More GO trains for Georgetown

Georgetown area residents will have a couple more commuter options starting next month.

Beginning Jan. 4, GO Transit will extend two existing GO train trips to Georgetown.

Weekday mornings the eastbound trip at Bramalea GO at 7:36 a.m. will be extended to serve all stops from Georgetown GO at 7:13 a.m.

In the evening, the westbound train from Union Station at 6:50 p.m. will be extended to Georgetown.

One new westbound bus trip will be added Monday to Friday departing Union Station at 10:20 p.m. and arriving at Georgetown GO station at 11:30 p.m.

Glen Murray, Minster of Transportation and Minister of Infrastructure, said the improvements to GO Transit "support our commitment to bring two-way, all-day GO train service to commuters in the Greater Toronto and Hamilton area."

"Our unprecedented public transit investments are making transit a better choice for commuters, reducing congestion on our roads and contributing to a better quality of life for Ontario families," said Murray.

"GO Transit has approximately 65 million boardings a year on our network of trains and busses and the numbers keep growing," said Greg Percy President, GO Transit. "More and more customers are choosing GO because it provides a comfortable, safe and reliable experience. The service enhancements for January will help address our increasing ridership demand and provide greater travel options for our customers."

Free Wi-Fi available at some Town facilities

Free Wi-Fi is now being offered at several Town-owned buildings.

Wi-Fi is now available at the Civic Centre, Mold-Masters SportsPlex, Acton Arena and Community Centre, Gellert Community Centre and the Georgetown and Acton library branches.

The free service is being provided for the convenience of residents and visitors.

"We are pleased to offer Wi-Fi service at these Town-owned facilities. We live in a digital age and providing this complementary service has many benefits for people visiting one of our facilities. It's common to see a parent waiting for their child as they attend a practice or swimming lesson, now they can go online for either business or pleasure," said Mayor Rick Bonnette.
