south of Formosa.

Ready For Quick Work.

London, April 22.—A special despatch from Hong Kong says all short leave of the crews of the British warships has been stopped, and the dockyard employees on their Easter leave of absence have been recalled, so that the ships can be made ready for sea at the earliest possible moment.

Preparing To Patch Up.

St. Petersburg, April 22.—Private despatches say the Russian armored cruisers Rossia and Gromoboi and the protected cruiser Bogatyr are cruising outside of Vladivostok, ready to make a diversion in favor of Admiral Rojestvensky at an opportune moment.

The admiralty has sent an immense amount of material for repairing ships to Vladivostok, and is now sending many dockyard laborers and mechanics there to take part in the work of refitting Admiral Rojestvensky's vessels in case he achieves a victory.

Over 600 men left St. Petersburg for Vladivostok by special train last night. A big crowd saw them depart, and great enthusiasm was manifested.

Britain's Note.

London, April 22.—The Pall Mall Gazette announced, in a despatch from Paris, that Sir F. L. Bertie (the British ambassador to France) had presented Foreign Minister Delcasse with a note from the British government courteously supporting the representations of Japan in regard to the stay of the Russian squadron at Kamranh Bay.

Was Breach Committed?

St. Petersburg, April 22.—Both the admiralty and the foreign office affirm that they have no precise information as to whether Admiral Rojestvensky has violated French neutrality at Kamranh Bay.

Nevertheless, the Russian authorities manifest the most sincere desire to relieve the ally of Russia of all possible embarrassment should it turn out that Rojestvensky has entered and remained in French territorial waters, and despatches were forwarded to the admiral last night impressing him with the necessity of strict observance of France's neutrality.

No reply is expected from Vice-Admiral Rojestvensky for several days relative to the instructions to him to respect the neutrality of French waters. Admiral Wirenius stated, last night, that Rojestvensky's telegram announcing his arrival at Kamranh Bay took four days in transmission. Admiral Wirenius added that he had no news of the present whereabouts of Rojestvensky, but that he believed he had left Kamranh Bay.

Expected At Manila.

Manila, April 22.—It is reported that the Japanese consul here has received a cablegram addressed to Vice-Admiral Kamimura. It is inferred from this that Vice-Admiral Kamimura is about to make a call at this port.

To Honor War Heroes.

St. Petersburg, April 22.—The commission, headed by Grand Duke Alexander Michaelovitch (director-general of the mercantile marine and of ports), which has already raised $5,000,000 by public contributions for the navy, has announced its programme.

The vessels to be built are as follows: Three cruisers of the Bayan type, four gunboats of the Giliak type, ten river gunboats of 1800 tons, several torpedo cruisers of 570 tons, one mine transport of the type of the Yanisen, thirty-one torpedo boat destroyers, torpedo boats and submarine, two of 297 and twenty-nine of 350 tons, and ten coast defence vessels.

The names of several ships destroyed at Port Arthur, like the Bayan and Pallada, will be repeated and a number of the ships will be named after deceased officers who distinguished themselves by individual exploits at Port Arthur, mostly upon torpedo boats, early in the war. One of the cruisers will be named Admiral Makaroff.

The council of the empire, to-day, promulgated the first law providing for an increase in taxation for war purposes. It includes an increase in the tax on matches, petroleum, etc., and a graduated tax on the salaries of officials. The total produce is estimated at $11,000,000. The law goes into force May 1st.

Judge Scores Jury.

River Head, L.I., April 24.—A jury in the New York state court which had acquitted Frank Chanowski of the murder of Mitchell Blanco was told by Judge M. Smith that its verdict was about the worst miscarriage of justice he had ever known. He added: "It is simply a notice to the people of the state of New York that a murder can be committed in Suffolk county without redress. It is a disgrace to Suffolk county. You may go." The jury was out eight hours and was at first evenly divided for conviction or acquittal. One of the witnesses testified that she saw Chanowski commit the murder and others had seen the men together on the day of the murder near where the body of Blanco was found. The defense was an alibi. Chanowski was set free.

