Students' Good Work.

At the Lansdowne fair, held recently, a young man, a travelling agent for a Toronto piano factory, fell off a piano stood, and had his leg broken. Lorne Yule, a four-year student at Queen's, was on the scene, and set the broken limb, afterwards taking his patient to the village for further treatment.

RUGBY TEAM WORKING

QUEEN'S HAS SOME EXCELLENT RECRUITS.

Limestones and Westmounts Are Alone in the Eastern Senior Series of the O.R.F.U.—Will Arrange Their Own Games.

Queen's had an excellent workout at the campus yesterday. Norman Crothers and "Curly" Campbell were doing the coaching and certainly kept the boys at work every minute of the time. "Bill" Kennedy, the star inside wing man, was again in uniform, and is a great strength to the line-up. "Jack" Marshall, late of Ottawa College, was out on the half line and is certainly playing an excellent game. He is a good runner and is always sure of the ball.

"Ed." Elliott, of last year's collegiate team, is going to make one of the best inside wing men Queen's have had in some time. He was marking Kennedy, yesterday, just to learn a few tricks of the trade, which he certainly did. Elliott and Kennedy will make the best guards the college have had in some seasons. "Buck" Crawford, the sturdy full-back and quarter of Queen's '[illegible], returned to college yesterday. Vernon says he will not chase the pigskin this season, but it is hoped to see him out in the trenches before long, as he is certainly needed on the line-up.

The college had forty-six men in uniform, yesterday, many of them raw ones, who turned out for their first trimming. Some of them are showing up well and should catch on some of the teams.

Workout Of The Limestones.

Limestones had a fairly good workout at the cricket field, yesterday afternoon. A practice will be held at 7.15 o'clock this evening, when a full turnout is expected, as something of interest will be done.

Capt. Moxley, yesterday, received word from Secretary Hay, of the O.R.F.U., that the Ottawa Athletic Club had dropped out of the senior series. This will leave only Limestones and Westmounts in this group. The two teams will be left to arrange their own schedule, to either play home-and-home games, and in case of a tie play a sudden-death game in Brockville, or to play a double schedule. In whatever case, the locals will not agree to have points count, as it is better to count the games.

Richardson will coach the senior team, and in all probability play outside wing for them. Baker, of last year's Queen's line-up, will also be out, and Gleeson, another Queen's man, is showing excellent form. A huge bunch of young chaps have developed here lately, with loads of speed, and are sure tacklers. From present appearances Limestones will have as husky a wing line as any team in the series, if the boys will only settle down to work.

Golf At Napanee.

An interesting golf match was played, Wednesday afternoon, on the Napanee golf links, between a Kingston team and Napanee. The score was as follows:

Kingston—Prof. Macnaughton, 0; Prof. Campbell, 1; Prof. Watson, 0; W. T. Richardson, 0; Ian Macnaughton, 0—1.

Napanee—W. C. Smith, 3; J. W. Robinson, 2; W. A. Bellhouse, 3; Herbert Daly, 2; C. M. Warner, 2—12.

A Game Arranged.

The Wanderers will play Queen's tomorrow, on the latter's ground. Game called for 2.30 p.m. An interesting contest is expected.

Another Football Club.

A well-attended meeting of St. James' football club was held in the Sunday School hall, last evening. The election of officers for the coming season was left over till next Thursday evening. A committee was appointed to wait upon G. Y. Chown, and see if it is possible to let the team work out on the upper campus certain days in the week. Many of the old members were present at the meeting, and a good fast team will result.

Sporting Notes.

Ottawa Rough Rider and St. Patrick's Rugby Clubs have combined.

The proposed Swedish yacht for the America's cup race will be built by national subscription.

The Toronto Tecumsehs defeated the Vancouver Maple Leaf lacrosse team, 17 to 7, at the New Westminster fair.

The Shamrocks, of Toronto Junction, won the final match for the C. L.A. championship against Bracebridge by five games to three.

The baseball players in the Toronto-Columbus series received about $40 each after expenses were paid. The Torontos have disbanded, and most of the players have returned to their homes.

The Toronto 'Varsity players are practising this year on the assumption that the rules will be strictly enforced, that the wing lines must stand apart, and that there is to be interference in scrimmage.

McRobie, the old-time Brockville hockeyist, and last season with the Canadian Soo, of the International Professional League, expects to play this winter in St. Paul, Minn. Other Canadian exponents of the game are being mentioned from time to time in connection with the St. Paul team.

A glance at the averages for the past series shows Toronto to be a much superior team to Columbus. The Leafs had a team batting average of .364, while the Senators were more than a hundred points behind, with .252. In fielding each team had nine errors, but Toronto had more chances and the figures for the series are: Toronto, .952; Columbus, .949.

The appointment of William Foran as a Stanley cup trustee came as no great surprise to followers of sport in the capital, as Mr. Foran acted in the capacity of a trustee of the trophy during the absence of P. D. Ross in Europe. The newly-appointed trustee has been long prominently connected with sports in Ottawa, and is the "man behind the gun" in the Capital Lacrosse Club, having been secretary of that organization for a number of years. He was also president of the N. L. U. in 1906, and was head of the old Federal Hockey League.

