Dr. and Mrs. Frank Bermingham got an enthusiastic welcome home from New York, and the bride can see just how very popular her clever young husband must have been in the days of his life in Kingston by the gladness of old friends to get him back. A merry party, made up of Mr. and Mrs. Cornelius Bermingham, Mr. and Mrs. William Bermingham, Judge and Mrs. O'Reilly, the Hon. William Harty, Miss Kathleen and Mr. W. Harty, Dr. and Mrs. J. J. Harty, Mrs. Harry Lamb, Mrs. Henri Panet, Miss Edith Folger, Miss Mabel Brownfield, Miss Frances Sullivan, Miss Marion Redden, Miss Frances Campbell, Miss Loretta Swift, Mr. Robert Creighton, Mr. W. Kent, Mr. Karl Tandy, and Mr. James Swift, Jr., took the Rideau King at six o'clock, on Wednesday evening, for Clayton, on arrival there of the train from New York, with the happy pair on board, there was such a display of fireworks, calcium light, etc., as never was. The whole village was illuminated, and the vociferous welcome of the male members of receiving party rent the air. There was a jolly return journey to town and on arrival cabs and a van met the revellers, taking them to Mrs. Cornelius Bermingham's on Barrie street, where the servants were ready with more Greek fire out of doors, and a delicious supper within. It was early in the morning before the gay party broke up, after once more telling the doctor and his wife how very, very welcome they were. Mrs. T. C. H. Primrose, whom every one remembers still as Miss Cherry Steele, shared in all the eclat of the jollification, for she came home with Dr. and Mrs. Bermingham.

DO YOUR LOOKS QUITE SATISFY YOU?

Is your color fresh and rosy?
Does the glow of health shine out in your cheeks?
Do your eyes glisten with health, or are they dull, dark circled and tired?
Alas—your bloodless face indicates trouble. Your watery blood menaces your health. What you need is the toning, cleansing assistance of Dr. Hamilton's Pills. They will clean out the overplus of bile that makes your skin so murky,—they will put new life into the stomach, brace up digestion and make you eat sufficient food to get a blood supply ahead.
Good blood always means more strength and vigor,—that's why Dr. Hamilton's Pills are so successful in building up weak, thin folks.
You'll feel better at once, your looks will improve and that half dead, lazy feeling will depart, because Dr. Hamilton's Pills enliven and fortify every ailing organ in the body.
Ask your friends, your neighbors—most anyone can tell you of the enormous good done by Dr. Hamilton's Pills, but beware of any substitute.

FOR FIGHTING FIRES

A NEW DEVICE HAS BEEN PATENTED.

Elmer Fire Gas Valve Stops Spread of Flames and Saves Life and Property.

What is known as the Elmer fire gas valve, has been patented by J. Elmer, chief of the Kingston fire department. This new device is for the purpose of stopping the cause and spread of fire, and saves life and property.

Dust accumulates in attics, spaces between roofs of buildings, in churches, schools and elevators, and forms a powder which is a bad fire spreader, when touched off by an explosion of heated air. The relief for this is given by the Elmer valve, which provides for an emergent escape of air.

This new device stops the spread of fire, enables firemen or any person to stop a fire in a few seconds, prevents explosion of gases, prevents danger of suffocation, cleanses the air of poisonous gases, enables firemen to locate danger at once, saves property from being damaged by water, and saves cutting and damaging roofs. The device can be worked from the ground, even when buildings are twenty-five stories high, and can be placed so as to be worked by electricity, waterpower, air or heat.

The principle is to save time and get ahead of the fire. The number of fire calls for the past seven years in Kingston total 640; insurance carried, $2,500,000; loss, one-quarter per cent. All fires were fought on principles of machine.

In the case of a building on fire, the firemen ascend to the top and find the fire channel. The valve in the most direct line will have discharged the explosive or fire gas, thus preventing the spread of the fire as the current of air draws the flame and fire into itself, and thus the flame is centralized. Then all the firemen have to do is to follow down and cut out the fire, the first water having destroyed its force at seat of fire. The machine, by drawing off the gas, gives clear air and there is no chance of the fire getting away from the firemen.

He was born in Hallowell and had been a farmer till the last few years of his life, when he lived retired, with his wife, who survives him, at the family home on Catharine street. CHATS WITH ANARCHIST.

Easy to Be Brave in Uniform, Says King.

Paris, Aug. 24.—King Alfonso has accepted from the Patriotic League of French women a book containing over 100,000 signatures, commemorating the anarchist outrages at Madrid, which marred his majesty's wedding day.

One of the delegates who presented the volume warmly congratulated the king upon the courage he showed on that occasion.

"What French or Spanish officer would not have done the same?" replied his majesty, adding jocularly, "It is so easy to be brave when in uniform."

Accompanied by Queen Victoria, King Alfonso the other day entered a tobacconist's shop in San Sebastain and recognized in one of the customers an anarchist wrongfully accused in connection with the Madrid outrage.

His majesty chatted with the man, and then pinned in his coat a rose taken from a bunch which the queen was carrying.

Upset of Skiff Bereaves Family of Norman Green.

Madoc, Aug. 24.—Three children of Norman A. Green, agent for the Anglo-Canadian Iron company for North Hastings, were drowned at Gilmour, thirty miles north of here, Wednesday afternoon. Mr. Green had been summering at Wadsworth's Lake. It is believed that the children took their father's new skiff out into the water, where it capsized, some fifty feet from the shore. His son Roscoe, who had been rocking the baby to sleep, discovered the accident, when he saw the boat floating bottom-up. The body of the little girl Helen was recovered first, and soon after Burnett and Willie were found. Mr. Green has three other children.

The Ideal In The Soul.

In every soul God has placed an ideal. It is the picture or the image of what life ought to be. It is the outlining of the highest deed of which the soul is capable. It differs in every case, but whatever it may be, it is the chief religious duty of the soul to follow or fulfil it. It is this following and fulfilling that constitute religion in its essence. Let a man endeavor to realize his ideal in his life and action, and he is a religious man even though he deny the fact. In life's ideal is religious reality.