The Mooseiaw, N.W.T., rink was burned on Saturday, entailing a loss of $6,500; partially insured.

The Renfrew beneficiaries of the estate of the late John A. McLaren, Perth, are at present receiving the moneys coming to them, from Police Magistrate Eady, to whom the distribution has been entrusted. Angus McNab and Hugh Cameron have already received theirs.

A Sunday school association has been formed in Carleton Place, of which N. M. Riddell is president, Mrs. Helen McEwen vice-president, and C. J. Taber, secretary-treasurer. The pastors and superintendents compose the committee. The object is to create a wider interest in Sabbath school work.

A new mineral is being mined a short distance east of Bancroft. The mineral is sodalite, a pretty colored rock used, when polished, in expensive buildings. The rock is in a regular mountain and can be quarried at very small cost. If it stands the test, a factory will be built for turning out the finished product.

Peter, the twenty-year-old son of John Belore, Stoco, had a narrow escape from drowning. He was upset from a canoe, but clung to the craft and was carried some distance down stream. He was too weak to grasp a line thrown to him by sectionmen working on the B. of Q. railway bridge, but was finally rescued by the men lassoing him.

Mrs. Harry Diamond, near Queensboro, died suddenly about March 1st last. Since that time rumors have been afloat which led to the holding of an inquest before Coroner Sutton. The body was exhumed, and the contents of the stomach were sent to Toronto for analysis. Dr. Croft, of Queensboro, who attended the unfortunate victim, testified that he was satisfied that death was the result of poisoning by strychnine. The inquest was adjourned until May 10th.

OFF FOR PHILIPPINES.

The 9th Infantry Force Leaves Sackets Harbor.

The 9th United States Infantry left Madison Barracks, Sunday afternoon, for a period of probably three years' service in the Philippines. The regiment has been at Madison Barracks for about thirteen years, excepting the time it was absent on active service in Cuba, the Philippines and China, and both officers and men have many warm friends at Sacket's Harbor who are sorry they are to leave. In all probability the 9th will never return to the historic old post that for years has been its home.

Most of the officers will take with them only the household furnishings that are absolutely indispensable, placing the balance of their effects in storage in St. Louis. The regiment's mammoth punch bowl, made from silver from the burned mint at Tien Tsin, has been sent to Rochester and placed in a safe deposit vault.

The majority of the married officers will be accompanied to the Philippines by their wives.

The 23rd United States Infantry will succeed the 9th Infantry at Madison Barracks. This regiment is now in the Philippines and will sail from Manila, May 15th, reaching Madison Barracks about June 25th. In the meantime the garrison at Madison Barracks will be composed of 125 short term men who were discharged from the 9th Infantry and transferred to the 23rd. Maj. H. M. Allair, of the 23rd Infantry is now at Madison Barracks and will be the post commandant there until his regiment arrives.

Upon its arrival in the Philippines the 9th Infantry will be assigned to three stations. Headquarters and the first battalion will be stationed at Camp Daraga, La Gaspi, in southeastern Luzon, and about 300 miles from Manila. The second battalion will be stationed at Lucena in southwestern Luzon, and the third battalion will be stationed at Los Banos, only about sixty miles from Manila.

HOCH'S WIVES.

Two More of Them Have Been Discovered.

Chicago, April 24.—Two more alleged wives of Johann Hoch have been discovered, according to letters received by the state's attorney. Both "wives" are in Baltimore. One of the letters purports to be from Mrs. Margaret Thomas, 659 West Baltimore street, and alleges that on April 27th, 1898, she married Hoch in Cincinnati, under the name of Henry Cych. The other letter is professedly from Mrs. Mary Vonkleucki, 418½ North High street, and declares that on July 2nd, 1898, she married Hoch in Baltimore, his supposed name being Schuttz.

Selection of a jury to try Hoch is proving a difficult task. Four of Hoch's "wives" occupied seats in court to-day, and listened with interest to the examination of the venire men.