D. Langford, of Renfrew, writes as follows: "Seeing by a report that young Scattergood, of Oshawa, has failed in his attempt to walk 128 miles in thirty-eight hours, from Oshawa to Port Hope to Toronto and return to Oshawa, I would like to say that I am confident I can make a new record for the distance. I will attempt to do so on the 22nd of October, if some one will accompany me on the journey. If Scattergood will try again to accomplish the undertaking, arrangements might be made so that we might walk together. If, however, he will not, I would be pleased to walk with any athlete, starting either from Toronto or Port Hope. I may say I have walked sixty miles in twelve hours, and feel confident I could make a new record."

A Mother Story.

Harper's Weekly.

The late Townsend Percy, speculator and promoter, who made and lost more than one fortune in the course of his life, used to be fond of repeating some of his mother's witticisms at his expense, generally brought about by his extravagances during his periods of prosperity. Once Percy had driven four-in-hand for a year, when an unfortunate "deal" made it necessary for him to reduce his expenditures and sell his horses, on which occasion she said to him:

"Townsend, don't you think that it would be better to drive one horse four years, instead of four horses one year?"

Another time when on the verge of financial crash, Percy still owned a considerable stable, and gave no outward sign of pecuniary embarrassment. His mother met an old friend of the family about this period, who congratulated her on her son's success in life. "I am glad that Townsend is doing so well," said the friend.

"Yes, indeed," remarked the old lady. "Townsend has six horses and seven carriages and eight dollars."

The conductors on the street cars should take a little more care in starting the closed cars. The men have the habit of pulling the bell the moment a passenger steps on the car, and in numerous cases the car has been started when women and old people are in the vestibule. The closed cars start with a jerk and the passengers are thrown backward. Yesterday an old man was thrown headlong on the floor of the car because it was started before he got inside.

Little Heart Of Pity.

Minnie Henderson, in Canadian Magazine.

Little heart, ah! foolish heart,
Little heart of pity;
You were sobbing till I came,
Then you hummed a ditty:
But I knew it just the same,
Little heart of pity.

Little heart, ah! foolish heart,
Little heart of pity;
Oft the world has trod you down,
Turning to the witty;
You might better be a clown,
Little heart of pity.

Silly little pity heart,
Pity! Pity! Pity!
Do you think they care for you,
Proud folks in the city?
Pity them—they hurt you too,
Silly little pity.

Tender little pity heart,
Now I see your pity;
Who is this with struggling life
Finding life so gritty?
Meet him at the city gate—
Now be tender your pity.

Sturdy little pity heart,
Tender little pity
He'll forget you and will go
Backward to the city
God will always love you though,
I, too, little pity.

Political Science.

Toronto Star.

For example, political science has lagged a long way behind physical science. Physical science gave us railways, political science has not yet shown us what ought to be the relation of the railways to the state. Physical science has enormously increased the productive power of labor, but political science and social science have not pointed out the way to adjust the relations of labor and capital. The discussion is clouded by passion and prejudice. A claim to the discovery of truth in political science is not examined calmly, as it would be in a laboratory, but is stamped as dangerous by one set of thinkers, and eagerly accepted as a panacea by another. Though our statute books groan with the weight of new laws, the accumulated mass of legislation does not always represent sure, orderly and scientific progress. In this respect there is a wide field of usefulness before our universities.

Political Vocabulary Gets a New Term.

New York Post.

A new term was added to the political vocabulary to-day, by "Little Tim" Sullivan. The Tammany aldermanic leader was discussing the recent fight made in the republican primaries in his district by J. G. B. Rinehart.

"The trouble with Rinehart," said "Little Tim," "is that he's a comelately."

Noting the puzzled look on the faces of his auditors, the alderman added: "A come-lately is one of these people who move into a district to run for an office or to get a job. Now, down in our district there are so many good men that are fit for all positions that people get sore at a come-lately."

Will Change Its Name.

On October 14th one of the stations on the Kingston & Pembroke railway, Bedford Station, will change its name, and in the future be known as Godfrey. The change has been made owing to the fact that there is a station on the C.P.R. in Quebec called Bedford, and as a result there has been much confusion. Commercial men and the travelling public should take special notice of the change. The post office at this station is known as Godfrey, and the people living there were of the opinion that if a change was made that the name of Godfrey should be chosen. And the railway company so decided.

THE PARAGRAPH PULPIT
Unitarian.
REV. C. W. CASSON, OTTAWA.

The Strong Man.

Strength is more than a matter of mind or of muscle. The strength that really makes strong is spiritual strength. It is the strength that comes by reason of the consciousness of God within the life. It grows from the feeling that God is ever with us, and that we are ever working in and for Him. Give a man this consciousness, and he is equal to everything. He is strong enough to resist every temptation and to perform every task. He becomes invincibly strong. No sorrow can shake his footing and no sin can blight his life. Such is the strength we would all seek to attain.
