A PELVIC DISEASE

Of Which Peruna Cured Me In a Very Short Time

WAS SAPPING MY LIFE.

MRS. SOPHIA CALDWELL.

MRS. SOPHIA CALDWELL, 1122 McGavock St., Nashville, Tenn., writes:

"After doctoring for a year and finding no relief from leucorrhea resulting from prolapsus uteri, and which was sapping my life forces away, I finally tried Peruna, and when I found that it was helping me every day, it seemed almost too good to be true.

"But, it not only helped me, *it cured me and in a very short time.*

"I am now enjoying the best of health.

"I am strong and free from pain, and I certainly feel that all praise and honor are due to Peruna."

Thousands of women will read the testimonial of Mrs. Caldwell as above given.

Thousands of them will be induced to try the remedy that saved her.

Thousands of them will have the same experience she had.

Peruna is the remedy such women need. Peruna comes like a boon to suffering womankind.

Mrs. John Hopp, Webster Ave., Glendale, L. I., N. Y., has also been relieved of pelvic catarrh by Peruna.

Headache

Anson A. Gard, the distinguished writer, of Ottawa, says: "Zutoo tablets cure my headaches so quickly that I don't mind having them any more."

Mrs. (Dr.) Shurtleff, of Coaticook, says: "I have probably taken a thousand Zutoo tablets. They cure my headache quickly and leave no bad after effects."

These are samples of the good things said about Zutoo tablets, the statements of two from thousands, whose headaches are now

Rockefeller's Answer.

New York, Aug. 14.—The World, in a copyrighted article, says that John D. Rockefeller's answer to President Roosevelt's anti-trust litigation campaign is a prophecy of financial disaster that will sweep the country from end to end. The runaway policy of the present administration, said Mr. Rockefeller, toward great business combinations of all kinds can have only one result. It means disaster to the country, financial depression, and financial chaos.

The pickling and preserving season is now on. Buy your rings, corks, sealing wax, etc., at Hoag's.

THE CANAL DAMAGED

DON JUAN DE AUSTRIA DETAINED

Had to Pay a Bill of $150—Same Sum Will Be Required to Repair Minor Damages to the Vessel.

Windsor, Ont., Aug. 14.—It has just leaked out that the new gunboat Don Juan de Austria, which arrived at Detroit, Sunday morning, from the Atlantic coast, was tied up for several hours at Port Colborne, pending the payment of a bill of $150, for damages done to the Welland canal in passing through. The fine was finally paid and the boat proceeded on her way. It will cost the same sum to repair the boat in consequence of minor damage sustained in passing through the many locks of the canal.

ON TO NEW YORK.

The "Holy Jumpers" Prepare to Invade.

New York, Aug. 14.—New York city is threatened with an invasion of the "Holy Jumpers," despite the sad fate of the Dowie conquest which seemed to have been forgotten. There is a colony of the "jumpers" at a place which they call Zarepath, near Somerville, U. J., and "the Rev." C. W. Birdwell, who presides, says that he is going to bring his forces over to Brooklyn, just as he took them into Denver.

"Yes, we dance and make a big demonstration in the streets," said the leader. "I am aware that we are classed as fanatics, and derisively called holy jumpers, but we do not care what people say or think about us and keep right on our way. Our religious dance is neither that of a whirling dervish nor a society two-step, but it is the exultant hope of one inspired with due religious fervor."

Of course, the jumpers will seek converts. Every person who joins their society must turn over all of his earthly possessions and devote his life to their peculiar work. Birdwell said that he feared he'd have a hard time in New York, "because," he said, "we believe in the sacred bond of matrimony, but not in divorce."

CHASING INDIAN MURDERER.

Constables Set on Trail of Gun-a Noot.

Victoria, B. C., Aug. 14.—Simon Gunn-a-noot, the Indian who killed two white men near Haelton about twenty months ago because they offered violence to his klootch, is to be again hunted by the provincial police. Last winter Constables Munro and Wilkie, respectively of Vancouver and New Westminster, were dispatched north to bring Simon to justice, but they failed to run him down, though they scoured the country for several months.

Attorney-General Bowser has just issued instructions to Superintendent of Provincial Police Hussey to immediately organize three parties for the chase. It has been determined that the Indian must be captured. It is intended to place these parties under the direction of Constables Munro and Wilkie.

STEEPLE JACK KILLED.

