For the Boys
e have Fleece Lined, nion, all Wool, in Shirts d Drawers; also Sleep Suits.

EWMAN & SHAW

FRIENDS ADVISED USE OF PE-RU-NA.

Suffered Much—Catarrh Affected Throat and Nose—Pe-ru-na Proves Highly Satisfactory.

Mr. Raoul Pilon, 116 Rue Notre Dame, Lachine, P. Q., writes:

"I write you a few words to express to you my satisfaction at being cured.

"I was afflicted with catarrh of the throat and nose and suffered much.

"I was greatly discouraged.

"I had a bad breath and a bad taste in my mouth in the morning.

"I took treatment for some time without obtaining relief.

"At the advice of friends I tried Peruna and the results have been highly satisfactory.

"At the end of four months I was completely cured."

Neglected catarrh becomes chronic. Having developed into the chronic stage, a longer and more persistent treatment will be required to cure it than if the disease were treated at the onset.

However, Peruna will bring relief, whether the catarrh is acute or chronic. If you are wise you will keep Peruna on hand and take a few doses at the first appearance of a cold or cough, and thus save yourself both suffering and expense.

Good Items for To-morrow

For 8c. a Yard

OFFER MADE OF $100

DR. SULLIVAN SENT IN BILL FOR $300.

He Claimed His Services Were Very Valuable to the City — Unsanitary State of a Sewerage Pipe.

The adjourned meeting of the board of health was held Tuesday afternoon with these members present: John McIntyre (chairman), S. S. Corbett, Dr. J. G. Evans, Mayor Mowat and Health Officer Bell. The case concerning the payment of a claim for $300 to Dr. Sullivan again came before the board. Dr. Sullivan was present and addressed the body, pointing out that he had saved the city much expense and probably stayed the spreading of small-pox or chicken pox, at a period some three years ago.

It was moved by Dr. Evans, seconded by S. S. Corbett, that Dr. Sullivan receive $100 and a vote of thanks for the manner in which he helped the city. It was adopted.

A letter was read from O. Telgmann stating that the sewerage pipes on his street were and had been in an unsanitary condition for some time, and asking to have them attended to. It was moved by Mayor Mowat, seconded by Dr. Evans, that the health officer, in company with the city engineer, go over the premises and find out the cause of the troublesome gas in question. Agreed.

A letter signed by police constables Timmerman and Filson was read, asking for remuneration for the work of examining the yards, etc., of the city for the past two years. Moved by S. S. Corbett, seconded by Dr. Evans, that each receive $25 for his work. Agreed.

The monthly report was read by Health Officer Bell and filed at the order of the chairman. A change in the by-law affecting milk vendors, was recommended and will be submitted to the council at a later meeting.

GAVE A BROOCH

To Mrs. R. T. Walkem For Past Services.

The sixteen energetic committee workers of the Home for Friendless Women and Infants were entertained, yesterday, at a "five o'clock" by Mrs. Ward, vice-president. Mrs. Walkem, retired president, was the guest of honor, since she leaves, on Thursday, for Vancouver, to reside. Her late associates sprang another surprise upon her by the presentation of a chaste and beautiful brooch, an addition to the life membership badge tendered a few months since. The honorary president, Edward J. B. Pense, made the presentation. It was not farewell, but au revoir, for they would look for a yearly visit to good old Kingston. The struggling days of the home were recalled. All were still on the board after twelve years of service, save one who had removed from the city. A more united, cordial, sympathetic band it would be hard to find, and the parting with their leader and inspirer brought a sense of personal loss.

First Comers Get Best Choice.

When an eastern man is jealous of his wife he accuses the coachman; in the west a jealous husband accuses a "prominent" citizen.

TRICKED BY DYSPEPSIA

The Doctor Couldn't Tell Where the Trouble Lay.

"For the past seven years I have been a victim of dyspepsia and chronic constipation and have consulted the most noted specialists to be found on diseases of this character. None, however, seemed to locate the difficulty or give relief. In addition to this medical treatment, I have resorted to the use of many remedies and have given them faithful trial, but all to no purpose.

