Linseed Oil

Is the life of Paint. When the oil departs the paint is dead. Dead Paint is lusterless, dry, chalky, coating has no protective qualities and scales and falls off. But the oil must be pure and nothing added to the paint to impair the oil and shorten its life. To add anything to the oil, some Alkali must be used, which is death to the paint. If you use

COMMERCIAL MATTERS.

What Is Going On In the Business World—The Markets.

A Montreal firm wishes to establish a factory at Haileybury for the manufacture of wooden and pulp articles.

There is no truth in the rumor that the Armours of Chicago have secured all the space for cattle on vessels sailing from Montreal this season.

A London despatch says that the directors of the Montreal Light, Heat & Power company have declared a dividend of four per cent. for the quarter ending April 30th.

A syndicate of Montreal capitalists have just closed a deal by which they secured $450,000 Rio de Janeiro Tramway Light and Power bonds with from 50 per cent. to 60 per cent. stock.

The allotment of new stock of the Canadian General Electric company is to be made on May 31st. The issue is of 9,000 shares in the proportion of one of new to three of old at a premium of $25 a share.

TWO MEN AND A DOG

Will Probably Figure in Police Court To-Morrow.

Two men and a dog are the principals which will probably figure in a police court case to-morrow morning. Somewhat over two years ago, a young man, lost a valuable dog, which he had brought from Halifax. This morning, while walking along King street, he saw what looked to him like his long-lost canine, following another young man well known in the city. He immediately claimed his property, and wanted to take possession. The new owner of the dog, however, objected to this, and stated that the dog had been given to him about three months ago by a friend who claimed it belonged to him. After a somewhat heated argument, the first mentioned citizen went to the chief of police, and took action against the other on the ground that the latter knew the dog was stolen. The latter claims that he has since communicated with the person who gave him the dog, and has been informed that the dog was never stolen, and is entirely a different animal from the one brought from Halifax. In order to simplify matters the police took charge of the disputed property, and will keep it until the matter is settled before the police magistrate.

Declined To Submit Motion.

Gananoque council has had a lively time during the past week. Rev. Fr. O'Gorman wanted to give a Dominion day celebration and asked a grant. Councillors proposed $50. The first meeting the motion was lost. At a special meeting another motion for $50 was submitted and discussed and when it was passed to the mayor he declared it out of order, and refused to put it to vote. He said grants of that kind were illegal, and as he was sworn to do his duty in protecting the treasury, he would not allow this to go. The councillors, one and all, resented that action, and tried by argument and representation to get the mayor to change his mind, but without effect. Then they proposed that the clerk put the motion; or that they go into committee of the whole with one of themselves as chairman. But the mayor blocked that by refusing to put the necessary motions. And so matters stand.

"A Friend Of The Family."

William E. Gorman will present his excellent farce, "A Friend of the Family," at the Grand on Thursday, May 11th. The piece is full of action even to the sizzling point from start to finish, complication following complication in the affairs of the Swift family. The plot is laid at the Villa Hastings on Hudson, and starts so ridiculously that at times it is doubtful if the "Friend of the Family" is able to fathom the perplexing situations into which his heart leads him. It requires but one day and the serving of three meals to untangle the intricacies of the dilemma. Starting just after breakfast the wily ways of Cupid became peer in the household and not until late in the afternoon does Nancy Noyes come to the realization that she is really Swift's stepmother-in-law by marriage.

Open For Traffic.

The bridge over Loughboro Lake has been repaired, by the road company and is once more open for traffic. Repairs are temporary, and a substantial reconstruction will be carried out when the ice forms next winter.

There is an opening in Pembroke for more brick manufacturers. The present output does not supply the demand, nor is the price charged for brick any way encouraging for builders to go on and utilize it.

FROM MANCHURIA

RUSSIAN WINGS SWEPT BACK—LINE STRAIGHTENED.

Oyama Reinforced and Now Has at His Command 390,000 Men—Over 25,000 Chinese Bandits Armed by Japs With Enemy's Guns.

Gadgevadana, Manchuria, May 8.—Since April 29th, the Japanese have been advancing slowly and intermittently, pushing forward the columns successively from right to left under cover of a screen of cavalry and Chinese bandits.