SUICIDE IN CHURCH.

Marchioness Pallavicinia Had Tragic End.

Milan, April 24.—Marchioness of Pallavicinia, who was also an Austrian viscountess, who was only twenty-seven years old, shot herself with a revolver in the cathedral here, whil the place was crowded with worshippers. Everybody present was horrified by act. A priest hastened to the marchioness and found her speechless. He administered the last rites of the church and then had her removed to a hospital. She died on the way there. The cathedral being thus desecrated, was immediately closed, and it must be solemnly reconsecrated before service can be renewed. The suicide is ascribed to domestic unhappiness. The marchioness was living apart from her husband.

Dr. William Edwards Dying.

Kalamazoo, Mich., April 24.—Dr. William Edwards, superintendent of the Michigan Asylum for the Insane in this city, who has been for a month past suffering from chronic valvular disease of the heart, is reported to be dying. Dr. Edwards is one of the most prominent alienists in the United States.

The congregation of Roslin met in the Chosen Friends' hall to bid farewell to Rev. J. de Pencier Wright, and wish him success in his new field in Prince Edward county. He was presented with an address and well-filled purse.

THE KING'S ADVENTURE

Caught Cold While Having Game of Bridge.

When King Edward's recent indisposition was announced the usual rumors were spread that the real state of his health was being concealed, and that the old trouble which caused the postponement of the coronation had returned. King Edward is never allowed, in fact, to suffer from the little colds which most mortals are liable to catch without causing a mild panic outside of the palace. The cause of his majesty's last cold, if generally known, would have allayed any anxiety. And this is how he caught it:

As there were no foundation stones to lay or Victorian or other orders to hand out, the king yearned for a little fresh air and a quiet game of bridge, and sallied forth in his motor, with only an equerry and the driver, to a pretty spot in Surrey, where three of the court ladies much favored by royalty have "week-end cottages." To one of these the king paid a surprise visit.

The hostess, being quite unprepared, had not even lighted a fire in the little card room, but the king, who dislikes fuss of any kind, declared he was quite comfortable, and soon the little bridge party formed hastily by the hostess and her neighbors was in full swing. Suddenly there was an ominous crack in the ceiling and down came a flood of water on the king's dead. The pipes in the bathroom overhead had burst. His majesty was soaked, but instead of showing annoyance roared with laughter and remarked that it was a splendid way of being cooled when one's partner was playing a shocking bad game. The next day his majesty began to sneeze.

A Missionary Conference.

The triennial conference of the Protestant missionaries in Syria, Egypt and Asia Minor was held this year at Brumana, on the slopes of Lebanon, a beautiful site overlooking Beirut, at a height of 2,300 feet above the Mediterranean. The meetings were held soon after sunrise, and again as the day's decline moderated the heat of a Syrian midsummer. The missionaries represented fields from Damascus to the Soudan, and from Tyre to Tadmor in the wilderness. All leading Protestant denominations took part.

Perth curlers closed the season with a balance on hand of $18; the club numbers fifty-one. The ladies' cleared $125 by their carnival.

RADIANT WOMANHOOD!

The glory and satisfaction of beautiful womanhood can only be known to those possessing the unlimited advantage of health.

The weak woman can't be happy or enjoy half the pleasures of life. Pallid cheeks, sunken eyes, exhausted nerves all tell of a terrible struggle to keep up.

Nothing overworked women can take will benefit like FERROZONE, which renews, restores and vitalizes instantly; it's a WOMAN'S REMEDY, that's why

FERROZONE

MAKES WOMEN STRONG, PLUMP AND BEAUTIFUL.

FERROZONE contains abundance of nutriment, the kind that forms muscle, sinew, bone and nerve. It sends a vitalizing stream of new life through the weary body, making its strengthening influence felt at once.

Every FERROZONE Tablet means more strength, better appetite, delightful color, bright happy spirits—in short FERROZONE brings true womanly health, and that's worth striving for. Avoid substitutes.