"Upon the recommendation of a close friend, I purchased a 50c. package of Stuart's Dyspepsia Tablets and in less than five days noticed that I was receiving more benefit than from any remedy I had used before. I continued to use the tablets after each meal for one month, and by that time my stomach was in a healthy condition, capable of digesting anything which my increasing appetite demanded.

"I have not experienced any return of my former trouble, though three months have elapsed since taking your remedy."

We wish that you could see with your own eyes the countless other bona-fide signed letters from grateful men and women all over the land who had suffered years of agony with dyspepsia, tried every known remedy and consulted eminent specialists without result, until they gave Stuart's Dyspepsia Tablets a trial. Like the doctor above, they couldn't locate the seat of the trouble.

Dyspepsia is a disease which has long baffled physicians. So difficult of location is the disease that cure seems next to miraculous. There is only one way to treat dyspepsia—to supply the elements which nature has ordained to perform this function and to cause them to enter the digestive organs, supplying the fluids which they lack. Stuart's Dyspepsia Tablets alone fill these requirements, as is shown by the fact that 40,000 physicians in the United States and Canada unite in recommending them to their patients for stomach disorders.

We do not claim or expect Stuart's Dyspepsia Tablets to cure anything but disordered conditions of the stomach and other digestive organs, but this they never fail to do. They work upon the inner lining of the stomach and intestines, stimulate the gastric glands and aid in the secretion of juices necessary to digestion.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box. One box will frequently effect a perfect cure. If in doubt and wish more adequate proof send us your name and address and we will gladly mail you a sample package free. F. A. Stuart Co., 61 Stuart Bldg., Marshall, Mich.

MORTON MATTERS.

A Budget From a Point on the Canal.

Morton, Nov. 13.—The funeral of the infant child of Mr. and Mrs. A. Mattice took place at Leeds church and was largely attended. The steamer Stranger has discontinued her trips between Smith's Falls and Kingston. Ernest Jones has returned home from the North-West. Mrs. F. Scott and children from Brockville, recently visited friends in this vicinity. On Thursday last, Mrs. Eber Young was removed to the general hospital at Brockville. Mrs. Young has been under medical treatment for over a year. A consultation of physicians was held on Wednesday when they decided the only possible chance of recovery would be an operation, which we all sincerely hope will be successful. John Tupper is again able to be out. J. C. Judd has lost his favorite horse. She was near twenty-five years of age, but the kind treatment and care she received from her master, would make a person believe she was but a young beast, being active and full of life to the last. The G.N.W. telegraph has been placed in the store of M. Marsh. This vicinity has been without telegraph communication for some years, and people will be glad to again welcome the old company back. James Stevenson and family from Seeley's Bay, were recent visitors at W. Jacob's. W. Brown, of Elgin, has disposed of a quantity of slab wood to Mr. Henderson. Mr. and Mrs. R. Somerville recently spent Sunday the guests of C. Dawson at Jones' Falls. J. Wills and A. Jewe, returned home from Saskatchewan after several months sojourn throughout the North-West. William Randalls, Kingston, and Mrs. J. Randalls, Seeley's Bay, were guests of Mrs. M. Marsh on Thursday last. Both of our cheese factories have received a coat of paint which adds a very great improvement to the buildings. Robert M. Somerville and brother, Clifford, have returned home from South Mountain after a successful year of cheesemaking. Charles Taber and sister, Mrs. Henderson, visited their sister, Mrs. Dr. Singleton, of Westport, Sunday last. There arrived at the home of B. Wiltsie, a daughter, this being the tenth girl. Miss May Wiltsie has gone to Toronto where she will attend high school.

PASSED RESOLUTION.

Mass Meeting of Workingmen Held Last Night.

