Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (formerly Windsor)

USEFULNESS OF SALT.

It Has Other Uses Than as Savor to Food.

The many virtues of common household salt, which, like the poor, we always have nearby, are so much Greek to the average housewife, who in her ignorance imagines that the sole mission of the commodity is to add savor to food.

As a kitchen disinfectant salt is invaluable. A lump of it should be kept in the kitchen sink, where it will dissolve slowly and keep the drain pipe pure and wholesome. When it is desirable to cleanse a waste pipe that has been neglected flush it freely with a strong solution of boiling hot salt water.

Salt is one of the best preservatives known for certain foods. In the form of a strong brine it will serve as a medium for keeping butter, eggs, meat and various kinds of vegetables almost indefinitely.

For removing egg stains from silver salt applied with a soft cloth will act like magic.

If salt be rubbed on fruit stains when they are fresh all trace of them will disappear in the washing.

A pinch of salt added to the whites of eggs will cause them to whip in half the time usually required.

A pinch of salt added to ground coffee just before cooking accentuates the natural flavor of the berry and gives "body" to the drink.

Greens used for salads should be thoroughly rinsed in salt water to dislodge possible insects or their eggs too small to be seen by the naked eye when picking over the greens.

Sprinkle salt over a dingy carpet before sweeping and the transformation wrought will convice the most skeptical of the value of salt as a cleanser along this line.

Everybody knows or, at least should know, that nothing is so effectual for putting out fire in a burning chimney as salt.

To kill weeds apply boiling hot salt water in liberal quantities. To remove grass from brick walks sprinkle freely with salt, and let stand several days.

MAMMOTH HAY PURCHASE.

Crop of 1905 Cleaned Up By Frank Williams.

Cape Vincent, N.Y., Eagle.

Frank Williams, commission and wholesale dealer in hay and straw, of New York, has during the past few weeks made the largest and most extensive purchase of hay ever consummated in the northern tier of counties. At Cape Vincent he secured fifty car loads of Constance Brothers and fifty car loads of William Webber; at Redwood he purchased ninety car loads of F. Rebscher, twenty car loads of F. F. Rebscher and twenty car loads of W. M. Cosgrove; a purchase of seventy-five car loads was made of W. D. Evans, of Hammond, Mahar & Fitzgerald sold him five car loads, S. A. Diefendorf, of La Fargeville, made a sale of ten car loads, and A. Diefendorf, of Chaumont, furnished ten car loads. Purchases have been made this week which brings the total shipment up to over 350 car loads.

This immense purchase practically cleans up all the old hay in this section. The quality is good and Mr. Williams bought at prices that were perfectly satisfactory to the sellers.

Mr. Williams has been doing business with shippers and farmers in this section for several years and has established a most enviable reputation for honesty and fairness in every particular.

Clayton, Kingston And Ottawa.

Steamers Rideau King and Queen, for Ottawa, every Monday, Wednesday, Thursday and Saturday, at 6 a.m. For Clayton every Tuesday, Wednesday, Friday and Saturday at 6:15 p.m. James Swift, J. P. Hanley, agents.

The Best Stock.

Of new derbys in Kingston is to be found at Campbell Bros.', the style centre for men's hats.

The C.N.R. crop report shows wheat is in the best possible condition, although the weather is extremely hot and the grain is filling quickly. Cutting is in progress at many points. The first barley was marketed at Portage La Prairie, on Thursday.

It gives you new energy in hot weather, Beef, Iron and Wine, 50c. Gibson's Red Cross Drug Store.

MANY DESERTIONS

MAKE MORE MONEY WITH PITCHFORK AND SHOVEL.

One Man to Six Horses—Rigorous Discipline That is Enforced Does Not Make Service Any More Attractive.

Winnipeg, Aug. 10.—That the permanent force of the Canadian militia is still underpaid is exemplied by the difficulty the recruiting sergeants have in filling the depleted ranks in the west and the desertions that are constantly occurring here. In the short time the Royal Canadian Rifles have been in camp at the Sturgeon Creek rifle ranges there have been seventeen desertions, and the squadron was not over-manned when it went under canvas.

The men hear the west a-calling. The wheat field and construction camps of the big railroads look good to them, and the prospects of high wages for the rest of the year in the two Dakotas account for much of this unseemly manner of leaving the colors. It is said that the rigorous discipline of an officer lately arrived from the east has not tended toward a longing to stay with the old regiment, and consequently his majesty's red coat and rifle are the easier exchanged for a suit of overalls and a pitchfork or shovel, as the case may be.

According to reports, deducting the servants and batmen of the officers and non-commissioned officers, cooks and men otherwise employed than in the ranks, there is one man to every six horses.

A similar state of affairs occurred in June, when the regular batteries went into camp at Petawawa. Each battery would be about 120 strong on paper, but an average of fifty-seven answered the roll.

MUSIC MAKES MORALITY.

Such is Claim of Educator Thompson, Toledo.

