The
Hollow Bones
of the arms and legs are tubes like a piece of gas pipe. The hollow centre is filled with soft red fatty material called marrow. This is the place where new red blood is made.
Scott's Emulsion
feeds bone marrow. The rich fat and the peculiar power in SCOTT'S EMULSION gives new vigor and new nourishment. That is why pale people improve on SCOTT'S EMULSION. It has the power to produce new red blood.

Word has been received of the death of John H. Moore, for a number of years postmaster at Cape Vincent, in Rome, Italy. Mr. Moore was travelling through the eastern continent. The remains were taken in charge by the United States consul, and will be sent back to Cape Vincent for interment.

County Council Meeting

The county council was called to meet Thursday afternoon at 4:30 o'clock to pass a by-law to provide for an overdraft in the bank. The usual by-law was passed early in the year to provide for bank loans, up to a certain amount. The Perth toll road purchase and the Loughboro Lake bridge construction got away with a large amount of money, and there was not enough to cover all expenditure, in view of the fact that some of the townships are much behind in paying over the county rates. The council evidently forgot to pass a by-law for the overdraft at their November meeting.

Got What He Wanted.

A rather amusing incident happened in a down town restaurant on Christmas night. The place was well-filled with young people, when a typical "hard guy" walked in. The waiter came to get his order and was surprised when the fellow said: "Oh, I don't want anything to eat, I just wanted to see if anybody wanted to fight." As it happened there was some one there that was feeling like going a few rounds, and what he did to the hard guy was a shame. If one goes out looking for fight he generally gets all he wants.

Escape Needless Disease

Rheumatism, neuralgia, locomotor ataxia, tumors and a variety of other diseases as well as a general debilitated condition of the system comes from impure or impoverished blood. Escape these ills and keep health up to the highest standard by using Wade's Iron Tonic Pills (Laxative). They fortify the system against disease. They are a great nerve strengthener and blood maker. In boxes, 25c., at Wade's Drug Store. Money back if not satisfactory.

A Lively Runaway.

Quite a spirited runaway took place, this morning. A black horse attached to a light sleigh and driven by two small lads, took fright on Princess street. The youngster held on gamely to the lines. At Clarence and Wellington streets corner the horse turned and threw both the boys out. One of them had the side of his face cut; the other escaped without injury. The horse was caught at the corner of Ontario and Clarence streets, by a cabman.

Getting Back To Work.

Wheeling, W.Va., Dec. 26. Sixteen mills of the Laughlin Tin Plate company, of Martin's Ferry, resumed work to-day, after an idleness of several weeks.

Buffalo, N.Y., Dec. 26.—Several thousand men who were laid off during the recent money tightness, will go back to work in and around Buffalo next week.

After Hockeyists.

George Lowe, who played with Queen's I last winter, will likely figure on the Parkdale senior O.H.A. team this winter. George is very fast and should make a good wing man for the Toronto seven. James Richardson, of last year's 14th team, may also play with the same team. The St. George's are also after him, and he has not decided yet which team he will play for.

REID IS LIBERATED.

Jake Sunfield Breaking Down Before Execution.

Hamilton, Ont., Dec. 26.—Now that the time for his execution is near at hand, Jake Sunfield, who, to-morrow, will pay the extreme penalty of the law for the murder of Andrew Radzyk, is beginning to show nervousness. He is very sullen, and refuses to talk to any person, but his spiritual adviser and relatives. He still protests his innocence. The authorities are beginning to fear that he may break down before the time set for the execution, between 7.30 and 8.15 to-morrow morning. Dr. Bruce Smith, the government inspector, is here, superintending the arrangements for the hanging, and he says only three local newspaper men and the jail authorities will be allowed into the jail yard to witness the execution. The death warrant has not yet arrived, nor has Radcliffe, the hangman.

The family of Mark B. Reid, the local G.T.R. engineer, who, three months ago, was sent to jail for nine months, for being responsible for a railway accident near Guelph, last summer, spent an unexpectedly merry Christmas. Ever since Reid was sentenced his friends had been hard at work trying to secure his release in time for him to spend Christmas with his family, but on Tuesday they gave up all hopes of getting him out of the Guelph jail before the first of the new year. Consequently they were much surprised when Reid arrived home about nine o'clock on Tuesday night. The official order for Reid's release reached the Guelph jail authorities early on Tuesday evening, and Reid was liberated to catch the evening train for Hamilton.

SHOT THE OLD MAN.

The Hired Man Used the Deadly Weapon.

Brampton, Ont., Dec. 26.—James Curry, an old farmer, eighty years of age, was shot and instantly killed by his hired man, who was known as "Jack," about ten o'clock, last night. Mr. Curry's son was alone with the hired man when he was threatened by the latter. The old man, hearing the row, came into the room in his night gown when the hired man turned the gun on to him and killed him. He then threatened the son, who grappled with him when the second barrel was discharged into the ceiling. The murderer was finally overpowered and the neighbors were notified. He is an Englishman, about twenty-seven years old, and has been at the Curry's a month. His name is unknown.

TEACHERS APPOINTED

By Board of Education to Collegiate Vacancies.

At a meeting of the Board of Education on Tuesday afternoon, these appointments were made to Collegiate Institute vacancies:

W. P. Hedley, St. Thomas, general assistant; John Saunders, Brantford, assistant in science, Robert Stoddard, Port Hope, assistant in history and Latin. Their duties begin on January 6th.

Mr. Saunders is a native of Kingston, and a Queen's honor graduate in botany and biology in the year 1900. He is said to be a most successful teacher. Mr. Stoddard is a graduate of Toronto University.

Twenty-Nine Now Working.

