Cures Rheumatism Too.

Bu-Ju cures Rheumatism, because it cures the Kidneys. Every drop of blood in the body passes through the kidneys, to be filtered. If the kidneys are sick—tired—inflammed—they don't filter out the uric acid. It is this acid, deposited in the joints—on the nerves—that causes Rheumatism.

Bu-Ju

THE GENTLE KIDNEY CURE

cleans, heals, strengthens the kidneys—sets them to working properly—clears the blood—stops the ache—and takes away every trace of Rheumatism and Sciatica.

THE CLAFLIN CHEMICAL CO., LIMITED, WINDSOR, ONT. - - NEW YORK.

As A Tomb For Kings.

Belgrade, Servia, April 9.—The Staga says that ex-Queen Natalie, mother of the murdered King Alexander, stands ready to present her property to Servia, which is valued at $15,000,000, for the erection of a cathedral, if King Peter will consent to the interment of the bodies of King Milan and Alexander therein.

Mrs. W. H. Drysdale, St. Catharines,

TWO OPEN LETTERS

IMPORTANT TO MARRIED WOMEN

Mrs. Mary Dimmick of Washington Tells How Lydia E. Pinkham's Vegetable Compound Made Her Well.

It is with great pleasure we publish the following letters, as they convincingly prove the claim we have so many times made in our columns that Mrs.

Pinkham, of Lynn, Mass., is fully qualified to give helpful advice to sick women. Read Mrs. Dimmick's letters.

Her first letter:

Dear Mrs. Pinkham:—

"I have been a sufferer for the past eight years with a trouble which first originated from painful periods—the pains were excruciating, with inflammation and ulceration of the female organs. The doctor says I must have an operation or I cannot live. I do not want to submit to an operation if I can possibly avoid it. Please help me."—Mrs. Mary Dimmick, Washington, D.C.

Her second letter:

Dear Mrs. Pinkham:—

"You will remember my condition when I last wrote you, and that the doctor said I must have an operation or I could not live. I received your kind letter and followed your advice very carefully and am now entirely well. As my case was so serious it seems a miracle that I am cured. I know that I owe not only my health but my life to Lydia E. Pinkham's Vegetable Compound and to your advice. I can walk miles without an ache or a pain, and I wish every suffering woman would read this letter and realize what you can do for them."—Mrs. Mary Dimmick 50th and East Capitol Sts., Washington, D.C.

How easy it was for Mrs. Dimmick to write to Mrs. Pinkham at Lynn, Mass., and how little it cost her—a two-cent stamp. Yet how valuable was the reply! As Mrs. Dimmick says—it saved her life.

Mrs. Pinkham has on file thousands of just such letters as the above, and offers ailing women helpful advice.

THE CIVIC BUDGET.

There Will Be No Increase of Taxation.

The budget, which will be submitted to the city council, this evening, provides for about the same appropriations to the committees as last year. The city was in better position financially at the beginning of the year, but the extra requirements of the Board of Education and a few other additionals, wipe out the extra amount in the city coffers. In order that the taxation be not increased, the committees will have to get along with the same amount as last year. This is unfortunate for the board of works, but the best will have to be made of the situation. When the city's share of the increased license fee is known, there may be a "postscript" to the budget, and an additional "hand-out" to the board of works and civic officials and employees. No increases are as yet provided for the charitable institutions, and nothing in sight for the Old Boys' Reunion celebration, or band concerts. However, there is to be no increase of taxation.

Francis' store in Windsor was burned and his wife was seriously burned in the fire. Francis is out on bail.

Pure Blood Source of Health

And the Blood Can Only Be Purified by the Healthful Action of the Liver and Kidneys.

Dr. Chase's Kidney-Liver Pills

At this season of the year as at no other the importance of pure blood is brought home to the minds of most people. As the result of artificial winter life—living on artificial foods and being shut up in badly ventilated rooms—the liver and kidneys become clogged and sluggish in action, the bowels constipated, and the blood loaded with poisonous impurities.

Is it any wonder that spring finds us run down in health and feeling languid and fatigued? Is it any wonder that our systems become an easy prey to every form of disease which lurks in the spring air? Is it any wonder that we have aching heads and aching backs and suffer from indigestion and biliousness?

Dr. Chase's Kidney-Liver Pills are especially suitable as a spring medicine, because they act directly on the liver and kidneys and enliven the action of these great blood-filtering organs.

Except by the action of the liver and kidneys, there is no means by which the poisonous impurities can be removed from the blood. With these organs in health, a person is almost immune from colds and all forms of contagious disease.