At the mass meeting of workingmen held in the trades council chamber on Tuesday night, the following resolution was adopted:

"This mass meeting assembled, representing the mechanics and unskilled workmen of the city of Kingston do, unanimously and vigorously protest against the efforts of the authorities of the medical college of Queen's University, to have convict labor employed against the interests of free labor in the erection of any of its buildings, for the following reasons:

"(1)—Whereas, the Ontario legislature recently voted a grant of $50,000 out of the funds of all the people of the province, for the erection of a biological department in connection with the medical college of Queen's University, it is not fair that local stone-cutters, teamsters, laborers, etc., who directly contribute to this fund, should be prevented from participation in its distribution, by the employment of non-producers, who are convicts.

"(2)—It is against the best interests of all classes of citizens that resident taxpayers should be driven away to other towns and cities, even for the short season during which climatic conditions permit them to work, to seek employment in order to sustain their homes and families and discharge their duties as citizens and ratepayers, through the greed of a much favored corporation, and the employment of convict labor.

"(3)—The claim that Queen's University is a great undenominational public institution and that a gift of stone cut by convicts for its buildings, in addition to $50,000 cash, would benefit certain other parties, does not warrant them destroying the opportunities for a large portion of our citizens gaining an honest livelihood, within the gates of our city, or compelling them to leave it.

"Therefore, be it resolved, that this meeting protests against the action of Queen's, and that the minister of justice be memoralized not to grant the request.

"That a strong committee be now appointed to secure the assistance of the trades council, and the various local unions, also the Dominion Trades Congress, and if need be, the financial assistance of the International Union, to enter a national protest, and prevent a sinister movement that will, eventually, bring convict labor not only into competition with stone-cutters, but also, carpenters, painters, plumbers, tinsmiths, and indeed, all branches of the building and other trades.

"Be it also resolved, that the committee at once proceed to cause the passing of resolutions by the various unions throughout the dominion, that not a mechanic in any branch will raise a hand in the erection of buildings where convicts have cut stone, or been otherwise employed in its erection, against free labour."

Y. M. C. A. Notes.

A prayer meeting, led by E. P. Jenkins and F. G. Lockett, was held at the Y.M.C.A. last night, in connection with the world-wide week of prayer. The attendance was good and inspiring. Another meeting will be held in the parlor to-morrow night.

The Glee Club will meet this evening in the association parlor at 7.30 o'clock.

Valuable Helpmeet.

Detroit News.

Mrs. Krick, wife of a farmer near Belding, is worth having. Recently between the hours of 1 a.m. and 5 p.m. of an October day, Mrs. Krick picked up forty-six bushels of potatoes besides having to stop and bother with the baby, which it was necessary to have in the field with her.

A PESTIFEROUS GERM.

Burrows Up the Scalp Into Dandruff and Saps the Hair's Vitality.

People who complain of falling hair as a rule do not know that it is the result, of dandruff, which is caused by a pestiferous parasite burrowing up the scalp as it digs down to the sheath in which the hair is fed in the scalp. Before long the hair root is shriveled up and the hair drops out. If the work of the germ is not destroyed hair keeps thinning till baldness comes. The only way to cure dandruff is to kill the germ, and until now there has been no hair preparation that would do it; but to-day dandruff is easily eradicated by Newbro's Herpicide, which makes hair glossy and soft as silk. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. G. W. Mahood, special agent.

Nothing Relieved His Kidneys Until He Tried

Bu-Ju

MARKHAM, Ont., Dec. 1, 1905
"I had suffered for seven years with kidney trouble. Could scarcely walk and was unable to attend to my farm. Saw "Bu-Ju" advertised, and after taking the first few pills, felt much relieved. After taking half a box, was able to do a full day's work. I know one box of "Bu-Ju" saved me $40.00 doctor bills.
"JAMES ABBOTT."

It costs only 3c a day to take "Bu-Ju" —the kidney pill that never fails.

All druggists have "Bu-Ju" or will get them for you.

CHINESE WON.

The Students Were Trained in Foreign Lands.

London, Nov. 14.—According to the Telegraph's Tokio correspondent the fact is commented upon that in the recent competitive examinations at Pekin, for government appointments, Chinese students trained in America and Great Britain, defeated those trained in Japan. The reason is, that a full curriculum is compulsory in America and England, while superficial studies are permitted in Japan.