By a Fall of Only Six Feet.

New York, Aug. 14.—After spending the greater part of his life in climbing tall steeples and flag poles, William Anderson, fifty-two years old, a steeple jack, was killed, yesterday, by a fall of six feet. He was employed to gild the ball on top of the flagpole on the Belmont hotel, Forty-Second street and Park Avenue. The pole rises from a small "deck house" on the roof of the building. Anderson climbed to the top of this "deck house," and losing his balance fell to the roof, a distance of six feet. He was picked up unconscious and died on the way to a hospital.

Isle Royale Yarn Taken Seriously.

Ottawa, Aug. 14.—The phantasy from Port Arthur, telling of the expedition of a few pleasure seekers to take Isle Royale from the United States and annex it to the British crown, has been taken seriously in some quarters. Hon. R. W. Scott has received a cable from Lord Elgin asking for an authoritative statement about the matter. It appears that a member of the British house has given notice of an enquiry regarding the truth of the cabled despatches.

Will Go To Washington.

Montreal, Aug. 14.—Rev. G. W. H. Troop, who has since May been in charge of St. Martin's church, of which his father, Rev. G. Osborne Troop is rector, will leave this city at the end of the month to go to Washington, D.C., where he has been appointed to the curacy of St. John's church.

The Wealthiest Novelist.

London, Aug. 14.—Hall Caine, it is believed, is the wealthiest novelist and playwright in the world. In theatrical royalties alone, he has received up to now $450,000 from England and America, and the huge sale of his novels must bring him in a much bigger income.

BAYONETS USED.

Two Men and One Woman Are Killed.

Belfast, Aug. 13.—During the rioting last night, a woman and two men were killed. A recurrence of the disturbance is expected to-night. Captured rioters are taken before the magistrates at the point of the bayonet.

Reinforcements are coming here. Some of the streets were strung with wire to entangle the cavalry and the gas mains were cut last night.

The conflict between the soldiers and the rioters took place in the vicinity of the constabular barracks in the Culling Tree Road. The trouble became acute about six o'clock, when a mob of men and women attacked a police inspector. Soldiers were at once summoned to the scene, but they were met by a hail of paving stones, which resulted in emptying some of the saddles. The riot act was read, but the maddened mob refused to disperse and kept up a terrific fusilade of stones, broken bottles and brickbats. Again the police and the militia charged. Bayonet and baton charges failed to rout the frenzied rioters, and ultimately the order to fire was given.

The number wounded from the rifle fire and in the bayonet charge and otherwise injured is very great and to-night the hospitals are overcrowded.

Rioting continued until midnight. The rioters stretched chains across the streets to impede the movement of troops, who charged the mob many times. Six volleys were fired into the mob, and official reports state that three were killed, six seriously wounded and hundreds slightly wounded.

STRIKE CONDITIONS.

New York, Aug. 14.—From the point of view of the employers of telegraph operators the strike situation last night was declared to be improving hourly and the officials of both the Western Union and the Postal companies announced themselves to be more than satisfied with the progress that had been made toward the restoration of wire communications throughout the country. "It is now not so much a question of restoring communications," declared one official, "as it is of re-establishing normal conditions."

The officials of the telegraphers' union, on the other hand, express confidence and satisfaction with the progress of the strike. They point to the cities in which a number of operators of both the big companies had left their keys, and predicted their example would influence other offices in which the men have been wavering to join the ranks of the strikers.

OPERATION UNDER ENGINE.

Amputated Leg in Order to Get Him Out.

New York, Aug. 14.—In plain view of two train loads of persons bound for the Empire City race track, yesterday, Dr. Case, of the Flower hospital, crawled under a locomotive attached to one of the trains, and amputated the leg of Thomas Riley, whose limb was crushed under the great driving wheels. Riley, who is track walker, was run down opposite Forty-sixth street. It was impossible to extricate Riley in time to give him any chance for his life, except by amputation, so Dr. Case, with a bag of instruments, crawled under the engine and performed the operation. His nerve prompted the spectators to cheer as Riley was taken away in an ambulance. At the hospital it was said Riley stood a good chance of recovery.

WAS WORTH $90,000.

Miser Cared For at Expense of Town.