Dr. Chase's Kidney-Liver Pills should not be confused with medicines which merely act on the bowels. They do effect prompt motion of the bowels, and they do infinitely more, for by setting the liver right they bring about a good flow of bile and thoroughly cure constipation.

Biliousness, liver complaint, constipation, kidney derangements and impure blood cannot exist when Dr. Chase's Kidney-Liver Pills are used. And there is a great satisfaction in using a medicine which has stood the test of time and proven its right to a place in every home as a family medicine of worth and reliability.

Put Dr. Chase's Kidney-Liver Pills to the test and you will avoid the usual ills and weaknesses of spring. One pill a dose, 25 cents a box; at all dealers or Edmanson, Bates & Co., Toronto.

A GOOD MONUMENT

TO THE DEVOTION OF THE QUEEN'S STUDENTS.

Will Be the New Gymnasium, of Which the First Sod Will Be Turned on Convocation Day—Other Queen's News.

If present expectations materialize, the first sod toward the erection of a new gymnasium, at Queen's University, will be turned on convocation day. The proposed building will be slightly larger than that at the R.M.C., and when completed will stand as another monument of the loyalty to, and interest in, their alma mater, of the student body of Queen's. With the money on hand, the loan from the university trustees, and the subscriptions of staff and students, which, by the way, were most unexpectedly liberal (and an outstanding protest against this long-felt want remaining longer unfulfilled), a building of proportions in keeping with the other structures adorning Queen's grounds can be erected. The probable cost of the new "gym." will be in the neighborhood of $17,000 or $18,000.

It was originally proposed to erect the building facing Union street, and between the curling rink and Arch street. This idea has, however, been somewhat changed of late, and the plot of ground between the skating rink and the medical building has been spoken of. The latter situation is received by the Alma Mater Society with much approval, hence the university trustees will probably be asked for the ground, and the "gym." be erected on the last-mentioned site, to face towards Carruthers Science Hall. As for the building itself, it is expected it will be ready for use by the coming fall.

The lower floor will be divided off into sections for lockers, shower baths, sponge baths, instructors' and janitor's apartments, etc. A separate section will be allotted to the lady students, and provided with a separate entrance. Room will be left for a large plunge bath to be put in later on. It is also proposed to have a large shower room, such as will accommodate about thirty athletes at one time. The upper portion of the building will be the gymnasium proper, and provided with an elevated running track. The plans for the building are by Profs. McPhail and Kirkpatrick, and endeavors are being made to have these two gentlemen remain in the city during the summer and superintend the erection.

This year Queen's has the honorary presidency and the presidency of the Canadian Intercollegiate Debating Union, and for the former position, Prof. Shortt has been nominated, and R. C. Jackson for the latter.

There will be no valedictory address at medical convocation on Thursday. This feature of the proceedings of former years now sleeps with the prophets and will hardly come to life again.

Prof. Shortt, W. H. MacInnes, and A. H. Gibson, have been elected Queen's representatives on the governing board of the Canadian Intercollegiate Amateur Athletic Association.

The degrees and pass results in medicine, will be posted late to-night.

A meeting of the Intercollegiate Football Union has been called for Saturday, in Kingston, by the President, Dr. Etherington. The main point to come before the gathering, will be the proposed amendment to the rules, whereby the present throw-in will be done away with, and a scrimmage substituted. Dr. Etherington, Captain-elect Kennedy, and W. H. MacInnes will be Queen's representative.

A. Cameron, holder of the Rhodes' scholarship from New Brunswick, is the valedictorian in arts, this year, and L. Thornton, in science.

ARCHBISHOP IN PRESCOTT.

Reception Being Arranged In His Honor.

Archbishop Gauthier arrived at Prescott yesterday, and is the guest of Vicar-General Masterson, administrator of the diocese, during the absence of the archbishop. His grace will reach Kingston at 3:50 o'clock to-morrow afternoon. Elaborate arrangements are being made for the public reception. All the priests of the diocese will be here to receive the archbishop.

A yellow badge will be worn by the different Catholic societies at the reception proceedings.

A reception to the archbishop will be tendered at the Convent de Notre Dame, on Tuesday evening. A fine programme will be given by the pupils. The Sisters of the Hotel Dieu will tender the archbishop a reception on Wednesday, and great preparations are being made there.

Police Court—Monday.

Four wilted specimens of humanity filed out before Magistrate Farrell, in the police court, this morning. Henry Clark who was ordered to leave town, on Saturday, failed to do so. He got a jag on and landed in the cooler. He will spend a month in jail. John Sauvin came over from Garden Island and hit up the booze: "$2 and costs or twenty days in jail," said the court.