ARC LIGHTS SING

TELEHARMONIUM SUPPLIES MUSIC OVER WIRES.

Strains Produced at Central Station and Sent By Alternating Electric Currents to Subscribers All Over the City.

New York, Nov. 14.—A marvellous concert—the first ever given from electrically-conveyed sound waves, in which no musical instrument other than alternating currents of electricity are employed—was listened to by a company gathered in one of the dining-rooms of the Cafe Martin, last night.

It was the first demonstration of the tele-harmonium, an invention which Dr. Thaddeus Cahill has worked for fourteen years to develop, and which is designed, by means of wires, to supply from a central station music produced by the alternating currents to subscribers all over the city. The music can be sent over telephone or electric light wires, and are lights can be made to sing with the notes like those of the violin and flute.

Two telephone receivers in the dining-room of the Cafe Martin had been fitted with megaphonic horns, and while a musician performed upon a keyboard like that of an organ at the central station, the keys operating six switches controlling 145 dynamos, the sound waves came into the room in the form of low music, like that of a distant organ.

ROMANCE OF ELDORADO.

Odd Story of Eastern Ontario's Richest Copper Mine.

Highly satisfactory reports continue to be received from the North Hastings mining region. The smelter at the Eldorado copper mine is running steadily on twelve per cent. ore, and three acres of matte, valued at $18,000, were shipped for New York a few weeks ago. This mine, which is now a most profitable producer, and the vein in which is increasing in width, has a romantic history. During the gold excitement two neighbors who lived near the spot where the mine was discovered had a quarrel, and the lot being sold for taxes, one of the two bought it in order to prevent his enemy from pasturing his cow on it, as he had been doing for some time. The price paid was $30. There is a deposit of hematite iron ore on a eminence on the lot, and, as there were indications of copper at the foot of the hill, a company was formed to mine for that material, but gave it up in disgust after a shaft had been dug and a lot of money dropped. It now proves, through the discovery of this old working by the present operators, that had the operators of forty years ago gone three feet deeper they would have struck it richer, as the bottom of their working was within a yard of the vein. The original purchaser sold to A. W. Coe, of Madoc, for $300, and Mr. Coe, who worked out the hematite deposits, refused $15,000 for the lot.

The new "Vesta Tilly" hat, in white felt at 69c. Sold everywhere at $2.; also wings, quills, etc., in great variety, from 5c. to 25c., at Corrigan's.

A WARM SUBJECT

There's nothing in the world we're so much interested in as Coal at this time of the year. It may sound queer to speak of coal buying and selling as a science, but that's what we've made it. Two important discoveries we have made are that complete satisfaction to our customers pays best, and that the way to win business is to deserve it.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-West Province, excepting 8 and 26, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry or inspection must be made in person by the applicant at the office of the local Agent or Sub-agent.

An application for entry or inspection made personally at any Sub-agent's office may be wired to the local Agent by the Sub-agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An applicant for inspection must be eligible for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, may, subject to approval of Department, relinquish it in favour of father, mother, son, daughter, brother or sister, if eligible, but to no one else, on filing declaration of abandonment.

Where an entry is summarily cancelled or voluntarily abandoned, subsequent to institution of cancellation proceedings, the applicant for inspection will be entitled to prior right of entry.

Applicants for inspection must state in what particulars the homesteader is in default, and if subsequently the statement is found to be incorrect in material particulars, the applicant will lose any prior right of re-entry should the land become vacant, or if entry has been granted it may be summarily cancelled.

Duties.—A settler is required to perform the conditions under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of a homesteader resides upon a farm in the vicinity of the land entered for by such homesteader the requirement as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirement may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTH-WEST MINING REGULATIONS.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—A free miner's certificate is granted upon payment in advance of $5 per annum for an individual, and from $50 to $100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500x1,500 feet.

The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1 per acre.

The patent provides for the payment of a royalty of 2½ per cent on the sales.

Placer mining claims generally are 100 feet square entry fee $5, renewable yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles. Rental $10 per annum for each mile of river leased. Royalty at the rate of 2½ per cent collected on the output after it exceeds $10,000.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.
