SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-West Province, excepting 8 and 26, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry or inspection must be made in person by the applicant at the office of the local Agent or Sub-agent.

An application for entry or inspection made personally at any Sub-agent's office may be wired to the local Agent by the Sub-agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An applicant for inspection must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, may, subject to approval of Department, relinquish it in favour of father, mother, son, daughter, brother or sister, if eligible, but to no one else, on filing declaration of abandonment.

Where an entry is summarily cancelled or voluntarily abandoned, subsequent to institution of cancellation proceedings, the applicant for inspection will be entitled to prior right of entry.

Applicants for inspection must state in what particulars the homesteader is in default, and if subsequently the statement is found to be incorrect in material particulars, the applicant will lose any prior right of re-entry should the land become vacant, or if entry has been granted it may be summarily cancelled.

Duties.—A settler is required to perform the conditions under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of a homesteader resides upon a farm in the vicinity of the land entered for by such homesteader the requirement as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirement may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

KILLED A YOUTH

A YOUNG MAN STRUCK BY A TRAIN.

A Railway Accident and Then a More Serious Episode—The G. T. R. Company to Blame For Not Having Enough Siding.

Napanee, Oct. 15.—An accident with fatal results occurred, yesterday, at Fredericksburg Station, about five miles east of Napanee, resulting in the death of John Sweet, son of Robert G. Sweet, of Fredericksburg Station. The facts gleaned are that an accident to a freight train, early in the morning, had blocked the west track, and the sectionmen were working about this place. Sweet was one of the crew, and was sent to the station for a pail of water, and was returning on the east track. Owing to the accident to the freight blocking the west track, No. 1 International Limited was on the east track, but this was known to the sectionmen. Sweet was walking on the track, and, apparently did not hear the approaching train. When the engineer noticed him he whistled a prolonged whistle, which caused Sweet to turn about, when he was struck on the head by the engine and thrown some distance and instantly killed. His legs and arms were broken and a deep gash made on his forehead. Deceased was about twenty years of age.

Coroner Cowan went out to the scene of the accident, but deemed an inquest not necessary, and from the particulars gleaned saw no reason to attach any blame to the G.T.R.

An old and well-known resident, in the person of Janet Henderson, passed away on Saturday morning last. She was a sister of the late John and Henry Henderson, well-known residents of Kingston. Their families are still residents of Kingston. Deceased was ill but a week or so of gastritis. She was a member of the Presbyterian church, and a devout and Christian lady. She made many warm friends while in Napanee. The funeral will leave her late residence, Belleville Road, this morning, at nine o'clock. The interment will be in Cataraqui cemetery, where the other members of her family lie buried.

Miss Alice Pruyn left on Saturday for a six months' visit with her school friend, Mrs. Fraser, formerly Mabel McLean), at Edmonton, Alberta.

The decision the jury came to on Friday night re the death of Engineer Blain, was that the G.T.R. were to blame in not providing sufficient siding at Napanee and also that the conductor and engineer on the freight did not take precaution enough and protect their train properly.

FOR LOSS OF HER HAIR.

Girl Scalped By Machinery Gets Verdict For $5,000.

New York, Oct. 15.—For the loss of her hair, Teresa Furian, seventeen years old, of New Brunswick, N.J., recovered a verdict of $5,000, from Isaac E. Schienman of Perth Amboy. The girl was employed by the defendant in his factory. Two years ago while she was passing one of the machines she slipped and fell. Her hair caught in the machinery and she was scalped. Miss Furian has been in a hospital nearly ever since, and her life was only saved by skin grafting.

Farms For Poor Jews.

New York, Oct. 15.—An exhibition of Jewish life on farms and in the smaller cities in the United States, arranged by the Baron de Hirsch fund, the Jewish agricultural and industrial aid society and Jewish Educational Alliance was held in the Alliance Building yesterday and to-day. The exhibition was held on the roof of the building and in the exhibition room, where the products of farms operated by about fourteen hundred Jews in sixteen states were on view. Stereopticon views showed the difference between the dark and crowded rooms in the tenement district of New York, and on the farms with a view to induce the Jews to leave the crowded section of the cities as these pioneer Jews have done to the great improvement of their lives and condition of living.

Are You Often Bilious?

Read This And Learn How To Prevent Attacks.

Biliousness is merely a term applied to a condition that exists when the body is over-loaded with bile.

The complexion turns yellow, eyes look dull, pimples, itching and eczema break out, headaches are ever present.

Biliousness has two great causes, constipation and defective liver action.

When Dr. Hamilton's Pills are taken they not only correct the bowels, but act directly on the liver, regulating its bile secretion.

Unlike ordinary medicines which purge and give temporary relief, Dr. Hamilton's Pills remove the condition which causes biliousness, thus permanent cures are effected.

Dr. Hamilton's Pills do cure biliousness and liver ills under all circumstances.

We prove this by the statement of Fenwick Laddington, of New Harbor, N.S., who writes: "Three months ago I had no expectation of ever getting free from periodical bilious attacks. They were preceded by dizziness and dreadful headaches. If I stooped over my head would swim and a nauseous feeling crept into my stomach.

Dr. Hamilton's Pills fixed up my liver, drove all the bile out of my blood and made me a well man in a few months. To-day I enjoy a good appetite, excellent digestion, and the best of health. Dr. Hamilton's Pills did it all."

CAUSE OF FALLING HAIR.

Dandruff, Which is a Germ Disease—Kill the Germ.