Ernest Aylesworth admitted he was drunk, but didn't think he was swearing. Three dollars and costs or twenty days was his fine.

Joseph Jamieson was the last of the unhappy quartette. He declared he would immediately return to his job at the hospital. "Well then, I'll put you on probation," said the magistrate.

Made The President.

At the special meeting of the Clerical Club, on Friday, resolutions expressing the club's deep sense of its loss in the death of the president, Dean Smith, were passed. Archdeacon Carey was elected to the presidency.

CIVIC IMPROVEMENT.

A Branch of Frontenac Historical Started.

Kingston, April 9.—(To the Editor): There are a number of our citizens, both men and women, who are interested in civic improvement, who are not interested in the work of the Historical Society. In order to secure their co-operation it is proposed to form a civic improvement society, under the auspices of the Frontenac Historical Society. The new society will have its own officers, its own funds, its own objects, for which it will work. The fee proposed is twenty-five cents and already there is a large possible membership in sight. The members will be required to promise:

1. To be loyal to Kingston interests.

2. To refrain from defacing their neighbors' lawns and boulevards and public parks by making paths across them, and from littering the streets with waste paper and refuse.

3. To do all things they can to improve their own property. It is hoped that large working committees may be formed from the membership. Will everyone who approves of these objects try to be represented at the meeting in the Y.W.C.A. hall, Wednesday at 4 p.m. It is expected that all the citizens who have the interest of Kingston at heart will pay the small membership fee and furnish the funds for the plans of the new society.—R. HOOPER, convenor of committee on houses and grounds.

MR. WALKEM'S OPINION

Of the Great Value of Clarence Park.

Kingston, April 9.—(To the Editor): The efforts of the ladies who are interested in beautifying the city have reached the parks committee, if one can judge by the published reports of their last meeting. Interested as I have been in having the small park opened up, and put in proper order, I have been much pleased with the action of the committee in securing the services of an expert, whose opinion should be of some value in making the most of the parks we have.

As to the one on Clarence street, my opinion is that it must be a garden, rather than a park, that is to say, made beautiful and attractive by the use of flowers—it is small and from its situation I am sure could be made such at no greater expense than would be required to keep it as a lawn.

With reference to the breakwater on King street, I would suggest clumps of dwarf or low shrubs, such as the pines and balsams—tall trees are too much exposed to be a success, besides shutting out the view of the lake from the northerly side of the road. Flowers in such a locality would be useless—for if they did grow they would be stolen, as was the case in Victoria and Frontenac parks, and in the city parks as well, during the year I was chairman of the committee. The garden on Clarence street would be saved from this trouble, owing to its being in the heart of the city, and well lighted. I hope the council will encourage the committee in their effort to beautify a city, which has been richly endowed by nature. I did intend, a few weeks ago, writing you on the subject of general city improvement, but my private affairs have been such that I did not feel equal to the task, but I will shortly give you my ideas of what I think should be done towards forwarding the views of the ladies' committee.—J. B. WALKEM.

CANADIAN SUGAR RING.

Refiners Charged With Robbing Public.

Robert Anderson, Montreal, has sent a financial statement to the tariff commission in support of his charge that taking the average quantity of sugar consumed in Canada annually as 350,000,000 pounds, the people of Canada are paying annually as toll to the sugar refiners, in straight protection, nearly $2,000,000 over and above legitimate profits. Mr. Anderson sends thirty-five memos and letters from commission houses to support his claim that the Canadian refiners are enjoying excessive protection. Among the comparisons submitted he states that on January 1st, 1905, the net price of granulated in Montreal was 85.13; on the same day the net price in New York was 85.60, a difference of forty-seven cents. At the lowest point of the market in 1905 the price of granulated in New York was $4.35; in Montreal in was $4.08½, a difference of twenty-six and one-half cents.

Bidding For A Crown.

At the recent auction of the jewels of the late Maharana of Dholpur, the state crown was put up for sale. This regal headpiece was of pearls and diamonds. The set of pear-shape pearls was perfectly graduated and as a set was unmatchable. The diamonds were all of the best quality, and in the centre was set the "Grosvenor" diamond of watery clearness. Supplied with the crown was a necklace of diamonds to which the larger pearls could be attached for wear as a necklace. The lot went for £33,666.

Twenty-five bananas 25c. at Carnovsky's.

TO MAKE A TEST

AS TO THE LEGALITY OF THE ACT.