Fresno, Cal., Aug. 14.—Although he asserts he is worth $90,000, W. H. O'Lynn, ninety years of age, fell unconscious from starvation and excessive heat at his shanty in this city, where he mended umbrellas for eight years. O'Lynn had lived alone and subsisted on coffee for some time. He would sit himself in front of his place of business. A doctor told O'Lynn he would have to go to the hospital, but O'Lynn retorted that he had $90,000 and refused at first to go to the institution. He finally became too weak for further opposition, and will be given medical attention at the expense of the county.

CATS TO FIGHT PLAGUE.

Taken to India to Exterminate Rats.

London, Aug. 14.—The Salvation Army is inaugurating at its colony at Muktipa, India, an anti-plague campaign with cats. Accepting the Indian plague commissions' dictum that the plague is spread by rats, the members of the army there are importing English cats to suppress the rodents. The first batch of twelve feline missionaries sailed on the steamer Kincraig Saturday in charge of a Salvation officer. If they escape nausea, they will have a good time aboard. A liberal store of canned sardines, herrings, condensed milk and other delicacies have been provided for them.

Legacy For McGill.

Montreal, Aug. 14.—McGill university has received a legacy of $1,000 from the estate of the late Hon. Alexander Morris, M.A., D.C.L.; to found an exhibition in the faculty of law, to be known as the "Alexander Morris Exhibition." The late Mr. Morris received the degree of B.A. from McGill university in 1849 and the degree of B.C.L. in 1850.

YOUNG SWEDE IN OSWEGO THINKS HE IS DOOMED

Friends Feared He Would Harm Himself and Asked For His Examination—Physicians Declare Him Insane.

Oswego, N.Y., Aug. 14.—Nursing the delusion that he is eternally doomed, John Ohmen, a Swede, twenty-five years old, is locked up here awaiting the arrival of officers from the state hospital for the insane at Ogdensburg, where he will be taken for treatment. Much pondering over the religious questions has so far unbalanced his mind that his friends were led to suspect that he entertained suicidal intentions.

Ohmen was adjudged insane by Drs. W. H. Kidder and A. W. Irwin. The necessary papers for his committment were signed yesterday. Ohmen is a resident in the First Ward. He has lived here about one year, coming from New York, where he is said to have left his mother. He has worked as a laborer in the city.

Recently he expressed himself in favor of ending his career by self-destruction. Fearing that he would do himself some harm his friends petitioned for his committment. His case is of a mild form.

ADVICE TO MOTOR BOATS.

The Harbormaster Should Enforce the Light Law.

There are many people who would be obliged to the owners of gasoline boats if they would keep them quiet during the band concerts in Macdonald Park. The continual puffing of some of these crafts is a decided nuisance when the band is playing, and owners should use a little common sense and keep them still. Again, the sooner a by-law is passed making it necessary for all gasoline boats to have mufflers the better. The noise the cheap, unmuffled ones make is a great nuisance. They could enter a noise competition at some specified time.

Further it might be mentioned for the benefit of small owners that the law requires every craft to carry a light. If Harbor Master McCammon were to take a trip out among the boats in front of Macdonald Park on a band night he could have quite a few police court cases. It would be well if he made an example of a few owners who put people in danger by running their boats about unlighted. He would be rendering the public a good service by such action.

LETTERS TO THE EDITOR.

John Gilbert is Out With a Large Club.

Kingston, Aug. 14.—(To the Editor): Whoever informed you that I was out fishing Monday and was prostrated with the heat and had to be brought home, must have had the nightmare. I was in my store Monday and helped to put up a large order to be shipped farther than any retail shipment that ever left Kingston as far as I know, viz., to Kobe, Japan. I will acknowledge that the day before I felt unable to go to church, having a severe headache, owing to the large trade we did, Saturday, so betook myself to Loughboro Lake to escape the heat of the city and have a chat with my uncle, and breathe the pure, sweet air of the lake. Yes, I had to be driven home by a good team of horses I own, for I didn't care to walk. I may, like all grocers, have financial cramps sometimes, but seldom ever get overcome with heat or cold.—J. GILBERT.

Two Disgraceful Meetings.

Hamilton, Aug. 13.—Last night the city council was turned into a bear garden, rules requiring dignity in debate being thrown to the winds. The mild and inoffensive city engineer, who has been baited for some time, turned on his critics, lashing them right and left. Alderman Dickson insinuated that Alderman Farrar was a "grafter," and the latter retaliated by saying that his colleague was a grit flopper who sold out his birthright to become chairman of the finance committee. Engineer Harrow was given permission to defend himself against attacks and the aldermen were shocked when he gave Alderman Farrar the lie.