Falling hair is caused by dandruff, which is a germ disease. The germ in burrowing into the root of the hair, where it destroys the vitality of the hair, causing the hair to fall out, digs up the cuticle in little scales, called dandruff or scurf. You can't stop the falling hair without curing the dandruff, and you can't cure the dandruff without killing the dandruff germ. "Destroy the cause, you remove the effect." Newbro's Herpicide is the only hair preparation that kills the dandruff germ. Herpicide is also a delightful hair dressing. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. G. W. Mahood, special agent.

CUT OFF CLERGY.

Railways May Give 'Em No More Low Rates.

Chicago, Oct. 15.—Passenger traffic officials of the lines of the Central Passenger association territory have practically decided to abolish the granting of reduced rates to clergymen after January 1st, 1907. At the meeting of the association on Wednesday, the proposition came up and was continued until the November meeting, when the rate probably will be advanced from one to one and a half cents a mile, with the understanding that the arrangement will be discontinued at the end of the year.

$37,500 IN THE JOB

PRICE ON CZAR'S LIFE AND THAT OF SON.

Anarchists Urged in Inflammatory Pamphlets to Slay Both and Earn Money.

Zurich, Oct. 15.—Thousands of pamphlets have been secretly printed in Zurich and Geneva, offering $25,000 for the life of the czar, and half that sum for that of his son. The pamphlets have been smuggled across the frontiers into Russia.

The notice, which does not state how or by whom the money will be paid, ends as follows: "Rest assured that the sum mentioned above will be paid to you, or, if you died in doing the glorious and heroic work, to your relations within three days of the accomplished act. Free us from czardom and slavery and Russia will bless you."

The Echo de Paris Biarritz correspondent states that it is rumored that the czar and czarina and their infant son will arrive there next month for a long stay.

There can scarcely be any truth in the rumor, for the czar is extremely unlikely thus to offer himself as an easy prey to the terrorists. The report is probably due to the fact that the Grand Duke Alexander, with a large suite, arrived at Biarritz yesterday for a stay of two months.

Another Grand Duke—Alexis—is living incognito at the Hotel Chatham, in Paris. The name he has assumed is kept a profound secret, and nobody is admitted to see him who does not know him.

Extraordinary precautions of all kinds have been taken for the grand duke's safety, and there are very nearly as many detectives at hotel as waiters.

ASSAILING HEARST.

New York Papers Attack From Several Points.

New York, Oct. 15.—The World editorially denounces the Hearst-Murphy judiciary deal by which Hearst names three candidates on the democratic ticket for judgeships and Murphy the rest, and calls on the voters to repudiate and defeat the outfit.

The Herald prints California despatches, showing that Chinese are extensively employed on Hearst estates there, notwithstanding Hearst's bitter denials of the charge.

John Sharp Williams refuses to make any speeches for Hearst in New York.

Grover Cleveland says, in reply to the question: "Do you believe the presidency would be menaced by the election of Hearst as governor of New York?"

"Certainly not; the people would have him two years and be through with him."

Hughes promises to investigate the state banking department if elected governor.

State Chairman Woodruff, of the republicans, is giving out extracts from Hearst newspapers showing Hearst's opinions of Mr. McKinley before and after assassination. Prior to the shooting the New York Journal called Mr. McKinley an "incompetent poltroon." After the shooting the Journal said of Mr. McKinley: "He ended his life as he began it—a simple Christian citizen."

KILL 2,000 DEER.

Called to Clean Out Over-Stocked Preserve.

Madrid, Oct. 15.—A unique hunt was given in the royal forest near La Granja by King Alfonso. His majesty invited a battalion of troops known as the Cazadores de Madrid to join him and the court in a big shoot, and every member of the battalion from the colonel to the latest recruited private travelled to La Granja to take part.

The slaughter of deer was terrific, dozens falling at a time. The reason for holding the hunt, which lasted through Wednesday and Thursday, was that the forest had become so overstocked with deer that the pasturage was insufficient. The foresters thought it was necessary to kill 2,000.

The victims have not yet been counted, but probably the projected result has been achieved, while incidentally Alfonso has become the idol of the Cazadores.

Arrested For Fraud.

Hamilton, Oct. 13.—Charles A. Henderson, New York, was arrested on the charge of obtaining $2,000 by fraud from Thomas Nihan, of St. Catharines. The local police have not the particulars of the charge, but it is understood that the transaction will be in connection with the defunct International Mercantile Agency, a collecting concern that got Thomas MacAuley into trouble.

Goluchowski May Resign.

Vienna, Oct. 15.—It is reported in Hungarian official circles that Count Goluchowski, the Austro-Hungarian minister of foreign affairs, will resign at the end of this month and that his probable successor is Count Rudolph Von Welsersheimb, ex-minister of national defence and the delegate of the dual monarchy to the Algeciras conference on Moroccan reforms.

Boil On Neck Fatal.

Stratford, Oct. 15.—Moses Knetchel, Berlin, was taken to the hospital here, on Thursday morning, and died Friday night from blood poisoning, the result of a boil on the back of the neck. A widow and three children survive.

FOR COAL

THIS IS THE STOVE that you hear so much about. It is not so much to look at, but it is truly a wonderful stove. It is what is called a Slow Combustion Heater. It is lined from top to bottom with fire brick, and has no grates to burn out. The fire burns right on the brick bottom, and it consumes its own ashes and clinkers.

Those who use the TORTOISE, and there are thousands of them in service, claim that it is a tremendous heater, and that it will do the work with half the fuel required by any other stove, and that it requires very little attention.

Manufacturer's prices have been greatly reduced. Now is the time to buy.