Which Prevents Lines Chartered Within the Past Five Years to Operate on Sunday—Will Seek the Courts.

Windsor, Ont., April 9.—Some prominent lawyers have expressed the opinion that the government's refusal to permit electric lines, chartered within the past five years, to operate on Sunday will not stand the test of the courts and it is expected that one of the new electric lines now being constructed out of Windsor will make the test. The Windsor, Essex and Lake Shore Road, from Windsor to Leamington, and the Windsor and Tecumseh line, both of which will be in operation by July 1st, were projected with an idea of tapping the summer resorts on Lakes Erie and St. Clair, where many Detroit and Windsor people have summer homes and to suspend operation on Sunday, would deprive hundreds of people of the increased facilities for going to and from their homes over Sunday, that are looked for when the lines are ready for business.

W.C.T.U. MATTERS.

A New Style of Comfort Bag Being Made.

The usual monthly meeting of the W.C.T.U. was held, Thursday afternoon, with a more than average attendance. The president, Mrs. Macallum, occupied the chair. After singing a hymn and prayers, she chose for her topic the subject of systematic giving, all the members taking part in the discussion. Mrs. Jean Hyde, Stratford, provincial superintendent of systematic giving, whose programme suggested the line of thought followed, speaks of systematic giving thus: "Systematic giving has a good record. All who have given it a fair trial find it 'profitable for the life that now is,' and viewing it in prospect, 'profitable for the life that is to come.' At a meeting of young men held here recently, one of the wealthiest merchants in this city, said that as soon as he began to earn money, he set aside the tenth as the Lord's, and has continued so ever since, with the difference that he now exceeds the tenth. God blessed him richly, both temporarily and spiritually."

The minutes were read by the recording secretary, Mrs. Lyon, and important items of business discussed.

The corresponding secretary read the replies to letters sent re-license act, and the bill concerning patent medicines. Mrs. R. E. Sparks gave a brief report of the social held at her house for the entertainment of the boys who formerly belonged to the club.

The educational half hour was taken up about comfort-bags and scrap-books to be made and sent to the lumber camps. An improved plan of making and filling is suggested. It is made very much like an old-fashioned slipper-case, with four large pockets plaited on a plain back, bright-colored creton, denim, or art ticking. The letters W.C.T.U. and comfort-bag, work on in the spaces. The scrap books are made of gay colored, glazed lining, and are easily made. They are to be filled with choice pictures, cards, and short interesting stories. The contents of the comfort bags, are numerous and varied. In first pocket a marked Testament, French gospels, hymn book, leaflets, pledge-books, and letter addressed to foreman. In second bandages of required widths, made of old and new cotton, castile soap, ointment, absorbent cotton, sponge, finger stalls, sticking plaster, surgical needles and silk; third, yarn, darning needles, etc.; fourth, spools of black and white, cotton, and linen thread, needles, buttons, pins, rolls of patches for mending. Paper, envelopes, pens, pencils, the last not always as writing material sometimes may be bought in the camp. The object of the comfort-bag is not merely to make life pleasanter for the lumbermen, but to open the door to their hearts, that we may win their souls to Christ, educate them to total abstinence, and secure their vote and influence in support of the prohibition of the liquor traffic.

Miss Sproule, the W.C.T.U. missionary says, "I like to take one of the bags to the foreman of the camp and say: 'The women I am representing knew how men forget little things that are much needed and that often are not provided in camp. Sometimes there is accident, or sickness, or death, and perhaps the one who may have only a while to live would like to hear something out of the word of God. It is in here also. Will you please take care of the bag, or put it in the cook's care and I will tell the men about it?'" Packages of the best papers, periodicals, magazines, etc., are sent. But only quite new, or of recent date, and well preserved, will be sent. The meeting closed with prayer.

Spring Importation Of 1906.

Prevost, Brock street, has received two cases of imported goods for his order clothing department, consisting of Scotch and English tweeds, serges, cheviots and Vicunas. His $15 suiting made to order beats anything of previous years. The wear and fitting is guaranteed.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate receive authority for some one to make entry for him.

HOMESTEAD DUTIES: A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) at least six months residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

APPLICATION FOR PATENT should be made at the end of three years, before the Local Agent, Sub-Agent of the Homestead Inspector.

Before making applications for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may, locate a claim 1,500x1,500 feet.

The fee for recording a claim is $5. At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1 an acre.

The patent provides for the payment of royalty of 2½ per cent on the sales.

PLACER mining claims generally are 100 feet square; entry fee $5, renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental, $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.
