# Our Spring Waists

**Are Pretty, Becoming And Bewitching.**

More of daintiness, stylishness, prettiness and low priceness was never embodied in Waists. So many charming styles — so many fabrics are represented —so much of perplexing variety—so much of beauty and value. It would be difficult to choose from them if it were not that your choice will be right no matter what you choose.

Every Waist we show is of perfect style—that will be apparent on sight, but the number of styles we are showing is surprising. We scoured the market for Waists — viewed them al and selected only the best. Our assemblage is the cream of the season's Waist styles.

And in our quest for beauty, style and variety we never overlooked the important matter of price. We have attended to that too—you will avow that you never saw such Waist values.

### VASELINE NO GOOD FOR HAIR.

**Dandruff Germ Thrives In It, As Well As In All Grease.**

A well-known Chicago hair specialist invited the Inter-Ocean reporter come to his office and see, under a microscope, how the germ that causes dandruff thrives in vaseline. The specialist said that all hair preparations containing grease simply furnish food for the germs and help to propogate them. The only way to cure dandruff is to destroy the germs, and the only hair preparation that will do this is Newbro's Herpicide. "Destroy the cause, you remove the effect." Without dandruff no falling hair, no baldness. Ask for Herpicide. It is the only destroyer of the dandruff germ. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Two sizes, 50c. and $1. G. W. Mahood, special agent.

On May 3rd Mrs. H. C. Hagerman, Huntingdon, departed this life after an illness of several years' duration. Deceased, a daughter of the late John Robertson, for many years postmaster at Thomasburg, was born in January, 1850.

### HAD A NARROW ESCAPE.

**Two Boys in the Rapids at Kingston Mills.**

Two well-known city bank clerks had a very narrow escape from serious injury at Kingston Mills, on Sunday afternoon. The two boys, in company with four others, had paddled down to the mills in the morning. The water over the falls is very high this year, and a very stiff current runs down by the old mill out into the river again, below the locks. The boys tried to see how far they could paddle up against the current. One of the fellows succeeded in getting all the way up, and then the two boys tried it. They just got up under the bridge, when they were caught by an undercurrent and overturned. Both were thrown into the ice cold water, and had a stiff current to fight against. They succeeded in swimming ashore, but it was hard work to get there, swimming against the fast current. They were very fortunate that they were not carried on down in the water, or dashed against a stone. The canoe went away down below the locks before it was finally made captive by two soldiers who were down in a skiff.

# GAS HOUSE BURNED

## AND NAPANEE WAS WITHOUT LIGHT SUNDAY.

**Close's Mills Burned—A Meeting Held to Consider the Question of Electric Power For Napanee.**

Napanee, May 11.—About eleven o'clock Saturday night, an alarm of fire was rung in and a few minutes later the citizens discovered that the gas house at the foot of Robert street was on fire. The firemen quickly responded and soon had a stream of water on, but owing to the inflammable nature of the contents nothing could be done to check the fierce blaze. The building which was the property of Sir Richard Cartwright, was a total loss. A small insurance was upon the building.

On Friday night Close's Mills about four miles from Napanee were burned to the ground. The property was owned by Mr. Woodruff. The cause of the fire is unknown. A small insurance was carried.

Mrs. Bikley has sold her bakery and confectionery business to Arthur Cafon, who took charge a few days ago.

A. D. McRossie of New York, is here for a few days. A. McN. Downey, jailer, is quite ill.

The churches that used gas for lighting purposes were unable to hold services last evening, and had to call the worshippers an hour earlier than the appointed hour.

At a meeting of the ratepayers held in the council chamber on Saturday night, to consider matters of lighting the town and supplying electricity to run enterprises, W. C. Scott addressed the gathering, advising that the town secure energy for lighting and manufacturing purposes. A scheme was read by Dr. Ward, from the Hydro-Electric Power company, for supplying the town with 200 horse power, at $25 per horse power, and a lesser rate offered for a large horse power. The proposition is for Trenton, Belleville, Deseronto, Napanee and Kingston to enter into a compact to secure power from Trenton, where unlimited energy is obtainable, and could be procured. It was decided at the meeting to further investigate the proposition and confer with individuals and manufacturers as to the probable horse power required, and also to hold out inducements to outside manufacturers to come to Napanee. It was also said that the Bay of Quinte contemplated the electrification of its system between Napanee and Deseronto. W. C. Scott said that in his travels he had not met with a town that could offer such inducements to manufacturers as Napanee, and all that was required was a little boosting to make this one of the best manufacturing and residential towns in Ontario. Napanee has a water privilege which with a little expenditure could be made second to none in Canada.

### AN INDEPENDENT OPINION.

**Standing By Parties in Quebec—Stronger Opposition Desired.**

Montreal Star.