Toledo, Aug. 10.—"For the past three years there has been no music in the high school, I regret to say. In that same time I can assure you that the morality of high school boys has not been of the highest. In my estimation there is nothing that will raise the standard of morality so much as singing."

Thus spoke Prof. C. H. Thompson, instructor of music in the public schools, to members of the board of education last evening, during his plea for the installation of music in the high school.

Members were enthused by the address, and the probability is that when school opens in September, or shortly thereafter, there will be another study, Mr. Thompson, Superintendent Eberth and Principal Guitteau will consider the matter, and report to the board.

"I believe the morality of high school boys can be raised if there is a little music. Anyone may notice their conduct in front of the building during the twenty minutes' recess at eleven o'clock. Smoking pipes, cigarettes and expectorating on the sidewalks, their demeanor is not of the best."

ARMY NEWS.

Salvationists Addressed By Commissioner.

A very large crowd gathered in the Salvation Army hall, on Thursday night, to hear Commissioner George Railton. He is one of the pioneers of Christian Mission and has travelled the world in the interests of the army. He has just been in England and is on his way to Japan to take up his work. His address, last night, on his first appearance in the city, was much appreciated. Yesterday afternoon, accompanied by Staff-Captain Fraser, the Prison Gate representative of Toronto, Commissioner Railton visited the penitentiary.

There was a meeting Thursday afternoon, of the officers' council of the Salvation Army of the district. Brigadier Turner, provincial officer of Montreal, and Commissioner Railton were present also representatives from Tweed, Napanee, Deseronto, Odessa and Brockville. Routine work was transacted and plans made for furthering the army work.

A HUSBAND'S MEANNESS.

Gets Order That Wife Must Pay His Board.

Sandwich, Ont., Aug. 10.—Arthur C. Baxter, several months ago left his wife who, thereupon, began suit for alimony. When a decision in the woman's favor was rendered, Baxter drew what money he had in a bank and disappeared. He was located near Walleeburg and brought back, and refused to pay alimony and was locked up. Though tired of confinement, Baxter, yesterday, through his attorney, M. A. Hanna, secured an order from Judge McHugh that Mrs. Baxter shall pay two dollars per week towards his board while he is in jail; this the woman will have to do beside supporting herself and two children.

Bowlers At St. Catharines.

St. Catharines, Ont., Aug. 10.—The British bowlers arrived here from Niagara Falls, early this morning, and received a warm reception from the local clubs. During the morning they were taken to the Henley course, Barnesdale vineyards and other points of interest. At one o'clock luncheon was served at the Welland.

Lightning Caused Fire.

Dungannon, Ont., Aug. 10.—The barns and sheds of Robert Durnin, two miles west of here, were burned last night, with a large quantity of hay and some barley, also some of last year's grain. Insured for $500. Lightning was the cause of the fire.

Japan consents to the establishment of a Chinese custom house at Port Dalny, only on condition that a similar system be inaugurated at the Russian frontier railway stations in Northern Manchuria.

Try Bibby's special $12.50 black suits.

WILL ATTACK LEPROSY.

It is Said That Disease Can Be Cured.

Washington, D.C., Aug. 10.—The army surgeons who are interested in the treatment of leprosy have some significant reports from the Philippines, where special consideration is being given the treatment of the disease by the X-ray. Two cures of leprosy the diagnosis of which had been confirmed microscopically by the physician in charge of the San Lazare hospitals and independently by the bureau of government laboratories were treated by the X-ray for several months, at the end of which time they were again examined by the same observers, but no leprosy bacilli could be found. The infiltrations into the tissues and other symptoms of the disease have almost disappeared. Sufficient time has not yet elapsed to arrive at any definite conclusion with regard to the permanency of the apparent cures, and it is not deemed advisable to discuss the subject further until the cases have been under observation for a longer time. However, if this treatment should prove successful, its far-reaching consequences can scarcely be appreciated as yet. A leper colony has been established in the island of Cullon. The place has been purchased, and satisfactory title secured, all old houses have been repaired, many new ones built, roads constructed, double fences of barbed wire placed between the village and the mainland, and the church has been put in habitable condition. Through the charity of a woman in New York a cross and bell were obtained for the church. The buildings now completed at Cullon would accommodate 600 lepers comfortably to double this number.

TOSSED HER BABY

From Runaway Car to a Man on the Street.

Youth's Companion.

Women are sometimes regarded as likely to lose their heads and grow hysterical with fear in times of sudden danger, but every little while some incident occurs which puts them in another light. An open car filled with passengers ran away down a long hill in New York the other day. When it was found that the car was beyond control many passengers screamed and jumped, and some were badly hurt. A woman who had a baby in her arms stood calmly up in her place, motioned to a man on the street who was watching the approaching car, tossed the baby to him as the car passed, and then sat down. The man caught the baby, and in a few minutes the mother walked back, thanked him, and took the child. Nothing panicky about that!