Fifteen more men went to work this morning on the stone quarry, under the direction of Canon Starr. Twenty-nine men are now at work, and are earning a dollar a day. The amount is small, but it is a God-send in this season of the year. The men are all contented, and doing good work.

The big corundum mill at Craigmont has been closed for four months and two hundred men thrown out of employment. The demand for corundum is limited, a $7,000 order from an American firm was cancelled. Other firms that had been in the habit of buying in seven or eight ton lots have cut their orders to half tons.

Daniel Drummond died at Carleton Place, on Monday, aged eighty-one years. Ten sons and daughters survive, one of whom is Rev. D. R. Drummond, of Hamilton.

CUSHENDALL BUDGET.

Presentations By Sunday and Public Schools.

Cushendall, Dec. 25.—Rev. F. W. Danby, the junior Methodist pastor, has been successful in all his Christmas examinations at Queen's. He is busy now making calls.

The children of the Methodist Sunday school had their annual social at the parsonage on Friday, the 13th, at the invitation of the superintendent, Mrs. (Rev.) R. Calvert. A very enjoyable programme of games of many kinds were indulged in. Rev. L. W. Dandy crowded everybody into the parlor and called in Mrs. Calvert to listen to a beautiful appreciative address, read by Joseph Gordon and from the hands of Miss Emma Frankling, to receive presents of a large and beautiful jardiniere and biscuit jar on behalf of her Bible class. Mrs. Calvert feelingly responded. Refreshments were served during the evening.

Miss Mabel Stewart, who recently graduated from St. Michael's hospital, Toronto, has been visiting for some time with her sister, Mrs. C. W. Trotter. Miss Bella Stewart, from Jones' Falls, is visiting her sister, Mrs. David Stratton. Miss Louisa Cook, who has been visiting at her sister's, in Watertown, N.Y., has returned home. Miss Jackson, the popular school teacher at the Pine Hill school has for some time been training her scholars for an entertainment given at the closing of the school. In the afternoon the parents and friends of the scholars came together to listen to a fine programme; the Rev. D. Jenkins gracefully presiding. At the conclusion of the programme, Miss Emma Hyland read an address, feelingly referring to the appreciation of the scholars and the section for Miss Jackson's work, and Miss Irene Martin presented her with a ring. Miss Jackson, in responding, spoke of the friendship formed and the pleasure she had had in her work in the section. Miss Jackson is to take up the senior class work in the Seeley's Bay school next year. Miss Sara Anglin, of the Pine Grove scoool, is to take charge of continuation class work in the school at Merrickville for 1908. A beautiful ring was presented to her by her scholars on the closing of the school for the holidays.

Centre York said: "Twenty-three; skidoo." to the tories who thought they had the constituency in their grip.

THE PARAGRAPH PULPIT

Theology And Religion.

There is as much difference between theology and religion as there is between geology and biology. Geology has to do with the fossilized forms which life created in the past; biology is the study of the life itself. Theology has to do with the various creed-forms which the religious life of the past assumed; religion has to do with the life itself, as it assumes new forms to-day. Of these two, religion is vastly the more important, and the more vital. The present fact is greater than the past form. Religion is something to feel, something to yield to, something to achieve with, something to be and to do.

DOCTORS ENDORSE HERPICIDE

Because Its Formula Is Submitted to Them.

Alexander McMillan, M.D., a prominent physician of Lansing, Michigan, writes: "On three cases I have tested Herpicide for dandruff and the result has been all that could be desired."

Herpicide is made upon an entirely new principle, that is, that dandruff and falling hair are caused from a microbe that infests the hair bulb, and, by destroying the microbe one's hair is bound to grow luxuriantly. Herpicide is the only hair remedy, that claims to, and really does, destroy the dandruff germs.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c. and $1. G. W. Mahood, special agent.

Remembered The Poor.

The young people of Queen Street Methodist church distributed forty well-filled baskets among the poor of the city on Christmas day. The young people wish to extend thanks to the wholesale grocers and bakers who made donations for the distribution.

A few Christmas drunks got into an argument on Ontario street last evening and mixed things up considerably. They certainly were funny looking sketches when they got through rolling in the mud.

The Trying Period for Girls Is From Fifteen to Eighteen Years.
The mental activity of school life and the terrible strain that must come in early womanhood taxes the vitality of the average maiden to the utmost. Many a young girl does not understand the physical changes she is undergoing. When the first signs of womanhood appear, everything depends on keeping health intact, so that in years to come chlorosis or consumption will not be developed.
Nothing so far discovered has such a beneficial effect as Ferrozone, which is a nutritive tonic and blood-builder of unusual power. Ferrozone is the best remedy, because it contains the exact qualities that are needed to build up those organs requiring assistance. Ferrozone repitalizes young girls, gives them spirit and energy, provides a surplus of vital power and nerve tone that sees them safely through the dangers of approaching womanhood.
Thousands of glad mothers tell of the vigorous health Ferrozone brought their daughters. Here is the experience of Mrs. W. E. Michael, a well-known resident of Richmond, Que.:
"I can strongly recommend Ferrozone as a good tonic for young ladies. My daughter has been taking Ferrozone for the past six months, and it has worked wonders for her. Before using Ferrozone she was anaemic and nervous and had no strength. But Ferrozone has built up her whole constitution and given her strength and vitality. Of all the tonics I ever knew I don't think one of them compares with Ferrozone. It certainly brings health and strength to young girls quickly."
Not only young girls, but women of all ages derive quick benefit from Ferrozone. It uplifts, braces, gives new health to all who test its enormous powers. Ferrozone is prepared in the form of a chocolate-coated tablet and sold only in 50c. boxes, or six boxes for $2.50, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.