The advance has resulted in straightening the allignment of the opposing armies, Russian detachments which were far advanced on the flanks being forced to retire.

Erdagou, to the eastward, was occupied May 5th, but under pressure by the Russians the Japanese later evacuated the place.

On the left the Russian cavalry retired behind the Liao river, the Japanese occupying Palaotun, Sanlingan and Batzya.

The village of Shahedzi, on the railroad north of Changtufu, has been occupied and burned by the Japanese.

There was a sharp brush with Chinese bandits on the extreme Russian right to-day.

It is reported that the Japanese armies in the centre have recently been re-enforced.

The force at Field Marshal Oyama's disposal, according to information recently received, is 348 battalions, or 390,000 men.

The Japanese are said to have armed 25,000 or 30,000 Chinese bandits with captured Russian rifles. The Chinese population has been drafted by the Japanese for roadmaking and intrenching, and roads are being constructed to Sinmaipu, Banchensee and Nanga pass.

Rules Were Enforced.

Paris, May 8.—A semi-official note, issued this afternoon, says: Contrary to the allegation contained in a dispatch from Hong Kong, to a foreign agency, not only has the French government not disregarded the rules of neutrality but, after sending its civil and military agents very precise instructions for the enforcement of these rules, the government has unremittingly seen to their extension."

WILL BE RENEWED.

Will Aylesworth Run for North Oxford?

Special to the Whig.

Ottawa, May 8.—In the supreme court, to-day, motions were made in the Pictou, North Cape Breton, Victoria and Cumberland election cases. Objection was made that the court could not interfere with the action of the registrar who had previously fixed the dates as the first day of the October session. It was shown that the records could be prepared in two weeks and it was ordered that the motions be renewed. The Quebec appeals were then taken up.

A. B. Aylesworth is in town attending supreme court and politicians are discussing a rumor that he will run in North Oxford and enter the Laurier cabinet without portfolio.

Killed The Serenader.

New York, May 8.—Because several men who were playing accordeons and singing in front of his home at an early hour on Sunday, would not stop when asked to do so, Peter Novelino, of Williamsburg, shot Patrick Ketchwa, leader of the serenaders, through the heart. The murder aroused the Italian colony in the neighborhood, and in the excitement that followed several additional shots were fired. No one else was hurt. Ketchwa died in an ambulance. Novelino was arrested.

N. Y. Regiment To Visit Toronto.

Toronto, May 8.—Lieut.-Col. Pellatt of Toronto, and Col. Fox, Buffalo, have made final arrangements for the visit of the 74th Regiment, New York National Guard, to Toronto, on September 1st, instead of Dominion day, as previously suggested. It is expected that Earl Roberts, commander-in-chief of the British army, will be in Toronto on that date, and will review the United States soldiers in addition to the Canadian militia.

Killed By Bursting Wheel.

Waterloo, Ont., May 8.—August Hahnerburg, employed at A. Bauer's shoddy mill here, was killed while working at the mill. An iron tire on one of the wheels of a picker machine burst, striking the top of his head and crushing in his skull. Death was instantaneous. Hahnerburg was a married man and about fifty-four years old. He leaves a wife and a large family.

Time Not Yet Opportune.

Warsaw, May 8.—The Polish socialist party has issued a manifesto, calling on the workmen to return to work and declaring that while never in the history of the world had a city witnessed a more impressive manifestation of united workers than did Warsaw on May Day, the time had not yet arrived to start a revolution.

Special to the Whig.

Toronto, May 8.—James H. Bushby, of 48 Smith street, a night-watchman for Rolph Clark & Co., met a terrible death this morning. Between one andtwo o'clock he got his leg jammed between the elevator and the floor, and the limb was almost severed. After some time he was able to wrench himself free, and leaving his leg behind, he crawled to a window 150 feet away, where he attracted the attention of a policeman. He was immediately removed to the Emergency hospital, but he had lost so much blood from his terrible injuries it was at once seen that his case was hopeless. He died this morning at ten o'clock. He leaves a wife and two children. He was forty-four years of age.