St. John, N.B., Aug. 13.—When the city council met this morning to approve of the address to Earl Grey, occurred one of the most disgraceful exhibitions ever seen here. One after another of the aldermen censure Mayor Sears for engaging the opera house to present the civic address to his excellency. The meeting developed into a literal bear garden. Captain Newton, A.D.C., who was present, must have been highly edified.

Wife And Daughter Gone.

Kincardine, Ont., Aug. 14.—When James Shelton, a respectable granger of Armow, six miles from Kincardine, returned to his house, after being out in the fields only half an hour he found a note pinned to the table cloth: "We have gone for good." Shelton's wife and his daughter had left the house and farm, taking with them a couple of grips packed with clothes.

Appeals Liquor Cases.

Brockville, Ont., Aug. 14.—Attorney-General Foy has entered an appeal against the decision of Messrs. Mosher and Baker, J.P.s., of Merrickville, who, two weeks ago, dismissed charges laid by two government spotters against hotelkeepers Messrs. Thomas Warren and Robert Willis, of Kemptville.

Dead In English Tunnel.

Bradford, Eng., Aug. 14.—The body of Dr. Henry D. Gibbins, principal of the university at Lennoxville, Canada, was found, yesterday, in a tunnel of the Midland railroad. Dr. Gibbins was on a visit to his parents and it is supposed that he was sun over while walking on the railroad track.

JAPAN TO EUROPE.

Route Via Siberia Will Greatly Reduce Time.

Ottawa, Aug. 14.—It is current news says Alexander Maclean, the Canadian commercial agent in Japan, that negotiations for a through mail service from Japan to Europe via Siberia have been in progress for some time past, the Japanese postal authorities being most anxious to utilize the rapid means of communication to Europe. The agreement with Russia is now under discussion and the department hopes to reach a settlement at an early date. Arrangements with the other governments concerned are said to be already completed.

Got To Actual Work.

Cobalt, Aug. 14.—Prof. Miller's statement that "the mines have now got down to actual mining," about sums up the situation as it is at present.

Inquiry at the various mines brings out the fact that all are working steadily, and good progress is being made with the men now employed. But no sensational developments are reported, everything being in the line of effective work. Hence the declaration of Prof. Miller, who probably keeps in closer touch with the situation here than any man not actually engaged in the management of some of the local properties.

Capture Kangwha Island.

Seoul, Koren, Aug. 14.—After two days of hard fighting with Korean soldiers and the mob, Japanese troops succeeded, yesterday, in capturing Kangwha Island, at the mouth of the Han river. Kangwha is the site of the famous old forts and was held by a small garrison.

Golden Wedding Anniversary.

Dr. and Mrs. S. L. Nash, of Bath, Ont., on Thursday, celebrated their golden wedding at their home in that town. There was a large gathering of the family, relatives and friends, while telegrams of congratulations were received from many outside points, including New York, Winnipeg, Chicago, Pittsburg and Belleville. Among those present were: G. M. Nash, wife and son, Kingston; P. C. Nash, wife and two daughters, Trenton; T. M. Nash, wife and two sons, Wellington; Walter Nash, Toronto; Miss Mary Nash, Orillia; Miss Bertha Nash, Bath; Miss Pearl Nash, New York; Miss Ruby Nash, Wellington; Miss Alex. Allen (granddaughter), Chicago, besides other relatives and friends. Dr. Nash has now practised his profession for over forty-five years.

Fishing Is Good.

Thousand Island Park, N.Y., Aug. 13.—Not in years has fishing been so good at the islands as at present. Catches that may stand as the record for years are being daily brought in here. As an example, J. B. Segur and D. MacNeal, of Dallas, Texas, with Floyd Carter as oarsman, came in last night with twenty-three pickerel, the largest of which weighed eight and one-half pounds. Sixteen of the fish besides were thrown back by the party.

Willetsholme Waifs.

Willetsholmey Aug. 14.—E. Rea and family, of Toronto, are spending a week at D. Rea's. Mr. and Mrs. H. Wenborn spent Sunday at Dufferin. Miss Jessie Roberts, of Kingston, returned home after spending a week at H. Wenborn's.