In both Ontario and Quebec, an unconcerned outsider would probably advise the strengthening of the oppositions. Both governments have too large majorities. In this province the opposition practically committed suicide at the last elections in a moment of pique, with the result that the legislature has not represented anything approaching the mind of the people for a whole term. Indeed, so strong were the liberals that they had to get up an opposition amongst themselves in order to keep things interesting, and they even carried the "sham fight" out in so realistic a manner as to give us a change of government.

Thus, if the conservatives put candidates in the field at all, this time, they cannot very well escape making some "gains." And it is in the public interest that they should. There ought to be in every deliberative assembly an opposition strong enough in numbers, in vigor and in talent to call the policy of the government seriously in question. Our system of government depends upon a virile opposition quite as much as upon a trusty government; and we have been suffering during the last few years from feeble and ineffective oppositions at Quebec, Toronto and Ottawa. If the liberals were to make gains in Ontario and the conservatives were to make gains in Quebec on June 8th next, the people would be the gainers in both provinces.

Premier Gouin's record has been a progressive one. He has given this province good government in many directions, and has shown a commendable desire to meet the public needs in such vital matters as education, good roads, usury legislation and the like. When it comes to the proper safeguarding of the public domain, we could wish for a more patriotic policy than his party has given. His government, like its conservative predecessors, has come in for not a little criticism in this regard, and there is a growing feeling amongst us that no group of politicians has yet realized the immense value of our natural resources or the imperative need of protecting them from spoliation, exploitation and destruction. Our timber alone, we are told, would furnish the provincial revenues, without our having to resort to any other form of taxation, and yet we are giving these magnificent "limits" away for a song. In opposition, Mr. Leblanc has had a thankless task. His following was so insignificant as to rob his criticisms of much of their legitimate force.

When politics get down to the nickel theatres, lining them as grit or tory, it is time to again call attention to low conditions. But the party which puts politics into everything has been well punished for it. The generous spirit pays.

# COUPLE OF ACCIDENTS

## TO MEN IN THE TOWN OF GANANOQUE.

**One Struck in Eye With Piece of Steel—Another Had Rod Driven Through Thumb—Death of C. McDonald.**

Gananoque, May 11.—James Reid, Charles street, met with a peculiar accident on Friday last. While engaged in cleaning a gun barrel the rod used for the purpose got stuck, and after making several futile attempts to loosen it Mr. Reid took the rod in both hands and struck the breech of the gun against the anvil in his blacksmith shop, but instead of loosening the rod the force of the blow drove the rod through the thumb of his left hand and into the fleshy part of his right. Dr. J. P. Sinclair dressed the wounds and the unfortunate man is doing nicely.

David Bain, Pine street, foreman in the works of the Gananoque Spring and Axle company here, met with a severe accident the latter part of the week, being struck in the eye with a large piece of steel.

The death occurred at an early hour Sunday morning at the family residence, Water street, of Charles McDonald, aged sixty-one years, well and favorably known throughout this section as "Hickory" McDonald. He has resided hereabouts for many years. For some time past he has been in very feeble health. He leaves a wife and several children, among them W. J. McDonald, barber, King street.

During the past week W. J. Gibson, King street west, disposed of his fast motor boat, the I'll See, built by Capt. Wessel, of this town, to Inspector Phillips, of Kingston, who will use her about his duties on the river.

Rev. Joseph C. Connell preached educational sermons on the Pittsburg circuit yesterday, his duties here being performed by Rev. Mr. Denbigh.

A very commendable action on the part of the town council during the past week was that of notifying the heirs of the estate of the late Joel Parmenter to attend to the necessary improvements on that property, the barns and fences of the same located on King street having fallen into a condition of great delapidation.

Considerable repairs have been done to Charles Macdonald's residence, "Blinkbonnie," and grounds, during the past few weeks. The round tower has also been repaired and looks as good as new.

Douglas Pound, Kingston, spent yesterday with friends in town. J. M. Walker, Sydenham street, is spending a short time in Perth. Mrs. Elbert Cole, King street, spent the week end with friends in Watertown, N.Y. Harold Johnston, King street, has gone to Cobalt to locate for the summer. Prof. Tournier, of Ottawa, was in town a short time during the week looking after necessary repairs to his island property in this vicinity.

**REV. C. W. CASSON.**

**The Parasite's Prayer.**

Have you ever realized that many a prayer is nothing but pure parasitism? It is an appeal to God for an unearned and undeserved blessing. It is a selfish petition for profit. It is the endeavor to turn one's piety to account by exploiting the universe through the favor of God. It must be apparent to all that such a prayer is but a waste of breath. Many a man who is on his knees asking God for a blessing would be more profitably employed, and more likely to get it, if he were going about his daily business, putting heart into his work and love into his deed. Up parasite!
